Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in the Personnel Action Records System of the United States Customs Service are as follows: (a) Disclosure to those officers and employees of the Customs Service, the Department of the Treasury, the Civil Service Commission, and the Department of Justice who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation, or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter; (f) Information contained in these files is routinely used by the attorneys in the Regional Counsel's office in determining and resolving legal issues related to the personnel action involved, in preparing for, and representing management in, administrative hearings and administrative appeals, and providing information and assistance to U.S. Attorneys and the Department of Justice in litigation. Potential litigation or litigation will require disclosure of the information to the Department of Justice, and this information is often channeled through the Department of the Treasury.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Each case file is inserted in a file folder which is filed in a lockable drawer within a metal filing cabinet container.

Retrievability: Each case file is identified in a manual alphabetical card file by the name of the person who initiated the action against the Customs Service, or against whom it was initiated. In addition, each case file is similarly identified on the file folder with the alphabetical name on the file which is placed and located within the metal container.

Safeguards: The metal filing drawer containing the files described above is maintained within the area assigned to the office of the Regional Counsel, Region IX at 55 E. Monroe Street, Chicago, Illinois. During non-working hours, the room in which the metal filing drawer is located is locked, the file container itself is locked, and access to the building is controlled at all times by uniformed guards with a check-in system for employees. Only employees of the Regional Counsel's office and authorized building personnel have keys to the building.

Retention and disposal: These files are retained indefinitely or until there is no longer space available for them within the metal filing cabinet at which time the oldest files are transferred to the storage area within the confines of the office. The storage area is a large area containing cardboard boxes and metal storage cabinets which are not able to be locked. Files which are closed and not retained for precedent purposes are retired to the Federal Records Center, General Service Administration, 7358 S. Pulaski, Chicago, Illinois 60602 in accordance with the U.S. Customs Service Record Disposal Manual.

System manager(s) and address: Regional Counsel of Customs, Room 1417, United States Customs Service, 55 E. Monroe Street, Chicago, Illinois 60603.

Notification procedure: Requests by an individual to be notified if the system of records contains records pertaining to him shall be in writing and directed to the Regional Commissioner of the region in which the records are located (see Customs Appendix A), or to the Director, Entry Procedures and Penalties Division, Office of Regulations and Rulings, U.S. Customs Service Headquarters, 1301 Constitution Avenue, N.W., Washington, D.C. 20229. The requester will be notified in writing of the procedures to be followed. Where the request is presented in person, the requester shall present adequate identification to establish his identity, and a comparison of his signature and those in the records may be made where the records contain the necessary signature.

If an individual can provide no suitable documents for identification, he may be required to make a signed statement asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars.

Where the request is not presented in person, it shall be accompanied by a notarized statement executed by the requester asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars. A comparison of his signature and those in the records may be made where the records contain the necessary signature.

Record source categories: The information contained in these files originates with the initiation of any personnel action either by or against an employee. The information submitted by the employee is in the file as will be the information submitted by the employer if the action is initiated by the employer. Further information in this file is derived from both employee and employer information of an investigation made by the Office of Internal Affairs, investigation reports by the Office of Investigations, memoranda from the Civil Service Commission and possibly other agencies having employed the individual. Information could also be obtained form Customs employees, former Customs employees, private parties, corporations, confidential informers, credit bureaus, foreign countries or officials thereof, foreign citizens and any other source with information pertinent to the Personnel Action.

Treasury/Customs 00.206

System name: Regulatory Audits of Customhouse Brokers—Treasury/Customs.

System location: Division of Regulatory Audit, Room 2114, United States Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229, and at each of the nine regional offices of Regulatory Audit (see Customs Appendix A for addresses).

Categories of individuals covered by the system: Persons licensed to conduct customhouse brokerage business pursuant to 19 U.S.C. 1641.

Categories of records in the system: Audit reports of customhouse broker accounts and records; correspondence regarding such reports; Congressional inquiries concerning customhouse broker and disposition made of such inquiries; names of officers of customhouse brokerage firms, license numbers and dates issued and district covered.

Authority for maintenance of the system: 19 U.S.C. 1641; 19 CFR Part III. 5 U.S.C. 301; Reorganization Plan No. 1 of 1950; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in this system of records are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in the administration of the Freedom of Information Act (5 U.S.C. 552). (c) The information may be furnished to other government agencies which may have an interest in the broker. (d) Copies of broker audit reports will be retained in the office that performed the audit and at the headquarter's office. These reports will serve as a permanent file providing such essential information as the names and broker license number of company officers and other licensed employees. The reports will create a historical record of broker performance. The headquarter's file will also provide a means of evaluating the effectiveness of audits conducted by the regional audit staffs.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Each customhouse broker file is inserted in alphabetical order by name of the firm in one of nine regional file folders which are filed in an unlocked drawer within a metal file cabinet. Duplicate copies are maintained at Customs Service Headquarters.

Retrievability: Each broker file is identified on alphabetical file locator cards which contain the name and address of the broker, the region and district in which he operates, and the number of the file drawer. In addition each regional office maintains their own alphabetical file, containing the above information, for broker activities within their region.

Safeguards: The files described above are maintained within the area assigned to the Regulatory Audit Division within the Customs Service Building. During non-working hours, the room in which the files are located is locked, and access to the building is controlled at all times by uniformed guards.

Retention and disposal: Customhouse broker files are retained indefinitely, or until there is no longer any space available for them at which time the oldest files are destroyed by burning or shredding.

System manager(s) and address: Director, Regulatory Audit Division, United States Customs Service Headquarters, 1301 Constitution Avenue, NW., Washington, D.C. 20229. Regional Director, Regulatory Audit Division at each of the nine regional offices (see Customs Appendix A for addresses).

Notification procedure: Requests by an individual to be notified if the system of records contains records pertaining to him shall be in writing and directed to the Director, Entry Procedures and Penalties Division, Office of Regulations and Rulings, U.S. Customs Service Headquarters, 1301 Constitution Avenue, N.W., Washington, D.C. 20229. The requester will be notified in writing of the procedures to be followed. Where the request is presented in person, the requester shall present adequate identification to establish his identity, and a comparison of his signature and those in the records may be made where the records contain the necessary signature.

If an individual can provide no suitable documents for identification, he may be required to make a signed statement asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars.

Where the request is not presented in person, it shall be accompanied by a notarized statement executed by the requester asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars. A comparison of his signatue and those in the records may be made where the records contain the necessary signature.

Record source categories: The information contained in these files originates from audits conducted by the regional Regulatory Audit staff, of customhouse brokers' businesses. The audits may be supplemented with information furnished by the Office of the Chief Counsel, Office of Investigations, and the Office of Regulations and Rulings. These audits include examinations of broker's business records, including all financial books of accounts, check books, and financial statements. In the event that the broker is engaged in various business enterprises such as freight forwarding and insurance, and these financial records are commingled with those financial records relating to the brokerage business, it would be necessary to examine the other business records to complete the audit.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (j) and/or (k) has proposed to exempt this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is proposed to be exempted and the justification for the exemption is contained in a general notice which appears elsewhere in the Federal Register.

The requester will be notified in writing of the procedures to be followed. Where the request is presented in person, the requester shall present adequate identification to establish his identity, and a comparison of his signature and those in the records may be made where the records contain the necessary signature.

If an individual can provide no suitable documents for identification, he may be required to make a signed statement asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars.

Where the request is not presented in person, it shall be accompanied by a notarized statement executed by the requester asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars. A comparison of his signature and those in the records may be made where the records contain the necessary signature.

Record source categories: The information contained in these files originates with a Standard Form 95, Claim for Damage or Injury, which is completed and filed with the Customs Service by the claimant. Using these forms as a basis, investigations are conducted by authorized Customs Service investigative personnel in order to determine the facts surrounding the claims. During these investigations information may be elicited from Customs Service employees, private persons, or any other parties who may have information regarding the facts surrounding the claims.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (j) and/or (k) has proposed to exempt this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is proposed to be exempted and the justification for the exemption is contained in a general notice which appears elsewhere in the Federal Register.

Treasury/Customs 00.236

System name: Tort Claim Records System—Treasury/Customs.

System location: Office of the Regional Counsel, U.S. Customs Service, Region IX, 55 E. Monroe Street, Room 1417, Chicago, Illinois 60603.

Categories of individuals covered by the system: Claimants under the Federal Tort Claim Act.

Categories of records in the system: Tort Claim, Standard Form 95 (claim for damage or injury) containing name, address, marital status, personal injury and property damage information, and insurance information; also correspondence, accident reports and investigatory records regarding the alleged damage or injury and possible medical information.

Authority for maintenance of the system: 28 U.S.C. 2671 et seq.; 5 U.S.C. 301; Reorganization Plan No. 1 of 1950; Treasury Department Order No. 165, Revised, as amended.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The routine uses of the records contained in the Tort Claim Records System of the United States Customs Service are as follows: (a) Disclosure to those officers and employees of the Customs Service and the Department of the Treasury who have a need for the records in the performance of their duties; (b) Disclosures required in administration of the Freedom of Information Act (5 U.S.C. 552); (c) In the event that this system of records includes information which indicates a violation or potential violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule, or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, state, local, or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation, or order issued pursuant thereto; (d) A record from this system of records may be disclosed as a "routine use" to a Federal, state, or local agency maintaining civil, criminal, or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant, or other benefit; (e) A record from this system of records may be disclosed to a Federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter; (f) Information contained in these files is routinely used by the attorneys in the Regional Counsel's office in determining and resolving legal issues, in recommending approval, denial, compromise or settlement of the claim, and possibly in litigation. Litigation will require disclosure of the information to the Department of Justice, and the information is often channeled through the Department of the Treasury.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Each case file is inserted in a file folder which is filed in a lockable drawer within a metal filing cabinet container.

Retrievability: Each case file is identified in a manual alphabetical card file by the name of the person who initiated the tort claim against the Customs Service, and officer or employee thereof. In addition, each case file is similarly identified on the file folder with the alphabetical name on the file which is placed and located within the metal container.

Safeguards: The metal filing drawer containing the files described above is maintained within the area assigned to the Office of the Regional Counsel of Customs, Region IX at 55 E. Monroe Street, Chicago, Illinois. During non-working hours, the room in which the metal filing drawer is located is locked, the file container itself is locked, and access to the building is controlled at all times by uniformed guards with a check-in system for employees. Only employees of the Regional Counsel's office and authorized building personnel have keys to the building.

Retention and disposal: These files are retained indefinitely or until there is no longer space available for them within the metal filing cabinet at which time the oldest files are transferred to the storage area within the confines of the office. The storage area is a large area containing cardboard boxes and metal storage cabinets which are not able to be locked. Files which are closed and not retained for precedent purposes are retired to the Federal Records Center, General Service Administration, 7358 S. Pulaski, Chicago, Illinois 60602 in accordance with the U.S. Customs Service Records Disposal Manual.

System manager(s) and address: Regional Counsel of Customs, Room 1417, United States Customs Service, 55 E. Monroe Street, Chicago, Illinois 60603.

Notification procedure: Requests by an individual to be notified if the system of records contains records pertaining to him shall be in writing and directed to the Regional Counsel, Region IX, Room 1417, 55 E. Monroe Street, Chicago, Illinois 60603. The requester will be notified in writing of the procedures to be followed. Where the request is presented in person, the requester shall present adequate identification to establish his identity, and a comparison of his signature and those in the records may be made where the records contain the necessary signature.

If an individual can provide no suitable documents for identification, he may be required to make a signed statement asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars.

Where the request is not presented in person, it shall be accompanied by a notarized statement executed by the requester asserting identity and stipulating that he understands that knowingly or willfully seeking or obtaining access to records about another person under false pretenses is punishable by a fine up to 5,000 dollars. A comparison of his signature and those in the records may be made where the records contain the necessary signature.

Record source categories: The information contained in these files originates with the receipt of any correspondence indicating an alleged claim for damage or injury resulting from the conduct of the Government, U.S. Customs Service or an employee or officer of the U.S. Customs Service in Region IX. Further information in this file is derived from later correspondence from the individual, Standard Form 95 (Claim for Damage or Injury) filed by the claimant, other information submitted by the claimant, information submitted by Customs employee and/or his supervisors, and an investigation made by the Office of Internal Affairs or the Office of Investigations regarding the alleged claim or injury, as applicable. Information in these reports can be made from private parties, (witnesses), businesses, medical professionals, hospitals and other medical institutions.

Systems exempted from certain provisions of the act: The Commissioner of Customs pursuant to 5 U.S.C. 552a (j) and/or (k) has proposed to exempt this system of records from certain requirements of 5 U.S.C. 552a. The provisions of 5 U.S.C. 552a from which this system of records is proposed to be exempted and the justification for the exemption is contained in a general notice which appears elsewhere in the Federal Register.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The purpose of this system is to determine suitability, eligibility or qualifications of individuals who are engaged or propose to engage in activities regulated by ATF; achieve compliance with laws under ATF's jurisdiction; assure full collection of revenue due from legal industries; eliminate commercial bribery, consumer deception and other improper trade practices in the distilled spirits, beer and wine industries; interact with Federal, state and local governmental agencies in the resolution of problems relating to industrial development, revenue protection, public health, ecology, and other areas of joint jurisdictional concern. When required or authorized by statute, regulation, or Executive Order, information in the record system is made available to members of the public or employees of other government agencies.

In the event that a record in this system indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, these records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

A record in this system of records may be disclosed as a "routine use" to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the issuance of a license, grant or other benefit.

A record in this system of records may be disclosed to a federal agency, in responses to its request, in connection with the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.When an ATF criminal investigation results in compilation of information contained in this system of records, the information shall be transferred to the Treasury ATF—Criminal Investigation Report System and shall become part of that system for all purposes of the Privacy Act of 1974. A record in this system may be disclosed as a routine use to: Officers and employees of the Department of the Treasury who have a need for the record in the performance of their duties; Federal, State or local regulatory or law enforcement agencies in the performance of their duties on a need to know basis; Members of the public, employees of other Governmental agencies, or members of the news media (on a case by case basis where determination that such disclosure would be in accordance with guidelines set forth under 28 C.F.R. Part 50.2; 5 U.S.C. 552 and 552a, and would not compromise enforcement of laws administered by Bureau of Alcohol, Tobacco and Firearms). For additional routine uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Active records stored in file folders in filing cabinets; card forms in card filing cabinets; and on magnetic tapes or microfiche at IRS Service Centers, ATF Headquarters, or Department of the Treasury.

Retrievability: Records are retrievable by name, permit or license number, or by document locator number.

Safeguards: Direct access restricted to personnel in Department of Treasury in the performance of their duty. Transmitted to routine users on a need to know basis and others upon verification of the substance and propriety of the request. Stored in file cabinets in rooms locked during non—duty hours. Wagering records are maintained in safes or file cabinets which are locked at all times.

Retention and disposal: Records are retained in accordance with General Services Administration General Records Schedules numbers 1 through 20 and Bureau of Alcohol, Tobacco and Firearms Records Control Schedules numbers 101 and 201 and disposed of by shredding, burning or by degaussing.

Authority for maintenance of the system: Title 5 USC; Federal Personnel Manual; Executive Order 11478.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Within the Department of the Treasury, the aforementioned records are routinely used to determine the suitability of an applicant for employment; to verify an employee's orientation processing; to supplement official personnel records for clarification of personnel actions; to authorize deductions of state and/or local or District of Columbia taxes from an employee's salary for payroll functions; to provide information for determining the eligibility and suitability of an employee for promotion or award; to appraise an employee's performance following hiring or promotion; to judge the necessity for disciplinary action and to make record of the same; to inform an employee of his present leave and retirement benefits status; to make record of all correspondence exchanged between an employee and the Division of Personnel for reference purposes; to locate an employee in an emergency situation if the employee's permission was granted; to issue building passes and make record thereof; to record work-related injuries and illnesses and to process compensation therefor; to perform security investigations and to provide security clearance for attorneys and certain other employees in order to protect security information; to furnish Internal Revenue Service, Secret Service, and other Federal agencies with information in the course of their investigations; to document grievances or complaints of discrimination for purposes of hearing and passing decision on a case; to furnish management with information necessary for the hearing and resolution of administrative grievances; to record, analyze and approve travel expenditures; to furnish data needed by the Division of Budget and Accounts in the performance of its duties relating to the estimating and accounting for budget expenditures, maintaining records, providing payroll data to the Fiscal Service Payroll Facility, Bureau of Government Financial Operations, to the individual employee, and to supervisors who have need of such information in the performance of their duties; to maintain records of correspondence for reference and precedence purposes; to provide Federal income tax filing information on employees, GS grade 12 and above, for the purpose of tax checks; to process and document merit promotion actions; and to conduct turnover studies.

Routine users of records within the Department are the Division of Personnel; the Division of Budget and Accounts; the Division of Management Services; the EEO Officers; Internal Revenue Service; Secret Service; and all other employees who have need of such information in the performance of their authorized duties.

Outside the Department of the Treasury, qualified information is routinely used to furnish other Federal Agencies with pre-employment information for hiring purposes; to verify debt complaints and employment data upon request by creditors; to respond to requests for information by Federal investigative agencies for the purpose of security or criminal investigation, and civil or criminal judicial proceedings; to provide data to the Civil Service Commission and other Federal agencies upon authorized requests; to supply data necessary for employee compensation; to provide union representatives and arbitrators, when applicable, with data needed in the performance of their duties and which is authorized for disclosure under the terms of the Union-Bureau contract; to disclose to Members of Congress who inquire on behalf of constituents; to disclose to next-of-kin, voluntary guardian and other representative or successor in interest of a deceased or incapacitated employee or former employee.

Routine users outside the Department are other Federal Agency Personnel Offices; the Civil Service Commission; U.S. Department of Labor, Office of Employees Compensation; State unemployment offices; union representatives and arbitrators, as qualified in the routine use; creditors; Federal agencies; Members of Congress and next-of-kin; voluntary guardian and other representative or successor in interest.

For Additional Routine Uses, see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Electronic media, paper and microfilm.

Retrievability: By name, and in some cases social security number.

Safeguards: Information is contained in secure buildings, Federal Records Centers, or in areas which are occupied by officers and responsible employees of the Bureau who are subject to the Bureau's personnel screening procedures and the Treasury Department Code of Conduct. Information stored in electronic media is safeguarded by automatic data processing security procedures in addition to physical security measures.

Retention and disposal: Records are maintained in accordance with GSA and CSC retention schedules. All records are destroyed by incineration, maceration or shredding. Records in electronic media are electronically erased using accepted techniques.

System manager(s) and address: For Administrative records: Commissioner of the Public Debt, 15th and New York Avenue, N.W., Washington, D.C. 20226. For Personnel records: Director of Personnel, Bureau of the Public Debt, 13th and C Streets, S.W., Washington, D.C. 20226.

Notification procedure: Address Administrative inquiries and initial requests for correction of records to: Privacy Act Request, Commissioner of the Public Debt, 15th and New York Avenue, N.W., Washington, D.C. 20226, (202) 964-2427. Address Personnel inquiries and initial requests for correction of records to: Privacy Act Request, Director of Personnel, Bureau of the Public Debt, 13th and C Streets, S.W., Washington, D.C. 20226, (202) 964-7717; or Privacy Act Request, Personnel Officer, Savings Bond Operations Office, Bureau of the Public Debt, 200 Third Street, Parkersburg, West Virginia 26101, (304) 422-8551.

Record access procedures: Individuals who wish to request access to records relating to them or who wish to request correction of records they believe to be in error should submit such requests pursuant to the procedures set out below in compliance with the applicable regulations (31 CFR Part 1, Subpart C Sections 1.7 & 1.8; 31 CFR Part 323). Requests which do not comply fully with these procedures may result in noncompliance with the request but will be answered to the extent possible.

Requests for access to records: (1) All requests for access to records should be in writing, signed by the individual concerned, and, in order for the Privacy Act procedures to apply, clearly indicate that the request is made pursuant to the Privacy Act of 1974. The Bureau reserves the right to require additional verification of an individual's identity in certain cases. (2) The request must specify the Bureau system of records within which the desired records are located as well as the categories of records within the system. These categories are set out in the applicable system of records description. (3) Requests for records concerning a deceased or incapacitated individual should be accompanied by either evidence of the requester's appointment as legal representative of the individual or his estate or by a statement attesting that no such representative has been appointed and giving the nature of the relationship between the requester and the individual.

Requests for correction of records: (1) All requests by an individual for correction of records relating to him should be in writing, be signed by him, and, in order for the Privacy Act procedures to apply, state that the request is made pursuant to the Privacy Act of 1974. (2) The request for correction should specify: (a) the dates of the prior correspondence had with the Bureau concerning the records in question, (b) the specific records alleged to be incorrect, (c) the correction requested, and (d) the reasons therefor as well as any available evidence in support of the request.

Appeals from an initial denial of a request for correction of records: (1) All appeals from an initial denial of a request for correction of records must be in writing, be signed by the individual involved, and, in order for the Privacy Act procedures to apply, state that it is made pursuant to the Privacy Act of 1974. (2) All appeals must, to be handled under the Privacy Act procedures, be delivered to the address set forth for submission of appeals within 35 days of the individual's receipt of the initial denial of the requested correction. (3) All appeals must specify: (a) the records to which the appeal relates, (b) the date of the initial request made for correction of the records, and (c) the date that initial denial of the request for correction was received. (4) All appeals must also specify the reasons for the requester's disagreement with the initial denial of correction and should furnish any applicable evidence available in support of his appeal.

Contesting record procedures: See notification and access.

Record source categories: Information on records in the system is furnished by the individuals, by creditors, by supervisors, medical personnel, other employees, or as the result of security investigations.

Categories of individuals covered by the system: Present and former owners or first-named coowners of, claimants to, persons entitled to, and inquirers concerning United States savings-type securities and interest thereon—including but not limited to United States Savings Bonds, Savings Notes, Retirement Plan Bonds, and Individual Retirement Bonds. In addition, second-named coowners of Series G savings bonds.

Categories of records in the system: (1) Issuance: Records relating to registration, registers of issuance of securities and records of correspondence in connection with issuance of savings-type securities. (2) Holdings: Records documenting ownership, status, payments by date and account numbers, including inscription information; interest activity; correspondence in connection with notice of change of name and address, non-receipt of interest and over- and under-payments of interest; numerical registers of ownership. Such records include information relating to savings-type securities held in safekeeping in conjunction with the Department's program to deliver such securities to the owners or persons entitled. (3) Transactions (redemptions, payments and reissues): Records which include securities transaction requests; interest activity; legal papers supporting transactions, applications for disposition or payment of securities and/or interest thereon of deceased or incapacitated owners; records of retired securities; check payment records. (4) Claims: Records including correspondence concerning lost, stolen, destroyed or mutilated savings-type securities, bonds of indemnity, legal documents supporting claims for relief and records of caveats entered. (5) Inquiries: Records of correspondence with individuals who have requested information concerning savings-type securities and/or interest thereon.

Authority for maintenance of the system: Second Liberty Bond Act, as amended (40 Stat. 288) and 5 U.S.C. 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Within the Department of the Treasury, the information contained in this system of records is routinely used in connection with the issuance of securities, the payment of interest thereon, processing of claims therefor, responding to inquiries thereon, processing of transactions therein and the redemption and retirement thereof. Users for these purposes are officials, authorized employees and agents of the Department for the purpose of administering the Public Debt of the United States. Information in this system is also routinely furnished to the Internal Revenue Service for use by officials and authorized employees for the purpose of facilitating collection of tax revenues by the United States. In addition to these uses within the Department, records concerning holdings are routinely disclosed outside the Department as follows: (1) To the next-of-kin, voluntary guardian, legal representative or successor in interest of a deceased or incapacitated owner of securities, and others entitled in connection with reissue, distribution or payment thereof; users for this purpose are as described for the purpose of assuring equitable and lawful disposition of securities and/or interest. (2) Information is routinely furnished, when appropriate, pertaining to securities to the United States Secret Service for inclusion in the National Crime Information Center of the Federal Bureau of Investigation, to the Department of Justice and to other Federal agencies; users for this purpose are law enforcement officials, for the purpose of reducing monetary losses of the United States and to aid in law enforcement. (3) Information is routinely disclosed pertaining to holdings of securities, interest thereon and transactions therein to the Department of Justice in connection with lawsuits to which the Department is a party; and to Trustees in Bankruptcy; users are Federal officials for the purpose of carrying out their duties. (4) Information is routinely disclosed to the Veterans Administration and selected veterans publications in connection with attempts to locate owners, or their next of kin or persons otherwise entitled to bonds undeliverable and being held in safekeeping by the Department. (5) Information regarding records of holdings of securities registered in coownership form is routinely disclosed to either coowner upon request. Information regarding records of holdings for securities registered in beneficiary form ("P.O.D.") is routinely disclosed to the beneficiary named thereon provided acceptable proof of death of the registered owner is submitted. (Note: If the request for disclosure is made by the second-named coowner, or by a beneficiary the name or social security number of the first-named person must be furnished, except in the case of Series G savings bonds.) (6) Information regarding holdings is routinely disclosed to Members of Congress who inquire on behalf of constituents. (7) For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records in this system are stored in their original form in file cabinets, as information in electronic media or on microfilm.

Retrievability: Information can be retrieved alphabetically by name, bond serial numbers, or, in some cases, numerically by social security number. In the case of securities, except Series G savings bonds, registered in more than one name, information relating thereto can only be retrieved by the name or in some cases social security number of the first-named coowner.

Safeguards: Information is contained in secure buildings, Federal Records Centers, or in areas which are occupied by officers and responsible employees of either the Department who are subject to personnel screening procedures and the Treasury Department Code of Conduct, or by agents of the Department who are required by the Department to maintain proper control over records while in their custody. Additionally, since in most cases, numerous steps are involved in the retrieval process, unauthorized persons would be unable to retrieve information in a meaningful form. Information

stored in electronic media is safeguarded by automatic data processing security procedures in addition to physical security measures.

Retention and disposal: Records of holdings are maintained permanently. Forms, documents and other legal papers which constitute the basis for transactions subsequent to original issue are maintained for such time as is necessary to protect the legal rights and interest of the U.S. Government and the persons affected, or otherwise until they are no longer historically significant. Other records are disposed of at varying intervals in accordance with records retention schedules reviewed and approved by the National Archives and Records Service, General Services Administration. All records are destroyed by shredding, incineration or maceration. Records in electronic media are electronically erased using accepted techniques.

System manager(s) and address: Commissioner of the Public Debt, 15th St. and New York Ave., N.W. Washington, D.C. 20226.

Notification procedure: Address inquiries to: Privacy Act Request, Assistant Commissioner of the Public Debt, Savings Bond Operations Office, 200 Third Street, Parkersburg, West Virginia 26101, (304) 422-8551. Inquiries should include the full name, social security number, address and security serial number(s), if known.

Record access procedures: Individuals who wish to request access to records relating to them or who wish to request correction of records they believe to be in error should submit such requests pursuant to the procedures set out below in compliance with the applicable regulations (31 CFR Part 1, Subpart C Sections 1.7 & 1.8; 31 CFR Part 323). Requests which do not comply fully with these procedures may result in noncompliance with the request but will be answered to the extent possible.

Requests for access to records: (1) All requests for access to records must be in writing, signed by the individual concerned, and, in order for the Privacy Act procedures to apply, clearly indicate that the request is made pursuant to the Privacy Act of 1974. The Bureau reserves the right to require additional verification of an individual's identity. (2) The request must specify the Bureau system of records within which the desired records are located as well as the categories of records within the system. These categories are set out in the applicable system of records description. (3) In the case of requests for information concerning holdings of securities, the type of security involved (e.g., Series E savings bond, Series H savings bond, savings note, retirement plan bond, etc.) must be specified. Additionally, the request should, to the extent possible, specify the approximate date of issue, serial number(s) and exact form of registration, including social security number and address. Requests which do not furnish all or some of the above information will be complied with to the extent possible but may be subject to the requirement that additional identificatory evidence be furnished. (4) Requests for information concerning records of holdings of securities except Series G savings bonds registered in coownership form must be accompanied by the name and, wherever possible, social security number of the first-named coowner. Requests for information concerning securities registered in beneficiary form must also be accompanied by the name and social security number of the owner thereof and, if made by the beneficiary, must be accompanied by proof of death of the registered owner. (5) Requests for records of holdings or other information concerning a deceased or incapacitated individual should be accompanied by either evidence of the requester's appointment as legal representative of the individual or his estate or by a statement attesting that no such representative has been appointed and giving the nature of the relationship between the requester and the individual.

Requests for correction of records: (1) All requests by an individual for correction of records relating to him should be in writing, be signed by him, and, in order for the Privacy Act procedures to apply, state that the request is made pursuant to the Privacy Act of 1974. (2) The request for correction should specify: (a) the dates of the prior correspondence had with the Bureau concerning the records in question, (b) the specific records alleged to be incorrect, (c) the correction requested, and (d) the reasons therefor, as well as any available evidence in support of the request.

Appeals from an initial denial of a request for correction of records: (1) All appeals from an initial denial of a request for correction of records must be in writing, be signed by the individual involved and, in order for the Privacy Act procedures to apply, state that it is made pursuant to the Privacy Act of 1974. (2) All appeals must, to be handled under the Privacy Act procedures, be delivered to the address set forth for submission of appeals within 35 days of the individual's receipt of the initial denial of the requested correction. (3) All appeals must specify: (a) the records to which the appeal relates, (b) the date of the initial request made for correction of the records, and (c) the date that initial denial of the request for correction was received. (4) All appeals must also specify the reasons for the requestor's disagreement with the initial denial of correction and should furnish any applicable evidence available in support of his appeal.

Contesting record procedures: See notification and access.

Record source categories: Information on records in this system is furnished by the individuals or their authorized representatives listed in "Categories of Individuals," by issuing agents for securities, or is generated within the system itself.

ACCESS AND CONTEST:

Special Assistant for Public Affairs, Comptroller of the Currency, Sixth Floor, 490 E. L'Enfant Plaza, S.W., Washington, D.C. 20219.

Treasury/USSBD 00.001

System name: Savings Bonds Employee Records System—Treasury/USSBD.

System location: Savings Bonds Division, Department of the Treasury, 1111 20th Street, N.W., Washington, D.C. 20226.

Categories of individuals covered by the system: Employees of USSBD.

Categories of records in the system: Appeal and Grievance Records, Applicant Supply Files, Case Actions, Employee Earning Statements, Employee Financial Statements, Equal Employment Opportunity Files, Incentive Awards and Reports, Itineraries, Locator Cards, Medical Records, Merit Promotion, Motor Vehicle Records, Payroll, Performance Evaluation, Personal Investigation, Position Control, Reduction in Force File, Register of Separation and Transfer, Retirement Cards, Time and Attendance Records, Tort Claims, Training Records and Reports, Travel Vouchers.

Authority for maintenance of the system: Treasury Department Order No. 13 established the Division of Savings Bonds under the office of the Fiscal Assistant Secretary, April 1941.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: The Personnel Office of the Savings Bonds Division, Department of the Treasury, maintains in its system of records detailed information pertaining to each of the specific categories listed in Categories of Individuals. Routine use of the various files enables Personnel to have ready access to applicants for hiring purposes, placement and to aid in assessing the need for employee training and promotion. Necessary information about an individual employee is also provided to other Federal Personnel Offices when a Division employee is under consideration for a position in another Federal Agency. Also, other records carry accrual information that permits annual reviews on an employee's performance. All information is used solely for the purpose for which it was collected which serves as a general internal source bank.

The Budget and Fiscal section of the Savings Bonds Division maintains in its record system data pertaining to each of the identifiable categories listed in Categories of Individuals. This information permits the Section to make employee payroll reconciliations, budget forecasts, check and bond issuance verifications, internal audits, supply retirement records to the Civil Service Commission, prepare earning statements and document payments of employee travel claims.

Diclosures may be made to a Congressional Office from the record of an individual in response to an inquiry from the Congressional Office made at the request of that individual.

For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: All records in Personnel, with the exception of card files, are stored in metal correspondence files, indexed by individual names and numbers. Files are maintained in separate offices according to the nature or content of data. Files are accessible to Personnel employees and are locked at the close of each day. Records pertaining to personal historical data are maintained for two years and are then sent to the Federal Records Center. The records of a less important nature are destroyed after the two-year period.Storage of financial information is maintained on computer printouts supplied by Government Financial Operations. Individual retirement cards, time and attendance reports and travel vouchers of employees are stored in separate files and are accessible by name and social security number. All payroll and time and attendance records are retained between audit periods (normally two years) and then destroyed by shredding. Retirement cards go to the gaining agency or to the Civil Service Commission. Travel vouchers are maintained on file for three years after audit and then sent to the Federal Records Center.

System manager(s) and address: Director of Administration, Department of the Treasury, Savings Bonds Division, 1111 20th Street, N.W., Washington, D.C. 20226.

Notification procedure: Records that are housed by the Savings Bonds Division are not of a nature that would warrant strict guidelines for accessibility. An individual may request access to his record or any information pertaining to him by merely notifying the office or officer in charge. The individual, however, must be under the supervision of a Savings Bonds officer during the entire time he has this information in his possession.

Record access procedures: See System Manager and Notification above.

Contesting record procedures: See System Manager and Notification above.

Record source categories: Data accumulated in the record system at Savings Bonds are gathered from the individual and/or from sources directly connected with the employee's appointment.

Systems exempted from certain provisions of the act: Portions of this system are exempted elsewhere in the Federal Register.

Treasury/USSBD 00.002

Authority for maintenance of the system: Treasury Department Order No. 13 established the Division of Savings Bonds under the office of the Fiscal Assistant Secretary, April 1941.

Routine uses of records maintained in the system, including categories of users and the purpoes of such uses: The Sales Office of the Savings Bonds Division, Department of the Treasury, maintains a nation-wide volunteer sales force that promotes the sale of Savings Bonds. The listing in Category of Individuals describes the type of data that supports this effort. This information provides a means by which the Sales Division may review plans and follow progress of individuals in their sale and promotion of Savings Bonds, supplies volunteer lists and bios for recruiting, appointing and retiring volunteer leaders. Lists also provide a means of supplying volunteers with Savings Bonds program materials and information, invitations to meetings, special bulletins, letters of progress, sales reports and newsletters. Lists are available only for Savings Bonds purposes. For additional routine uses see Appendix AA.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system: Mailing lists are accessible to employees and stored on addressograph plates. Other correspondence and materials are filed in the regular correspondence file cabinets and permanently retained.

System manager(s) and address: Deputy National Director, Department of the Treasury, Savings Bonds Division, 1111 20th Street, N.W., Washington, D.C. 20226.

Notification procedure: Records that are housed by the Savings Bonds Division are not of a nature that would warrant strict guidelines for accessibility. An individual may request access to his record or any information pertaining to him by merely notifying the office or officer in charge. DEPARTMENT OF THE TREASURY

APPENDIX AA

Additional Routine Uses

In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

A record maintained by this agency to carry out its functions may be disclosed as a "routine use" to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of license, grant or other benefit, provided that disclosure is compatible with the purpose for which such record was collected.

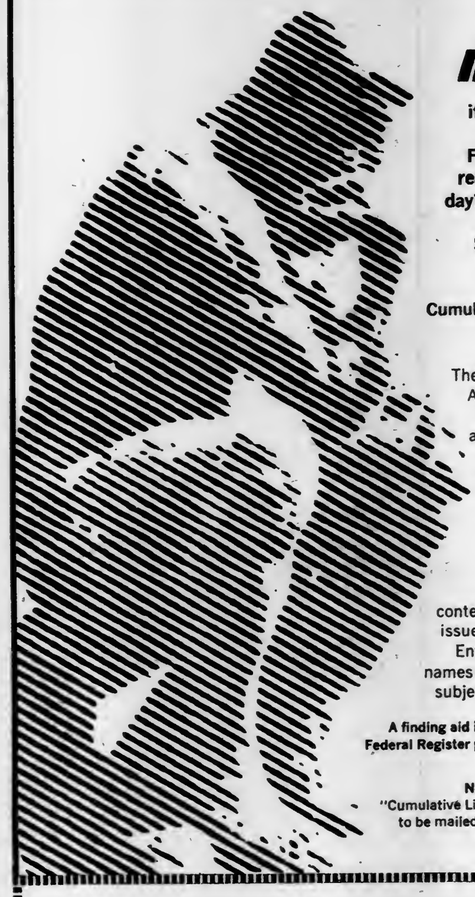
A record maintained by this agency to carry out its functions may be disclosed as a routine use to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter, provided that disclosure is compatible with the purpose for which such record was collected.

A record maintained by this agency to carry out its functions may be disclosed in response to a court subpoena, to appropriate parties engaged in litigation or in preparation of possible litigation such as potential witnesses for the purpose of securing their testimony when necessary to courts, magistrates or administrative tribunals, to parties and their attorneys for the purpose of proceeding with litigation or settlement of disputes, to individuals seeking information by using established discovery procedures, whether in connection with civil, criminal, or regulatory proceedings.

A record maintained by this agency to carry out its functions which relates to civil and criminal proceedings may be disclosed to the news media in accordance with guidelines contained in 28 C.F.R. 50.2.

A record maintained by this agency to carry out its functions may be disclosed to foreign governments in accordance with formal or informal international agreements.

A record maintained by this agency to carry out its functions may be disclosed to unions recognized under E.O. 11491 when required or relevant to union's duties as exclusive representative under E.O. 11491.



A record maintained by this agency to carry out its functions may be disclosed to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

A record maintained by this agency to carry out its functions may be disclosed to a congressional office in response to an inquiry from the congressional office made at the request of the individual to whom the record pertains.

would you like to know

if any changes have been made in certain titles of the CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "Cumulative List of CFR Sections Affected," the "Federal Register Index," or both.

Cumulative List of CFR Sections Affected
$10.00
per year

The "Cumulative List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Federal Register Index $8.00
per year

Indexes covering the contents of the daily Federal Register are issued monthly, quarterly, and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers: FR Indexes and the "Cumulative List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

Mail order form to:

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

Directive of October 7, 1976

Amending the National Security Council Directive of May 17, 1972, Governing the Classification, Downgrading, Declassification and Safeguarding of National Security Information

The President has directed that the National Security Council Directive Governing the Classification, Downgrading, Declassification and Safeguarding of National Security Information dated May 17, 1972 (37 FR 10053), be amended as follows:

Delete Paragraph C, Regulations and Reports, in Section X, DEPARTMENTAL IMPLEMENTATION AND ENFORCEMENT, and add a new Paragraph C in Section X as follows:

"C. Regulations and Reports. Each Department shall submit its proposed implementing regulations of the Order and Directives thereunder to the Chairman of the Interagency Classification Review Committee for approval by the Committee. Upon approval such regulations shall be published in the FEDERAL REGISTER to the extent they affect the general public. Each Department shall also submit to the said Chairman (1) semiannual reports of Departmental actions on classification review requests, classification abuses and unauthorized disclosures, and (2) provide progress reports on information accumulated in the data index system established under Part VII hereof and such other reports as said Chairman may find necessary for the Interagency Classification Review Committee to carry out its responsibilities."

This Directive shall be published in the FEDERAL REGISTER and become effective January 1, 1977.

BRENT SCOWCROFT,
Assistant to the President
for National Security Affairs

CHAPTER II—FEDERAL RESERVE SYSTEM

Subchapter A—Board of Governors of the Federal Reserve System

[Reg. Z; Docket No. R-0048]

PART 226—TRUTH IN LENDING

Amendments to Regulation Z To Implement the Consumer Leasing Act

On July 9, 1976, the Board published for comment proposed amendments to Regulation Z implementing the Consumer Leasing Act of 1976 (41 FR 28313). The Board also conducted an informal public hearing on the proposed amendments on August 3, 1976, at which five persons testified.

Forty-seven written comments on the proposal were received. The written comments and hearing testimony have been analyzed and careful consideration has been given to them. On the basis of the comments and testimony and its own analysis, the Board has adopted final amendments to implement the Act.

Several commenters requested that the Board issue a separate leasing regulation rather than incorporate the leasing amendments into Regulation Z. The Board still believes that the incorporation of the leasing regulation into Regulation Z permits utilization of terms and concepts previously defined under Regulation Z and substantially limits duplication of provisions. Confusion among lessors unfamiliar with Regulation Z can be greatly reduced, the Board believes, by education efforts, which may include the issuance of approved lease disclosure forms.

A detailed discussion of the revisions to the amendments follows:

1. Technical changes have been made in § 226.1(c) by (1) limiting the protection from civil and criminal liability granted to creditors who act in conformity with duly authorized staff opinion letters to Sections 112 and 130 of the Act, and (2) adding a statement concerning the provisions of § 185(b) which imposes civil liability for lessor violations of the advertising provisions of Section 184 when such violations result in actual damages.

2. The definition "aggregate cost of the lease" has been redesignated "total lease obligation" in order to reflect more accurately the concept embodied in the definition.

The Board wishes to clarify that for purposes of this definition and the calculations of which it is an element, the term "scheduled periodic payments under the lease" includes that portion of the payments attributable to depreciation, cost of money, lessor's profit and taxes, but excludes, in leases where such charges are included in the periodic payments, charges for maintenance and insurance.

The words "fair market" have been deleted from the third element of the definition, "the estimated value of the leased property at the end of the lease term," to permit the use of underestimation in determination of the figure.

3. The words "fair market" have been deleted from the definition "value at consummation" because the amount used in the definition may not approximate a "fair market value" as it permits inclusion of a lessor markup. The Board believes that the legislative history of the Consumer Leasing Act is clear that such a markup is permissible (see 122 Cong. Rec., S. 1025, February 2, 1976).

4. The definition "realized value" has been amended to exclude any deduction for actual disposition costs. It is the Board's position that such costs should be disclosed at consummation of the lease and should not be used to circumvent the limitations imposed by section 183(a) of the Act on the lessee's end-term liability.

The Board also wishes to clarify that the methods of disposition presented in the definition of "realized value" are alternatives and may be chosen at the lessor's option. The use of the right of appraisal (§ 226.15(b)(14)) by the lessee and lessor constitutes a binding determination of realized value.

5. A new paragraph has been added to § 226.3 which deals with exempted transactions. This paragraph exempts from the requirements of the Act lease transactions of personal property incident to leases of real property which provide that (1) the lessee has no liability for the value of the property at the end of the term other than for abnormal wear and tear, and (2) there is no option to purchase the leased property.

It is the Board's position that the definition of "consumer lease" excludes such leases as it is limited to "a contract for the *use of personal property*" (emphasis added) and a lease for a furnished apartment is a real property lease to which the personal property is incidental.

Neither the Act nor the legislative history mentions leases of personal property incident to leases of real property. The Board believes that such an exemption is justified by the increased costs and the decreased availability of advertising information and services associated with furnished apartments, which may be generated by requiring compliance with the Act by such lessors.

6. Section 226.6(f) has been amended to permit lessors to understate in purchase option leases the estimated value of the property at the end of the lease term. This will allow lessors to use a "safety factor" when estimating this value.

7. A new paragraph, § 226.10(h), has been added to the advertising provisions to permit use of triggering terms in merchandise tags for items normally used in multiple-item leases without full advertising disclosures, provided that such tags clearly and conspicuously refer to a prominently posted sign or display which contains a table or schedule of items to be disclosed under § 226.10(g).

The table or schedule of lease terms may be similar to that used in credit transactions as set forth in Interpretation § 226.1002, which will be amended to include lease advertisements.

8. The Board makes the following comments concerning § 226.15:

(a) The requirement of § 226.15(a) that disclosures be made on one side of a single page of a separate disclosure statement has been deleted. A number of commenters questioned their ability to provide the required disclosures, a number of which are textural rather than numerical, on a single page. Thus, lessors would be permitted to make disclosures on both sides of a separate disclosure statement.

(b) Certain arithmetical disclosures have been rearranged to provide a more meaningful sequence of disclosures.

(c) Security deposits, as used in §§ 226.15(b) (2) and (9), have been limited to refundable cash deposits to distinguish them from other types of security interests. Further, a security deposit disclosed under § 226.15(b)(2) need not be further disclosed under § 226.15(b)(9).

(d) Section 226.15(b)(5) has been changed to incorporate in the total of "all other charges" the amount of any liabilities imposed upon the lessee at the end of the term (formerly § 226.15(b)(13)), excluding the difference between the estimated and realized values.

(e) The warranty disclosure (§ 226.15(b)(7)) has been amended to require only that the lessor provide a statement identifying any express warranties or guarantees made by the lessor or manufacturer and available to the lessee. This paragraph permits the lessor to refer to any express warranties without the necessity of reproducing them in the disclosure statement.

(f) The lessor is under no obligation to set standards for wear and use. However, such standards, if they are set, must be reasonable and must be disclosed in accordance with § 226.15(b)(8).

(g) Section 226.15(b)(14), dealing with the right of appraisal, has been limited, as provided in § 183(c) of the Act, to leases where the lessee's liability at

V41201 OCT 15 76 UMI

the end of the term is based upon the estimated value of the leased property.

(h) The Board solicited comments on a proposed exemption from the renegotiation and extension requirements (§ 226.15(c)) for multiple item leases. As a result of the comments received, the Board now changes the exemption by increasing the threshold change in the monthly payment above which new disclosures must be made from 10 to 25 per cent.

The Board also exempts from the new disclosure requirement lease extensions for a total of six months or less, either on a month-to-month basis or otherwise. If a lease is extended for more than six months new disclosures must be made.

The Board believes that the addition or subtraction of items from a multiple item lease, resulting in relatively small changes in the monthly payments, as well as short term extensions, are primarily accommodations to consumers and that requiring new disclosures in these limited situations would inconvenience lessees and lessors without a corresponding increase in consumer protection.

In consideration of the comments received and pursuant to the authority granted in 15 U.S.C. 1604 (1968), 12 CFR. Part 226 is amended as follows, effective March 23, 1977.

A. Section 226.1 is amended as follows:

§ 226.1 [Amended]

1. By revising the last sentence of paragraph (a)(1) to read as follows:

(a) *Authority, scope, purpose, etc.,* (1) • • • Except as otherwise provided herein, this Part, within the context of its related provisions, applies to all persons who are creditors, as defined in paragraph(s) of § 226.2, and in the case of consumer leases, as defined in paragraph (mm) of § 226.2, to all persons who are lessors, as defined in paragraph (oo) of § 226.2.

2. In paragraph (a)(2) by inserting the words "and consumer lease" between the words "Advertising of consumer credit" and "terms must comply" and by adding the following sentence before the last sentence of the paragraph:

(2) • • • This Part is also designed to assure that lessees of personal property are given meaningful disclosures of lease terms, to delimit the ultimate liability of lessees in leasing personal property and to require meaningful and accurate disclosures of lease terms in advertisements. • • •

3. In paragraph (b)(1) by inserting a comma after the word "creditors," deleting the word "and" between the words "creditors" and "credit" and inserting the words "and lessors" between the words "issuers" and "is."

4. By amending paragraph c) to read as follows:

• • • • •

(c) *Penalties and liabilities.* Section 112 of the Act provides criminal liability for willful and knowing failure to comply with any requirement imposed under the Act and this Part. Section 134 provides for criminal liability for certain fraudulent activities related to credit cards. Section 130 provides for civil liability in individual or class actions for any creditor or lessor who fails to comply with any requirement imposed under Chapter 2, Chapter 4 or Chapter 5 of the Act and the corresponding provisions of this Part. Section 130 also provides creditors or lessors a defense against civil and criminal liability under sections 130 and 112 for any act done or omitted in good faith in conformity with the provisions of this Part or any interpretation thereof by the Board, or with any interpretations or approvals issued by a duly authorized official or employee of the Federal Reserve System, notwithstanding that after such act or omission has occurred, such rule, regulation, interpretation or approval is amended, rescinded or otherwise determined to be invalid for any reason. Section 130 further provides that a multiple failure to disclose in connection with a single account or single consumer lease shall permit but a single recovery. Section 115 provides for civil liability for an assignee of an original creditor where the original creditor has violated the disclosure requirements and such violation is apparent on the face of the instrument assigned, unless the assignment is involuntary. Section 185(b) provides for civil liability under section 130 for any lessor who fails to comply with any requirement imposed under section 184 to any person who suffers actual damage from the violation. Pursuant to section 108 of the Act, violations of the Act or this Part constitute violations of other Federal laws which may provide further penalties.

B. Section 226.2 is amended as follows:

§ 226.20 [Amended]

1. In paragraph (d) by inserting the words "or lessee or prospective lessee" between the words "prospective customer" and "in."

2. By amending paragraph (h) to read as follows:

• • • • •

(h) *"Arrange for the extension of credit or for lease of personal property"* means to provide or offer to provide consumer credit or a lease which is or will be extended by another person under a business or other relationship pursuant to which the person arranging such credit or lease

(1) Receives or will receive a fee, compensation, or other consideration for such service, or

(2) Has knowledge of the credit or lease terms and participates in the preparation of the contract documents required in connection with the extension of credit or the lease. It does not include honoring a credit card or similar device where no finance charge is imposed at the time of that transaction.

3. In paragraph (jj) by deleting the word "and" after the words "consumer loan" and adding the words "and 'lease' to mean 'consumer lease'" after the words "consumer credit transaction."

4. In paragraph (kk) by inserting the words "or a lessor and lessee" between the words "customer" and "irrespective."

5. By adding the following after paragraph (11):

• • • • •

(mm) *"Consumer lease"* means a contract in the form of a bailment or lease for the use of personal property by a natural person primarily for personal, family or household purposes, for a period of time exceeding four months, for a total contractual obligation not exceeding $25,000, whether or not the lessee has the option to purchase or otherwise become the owner of the property at the expiration of the lease. It does not include a lease which meets the definition of a credit sale in § 226.2(t), nor does it include a lease for agricultural, business or commercial purposes or one made to an organization.

(nn) *"Lessee"* means a natural person who leases under, or who is offered, a consumer lease.

(oo) *"Lessor"* means a person who in the ordinary course of business regularly leases, offers to lease or arranges for the leasing of personal property under a consumer lease.

(pp) *"Personal property"* means any property which is not real property under the law of the State where it is located at the time it is offered or made available for lease.

(qq) *"Realized value"* means (1) the price received by the lessor for the leased property at disposition, (2) the highest offer for disposition, or (3) the fair market value at the end of the lease term.

(rr) *"Total lease obligation"* equals the total of (1) the scheduled periodic payments under the lease, (2) any nonrefundable cash payment required of the lessee or agreed upon by the lessor and lessee or any trade-in allowance made at consummation, and (3) the estimated value of the leased property at the end of the lease term.

(ss) *"Value at consummation"* equals the cost to the lessor of the leased property including, if applicable, any increase or markup by the lessor prior to consummation.

C. Section 226.3 is amended by adding a new § 226.3(f) to read as follows:

§ 226.3 Exempted transactions.

• • • • •

(f) *Certain lease transactions.* Lease transactions of personal property which are incident to the lease of real property and which provide that (1) the lessee has no liability for the value of the property at the end of the lease term except for abnormal wear and tear, and (2) the lessee has no option to purchase the leased property.

D. Section 226.6 is amended as follows:

1. By adding a new § 226.6(b)(3) to read as follows:

§ 226.6 [Amended]

(b)(3)(i) A State law which is similar in nature, purpose, scope, intent, effect or requisites to a section of Chapter 5 of the Act is not inconsistent with the Act or this Part within the meaning of § 186(a) of the Act if the lessor can comply with the State law without violating this Part. If a lessor cannot comply with a State law without violating a provision of this Part which implements a section of Chapter 5 of the Act, such State law is inconsistent with the requirements of the Act and this Part within the meaning of § 186(a) of the Act and is preempted.

(ii) A State, through its Governor, Attorney General, or other appropriate official having primary enforcement or interpretative responsibilities for its consumer leasing law, may apply to the Board for a determination that the State law offers greater protection and benefit to lessees than a comparable provision(s) of Chapter 5 of the Act and its implementing provision(s) in this Part, or is otherwise not inconsistent with Chapter 5 of the Act and this Part, or for a determination with respect to any issues not clearly covered by § 226.6(b)(3)(i) as to the consistency or inconsistency of a State law with Chapter 5 of the Act or its implementing provisions in this Part.

2. In paragraph (c) by inserting the words "or lessor's" between the words "creditor's" and "option" and by inserting the words "or lessee" between the words "customer" and "or" in the first sentence, and by inserting the words "or lessor" between the words "creditor" and "who elects" in the second sentence.

3. By revising paragraphs (d), (e) and (f) to read as follows:

• • • • •

(d) *Multiple creditors or lessors; joint disclosure.* If there is more than one creditor or lessor in a transaction, each creditor or lessor shall be clearly identified and shall be responsible for making only those disclosures required by this Part which are within his knowledge and the purview of his relationship with the customer or lessee. If two or more creditors make a joint disclosure, each creditor or lessor shall be clearly identified. The disclosures required under paragraphs (b) and (c) of § 226.8 shall be made by the seller if he extends or arranges for the extension of credit. Otherwise disclosures shall be made as required under paragraphs (b) and (d) of § 226.8 and paragraph (b) of § 226.15.

(e) *Multiple customers or lessees; disclosure to one.* In any transaction other than a credit transaction which may be rescinded under the provisions of § 226.9, if there is more than one customer or lessee, the creditor or lessor need furnish a statement of disclosures required by this Part to only one of them other than an endorser, comaker, guarantor, or a similar party.

(f) *Unknown information estimate.* If at the time disclosures must be made, an amount or other item of information required to be disclosed, or needed to determine a required disclosure, is unknown or not available to the creditor or lessor and the creditor or lessor has made a reasonable effort to ascertain it, the creditor or lessor may use an estimated amount or an approximation of the information, provided the estimate or approximation is clearly identified as such, is reasonable, is based on the best information available to the creditor or lessor and is not used for the purpose of circumventing or evading the disclosure requirements of this Part.

Notwithstanding the requirement of this paragraph that the estimate be based on the best information available, a lessor is not precluded in a purchase option lease from understating the estimated value of the leased property at the end of the term in computing the total lease obligation as required in § 226.15(b)(15)(i).

4. By revising the footnote to paragraph (g) to read as follows:

*Such acts, occurrences, or agreements include the failure of the customer or lessee to perform his obligations under the contract and such actions by the creditor or lessor as may be proper to protect his interests in such circumstances. Such failure may result in the liability of the customer or lessee to pay delinquency charges, collection costs, or expenses of the creditor or lessor for perfection or acquisition of any security interests or amounts advanced by the creditor or lessor on behalf of the customer or lessee in connection with insurance, repairs to or preservation of collateral.

5. In paragraph (i) by inserting the words "or lessor" between the words "creditor" and "for" in the first sentence and between the words "creditor" and "shall" in the last sentence.

E. Section 226.10 is amended by redesignating the introductory text of § 226.10(a) as § 226.10(a)(1), § 226.10(a)(1) as § 226.10(a)(1)(i) and § 226.10(a)(2) as § 226.10(a)(1)(ii), and by adding new paragraphs (a)(2), (g) and (h) as follows:

§ 226.10 Advertising credit and lease terms.

(a) *General rule.* • • •

(2) No advertisement to aid, promote or assist directly or indirectly any consumer lease may state that a specific lease of any property at specific amounts or terms is available unless the lessor usually and customarily leases or will lease such property at those amounts or terms.

(b) *Catalogs and multi-page advertisements.* If a catalog or other multiple-page advertisement sets forth or gives information in sufficient detail to permit determination of the disclosures required by this section in a table or schedule of credit or lease terms, such catalog or multiple-page advertisement shall be considered a single advertisement provided:

(1) The table or schedule and the disclosures made therein are set forth clearly and conspicuously; and

(2) Any statement of credit or lease terms appearing in any place other than in that table or schedule of credit or lease terms clearly and conspicuously refers to the page or pages on which that table or schedule appears, unless that statement discloses all of the credit or lease terms required to be stated under this section. For the purpose of this subparagraph, cash price is not a credit term.

• • • • •

(g) *Advertising of consumer leases.* No advertisement to aid, promote or assist directly or indirectly any consumer lease shall state the amount of any payment, the number of required payments, or that any or no downpayment or other payment is required at consummation of the lease unless the advertisement also states clearly and conspicuously each of the following items of information as applicable:

(1) That the transaction advertised is a lease.

(2) The total amount of any payment such as a security deposit or capitalized cost reduction required at the consummation of the lease, or that no such payments are required.

(3) The number, amounts, due dates or periods of scheduled payments, and the total of such payments under the lease.

(4) A statement of whether or not the lessee has the option to purchase the lease property and at what price and time. The method of determining the price may be substituted for disclosure of the price.

(5) A statement of the amount or method of determining the amount of any liabilities the lease imposes upon the lessee at the end of the term and a statement that the lessee shall be liable for the difference, if any, between the estimated value of the lease property and its realized value at the end of the lease term, if the lessee has such liability.

(h) *Multiple-item leases; merchandise tags.* If a merchandise tag for an item normally included in a multiple-item lease sets forth information which would require additional disclosures under paragraph (g) of this section, such merchandise tag need not contain such additional disclosures, provided it clearly and conspicuously refers to a sign or display which is prominently posted in the lessor's showroom. Such sign or display shall contain a table or schedule of those items of information to be disclosed under paragraph (g) of this section.

F. Section 226.12 is amended as follows:

§ 226.12 Exemption of certain state regulated transactions.

(a) *Exemption for State regulated transactions.* In accordance with the provisions of Supplements II, IV, V, and VI to Regulation Z, any State may make application to the Board for exemption of any class of transactions within the State from the requirements of Chapters 2, 4 or 5 of the Act and the corresponding provisions of this Part, Provided that:

(1) The Board determines that under the law of that State, that class of transactions is subject to requirements substantially similar to those imposed under Chapter 2 or Chapter 4 of the Act, or both, or under Chapter 5, and the corresponding provisions of this Part; or in the case of Chapter 4, the consumer is afforded greater protection than is afforded under Chapter 4 of the Act, or in the case of Chapter 5, the lessee is

afforded greater protection and benefit than is afforded under Chapter 5 of the Act, and

(2) There is adequate provision for enforcement.

(b) *Procedures and criteria.* The procedures and criteria under which any State may apply for the determination provided for in paragraph (a) of this section are set forth in Supplement II to Regulation Z with respect to disclosure and rescission requirements (sections 121–131 of Chapter 2), Supplement IV with respect to the prohibition of the issuance of unsolicited credit cards and the liability of the cardholder for unauthorized use of a credit card (sections 132–133 of Chapter 2), in Supplement V with respect to fair credit billing requirements (sections 161–171 of Chapter 4) and in Supplement VI with respect to consumer leasing (sections 181–186 of Chapter 5).

* * * * *

G. A new section 226.15 is added to read as follows:

§ 226.15 Consumer leasing.

(a) *General requirements.* Any lessor shall, in accordance with § 226.6 and to the extent applicable, make the disclosures required by paragraph (b) of this section with respect to any consumer lease. Such disclosures shall be made prior to the consummation of the lease on a dated written statement which identifies the lessor and the lessee, and a copy of such statement shall be given to the lessee at that time. All of the disclosures shall be made together on either

(1) The contract or other instrument evidencing the lease on the same page and above the place for the lessee's signature; or

(2) A separate statement which identifies the lease transaction.

In any lease of multiple items, the description required by § 226.15(b)(1) may be provided on a separate statement or statements which are incorporated by reference in the disclosure statement required by § 226.15(a).

(b) *Specific disclosure requirements.* In any lease subject to this section the following items, as applicable, shall be disclosed:

(1) A brief description of the leased property, sufficient to identify the property to the lessee and lessor.

(2) The total amount of any payment, such as a refundable security deposit paid by cash, check or similar means, advance payment, capitalized cost reduction or any trade-in allowance, appropriately identified, to be paid by the lessee at consummation of the lease.

(3) The number, amount and due dates or periods of payments scheduled under the lease and the total amount of such periodic payments.

(4) The total amount paid or payable by the lessee during the lease term for official fees, registration, certificate of title, license fees or taxes.

(5) The total amount of all other charges, individually itemized, payable by the lessee to the lessor, which are not included in the periodic payments. This total includes the amount of any liabilities the lease imposes upon the lessee at the end of the term, but excludes the potential difference between the estimated and realized values, required to be disclosed under § 226.15(b)(15)(i).

(6) A brief identification of insurance in connection with the lease including (i) if provided or paid for by the lessor, the types and amounts of coverages and cost to the lessee, or (ii) if not provided or paid for by the lessor, the types and amounts of coverages required of the lessee.

(7) A statement identifying any express warranties or guarantees available to the lessee made by the lessor or manufacturer with respect to the leased property.

(8) An identification of the party responsible for maintaining or servicing the leased property together with a brief description of the responsibility, and a statement of reasonable standards for wear and use, if the lessor sets such standards.

(9) A description of any security interest, other than a security deposit disclosed under paragraph (b)(2) of this section, held or to be retained by the lessor in connection with the lease and a clear identification of the property to which the security interest relates.

(10) The amount or method of determining the amount of any penalty or other charge for delinquency, default or late payments.

(11) A statement of whether or not the lessee has the option to purchase the leased property and, if at the end of the lease term, at which price, and, if prior to the end of the lease term, at what time and the price or method of determining the price.

(12) A statement of the conditions under which the lessee or lessor may terminate the lease prior to the end of the lease term and the amount or method of determining the amount of any penalty or other charge for early termination.

(13) A statement that the lessee shall be liable for the difference between the estimated value of the property and its realized value at early termination or the end of the lease term, if such liability exists.

(14) Where the lessee's liability at early termination or at the end of the lease term is based on the estimated value of the leased property, a statement that the lessee may obtain at the end of the lease term or at early termination, at the lessee's expense, a professional appraisal of the value which could be realized at sale of the leased property by an independent third party agreed to by the lessee and the lessor, which appraisal shall be final and binding on the parties.

(15) Where the lessee's liability at the end of the lease term is based upon the estimated value of the leased property:

(i) The value of the property at consummation of the lease, the itemized total lease obligation at the end of the lease term, and the difference between them.

(ii) That there is a rebuttable presumption that the estimated value of the leased property at the end of the lease term is unreasonable and not in good faith to the extent that it exceeds the realized value by more than three times the average payment allocable to a monthly period, and that the lessor cannot collect the amount of such excess liability unless the lessor brings a successful action in court in which the lessor pays the lessee's attorney's fees, and that this provision regarding the presumption and attorney's fees does not apply to the extent the excess of estimated value over realized value is due to unreasonable wear or use, or excessive use.

(iii) A statement that the requirements of paragraph (b)(15)(ii) of this section do not preclude the right of a willing lessee to make any mutual agreeable final adjustment regarding such excess liability.

(c) *Renegotiations or extensions.* If any existing lease is renegotiated or extended, such renegotiation or extension shall be considered a new lease subject to the disclosure requirements of this Part, except that the requirements of this paragraph shall not apply to (1) a lease of multiple items where a new item(s) is provided or a previously leased item(s) is returned, and the average payment allocable to a monthly period is not changed by more than 25 per cent, or (2) a lease which is extended for not more than six months on a month-to-month basis or otherwise.

By order of the Board of Governors, October 8, 1976.

THEODORE E. ALLISON,
Secretary of the Board.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

[Docket No. 75F-0361]

PART 17—BAKERY PRODUCTS

Standards of Identity for Bakery Products; Partial Confirmation of Effective Date and Stay of Certain Provisions

In the FEDERAL REGISTER of February 12, 1976 (41 FR 6242), the Food and Drug Administration (FDA) issued a regulation revising the standards for bakery products in Part 17 (21 CFR Part 17) to (1) relax recipe requirements to permit the use of any safe and suitable ingredients that do not change the basic identity of the food or adversely affect its physical and nutritional characteristics, (2) require label declaration of all ingredients, (3) permit use of the names "egg bread," "enriched egg bread," "enriched milk bread," "enriched milk and egg bread," and "raisin and egg bread," when the food meets certain requirements, and (4) provide for other appropriate changes.

Written objections and requests for a hearing were to be filed on or before March 15, 1976.

Thirteen letters were received in response to the regulation. Six contained comments that were not in the form of objections or requests for a hearing. Five letters did contain objections and requests for a hearing. One letter, which was filed after the closing date of the objection period, objected to certain provisions of the regulation but did not request a hearing. The contents of one letter did not pertain to the regulation but made reference to it. The Commissioner has reviewed the comments and objections to determine those provisions of the regulations that should be stayed pending resolution of the objections; his conclusions follow:

1. Two objections and requests for a hearing were received concerning the minimum amount of egg required by §§ 17.10(e), 17.20(b), and 17.40(b) when the word "egg" is used in the name of the food. The objections were that the presence of as little as one medium-size egg in a pound of bread, as permitted by the standards, is not enough to justify use of the name "egg bread." One objection stated that a minimum of two eggs is necessary for each pound of bread. The second recommended egg yolk solids equivalent to two medium eggs, the amount to be expressed on the label in ounces and grams per pound.

Accordingly, the provisions of §§ 17.10(e), 17.20(b), and 17.40(b) pertaining to the use of the word "egg" in the name of the food are being stayed pending consideration whether a hearing will be necessary to resolve the issue.

2. Two objections and requests for a hearing were received on § 17.10(c)(5)(i) as it pertains to the use of lecithin, hydroxylated lecithin, and related phosphatides in egg bread, egg rolls, and egg buns. The objections contended that the egg content of egg bread supplies sufficient emulsification to make the use of lecithin unnecessary, and if lecithin and related phosphatides are not present it is possible to test in the laboratory for the presence of egg yolk in the finished bread, thus making continual plant inspection unnecessary.

Accordingly, § 17.10(c)(5)(i), as it pertains to the use of lecithin, hydroxylated lecithin, and related phosphatides in egg bread, egg rolls, and egg buns is stayed pending consideration whether a hearing will be necessary to resolve the issue.

3. Four adverse comments and two objections and requests for a hearing were received concerning restrictions in § 17.10(c)(5)(ii) on the use of certain mono- and diglycerides to a total of not more than 0.5 part for each 100 parts by weight of flour; the comments stated that this quantity unnecessarily limits the baker's flexibility. Three of the comments recommended that the maximum limit be 0.75 part for each 100 parts by weight of flour. The other comment recommended that the maximum limit be no more than necessary to accomplish the intended effect. One objection stated that the limit should be one part for each 100 parts or that it be specified on the basis of the alpha monoglyceride present and not on the basis of the total mono- and diglycerides, in which case it would be 0.5 part, or possibly 0.56 part, per 100 parts of flour. The other objection stated that the limit should be removed completely, or if any limitation is to be imposed, it be based on flour weight and tied to alpha monoglyceride level only.

Accordingly, § 17.10(c)(5)(ii) is stayed pending consideration whether a hearing will be necessary to resolve the issue. Until the issue is resolved, § 17.1(a)(1)(ii) of the superseded standard will apply. That standard reads as follows:

(ii) Mono- and diglycerides of fat-forming fatty acids, diacetyl tartaric acid esters of mono- and diglycerides of fat-forming fatty acids, propylene glycol mono- and diesters of fat-forming fatty acids complying with the provisions of § 121.1113 of this chapter, or a combination of two or more of these. The total weight of these ingredients used does not exceed 20 percent by weight of the combination of such ingredients and the shortening, and the total amount of monoglyceride, diacetyl tartaric acid ester of monoglyceride, and propylene glycol monoester does not exceed 8 percent by weight of the combination; but if purified or concentrated monoglyceride alone is used, the amount does not exceed 10 percent by weight of the combination.

4. One objection and request for a hearing was received on § 17.10(c)(14)(i), which retains the limits of the superseded standard on the amount of potassium bromate, calcium bromate, and calcium peroxide. The objection stated that experience with the continuous breadmaking process has demonstrated that under certain conditions it is difficult to obtain proper loaf size and bread texture without using bromates at a higher level. The objection recommended that the standard be revised by removing the limit on the use of bromates. No objection was made to the limit on calcium peroxide.

The Commissioner points out that the provisions of § 17.10(c)(14)(i) are identical with those of § 17.1(a)(12)(i) of the superseded standard, which reads as follows:

(12)(i) Potassium bromate, calcium bromate, potassium iodate, calcium iodate, calcium peroxide, or any combination of two or more of these; but the total quantity thereof (including the potassium bromate in any bromated flour used) is not more than 0.0075 part for each 100 parts by weight of flour used.

Hence, the staying of the provisions of § 17.10(c)(14)(i) as they pertain to potassium bromate and calcium bromate would have no practical effect. Therefore, the Commissioner declines to stay this provision as it applies to bromates. The objector is free to submit a petition to amend the standard to raise or eliminate the limits.

5. One comment and one objection and request for a hearing were received on § 17.10(c)(16). The comment stated that spices, spice oil, and spice extract which may be yellow or which, when used as directed, may impart a yellow color to the finished product, should be permitted in bread, rolls, and buns that are not identified as egg bread, egg rolls, or egg buns, provided that the foods are properly labeled to show the presence of the ingredients. The objection and request for a hearing stated that the consumer would be best benefited by limiting the prohibition set forth in § 17.10(c)(16) to egg bread, egg rolls, and egg buns. It also stated that the issue to be discussed at the hearing and the data to be presented concern the benefit to consumers of the use of colored spice mix in standardized bakery products not purporting to contain egg.

Because the objection stated that the issue to be addressed at a hearing will be limited to the use of spices, spice oils, and spice extracts that impart a yellow color to standardized bakery products not purporting to contain egg, the Commissioner believes that the stay of the relevant provisions should be limited to their application to that issue. Accordingly, the provisions of § 17.10(c)(16) as they pertain to the use of spices, spice oil, or spice extract that impart a color simulating that of egg to a standardized bakery product not represented on the label as containing egg or egg product and not purporting to contain egg or egg product is stayed pending consideration whether a hearing is necessary to resolve the issue.

6. One objection and request for a hearing was received on § 17.10(c)(17) stating that the use of artificial color in butter, but not in margarine, would not promote honesty and fair dealing in the interest of consumers. The objection stated that there is no basis for discriminating between butter and margarine and that artificial color should be allowed in both ingredients in like amounts.

Accordingly, the provisions of § 17.10(c)(17) as they pertain to the use in bread of butter to which color has been added is stayed pending consideration whether a hearing will be necessary to resolve the issue. This will have the effect of barring the use of artificially colored butter as well as artificially colored margarine during the period of the stay, i.e., from January 1, 1978, until the termination of the stay.

7. Two objections and requests for a hearing were received on § 17.10(f) as it applies to label declaration of dough conditioners, dough strengtheners, and yeast nutrients. The paragraph requires that all ingredients used in the food be declared on the label as required by the applicable sections of 21 CFR Part 1. The significant aspect of the provision is that it requires that all ingredients be identified by their common or usual names and in order of predominance.

Those who objected stated that, in order to maintain uniform quality of product, the amounts of ingredients such as dough conditioners, dough strengtheners, and yeast nutrients must be varied to adjust to variations in raw materials that are beyond the control of the baker and to other variable manufacturing conditions. It was claimed that the requirement to revise product labels as substitutions are made would result in substantial loss of inventories of labels

V4120176 OCT 15 76 UMI

and bread wrappers and would increase costs.

One of the objections recommended that a functional description such as "dough strengthener/conditioner" would be sufficient for the purpose of informing the consumer. Two letters commented in a similar manner on the issue but did not object or request a hearing. The second objection indicated that the lengthy names of particular dough conditioners and yeast nutrients would confuse consumers and that a short "coined" name would more effectively serve any consumer interest in disclosure.

Because of the revocation of Trade Correspondence TC–94 in the FEDERAL REGISTER of January 6, 1976 (41 FR 1166), the practice of declaring dough conditioners and yeast nutrients by class or function rather than by common or usual name is no longer permissible. About coined names being used for identifying food ingredients, the Commissioner points out that the use of coined names would not resolve the difficulty of listing ingredients in the order of predominance as required by 21 CFR Part 1.

In revoking TC–94 and in revising the standards for bakery products, the Commissioner implemented the policy set forth in § 3.88 *Label designation of ingredients for standardized foods* (21 CFR 3.88) by including in § 17.10(f) the requirement for label declaration of all ingredients in accordance with the applicable sections of 21 CFR Part 1. Because the issue of label declaration of ingredients in standardized foods extends beyond the concerns of the standards for bakery products, any action by the Commissioner on that issue is not appropriate in connection with the objections and requests for a hearing filed on § 17.10(f).

Therefore, the Commissioner is retaining § 17.10(f) without modification in the final regulation and is denying the requests for a hearing on this provision. Anyone desiring to use a collective (generic) name to use a colspecific name may petition for an amendment to § 1.10 (21 CFR 1.10) in accordance with the procedures described in § 1.10b (21 CFR 1.10b).

8. One objection and request for a hearing was received on the requirement that nutrients be declared on the label in two places: (1) in the list of ingredients as required by §§ 17.10(f) and 17.20 (a) and (2) in the nutrition label statement as required by § 1.17 (21 CFR 1.17).

The Commissioner points out that what is referred to in the above objection is not declaration of ingredients in two locations. Section 1.17 (21 CFR 1.17) does not require the declaration of ingredients. Section 1.17 requires declaration of nutrients, but not the actual compounds that supply the nutrients; so thiamine, for example, would be declared in accordance with § 1.17, but the actual compound used (which might be, for example, thiamine mononitrate) would be declared only in the ingredient statement. Also, because the issue of label declaration of ingredients in standardized foods extends beyond the concerns of the standards for bakery products, any action by the Commissioner on that issue is not appropriate in connection with the objection and request for a hearing filed on §§ 17.10(f) and 17.20(a). Accordingly, the Commissioner is retaining these provisions without modification in the final regulation and is denying the request for a hearing on them.

9. One objection and request for a hearing was received on the note at the end of § 17.20(a)(3), which states that the provision relating to overages of vitamins and minerals does not relate to iron.

In the FEDERAL REGISTER of October 15, 1973 (38 FR 28558), the Commissioner issued a final regulation revising the standard of identity for enriched bread (currently 21 CFR 17.20) and changed the requirements for vitamins and minerals from ranges with minima and maxima to single levels. With the change to single levels, provision was made for reasonable overages within the limits of good manufacturing practice. As a result of objections to the final regulation and requests for a hearing, the provision of the standard pertaining to iron content was stayed in the FEDERAL REGISTER of February 11, 1974 (39 FR 5188). Accordingly, the requirement was restored to the previous range of not less than 8 milligrams and not more than 12.5 milligrams per pound of bread. Because the iron issue has already been the subject of a hearing, no new hearing is justified.

10. One objection, dated May 13, 1976, was filed after the time permitted by section 701(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 371(e)), and is therefore not a valid objection. It objected to the prohibition in § 17.10(c)(16), (17), and (18) of the use of ingredients that may impart a color simulating that of egg to the finished food.

The Commissioner advises that those portions of § 17.10(c) (16) and (17) objected to have been stayed by the filing of other timely objections. The objection to § 17.10(c)(18) is denied because it was an untimely and therefore invalid objection.

11. It has come to the Commissioner's attention that there may be some question whether the limitation on yeast nutrients and calcium salts provided for in § 17.10(c)(13) applies to calcium propionate used as a preservative in bakery products. The Commissioner intends that any calcium propionate so used will not be subject to the limitation in § 17.10(c)(13). Accordingly, the Commissioner is clarifying that portion of the regulation by adding a sentence to state his intent.

12. The Commissioner is clarifying a point regarding application of the standards to the food, challah. The preamble to the regulations published in the February 12, 1976 FEDERAL REGISTER stated that the use of the word "challah" is not controlled by the standards. The Commissioner points out that, even though the requirements for egg bread do not apply to challah, the food known as challah does purport to be white bread or enriched bread and, accordingly, must meet the requirements in § 17.10 or § 17.20, as applicable. For example, the ingredient and labeling requirements in § 17.10 and the restrictions on the use of coloring apply to foods represented as "challah" (including any generally accepted variant spelling).

(Secs. 401, 701(e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e)) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).)

Part 17 is amended as follows:

1. In § 17.10, paragraph (c)(13) is revised to read as follows:

§ 17.10 Bread, white bread, rolls, white rolls, buns, white buns; identity; label statement of optional ingredients.

* * * * * *

(c) * * *

(13) Yeast nutrients and calcium salts, if the total quantity of such ingredients, with the exception of monocalcium phosphate and calcium propionate, is not more than 0.25 part for each 100 parts by weight of flour used. The quantity of monocalcium phosphate, including any quantity in the flour used, is not more than 0.75 part for each 100 parts by weight of flour used. Any calcium propionate used as a preservative in bread, rolls, or buns is not subject to the limitation prescribed in this paragraph.

* * * * * *

§ 17.10 [Amended]

2. In § 17.10, the following provisions are stayed pending full review of the objections and requests for hearing:

a. Paragraph (c)(5)(i) as it pertains to egg bread, egg rolls, and egg buns.

b. Paragraph (c)(5)(ii): Pending resolution of the issue, the requirements of § 17.1(a)(1)(ii) of the superseded standard will apply. That standard reads as follows:

(ii) Mono- and diglycerides of fat-forming fatty acids, diacetyl tartaric acid esters of mono- and diglycerides of fat-forming fatty acids, propylene glycol mono- and diesters of fat-forming fatty acids complying with the provisions of § 121.1113 of this chapter, or a combination of two or more of these. The total weight of these ingredients used does not exceed 20 percent by weight of the combination of such ingredients and the shortening, and the total amount of monoglyceride, diacetyl tartaric acid ester of monoglyceride, and propylene glycol monoester does not exceed 8 percent by weight of the combination; but if purified or concentrated monoglyceride alone is used, the amount does not exceed 10 percent by weight of the combination.

c. Paragraph (c)(16) as it pertains to the use of spices, spice oil, or spice extract that imparts a color simulating that of egg to a standardized bakery product not represented on the label as containing egg or egg product and not purporting to contain egg or egg product.

d. Paragraph (c)(17), to include that portion that reads "except that which may be present in butter if the intensity of the butter color does not exceed 'medium high' (MH) when viewed under diffused light (7400 Kelvin) against the Munsell Butter Color Comparator. The MH designation corresponds to the Munsell re-notation of 3.8Y 7.9/7.6." Pending resolution of the issue, coloring may not be added as such or as part of another ingredient.

e. Paragraph (e) as it pertains to the use of the word "egg" in the name of the food.

§ 17.20 [Amended]

3. In § 17.20, paragraph (b) as it pertains to the use of the word "egg" in the name of the food.

§ 17.40 [Amended]

4. In § 17.40, paragraph (b) as it pertains to the use of the word "egg" in the name of the food.

Accordingly, except as to those provisions that are stayed, compliance with the final regulations for bakery products published on February 12, 1976 (41 FR 6242), may begin immediately and all products initially introduced into interstate commerce on or after January 1, 1978, shall comply.

Effective date: The revision of § 17.10(c)(13) is effective October 15, 1976.

(Secs. 401, 701(e), 52 Stat. 1046 as amended, 70 Stat. 919 (21 U.S.C. 341, 371(e)).)

Dated: October 6, 1976.

[Docket No. 76P–0354]

PART 27—CANNED FRUITS AND FRUIT JUICES

Frozen Concentrate for Lemonade and Colored Lemonade; Standards of identity

The Food and Drug Administration is revising the standards of identity for frozen concentrate for lemonade and frozen concentrate for colored lemonade to (1) remove the proportionality limitations on the use of sweeteners other than sugar; (2) permit the use of any safe and suitable nutritive carbohydrate sweetener; and (3) require the label declaration of all optional ingredients. Except as to any provisions that may be stayed by the filing of proper objections, compliance with these final regulations, including any required labeling changes, may begin December 14, 1976, and all products initially introduced into interstate commerce on or after January 1, 1978 shall fully comply; objections by November 15, 1976.

The Commissioner of Food and Drugs issued a proposal in the FEDERAL REGISTER of April 9, 1975 (40 FR 16085) to revise the standards of identity for frozen concentrate for lemonade under § 27.101 (21 CFR 27.101) and frozen concentrate for colored lemonade under § 27.102 (21 CFR 27.102). The proposal was made in response to a petition submitted by the Corn Refiners Association (CRA), 1001 Connecticut Ave. NW., Washington, D.C. 20036, which was published with the proposal. In the proposal, the Commissioner invited comments on the merits of (1) removing the proportionality limitation for certain sweeteners (2) providing for the use of safe and suitable nutritive carbohydrate sweeteners as a class rather than the present "recipe" listing and (3) requiring the label declaration of optional ingredients.

In response to the proposal, fourteen letters (each containing one or more comments) were received from six consumers, one State Health Department dietitian, four lemonade concentrate producers, one industry association, and two sugar companies. Subsequent to the comment period, two letters (one each from the petitioner and a lemonade producer) responding to certain of these comments were received.

One comment endorsed and supported the proposed revisions. Five comments expressed support for certain proposed provisions. The remaining comments expressed opposition to revising the existing standards, offered suggested changes, and requested clarification of certain proposed provisions. A summary of the comments and the Commissioner's conclusions are as follows:

1. Five comments supported the proposed provision for the use, without limitation, of any "safe and suitable" nutritive carbohydrate sweeteners. Two of the comments expressed the view that such a provision would allow the industry to utilize the most recent advances in sweetener technology in packing quality products which would benefit the consumer in areas of price and nutrition. The remaining three comments expressed the opinion that the use of corn sugars or sirups should be permitted in any amount desired by the packer, sales force, and customer since the products have been found acceptable.

The Commissioner agrees with these comments and, except for minor modifications, is adopting the final regulations as proposed.

2. One comment, which was supported by subsequent comments, opposed permitting the use of any "safe and suitable" nutritive sweetener. It stated that the degree of variation in the relationship between sweetness and tartness of the product which is acceptable to the average consumer is relatively narrow and that to permit the use of any safe and suitable nutritive sweetener without restriction would greatly extend the range of permissible sweetness to sourness in lemonade. This comment was supported by (a) a table relating to the sweetness of certain corn sirups in comparison to sucrose "Handbook of Sugars" by Junk and Pancoast, p. 148) and (b) a study completed in 1960 by Pangborn et al., entitled "Consumer Opinion of Sweeteners in Frozen Concentrated Lemonade and Orange Juice Drink" (copies are on file with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, Md. 20852). The comment expressed the opinion, based upon the Pangborn study, that to amend the current standards as proposed so that a decreased level of sweetness is possible would seriously change the product's nature which the consumer expects from lemonade. One of the supporting comments added that "all alternative sweeteners as we understand it do not provide as sweet a taste as sucrose." Another supporting comment expressed the opinion that the proposal would permit the increased use of corn sweeteners, which may be less sweet than sucrose. It argued that to do so would permit competition detrimental to sound marketing practices.

The petitioner, in response to these comments, agreed with the figures in the table relating to the sweetness of sweeteners, but stated that the study by Pangborn et al., which involves the substitution of certain amounts of dextrose and corn sirup for sucrose, does not represent the situation that exists today. The petitioner pointed out that significant advances have been made in the production of new corn sirups. Thus, these new materials have compositions substantially identical to invert sirups and their sweetness is practically equivalent to that of sucrose. The petitioner noted that the corn sirup used in the Pangborn study was a 52.5–DE (dextrose equivalent) acid converted corn sirup and, as such, had a sweetness about 50 to 55 percent of the sweetness of sucrose, while sirups available today would be identical in sweetness to sucrose when measured by taste panels. A lemonade concentrate producer, in support of the CRA position, stated that it is possible to obtain the desired effects of body, flavor, and sweetness by judicious blending of nutritive carbohydrate sweeteners.

In view of the factors discussed above as they refer to a broad range of sweeteners, the Commissioner concludes that it would be in the best interest of consumers for a manufacturer of frozen concentrate for lemonade and colored lemonade to be permitted to satisfy consumer tastes in his particular marketing areas by having the freedom to provide the levels of sweetness desired by those markets.

3. One comment interpreted the proposal as permitting "the use of any sweetener in lemonade as long as the minimum brix in the concentrate is 48.4 degrees and the minimum solids (Brix) in the drink are 10.5 degrees."

The Commissioner concurs with that interpretation except that it appears that due to a typographical error the comment stated "48.4 degrees" when it should have stated "48.0 percent," which is reflected in the final regulation.

4. One comment stated that to use "corn syrup at lemon juice prices" is a "ruse" and requested that this proposed revision not be adopted.

The Commissioner believes that this comment results from a misunderstanding of the proposal with regard to the deletion of the proportionality limitation on the use of sweeteners other than sugar. He points out that the substitution of any nutritive carbohydrate sweetener, including "corn sirup", for the flavoring ingredient "lemon juice" is precluded by the minimum acidity requirement in § 27.101(a). The Commissioner concludes that, because the pro-

V41201 OCT 15 76 UM

posal did not address the amendment of paragraph (a) of this section, the substitution of "corn sirup" for "lemon juice" is not an issue.

5. One comment recommended "* * * that in the absence of an objective measure of sweetness which could become part of a standard, and to avoid requiring the consumer to guess at the sweetness of a can of frozen concentrate for lemonade prior to purchase, that this proposal be rejected."

The Commissioner agrees that an objective measure of the relative sweetness of frozen concentrate for lemonade is lacking. He points out that, at the present time, relative sweetness is normally measured using a subjective "preference rating test" (taste testing panel). He points out further that the present standard as well as the proposed revision provides for a broad range of sweetness and that neither provides for labeling to allow the consumer to differentiate between products of different sweetness levels. No data were submitted in support of establishing specific sweetness levels. If such data are available, they should be submitted in the form of a petition proposing to amend the standard to establish such levels and to provide for appropriate labeling so as to afford opportunity for other interested persons to comment. The Commissioner concludes that it is not in the interest of the consumer to delay action on the proposed revision until an objective measure of sweetness becomes available.

6. One comment, opposing the proposed revisions, asserted that "I see no need to increase the limit on corn sweeteners or giving manufacturers complete freedom of choice for sweeteners in lemonade. The product is already overly sweet." The comment suggested "* * * that if economy requires a change, it be in the addition of less sweetener. The consumer can always add more."

A comment responded to this assertion by stating that: "If the comment alleging concentrates for lemonade to be too sweet is a factual observation, then it argues for the use of blended sweeteners by which means the sweetness of the product may be controlled without greatly affecting the other organoleptic properties."

The Commissioner agrees that a producer who wishes to provide a less sweet product may simply add less sweetener and he recognizes that consumers desire sweetness variation. However, he concludes that it would be in the consumers' interest to allow the optional use of a wider range of safe and suitable sweetening ingredients since this will permit manufacturers to supply products with varying levels of sweetness for different markets.

7. One comment stated that the purpose of "freedom of choice" in use of sweeteners as proposed is ruled out because of the kinds of containers used for the frozen concentrate for lemonade. It further stated that the long "lead time" necessary for the ordering of containers wherein the labels are an integral part rules out complete freedom to change mixtures of sweeteners as the market price of sweeteners changes.

The Commissioner agrees that this regulation, which requires declaration of the name of sweeteners used, will not allow manufacturers to switch from one sweetener to another as the market price changes, unless the manufacturer is willing to maintain alternate stocks of labels or labeled containers declaring the alternate sweeteners that he might switch to. He further recognizes that this is particularly true for the type of container normally used for frozen concentrate for lemonade. He concludes, however, that providing for the optional use of safe and suitable nutritive carbohydrate sweeteners permits the manufacturer to be flexible in developing products to satisfy different market demands. He further concludes that the manufacturer must weigh the benefits to be derived from changing sweeteners, relative to fluctuations in market price against the cost of planning for and maintaining an adequate label inventory.

8. One comment stated that the provision for "safe and suitable nutritive carbohydrate sweeteners" without the specific listing of each in the standard along with a requirement that each sweetener used must be declared on the label defeats the goal of complete consumer information. In addition the comment wanted to know "exactly" which sweeteners are being used in the foods so that an intelligent choice could be made, based on current scientific knowledge of the safety of particular sweeteners, possible allergies, specific health conditions, etc.

The Commissioner is of the opinion that this comment reflects a misunderstanding of the proposal. In recent years, the standards of identity have permitted broad classes of optional ingredients but require label declaration of each ingredient used by its common or usual name. Therefore, he concludes that, since the standards as revised require that the common or usual name of each of the optional ingredients used be declared on the label, the goal desired by this comment is met.

9. One comment, supporting the proposed deletion of the limitation on certain sweeteners, stated that the manufacturers should be allowed complete freedom in choosing the type of sweetener used in lemonade with the stipulation, however, that the sweeteners in the amounts used are generally recognized as safe (GRAS). Another comment opposed the proposed "class" listing saying that it would make it too easy for the manufacturer to decide that a new chemical is "safe and suitable" without subjecting it to proper review.

The Commissioner points out that the sweeteners provided for in the proposal are required to be safe and suitable. It should be noted that the term "safe and suitable" is defined in § 10.1(d)(3) (21 CFR 10.1(d)(3)), which states, in part, that the ingredient "is not a food additive * * * as defined in section 201(s) * * * of the Federal Food, Drug, and Cosmetic Act as used in that food, or is a food additive * * * as so defined and is used in conformity with regulations established pursuant to section 409 * * * of the act." The Commissioner, therefore, concludes that safety is not an issue in the regulation as set forth below.

10. One comment concerned the petitioner's statement in support of his proposal that the restriction on optional sweeteners in the existing standard is "inconsistent with the more recently promulgated (albeit stayed) standards for lemonade (21 CFR 27.99) and colored lemonade (21 CFR 27.100)" and that an amendment of the existing standard to remove the restriction would be consistent with the Commissioner's action in the FEDERAL REGISTER of August 28, 1974 (39 FR 31304), in removing the 25-percent limitation on the use of corn sirups in fruit jellies (21 CFR 29.2) and fruit jams (21 CFR 29.3), on the grounds that it would promote honesty and fair dealing in the interest of consumers. The comment states that the proposed standards for lemonade and colored lemonade have no bearing on this present case and that it would be more pertinent to change the proposed standard for lemonade to correspond to the existing standard for frozen concentrate for lemonade than to change the existing standard to match both the proposed and the stayed standards. The comment states further that there is no inconsistency in applying different principles to the formulation of lemonade than are applied to fruit jams and jellies since at the 65-percent solids level prevailing in fruit jams and jellies, "the sweetness, regardless of which sweetener is used, becomes overpowering and has little relation to the delicate balance of sweetness and acidity necessary in lemonade."

The Commissioner rejects the comment. It was appropriate for the petitioner to refer to similar situations in which the Commissioner has allowed greater flexibility in the use of sweeteners. Even if the choice of sweeteners affects the balance of taste in the food, as asserted in the comment, manufacturers still should have flexibility to meet the range of consumer preference with respect to the balance achieved, just as manufacturers have flexibility with respect ot other similar matters of taste, such as the use of a smaller total amount of sweetener in the food.

The Commissioner has also reviewed the reasons for the stay of effective date of the lemonade and colored lemonade standards published in the FEDERAL REGISTER of July 27, 1968 (33 FR 10713) and notes that the stay was not because of objections to the lack of "sweetener proportionality" requirements but because of objections to other provisions. Furthermore, the Commissioner does not believe that the comment has provided adequate grounds for considering an amendment of the stayed regulation in lemonade, and he also points out that the proper procedure for proposing an amendment of the promulgated standard would be to file a petition under § 2.65 (21 CFR 2.65).

11. Two comments opposed giving manufacturers a "freedom of choice" of the kind of sweeteners added to food. One comment indicated concern about the physiological effects of the new corn sweeteners (i.e., high fructose-containing sirups) which might be used in the concentrates for lemonade within the interpretation of this standard.

The Commissioner is aware of no data to show, nor reason to believe, that substitution of fructose, e.g., in the form of the high fructose-containing sirups, for the conventional sucrose or invert sugar in lemonades will lead to any unusual physiological effects. The standard permits nutritive sweeteners to be used only if they are safe and suitable as defined in § 10.1

12. The second comment referred to in item 11 above, generalized about the effects on health of a high consumption of sugar.

The Commissioner is aware that there are hypotheses concerning the relationship between sugar consumption and diseases such as diabetes, obesity, and heart disease, but their validity is not established. If it were established that sugar is not safe and suitable as defined in § 10.1, it could no longer be used in these foods under the revised standard.

13. One comment questioned the petitioner's statement concerning the inconsistency of the existing standards for frozen concentrate for lemonade with the Codex Alimentarius Commission standards that allow different sweeteners to be freely admixed. Also, the comment stated that he was not aware of any standard for lemonade or frozen concentrate for lemonade having been proposed by the Food and Agriculture Organization and the World Health Organization.

The Commissioner agrees that the Codex Alimentarius Commission has not recommended any standard for lemonade or frozen concentrate for lemonade and points out that the petitioner's statement concerning the Codex Alimentarius Commission standards referred to the canned fruit jellies, jams, and preserves standards which have recently been amended to provide for the use of any safe and suitable nutritive carbohydrate sweetener.

14. One comment supported label declaration of all "optional" ingredients whether or not the finished food is standardized. The comment added that the declaration "should include preservatives used to treat food packaging, since these are known to migrate into the foods."

The Commissioner points out that, in nonstandardized foods, all ingredients must be declared and, for standardized foods, in accordance with provisions of section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), FDA is moving toward label declaration of all optional ingredients. As set forth in § 3.88 (21 CFR 3.88), FDA does not have legal authority to require the labels of standardized foods to declare mandatory ingredients. Frozen concentrate for lemonade, however, contains only optional ingredients; that is, there is a choice of the source of lemon juice (e.g., single strength or concentrated) and a choice of the sweetener or sweeteners used. Therefore, the Commissioner concludes that all ingredients used in frozen concentrate for lemonade and for frozen concentrate for colored lemonade must be declared on the label.

The Commissioner is not aware of the use of preservatives in food packaging used for frozen concentrate for lemonade. However, if preservatives or other substances are used which migrate to food from packaging, which are present in the food at insignificant levels, and which do not have any technical or functional effect in the food, they are exempt from label declaration under the provisions of § 1.10a(a)(3)(iii) (21 CFR 1.10a(a)(3)(iii)). On the other hand, preservatives present at functional levels, which are authorized for such use in conformity with section 409 of the act, must be declared on the label.

The Commissioner had made an editorial change in § 27.101(a) to update the method for determining soluble solids (by refractometer) in frozen concentrate for lemonade. A copy of the correction, which was published in the "Journal of the Association of Official Analytical Chemists," vol. 59, p. 368, March 1976, is on file with the Hearing Clerk, Food and Drug Administration.

Accordingly, having considered the comments received and other relevant information, the Commissioner concludes that it will promote honesty and fair dealing in the interest of consumers to revise the identity standards for frozen concentrate for lemonade and frozen concentrate for colored lemonade as set forth below.

The Commissioner has considered the environmental effects of the issuance or amendment of food standards and has concluded in 21 CFR 6.1(d)(4) that food standards are not major agency actions significantly affecting the quality of the human environment. Therefore, an environmental impact statement is not required for this final regulation. The Commissioner has also considered the inflation impact of this final regulation and has found that it would not cause a major inflationary impact as defined in Executive Order 11821, OMB Circular A-107, and the Guidelines issued by the Department of Health, Education, and Welfare. Therefore, no inflation impact statement is required. A copy of the inflation impact assessment is on file with the Hearing Clerk, Food and Drug Administration.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701 (e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)): *It is ordered*, That Part 27 be amended by revising §§ 27.101 and 27.102 to read as follows:

§ 27.101 Frozen concentrate for lemonade; identity; label statement of optional ingredients.

(a) Frozen concentrate for lemonade is the frozen food prepared from one or both of the lemon juice ingredients specified in paragraph (b) of this section together with one or any mixture of safe and suitable nutritive carbohydrate sweeteners. The product contains not less than 48.0 percent by weight of soluble solids taken as the sucrose value determined by refractometer and corrected for acidity as given in "Correction of Refractometer Sucrose Readings for Citric Acid Content in Frozen Concentrate for Lemonade," by Yeatman, Senzel and Springer, "Journal of the Association of Analytical Chemists," vol. 59, p. 368 (1976).[1] When the product is diluted according to directions for making lemonade which shall appear on the label, the acidity of the lemonade, calculated as anhydrous citric acid, shall be not less than 0.70 gram per 100 milliliters, and the soluble solids, measured as described for the concentrate, shall be not less than 10.5 percent by weight.

(b) The lemon juice ingredients referred to in paragraph (a) of this section are:

(1) Lemon juice or frozen lemon juice or a mixture of these.

(2) Concentrated lemon juice or frozen concentrated lemon juice or a mixture of these.

For the purposes of this section, lemon juice is the undiluted juice expressed from mature lemons of an acid variety; and concentrated lemon juice is lemon juice from which part of the water has been removed. In the preparation of the lemon juice ingredients, the lemon oil content may be adjusted by the addition of lemon oil or concentrated lemon oil in accordance with good manufacturing practice, and the lemon pulp in the juice as expressed may be left in the juice or may be separated. Lemon pulp that has been separated, which may have been preserved by freezing, may be added in preparing frozen concentrate for lemonade, provided that the amount of pulp added does not raise the proportion of pulp in the finished food to a level in excess of that which would be present by using lemon juice ingredients from which pulp has not been separated. The lemon juice ingredients may be treated by heat, either before or after the other ingredients are added, to reduce the enzymatic activity and the number of viable microorganisms.

(c) Each of the ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

§ 27.102 Frozen concentrate for colored lemonade; identity; label statement of optional ingredients.

(a) Frozen concentrate for colored lemonade conforms to the definition and

[1] Copies are available from: Association of Official Analytical Chemists, PO Box 540, Benjamin Franklin Station, Washington, DC 20044.

V41N201 OCT 15 76 UM

standard of identity prescribed for frozen concentrate for lemonade by § 27.101, except that it is colored with a safe and suitable fruit juice, vegetable juice, or any such juice in concentrated form, or with any other color additive ingredient suitable for use in food, including artificial coloring, used in conformity with regulations established pursuant to section 706 of the Federal Food, Drug, and Cosmetic Act.

(b) The name of the food is "Frozen concentrate for _____ lemonade," the blank being filled in with the word describing the color: for example, "Frozen concentrate for pink lemonade."

(c) Each of the ingredients specified in paragraph (a) of this section shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

Any person who will be adversely affected by the foregoing regulation may at any time on or before November 15, 1976, file with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the regulation, specify with particularity the provisions of the regulation deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed and should be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. Except as to any provisions that may be stayed by the filing of proper objections, compliance with this final regulation, including any required labeling changes, may begin December 14, 1976, and all products initially introduced into interstate commerce on or after January 1, 1978, shall fully comply. Notice of the filing of objections or lack thereof will be published in the FEDERAL REGISTER.

(Secs. 401, 701(e), 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e)).)

Dated: October 7, 1976.

PART 121—FOOD ADDITIVES

Food Additives Permitted in Food for Human Consumption; Candida Guilliermondii

The Food and Drug Administration is amending the food additive regulations to provide for use of *Candida guilliermondii* for the fermentative production of food grade citric acid; effective October 15, 1976; objections by November 15, 1976.

Notice was given by publication in the FEDERAL REGISTER of March 5, 1976 (41 FR 9584) that a food additive petition (FAP 6A3168) had been filed by Pfizer Inc., 235 East 42d St., New York, NY 10017, proposing that the food additive regulations (21 CFR Part 121) be amended in Subpart D to provide for the safe use of *Candida guilliermondii* for the fermentative production of food grade citric acid from an aqueous carbohydrate substrate where the components of the substrate consist of substances permitted in carbohydrate substrates used in the conventional enzymatic production of citric acid.

The Commissioner of Food and Drugs, having evaluated data in the petition and other relevant material, concludes that Part 121 should be amended by adding § 121.1255 (21 CFR 121.1255) to provide for safe use of *Candida guilliermondii*.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).)

Part 121 is amended by adding to Subpart D a new § 121.1255 to read as follows:

Subpart D—Food Additives Permitted in Food for Human Consumption; Candida Guilliermondii

§ 121.1255 Candida guilliermondii.

The food additive *Candida guilliermondii* may be safely used as the organism for fermentation production of citric acid in accordance with the following conditions:

(a) The food additive is the enzyme system of the viable organism *Candida guilliermondii* and its concomitant metabolites produced during the fermentation process.

(b)(1) The nonpathogenic and nontoxicogenic organism descending from strain, American Type Culture Collection (ATCC) No. 20474[1], is classified as follows:

Class: *Deuteromycetes.*
Order: *Moniliales.*
Family: *Cryptococcaceae.*
Genus: *Candida.*
Species: *guilliermondii.*
Variety: *guilliermondii.*

(2) The taxonomic characteristics of the reference culture strain ATCC No. 20474 agree in the essentials with the standard description for *Candida guilliermondii* variety *guilliermondii*, listed in "The Yeasts—A Taxonomic Study," 2d ed., 1970,[2] by Jacomina Lodder.

(c)(1) The additive is used or intended for use as a pure culture in the fermentation process for the production of citric acid using an acceptable aqueous carbohydrate substrate.

(2) The organism *Candida guilliermondii* is made nonviable and is completely removed from the citric acid during the recovery and purification process.

(d) The additive is so used that the citric acid produced conforms to the specifications of the "Food Chemicals Codex," 2d ed., 1972.[3]

Any person who will be adversely affected by the foregoing regulation may at any time on or before November 15, 1976, file with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the regulation, specify with particularity the provisions of the regulation deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and sought, and shall include a detailed delegally sufficient to justify the relief scription and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Five copies of all documents shall be filed and should be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date: This regulation shall become effective October 15, 1976.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)).)

Dated: October 7, 1976.

PART 121—FOOD ADDITIVES

Food Additives Resulting From Contact with Containers or Equipment and Food Additives Otherwise Affecting Food, Antioxidants and/or Stabilizers for Polymers

The Food and Drug Administration is amending the food additive regulations to provide for the safe use of octadecyl 3,5 - di - *tert*-butyl-4-hydroxyhydrocinnamate in rigid acrylic and modified acrylic plastics intended to contact food. This amendment is effective October 15, 1976; objections by November 15, 1976.

Notice was given by publication in the FEDERAL REGISTER of March 5, 1976 (41 FR 9583) that a food additive petition (FAP 6B3165) had been filed by American Cyanamid Co., Wayne, NJ 07470, proposing that the food additive regulations be amended to provide for the use of octadecyl 3,5 - di - *tert*-butyl-4-hydroxyhydrocinnamate as an antioxidant and/or stabilizer in rigid acrylic and modified acrylic plastics intended to contact food.

The Commissioner of Food and Drugs, having evaluated the data in the petition and other relevant material, concludes that § 121.2566(b) (21 CFR 121.2566(b)) and § 121.2591(a)(5) (21 CFR 121.2591(a)(5)) should be amended as set forth below.

(Federal Food, Drug and Cosmetic Act (Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).)

Subpart F of Part 121 is amended as follows:

1. In § 121.2566(b), by amending the item "Octadecyl 3,5-di-*tert*-butyl-4-hydroxyhydrocinnamate" by revising the second limitation to read as follows:

§ 121.2566 Antioxidants and/or stabilizers for polymers.

* * * * *

(b) List of substances:

	Limitations
* * * * *	
Octadecyl 3,5 - di-*tert* - butyl-4-hydroxyhydrocinnamate.	For use only:

	2. As provided in § 121.2520 and § 121.2591(a)(5).
* * * * *	

2. In § 121.2591(a)(5), by alphabetically adding a new item to the list of substances, to read as follows:

§ 121.2591 Semirigid and rigid acrylic and modified acrylic plastics.

* * * * *

(a) * * *
(5) * * *

Octadecyl 3,5-di-*tert*-butyl-4-hydroxyhydrocinnamate: For use only at levels not exceeding 0.01 percent by weight in rigid acrylic and modified acrylic plastics intended for repeated food-contact use.

Any person who will be adversely affected by the foregoing regulation may at any time on or before November 15, 1976, file with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the regulation, specify with particularity the provisions of the regulation deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Five copies of all documents shall be filed and should be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date: This regulation shall become effective October 15, 1976.

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Euthanasia Solution

The Food and Drug Administration approves a new animal drug application (100–809V) filed by Hoechst-Roussel Pharmaceuticals, Inc., Route 202–206 North, Somerville, N.J. 08876, for a drug intended for the humane euthanasia of animals without excitation or pain. The product is intended for use in dogs, cats, horses, mink, laboratory animals and birds. The approval is effective October 15, 1976.

The Commissioner Food and Drugs is amending Part 522 (21 CFR Part 522) to reflect this approval.

In accordance with § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of the safety and effectiveness data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4–65, 5600 Fishers Lane, Rockville, Md. 20852, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 522 is amended by adding new § 522.900 to read as follows:

§ 522.900 Euthanasia solution.

(a) *Specifications.* Each milliliter contains 200 milligrams of N-[2-(m-methoxy-phenyl)-2-ethyl-butyl-(1)]-gamma-hydroxybutyramide, 50 milligrams of 4,4'-methylene-bis(cyclohexyl-trimethyl-ammonium iodide), 5 milligrams of tetracaine hydrochloride, with 0.6 milliliter dimethylformamide in distilled water.

(b) *Sponsor.* No. 000039 in § 510.600(c) of this chapter.

(c) *Conditions of use.* (1) The drug is used for the humane euthanasia of animals without excitation or pain. It is used in dogs, cats, horses, mink, small laboratory animals (mice, rats, guinea pigs, and rabbits) and birds (pigeons and parakeets).

(2) Dosage—(i) *Dogs.* Intravenous or intracardiac injection: Use 0.3 milliliter/kilogram (0.14 milliliter/pound). Intrapulmonary injection: For animals weighing up to 10 kilograms, use 7 to 10 milliliters. In larger animals, follow initial 10 milliliters by another 3 to 10 milliliters by intrapulmonary or intracardiac administration.

(ii) *Cats.* Intravenous injection: Use 0.3 milliliter/kilogram (0.14 milliliter/pound). Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-2367]

PART 1915—IDENTIFICATION AND MAPPING OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The purpose of this notice is the identification of communities with areas of special flood or mudslide or erosion hazards in accordance with Part 1915 of Title 24 of the Code of Federal Regulations as authorized by the National Flood Insurance Program (42 U.S.C. 4001–4128). The identification of such areas is to provide guidance so that communities may adopt appropriate flood plain management measures to minimize damage caused by flood losses and to guide future construction, where practicable, away from locations which are threatened by flood hazards.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or federally related financial assistance for acquisition or construction purposes in an identified flood plain area having special flood hazards that is located within any community participating in the National Flood Insurance Program.

One year after the identification of the community as flood prone, the requirement applies to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition and construction in these areas unless the community has entered the program. The prohibition, however, does not apply to loans by federally regulated, insured, supervised or approved lending institutions (1) to finance the acquisition of a residential dwelling occupied as a residence prior to March 1, 1976, or one year following identification of the area within which such dwelling is located as an area containing special flood hazards, whichever is later, or made to extend, renew, or increase the financing or refinancing in connection with such a dwelling, (2) to finance the acquisition of a building or structure completed and occupied by a small business concern, as defined by the Secretary, prior to January 1, 1976, (3) any loan or loans, which in the aggregate do not exceed $5,000, to finance improvements to or rehabilitation of a building or structure occupied as a residence prior to January 1, 1976, or (4) any loan or loans, which in the aggregate do not exceed an amount prescribed by the Secretary, to finance nonresidential additions or improvements to be used solely for agricultural purposes on a farm.

The effective date of identification shall be 30 days after the date of publication in the FEDERAL REGISTER (November 15, 1976). This 30 day period does not supersede the statutory requirement that a community, whether or not participating in the program, be given the opportunity for a period of six months to establish that it is not seriously flood prone or that such flood hazards as may have existed have been corrected by floodworks or other flood control methods. The six months period shall be considered to begin 30 days after the date of publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later. Similarly, the one year period a community has to enter the program under Section 201(d) of the Flood Disaster Protection Act of 1973 shall be considered to begin 30 days after publication in the FEDERAL REGISTER or the effective date of the Flood Hazard Boundary Map, whichever is later.

Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas (FHBMs in effect).

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

PART 221—OPERATION AND MAINTENANCE CHARGES

Water Charges on the Ahtanum Indian Irrigation Project

These final regulations are issued under the authority delegated to the Commissioner of Indian Affairs by the Secretary of the Interior in 230 DM 1 and redelegated by the Commissioner to the Area Directors in 10 BIAM 3. The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

On page 37117 of the September 2, 1976, FEDERAL REGISTER (41 FR 172), there was published a notice of intention to modify § 221.1 of Part 221, Subchapter T, Chapter I, of Title 25 of the Code of Federal Regulations by changing the rate for annual operation and maintenance assessments on the Ahtanum Indian Irrigation Project for Calendar Year 1977 and subsequent years. This modification was proposed pursuant to the authority contained in the Acts of August 1, 1914 (38 Stat. 583), and March 7, 1928 (45 Stat. 210).

Interested persons were given until October 4, 1976, to submit written comments, suggestions, or objections regarding the proposed regulations.

During this period no comments, suggestions, or objections were submitted. Sufficient justification exists for modifying the rate for water charges for the Ahtanum Indian Irrigation Project as set forth below.

The modified § 221.1 shall become effective November 15, 1976.

Therefore, 25 CFR Part 221 is amended by revising § 221.1 as set forth below.

§ 221.1 Charges.

The operation and maintenance rate on lands of the Ahtanum Indian Irrigation Project, Yakima Indian Reservation, Washington, for the Calendar Year 1977 and subsequent years until further notice, is hereby fixed at $5.25 per acre per annum for each irrigable acre of land to which water can be delivered from the project works.

Dated: October 8, 1976.

DOYCE L. WALDRIP,
Acting Area Director.

PART 221—OPERATION AND MAINTENANCE CHARGES

Water Charges on the Toppenish-Simcoe Indian Irrigation Project

These final regulations are issued under the authority delegated to the Commissioner of Indian Affairs by the Secretary of the Interior in 230 DM 1 and redelegated by the Commissioner to the Area Directors in 10 BIAM 3. The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

On page 37117 of the September 2, 1976, FEDERAL REGISTER (41 FR 172), there was published a notice of intention to modify § 221.73 of Part 221, Subchapter T, Chapter I, of Title 25 of the Code of Federal Regulations by changing the rate for annual operation and maintenance assessments on the Toppenish-Simcoe Indian Irrigation Project for Calendar Year 1977 and subsequent years. This modification was proposed pursuant to the authority contained in the Acts of August 1, 1914 (38 Stat. 583) and March 7, 1928 (45 Stat. 210).

Interested persons were given until October 4, 1976, to submit written comments, suggestions, or objections regarding the proposed regulations.

During this period no comments, suggestions, or objections were submitted. Sufficient justification exists for modifying the rate for water charges for the Toppenish-Simcoe Indian Irrigation Project as set forth below.

The modified § 221.73 shall become effective November 15, 1976.

Therefore, 25 CFR Part 221 is amended by revising § 221.73 as set forth below.

§ 221.73 Charges.

The operation and maintenance rate for the lands under the Toppenish-Simcoe Irrigation Project, Yakima Indian Reservation, Washington for the Calendar Year 1977 and subsequent years until further notice, is hereby fixed at $5.45 per acre per annum for all lands for which application for water is made and approved by Project Engineer.

Dated: October 8, 1976.

DOYCE L. WALDRIP,
Acting Area Director.

PART 221—OPERATION AND MAINTENANCE CHARGES

Basic and Other Water Charges on the Wapato Indian Irrigation Project

These final regulations are issued under the authority delegated by the Secretary of Interior to the Commissioner of Indian Affairs by 230 DM 1 and redelegated by the Commissioner to the Area Directors in 10 BIAM 3. The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

Beginning on page 37117 of the September 2, 1976, FEDERAL REGISTER (41 FR 172), there was published a notice of intention to modify § 221.86 of Part 221, Subchapter T, Chapter I, of Title 25 of the Code of Federal Regulations by changing the basic rates for annual operation and maintenance assessments on the Wapato Indian Irrigation Project for Calendar Year 1977 and subsequent years. This modification was proposed pursuant to the authority contained in the Acts of August 1, 1914, (38 Stat. 583), and March 7, 1928 (45 Stat. 210).

Interested persons were given until October 4, 1976, to submit written comments, suggestions, or objections regarding the proposed regulations.

During this period no comments, suggestions, or objections were submitted. Sufficient justification exists for modifying the rate for basic and other water charges for the Wapato Indian Irrigation Project as set forth below.

The modified § 221.86 shall become effective November 15, 1976.

Therefore, 25 CFR Part 221 is amended by revising § 221.86 as set forth below.

§ 221.86 Charges.

The basic operation and maintenance rates on assessable lands under the Wapato Indian Irrigation Project, Yakima Indian Reservation, Washington, for the Calendar Year 1977 and subsequent years until further notice are:

(1) Minimum charges for all tracts in noncontiguous single ownership	$14.00
(2) Flat rate upon all farm units or tracts for each assessable acre except additional works lands	14.00
(3) Storage operation and maintenance. For all lands with a storage water right, known as "B" lands, in addition to other charges per acre	1.80
(4) Flat rate upon all farm units or tracts for each assessable acre of additional works lands	14.90

Dated: October 8, 1976.

DOYCE L. WALDRIP,
Acting Area Director.

SUBCHAPTER W—MISCELLANEOUS ACTIVITIES

PART 252—BUSINESS PRACTICES ON THE NAVAJO, HOPI AND ZUNI RESERVATIONS

Retail Business and Credit Transactions; Notice of Effective Date of Certain Provisions

OCTOBER 6, 1976.

This notice is published in exercise of authority delegated by Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2. The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

On Thursday, January 22, 1976, FR Doc. 76–1915 appearing at page 3288 in the FEDERAL REGISTER gave notice that the effective date for §§ 252.7(b), 252.14 and 252.32(c) of 25 CFR contained in FR Doc. 75–22997 appearing at page 39835 in the FEDERAL REGISTER of Friday, August 29, 1975 (40 FR 39835), was being deferred until further notice.

On Thursday, April 1, 1976, FR Doc. 76–9212 appearing at page 13938 in the FEDERAL REGISTER proposed revisions to those provisions. Those revisions were published as final regulations on Tuesday, June 8, 1976, in FR Doc. 76–16466 appearing at page 22936 in the FEDERAL REGISTER.

The effective date had been deferred to correct certain defects in the affected provisions. Since FR Doc. 76–16466 corrects those defects, this document gives notice of the effective date for the deferred provisions.

Effective date: 25 CFR 252.7(b), 252.14 and 252.32(c) become effective October 15, 1976.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Approval of Supplements to Maryland Plan

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, provides procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18 (c) of the Act and 29 CFR Part 1902. On July 5, 1973, a notice was published in the FEDERAL REGISTER (38 FR 17834) of the approval of the Maryland Plan and the adoption of Subpart O of Part 1952 containing the decision and describing the plan. By letters dated April 29, 1975, September 26, 1975, October 2, 1975, October 24, 1975, October 29, 1975, and January 30, 1976, the State of Maryland submitted supplements to the plan involving developmental changes and State-initiated changes (see Subparts B and E of 29 CFR Part 1953). The supplements consist of various rules, regulations and administrative procedures promulgated by the State designee as well as certain developmental changes. On January 28, 1976, a notice was published in the FEDERAL REGISTER (41 FR 4035) concerning the submission of the supplements to the Assistant Secretary for approval; notice was also given in that publication that interested persons were afforded thirty days from the date of publication to submit written comments.

2. *Description of supplements*—(a) *Health plan.* In accordance with the requirement of the developmental step set forth in 29 CFR 1952.213(1), the State of Maryland was to develop and implement an occupational health plan by July 1975. Following review by OSHA, the State submitted changes to its plan by letters dated October 24, 1975, October 29, 1975, and January 30, 1976, describing the manner and methodology by which Maryland is implementing and will implement its health program under the plan. Among other things, the health plan describes the organization and staffing of health personnel, training, inspection scheduling, and compliance activities to be implemented under the health plan. The plan also provides for consultation services regarding occupational health whenever requested by an employer.

V41201 OCT 15 76 UM

(b) *Management information system.* In accordance with the requirement of the developmental step set forth in 29 CFR 1952.213(n), the designee would have developed and implemented a Management Information System by December 1975. By an additional letter dated January 30, 1976, the State submitted a document describing the operation of its Management Information System, which became fully operational as of May 1, 1975.

(c) *Enforcement of agricultural standards.* The decision approving the Maryland plan provided that agricultural standards would be enforced by the Maryland Department of Agriculture by agreement with the Division of Labor and Industry. By a letter dated April 29, 1975, the designated agency indicated that the agreement with the Department of Agriculture has been terminated and that the State's agricultural standards are now being enforced by the Division of Labor and Industry.

(d) *Maritime enforcement.* The decision approving the Maryland Plan indicated that the State intended to adopt and enforce Federal standards applicable to maritime activities by December 1975. By an additional letter dated October 29, 1975, the State stated that it does not intend to adopt and enforce the standards contained in 29 CFR Parts 1915, 1916, 1917, and 1918 (and therefore 29 CFR 1910.13 through 1910.16) and accordingly has amended its plan to delete all references to enforcement of maritime standards within the State.

(e) *Boiler inspections.* The decision approving the Maryland State plan provided that the State would conduct boiler certification inspections. By a letter dated October 2, 1975, the designated agency indicated that this function is being deleted from coverage under the State plan. The designee has requested the Maryland Board of Public Works to remove all boiler personnel from the MOSH portion of the State's budget.

(f) *Fire inspection program.* By a letter dated September 26, 1975, the State indicated that an interagency agreement between the Division of Labor and Industry and the State Fire Marshal's Office for the enforcement of fire safety standards has been terminated as of March 31, 1975. The State indicated that inspectors from the Fire Marshal's staff would be transferred to the Division of Labor and Industry and that specialized training in the fire safety standards would be provided for additional inspectors already in the Department of Labor and Industry.

3. *Public participation.* Interested persons were afforded 30 days to submit written comments or request a hearing concerning the proposed supplements listed above. No comments or requests for a hearing were received on the items during the period allotted. The changes meet current requirements, are enforcement oriented or administrative in nature, and will undergo evaluation with the plan as a whole.

4. *Location of the plan and its supplements for inspection and copying.* A copy of these supplements, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room N-3608, 200 Constitution Avenue, NW., Washington, D.C. 20210; Technical Data Center (OSHA), Room N-3620, 200 Constitution Avenue, NW., Washington, D.C. 20210; Regional Administrator, Occupational Safety and Health Administration, Suite 15220 Gateway Building, 3535 Market Street, Philadelphia, Pennsylvania 19104; Office of the Commissioner, Maryland Division of Labor and Industry, 203 East Baltimore Street, Baltimore, Maryland 21202.

5. *Decision.* After careful consideration, the Maryland plan supplements outlined above are approved under 29 CFR Part 1953 of this chapter. This decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally. In addition, §§ 1952.213 and 1952.214 of Subpart O of 29 CFR Part 1952 are amended to reflect the plan amendments in the State's developmental schedule and the completion of two developmental steps. 29 CFR 1952.213 is amended by deleting the existing paragraphs (c) and (o), redesignating paragraph (n) as paragraph (c), and revising paragraph (k) as follows:

§ 1952.213 Developmental schedule.

* * * * *

(k) Inspection and enforcement of agriculture standards by December 1974.

* * * * *

In addition, 29 CFR 1952.214 is amended to reflect the completion of developmental steps by adding paragraphs (c) and (d) as follows:

§ 1952.214 Completed developmental steps.

* * * * *

(c) In accordance with the commitment expressed in § 1952.213(l), the State of Maryland developed and implemented an occupational health plan by December 31, 1975.

(d) In accordance with the commitment expressed in § 1952.213(n), the designee developed a fully operational Management Information System by May 1, 1975.

(Secs. 8(g), 18, Pub. L. 91-596, 85 Stat. 1600, 1608 (29 U.S.C. 657(g), 667).)

Signed at Washington, D.C. this 7th day of October 1976.

MORTON CORN,
Assistant Secretary of Labor.

Title 36—Parks, Forests, and Public Property

CHAPTER I—NATIONAL PARK SERVICE, DEPARTMENT OF THE INTERIOR

PART 2—PUBLIC USE AND RECREATION

Smoking in Caves

Pursuant to the authority contained in section 3 of the Act of August 25. 1916 (39 Stat. 535, 16 U.S.C. 3) and 245 DM 1 (34 FR 13879), as amended, a new § 2.38 is hereby added to Title 36, Code of Federal Regulations, as set forth below.

The purpose of this amendment is to reduce a recently discovered health hazard to park, concessioner, and contractor employees who work in cave environments. This is necessary because of medical and scientific evidence which indicates that there is a detrimental synergistic effect associated with the combined inhalation, over an extended period of time, of tobacco smoke and certain radioactive particles which have been found to be existent in caves and which are known as "radioactive daughters of radon gas."

Park Superintendents presently have authority to prohibit smoking on any lands in park areas; this authority has been used in the past and is being used at the present time to close some caves to smoking. However, the regulation providing this authority, 36 CFR §2.12(f), is principally for purposes of fire prevention. Because the need to close caves to smoking relates primarily to an environmental health hazard and not to fire prevention, the National Park Service considers it advisable in this instance to promulgate a regulation which provides a clearer basis for action by park Superintendents.

It has been determined, pursuant to the National Environmental Policy Act of 1969 and applicable guidelines, that the regulation set forth below is not a major Federal action which will have a significant effect on the quality of the human or natural environment and, therefore, no environmental impact statement is required.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process by providing a public comment period prior to the implementation of a new or amended regulation. However, in this instance it has been determined that the emergency nature of this action requires immediate implementation, without waiting for the passage of the public comment period and 30 day waiting period which are usually required. Nevertheless, the National Park Service is interested in receiving public comment on this regulation; interested persons may submit written comments or suggestions to the Director, National Park Service, U.S. Department of the Interior, Washington, D.C. 20240. All comments received will be reviewed with regard to the need for any modifications in the regulation. Comments will be received until November 15, 1976.

Effective Date: This regulation shall become effective on October 15, 1976.

Part 2 of Title 36, Code of Federal Regulations is amended by the addition of §2.38 as follows:

§ 2.38 Smoking in caves.

(a) The smoking of tobacco or the carrying of burning or smoldering tobacco is prohibited in all caves where the alpha radiation exposure to radon daughter products is above 0.1 working levels (WL).

(b) Signs notifying the public, park employees, contractors, and concession employees of this prohibition shall be prominently displayed at cave entrances. Verbal notification of this prohibition shall be made during orientation programs prior to cave tours. Documentation of the specific needs for this prohibition shall be available for the inspection of persons requesting this information.

JOHN COOK,
Associate Director,
Park System Management.

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 630-7]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revocation of Gasoline Rationing Regulations

Under the Clean Air Act as amended in 1970, State Implementation Plans (SIP's) were required to contain all regulations necessary to attain the health-related national ambient air quality standards (NAAQS) no later than mid-1977. To the extent that State-developed SIP regulations are inadequate to insure such NAAQS attainment, the Act requires EPA to promulgate the necessary SIP regulations.

In 1973, EPA was required by Court orders to promulgate SIP regulations providing for timely attainment of the NAAQS for carbon monoxide and photochemical oxidants in certain areas of the United States. In response to these orders, EPA added to some SIP's a gasoline rationing regulation to take effect in 1977. This type of regulation was imposed only in those areas where EPA found that all reasonably available measures would not be adequate to attain the NAAQS by mid-1977.

At the time EPA promulgated the gasoline rationing regulations and several times since then, EPA has publicly stated that such regulations would produce extremely adverse social and economic consequences if implemented. Since EPA has had no desire to implement the regulations, EPA has since 1973 proposed and endorsed amendments to the Clean Air Act which would authorize their revocation. Over the last several months, new Clean Air Act amendments which would have authorized such a revocation passed both Houses of Congress (H.R. 10498 and S. 3219). Such authorization was retained in the compromise amendments approved by the House and Senate Conferees. On October 1, however, Congress adjourned without completing action on the new Clean Air Act amendments.

Since it appears quite unlikely that Congress will enact new legislation before implementation of the gasoline rationing regulations is scheduled to begin (certain reports are to be filed by March 1977 and full implementation is to occur in May 1977), and since EPA has no intention of implementing the regulations, I believe that EPA should revoke them now.

I realize that this revocation will render the affected SIP's defective as a legal matter, since such SIP's will no longer contain regulations which provide for NAAQS attainment. I am convinced, however, that whatever benefits may be gained from keeping a technically legal SIP on the books by retaining the gasoline rationing regulations are outweighed by the seriously disruptive social and economic consequences of such regulations.

This revocation should not be construed as indicating that EPA will accept SIP's which do not insure attainment of the health-related NAAQS on grounds of cost. In fact, EPA is currently in the process of notifying many States that their presently-inadequate SIP's must soon be revised to include all achievable measures necessary to attain the NAAQS as expeditiously as practicable. Onerous, expensive, and/or "technology-forcing" requirements must be imposed wherever necessary. EPA's action today is thus a special case; it is being taken only because of the extraordinarily disruptive nature of the gasoline rationing regulations and because both Houses of Congress have affirmatively expressed their desire that such regulations not be implemented.

This revocation is effective October 15, 1976.

(Secs. 110, 301, Clean Air Act, as amended, (42 U.S.C. 1857c-5, 1857g).)

Dated: October 12, 1976.

JOHN QUARLES,
Acting Administrator.

Title 41—Public Contracts and Property Management

CHAPTER 51—COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Miscellaneous Amendments

A notice of proposed rulemaking was published in the FEDERAL REGISTER (41 FR 37343) on September 3, 1976, which would make the Committee Regulations 41 CFR Part 51 compatible with the new Government fiscal year and clarified the channels and timing for the submission of annual workshop certifications and workshop information required by the Committee to prepare its annual report required by section 1(i) of Pub. L. 92-28.

In addition to the proposed changes § 51-4.2(c) has been modified to reflect the new Federal fiscal year and in § 51-2.4 (a) and (c) the word "price" has been deleted since price is no longer published in the Procurement List as most prices changes at least twice each year as the result of the semiannual review of prices or significant changes in workshop costs.

No unfavorable comments have been received. The proposed regulations are hereby adopted as set forth below.

Effective date: October 15, 1976.

By the Committee.

C. W. FLETCHER,
Executive Director.

PART 51-1—GENERAL

1. Section 51-1.2 is amended by revising paragraph (c) and adding paragraph (o) as follows:

§ 51-1.2 Definitions.

* * * * *

(c) "Fiscal Year" means the 12-month period beginning on October 1 of each year.

* * * * *

(o) "Participating workshop" means any workshop which has been authorized by the Committee to produce a commodity or provide a service to the Government under the Act.

PART 51-2—COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

§ 51-2.4 [Amended]

2. Section 51-2.4 is amended by deleting the word "price" in paragraphs (a) and (c).

PART 51-3—CENTRAL NONPROFIT AGENCIES

3. Section 51-3.2 is amended by revising the last sentence of paragraph (j) and adding paragraph (k) as follows:

§ 51-3.2 Responsibilities.

* * * * *

(j) * * * This report will be submitted by December 15 covering the fiscal year ending the preceding September 30.

V41N201 OCT 15 76 UM

(k) Review and forward to the Committee by December 15 the annual workshop certification for each of its participating workshops covering the fiscal year ending the preceding September 30.

PART 51–5—WORKSHOPS

4. Section 51–4.2 is amended by revising paragraph (c) as follows:

§ 51–4.2 Procedures for qualification.

* * * * *

(c) To maintain its qualification under the Act, each workshop authorized to produce a commodity or provide a service under the Act must continue to meet the requirements of a "workshop for the blind" or "workshop for the other severely handicapped" as defined in § 51–1.2 (h) and (i) respectively and shall complete and submit an annual workshop certification to its central nonprofit agency by November 15 for the fiscal year ending the preceding September 30.

5. Section 51–4.3 is amended by revising paragraph (a)(4) as follows:

§ 51–4.3 Responsibilities.

(a) * * *

(4) Submit to its central nonprofit agency by November 15 the appropriate annual workshop certificate and the information required by the central nonprofit agency to prepare its annual report both covering the fiscal year ending the preceding September 30.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

[Circular No. 2408]

PART 3100—OIL AND GAS LEASING

Bond Requirements

On November 25, 1975, there was published in the FEDERAL REGISTER (40 FR 54585) a proposed revision of the bonding procedures for oil and gas leasing activities to provide for adequate bonding and for a simple, modern method for requiring bonds consistent with the policy in the Mineral Leasing Act of February 25, 1920 (30 U.S.C. 181–287) and the Mineral Leasing Act for Acquired Lands of August 7, 1947 (30 U.S.C. 351–357). The public was given until December 26, 1975, to comment on the proposal. Nine comments were received and considered as follows.

Commenters suggested not deleting, as proposed, § 3104.9 which deals with exploration bonding requirements. It is planned to revise § 3104.9 under separate rulemaking action, at which time it will be placed in 43 CFR Part 3045. However, to preclude a possible void in the regulations between the two rulemaking actions, § 3104.9 is being retained in these regulations until changed by the separate rulemaking.

A suggestion to delete the words "geophysical exploration" from § 3104.2(a) was not adopted but the section was clarified to show that the section relates to exploration by the lessee or the lessee's operator.

Several commentors thought that the proviso in § 3104.2(b) and § 3104.3 (a) and (b), that an operator's bond will not be accepted unless the operator holds an approved operating agreement, is a new procedure. The procedure is not new. It presently appears in 43 CFR subpart 3104. The procedure remains in the regulations.

It was suggested that in the definition of "operator" the words "manages operations" be changed to "conducts operations". This suggestion has been adopted.

A suggestion to change the term "unit bond" in § 3104.2(c) to "unit operator's bond" has been adopted. The suggestion to add the term "unit operator's bond" to § 3104.3 was not adopted because a unit operator's bond is unique to a unit and cannot be replaced with a statewide or nationwide bond.

Request was made to establish a maximum bond limit in § 3104.4 and to base an increase in a bond upon the sole determination of the Area Oil and Gas Supervisor. Neither suggestion was adopted. It is essential that the size of a bond remain flexible so that all situations may be covered. In addition, the authorized officer of the Bureau must also have the authority to increase the amount of a bond in order to fulfill the Bureau's responsibilities for the surface management of a mineral activity.

A suggestion was made for more specificity in § 3104.8 in identifying an acceptable alternative bond. The wording remains broad to give the authorized officer latitude in meeting all situations.

Except for the changes discussed and other minor editorial changes the amendment remains as proposed. The present §§ 3104.9, 3104.9–4, and 3104.9–5 are retained in their entirety. The remainder of 43 CFR Subpart 3104 is revised as set forth below and shall become effective on November 16, 1976.

CHRIS FARRAND,
Deputy Assistant Secretary of the Interior.

OCTOBER 8, 1976.

1. The table of contents for Subpart 3104 is amended as follows:

Sections 3104.0–5 through and including § 3104.8 are revised to read as follows:

Subpart 3104—Bonds

Sec.
3104.0–5 Definitions.
3104.1 Types of bonds.

3104.9–4 Riders to existing bond forms.
3104.9–5 Termination of period of liability.

AUTHORITY: Mineral Leasing Act of February 25, 1920 (41 Stat. 437), as amended and supplemented (30 U.S.C. 181–287) and the Mineral Leasing Act for Acquired Lands of August 7, 1947 (30 U.S.C. 351–357).

Subpart 3104—Bonds

§ 3104.0–5 Definitions.

For the purpose of this subpart: (a) "Operator" means the person authorized under the operating agreement approved by the Department to conduct operations on the leased land as specified in such agreement.

(b) "Unit Operator" means the person authorized under the unit agreement approved by the Department to conduct operations on unitized lands as specified in such agreement.

2. Sections 3104.1 through 3104.8 are revised to read as follows:

§ 3104.1 Types of bonds.

Bonds under this subpart must be either surety bonds or personal bonds.

(a) *Surety bond.* Surety bonds must be issued by qualified surety companies approved by the Treasury Department (see Department of the Treasury Circular 570, as revised periodically in the FEDERAL REGISTER).

(b) *Personal bond.* Personal bonds must be accompanied by a deposit as security therefor of negotiable Treasury bonds of the United States or cash of a value equal to the amount specified in the bond. Negotiable Treasury bonds must be accompanied by a proper conveyance to the Secretary of full authority to sell such securities in case of default in the performance of the terms and conditions of the lease.

§ 3104.2 Types of coverage.

(a) *General lease and drilling bond.* A general lease and drilling bond in the amount of not less than $10,000, conditioned upon compliance with all the terms and conditions of the lease must be furnished prior to entry and commencement of geophysical exploration or drilling operations by the lessee or his operator.

(b) *Operator's bond.* An operator's bond in the amount of not less than $10,000, conditioned upon compliance with all the terms and conditions of the lease, may be furnished in lieu of a general lease and drilling bond. Where there are two or more operators having interests in different formations or portions of the lease, each operator may file an operator's bond in his own name as principal on the bond in lieu of the general lease and drilling bond. In any event, every operator shall be covered by either a general lease and drilling bond or an operator's bond.

(c) *Unit operator's bond.* The approved unit operator may furnish and maintain a unit operator's bond conditioned upon faithful performance of the duties and obligations of the agreement and the terms and conditions of every lease subject thereto in lieu of a separate general lease and drilling bond or operator's bond for each lease committed to the unit agreement. All unit operator's bonds must be furnished upon request and in at least the amount recommended by the Area Oil and Gas Supervisor. (See 30 CFR § 226.15 for form of Unit Operator's bond.)

(d) *Bond for the protection of the surface owner.* Separate bonds for the protection of surface owners are no longer required. Adequate protection of surface owners is provided by bonds required from either the lessees, operators, or unit operators.

§ 3104.3 Statewide and Nationwide bonds.

(a) *Statewide bond.* In lieu of general lease and drilling bonds and operator's bonds, holders of leases or approved operating agreements, may furnish a bond in the amount of at least $25,000 covering all leases and operations in any one State under either the Mineral Leasing Act of 1920 or the Mineral Leasing Act for Acquired Land of 1947. Operators functioning under both Acts will be required to furnish separate bonds.

(b) *Nationwide bond.* In lieu of general lease and drilling bonds, operator's bonds, or statewide bonds, holders of leases or approved operating agreements may furnish a bond in the amount of at least $150,000 covering all leases or operations nationwide under both the Mineral Leasing Act of 1920 and the Mineral Leasing Act for Acquired Lands of 1947.

§ 3104.4 Increased amount of bonds.

The authorized officer, on his own motion or upon the recommendation of the Area Oil and Gas Supervisor, may elect to increase the amount of any bonds required under this Subpart 3104 when additional coverage is determined appropriate.

§ 3104.5 Where filed and number of copies.

All bonds must be filed in the proper office (See Part 1820). A single copy executed by the principal and, in the case of surety bonds, by both the principal and an acceptable surety is sufficient.

§ 3104.6 Form of bonds.

All bonds must be furnished on forms approved by the Director.

§ 3104.7 Default.

(a) *Payment by surety.* Where, upon a default, the surety makes payment to the Government of any obligation incurred under a lease, the face amount of the surety bond or personal bond and the surety's liability thereunder shall be reduced by the amount of such payment.

(b) *Penalty.* After default, upon penalty of cancellation of all of the leases covered by such bond, that principal shall post a new bond in the amount previously held by the Government, within 6 months after notice, or within such shorter period as the authorized officer of the Bureau of Land Management may fix. However, in lieu thereof, the principal may within that time file separate or substitute bonds for each lease or operating agreement. Where a bond is furnished by an operator or unit operator, suit may be brought thereon without joining the lessee when not a party to the bond.

§ 3104.8 Termination of period of liability.

The authorized officer will not give consent to termination of the period of liability of any bond unless an acceptable alternative bond has been filed or until all the terms and conditions of the lease have been met.

PART 1033—CAR SERVICE

Car Distribution Directions, Appointment of Agents

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 7th day of October 1976.

Upon further consideration of Revised Service Order No. 1002 (35 FR 7016; 36 FR 23803; 37 FR 28301; 38 FR 35002; 39 FR 44011; and 40 FR 59744), and good cause appearing therefor:

It is ordered, That: § 1033.1002–A Revised Service Order No. 1002–A—Car distribution directions—appointment of agents be, and it is hereby, vacated and set aside.

(Secs. 1, 12, 15, 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, 17(2)). Interprets or applies secs. 1(10–17), 15(4), 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4), (17(2)).)

It is further ordered, That this order shall become effective at 11:59 p.m., October 7, 1977; that copies of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

PART 1033—CAR SERVICE

Appointment of Embargo Agents

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 7th day of October 1976.

It appearing, that the matter of car service (Section 1, Paragraphs 10–17, inclusive, of the Interstate Commerce Act) being under consideration, it is the opinion of the Commission that whenever any carrier by railroad, subject to Part I of the Interstate Commerce Act, is unable to control freight traffic movements, because car accumulations, threatened congestions, or other interferences of a temporary nature compel restrictions against car movements, car service will be promoted in the interest the public and the commerce of the people by the appointment of agents with authority to direct the placement of embargoes; that notice and public procedures are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1253 Service Order No. 1253.

(a) *Appointment of embargo agents.* Joel E. Burns, Director, and Lewis R. Teeple, Assistant Director, Bureau of Operations, Interstate Commerce Commission, Washington, D.C., are hereby appointed Agents of the Interstate Commerce Commission and vested with authority to direct the placement of embargoes by railroads at such points where

VOL 41 NO 201 OCT 15 1976 UM

freight cars are being unduly delayed due to accumulations, congestions, or emergency situations.

(b) Embargoes placed under this order shall be at the direction of the Agents of the Commission and shall be published through the Association of American Railroads, Car Service Division, and in conformity with Rule 16 of the "Code of Car Hire Rules and Interpretations—Freight" of the Association of American Railroads and of Circular CSD–87, Sixth Revision, both published in the official Railway Equipment Register, ICC–RER No. 400 issued by W. J. Trezise, or successive issues or re-issues thereof.

(c) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(d) *Rules, Regulations, and Practices Suspended.* The operation of all rules, regulations, and practices insofar as they conflict with the provisions of this order, is hereby suspended.

(e) *Effective date.* This order shall become effective at 11:59 p.m., October 12, 1976.

(f) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., October 31, 1977, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, 17(2)). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4) 17(2)).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3, Commissioners Brown, MacFarland and Clapp.

PART 1034—ROUTING OF TRAFFIC

Rerouting of Traffic, Appointment of Agents

At a session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 7th day of October 1976.

It appearing, That the matter of car service (Section 1, Paragraphs 10–17, inclusive, of the Interstate Commerce Act) being under consideration, it is the opinion of the Commission that whenever any carrier by railroad, subject to Part I of the Interstate Commerce Act, is, for any reason, unable to transport traffic offered, car service will be promoted in the interest of the public and the commerce of the people by the appointment of agents with authority to reroute and divert such traffic; that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

§ 1034.1252 Service Order No. 1252.

(a) Rerouting of traffic—appointment of agents. Joel E. Burns, Director, and Lewis R. Teeple, Assistant Director, Bureau of Operations, Interstate Commerce Commission, Washington, D.C., are hereby appointed Agents of the Interstate Commerce Commission and vested with authority to authorize diversion and rerouting of loaded and empty freight cars from and to any point in the United States whenever, in their opinion, an emergency exists whereby any railroad is unable to move traffic currently over its lines.

(b) *Application.* The provisions of this order shall apply to intrastate, interstate and foreign commerce.

(c) *Effective date.* This order shall become effective at 11:59 p.m., October 12, 1976.

(d) *Expiration date.* This order shall expire at 11:59 p.m., October 31, 1977, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, 17(2), 24 Stat. 379, 383, 384, as amended; (49 U.S.C. 1, 12, 15, 17(2). Interprets or applies secs. 1(10–17), 15(4) and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4), 17(2)).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the care service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Division 3, Commissioners Brown, MacFarland and Clapp.

ROBERT L. OSWALD,
Secretary.

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Opening of Lake Alice National Wildlife Refuge, North Dakota to the Hunting of Migratory Game Birds, Upland Game and Big Game

On August 30, 1976, there was published in the FEDERAL REGISTER (No. 41 FR 36518) a notice of proposed rulemaking adding Lake Alice National Wildlife Refuge, North Dakota, to the list of refugee areas which are open for the hunting of migratory game birds, upland game, and big game. These lists are published at 50 CFR 32.11, 32.21 and 32.31. As a general rule, most areas within the National Wildlife Refuge System are closed to hunting until officially opened by regulation.

Pursuant to the authority of 16 U.S.C. 668dd(d), as redelegated to the Director of the United States Fish and Wildlife Service at DM 242.1.1, the Director has determined that the opening of Lake Alice National Wildlife Refuge to public hunting would not be contrary to the provisions of law applicable to the areas, would be compatible with the principles of sound wildlife management, would be in the public interest and would not be detrimental to the objectives for which the area was established.

The public was provided a 30-day comment period and was advised that an environmental assessment had been prepared on the proposal and was available for public inspection.

No comments were received on the proposed rulemaking.

Based on the preceding and an evaluation of the environmental assessment, it has been determined that the hunting of migratory game birds, upland game and big game on Lake Alice National Wildlife Refuge, North Dakota, is not a major Federal action which would significantly affect the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(c)). The preparation of an environmental impact statement on the proposed action is, therefore, not required.

Accordingly, the proposed rulemaking is hereby adopted without change and §§ 32.11, 32.21 and 32.31 are amended as set forth below:

§ 32.11 List of open areas; migratory game birds.

NORTH DAKOTA

LAKE ALICE NATIONAL WILDLIFE REFUGE

§ 32.21 List of open areas; upland game.

NORTH DAKOTA

LAKE ALICE NATIONAL WILDLIFE REFUGE

§ 32.31 List of open areas; big game.

NORTH DAKOTA

LAKE ALICE NATIONAL WILDLIFE REFUGE

Effective date: Because of the time limitations involved with rapid approach of the State hunting season, and the need to coordinate state and federal hunting regulations and seasons, the U.S. Fish and Wildlife Service has concluded that "good cause" exists within the meaning of section 553(d)(3) of the Administrative Procedures Act to expedite the implementation of this rulemaking. Therefore, this rulemaking will become effective immediately upon publication.

Dated: October 7, 1976.

LYNN A. GREENWALT,
Director, U.S. Fish and Wildlife Service.

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 216—REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS

Prohibition on Encircling Marine Mammals in the Course of Fishing Operations for Yellowfin Tuna

On December 5, 1975, the Director, National Marine Fisheries Service promulgated amendments to regulations, § 216.24, 40 FR 56899 governing the incidental taking of marine mammals in the course of commercial fishing operations during 1976.

On June 11, 1976 (41 FR 23680), the Director announced a limit of 78,000 porpoises that may be killed in 1976 pursuant to the general permit issued to the American Tunaboat Association. Accordingly, § 216.24(d)(2)(i)(A) was amended to establish a 78,000 quota and provide a notice 30 days prior to the date upon which a prohibition on encircling porpoise is to become effective.

On July 27, 1976 (41 FR 31227), the Director proposed to adopt a method by which the National Marine Fisheries Service would determine when the limit would be reached and further setting on porpoise would be prohibited, and to amend § 216.24(d)(2)(i)(A) to provide a notice 7 days prior to the date upon which a prohibition is to become effective.

On October 4, 1976 (41 FR 43726), the Director adopted as final the method for determining the date when the 78,000 limit would be reached and amended the regulations to provide for a notice 7 days prior to the date when a prohibition is to be effective.

Based on information gathered by National Marine Fisheries Service observers and utilizing the adopted method to determine when the limit will be reached, the National Marine Fisheries Service has determined that 78,000 porpoise will have been killed by U.S. vessels by October 19, 1976. The total mortality for 1976 which was projected on August 31, 1976 had been below 70,000; however, due to unusually heavy porpoise fishing which occurred in September, the limit is now projected to be reached by October 19, 1976. Because of the necessity to provide notice to each of the affected U.S. vessels, many of them thousands of miles at sea, the regulations adopted on October 4, 1976 provided for 7 days FEDERAL REGISTER notice prior to the effective date of prohibition. Therefore, effective 0001 October 22, 1976, marine mammals may not be encircled by purse seine in the course of yellowfin tuna purse seine fishing. The calculation of the projected mortality by October 19, 1976 is as follows:

Estimated mortality through Sept. 30, 1976[1]	71,557
Historical average U.S. catch of yellowfin on porpoise in October is 8,813 tons×1.23 (average kill per ton) equals projected kill for October	10,962
Estimated cumulative mortality through October	82,519

[1] Utilizing the prorating procedures adopted, it is projected that 78,000 will be reached by October 19, 1976.

Because of the necessity to provide a seven day notice to U.S. vessels, the prohibition is being imposed two days later than the date when the total is projected to be reached, resulting in slightly exceeding the 78,000 limit.

Copies of the detailed computation are available for review at the Office of the Director of the Southwest Fisheries Center, La Jolla, California.

By this publication, the American Tunaboat Association and holders of certificates of inclusion are hereby notified that effective 0001 October 22, 1976, the limit of 78,000, which is a condition of the general permit, in 1976 will have been reached and therefore certificates of inclusion issued under the general permit are no longer valid for encircling or taking porpoise as of October 22, 1976.

All daily log sheets required by 50 CFR 216.24(d)(2)(i)(B)(iii) outstanding as of October 22, 1976, must be mailed or delivered to the Regional Director, Southwest Region, National Marine Fisheries Service, 300 South Ferry Street, Terminal Island, California 90731 on October 22, 1976, or as soon thereafter as practicable.

Observers have been placed aboard U.S. tuna purse seine vessels under the authority of the general permit to record information regarding porpoise mortality. Because the general permit no longer permits encircling or taking of porpoise, there is no clear signal authority for the NMFS to require that the observers be kept on U.S. tuna purse seine vessels.

U.S. tuna purse seine vessels may return National Marine Fisheries Service scientific observers and gear technicians on board purse seine vessels at sea on October 22, 1976, at no cost to the Federal government, to the port of departure, any U.S. port, or any of the following ports: Mazatlan, Mexico; Acapulco, Mexico; Puntarenas, Costa Rica; Balboa, Canal Zone; or Honolulu, Hawaii; or may be returned at the end of the voyage, at the pleasure of the vessel captain.

Yellowfin tuna caught in association with marine mammals after October 21, 1976, may not be imported into the United States. Section 216.24(e)(3)(v) is amended to reflect this change. It should be noted, however, that yellowfin tuna not caught in association with marine mammals may continue to be imported under the provisions of paragraph (e).

Nations that have filed certificates will be requested to reaffirm their certifications for shipments after October 21, 1976, and nations importing yellowfin under individual shipment certifications under § 216.24(e)(3)(iv) will be required to state whether the vessels which caught the fish in the shipment did or did not encircle or take marine mammals.

The conditions under which other species of fish may be imported are not affected by this amendment.

The amendments to part 216 are effective October 22, 1976.

Dated: October 13, 1976.

JACK W. GEHRINGER,
Deputy Director,
National Marine Fisheries Service.

§ 216.24 [Amended]

Section 216.24(e)(3)(v) is amended by deleting the period from the sentence ending with ("January 22, 1974") and adding in lieu thereof: ", or (3) if the yellowfin tuna was caught subsequent to October 20, 1974, and prior to October 22, 1976, that the yellowfin tuna was caught in conformance with the regulations pertaining to purse seining in effect for that period of time."

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 62]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period October 17–23,

VOL 41 NO 201 OCT 15 76 UM

1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.362 Lemon Regulation 62.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons early this week is steady.

Average f.o.b. price was $5.94 per carton the week ended October 9, 1976, compared to $5.90 per carton the previous week. Track and rolling supplies at 80 cars were up 5 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on October 12, 1976.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period October 17, 1976, through October 23, 1976, is hereby fixed at 200,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: October 14, 1976.

Deputy Director, Fruit and Vegetable Division Agricultural Marketing Service.

[Lime Reg. 27, Amdt. 6]

PART 911—LIMES GROWN IN FLORIDA

Container Regulation

This amendment to the current container regulation permits the handling of fresh Florida limes in two sizes of 10-pound containers on and after October 18, 1976. The current container regulation suspends the use of 10-pound containers during the period August 29 through October 30, 1976. The amended regulation continues to authorize the use of six containers with minimum content requirements of 20 pounds and 38 pounds net weight of limes.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Florida Lime Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The amendment reflects the Department's appraisal of present and prospective marketing conditions for limes. Indications are that permitting the handling of limes in 10-pound containers on and after October 18 will help maintain sales during the period when the price of limes is seasonally higher. The sale of limes in the smaller 10-pound containers should encourage purchases, particularly by those segments of the trade such as small retailers and institutional customers. Hence, the action would contribute to orderly marketing of limes and be in the public interest.

After consideration of all relevant matters presented, including the recommendations and information submitted by the committee, and other available information, it is hereby found that the amendment hereinafter set forth is in accordance with the provisions of said amended marketing agreement and order; and such amendment will tend to effectuate the declared policy of the act with respect to effectuating orderly marketing in the public interest.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of limes by authorizing the use of two sizes of 10-pound containers.

Order. The provisions of paragraph (a) (2) of § 911.329 (Lime Regulation 27; 38 FR 12323, 15726; 41 FR 15685, 19299, 30343, 36013) are hereby amended to read as follows:

§ 911.329 Lime Regulation 27.

(a) (1) • • •

(2) On and after October 18, 1976, no handler shall handle between the production area and any point outside thereof any variety of limes, grown in the production area, in individual bags having a capacity of more than 4 pounds net weight of limes.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: October 12, 1976, to become effective October 18, 1976.

(2) Proposed regulations under section 993 of the Internal Revenue Code of 1954, relating to the denial of DISC benefits with respect to energy resources and certain other products, appearing in the FEDERAL REGISTER for June 29, 1976 (41 FR 26695).

The rules of § 601.601 (a) (3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to such public hearings. Copies of these rules may be obtained by a request directed to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, or by telephoning (Washington, D.C.) 202–964–3935. Under such § 601.601 (a) (3) persons who have submitted written comments within the time prescribed in the respective notices of proposed rulemaking and who desire to present oral comments at the respective hearing on such proposed regulations, should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by November 9, 1976. Such outlines should be submitted to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224. Under § 601.601 (a) (3) (26 CFR Part 601) each speaker will be allowed 10 minutes for an oral presentation on each of the above-listed proposed regulations for which he or she has submitted timely comments, exclusive of time consumed by questions from the panel for the Government and answers thereof.

Persons who desire a copy of such written comments or outlines and who desire to be assured of their availability on or before the beginning of such hearings should notify the Commissioner, in writing, at the above address by November 12, 1976. In such a case, unless time and circumstances permit otherwise, the desired copies are deliverable only at the above address. The charge for copies is ten cents ($0.10) per page.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of this agenda will be available free of charge at the hearing, and information with respect to its contents may be obtained on November 17, 1976, by telephoning (Washington, D.C.), 202–964–3935.

COAL LEASES

Diligent Development and Continued Operation

On August 4, 1976, the Federal Coal Leasing Amendments Act of 1975, Pub. L. 94–377, 90 Stat. 1083, became law. Many of the coal leasing regulations recently promulgated by the Department must be revised to conform to the new statutory provisions. Amendments to the regulations on diligent development and continuous operations published on May 28, 1976 (41 FR 21779), have been prepared and are now published as proposed rulemaking.

It has been determined that the new statutory requirements will be applicable to all leases issued after August 4, 1976, and to all existing leases at the next readjustment of terms and conditions. However, the new statutory requirements are not made applicable to existing leases prior to their next readjustment, and, accordingly, the proposed regulations reflect the fact that the provisions applicable to existing coal leases prior to the time of readjustment may differ from those applicable to all leases issued or readjusted after August 4, 1976.

Interested persons are invited to submit their comments in writing to the Director, Bureau of Land Management, Department of the Interior, Washington, D.C. 20240, on or before November 29, 1976. Comment is particularly requested on the definitions of "diligent development" and "continued operation".

Under the authority granted under section 32 of the Mineral Leasing Act, 30 U.S.C. 189, it is proposed that 43 CFR Subparts 3500, 3503, 3520, 3522 and 3523 be amended, as follows:

1. Paragraphs (d), (e), (f), and (g) of 43 CFR 3500.0–5 are hereby revised as follows:

§ 3500.0–5 Definitions.

• • • • • •

(d) *Logical Mining Unit (LMU).* A Logical Mining Unit or LMU is an area of coal land that can be developed and mined in an efficient, economical, and orderly manner with due regard to the conservation of coal reserves and other resources. An LMU may consist of one or more Federal leaseholds, and may include intervening or adjacent non-Federal lands, but all lands in an LMU must be contiguous, under the effective control of a single operator, and capable of being developed and operated as a unified operation with complete extraction of the LMU reserves within 40 years from the first approval of a mining plan for that LMU. For purposes of this paragraph (d) "contiguous" shall mean having at least one point in common. No LMU other than one approved before August 4, 1976, shall exceed 25,000 acres, including both Federal and non-Federal coal deposits.

(e) *Logical Mining Unit (LMU) Reserves.* LMU Reserves are defined as being equal to the sum of (1) estimated recoverable reserves under Federal lease

V41N201 OCT 15 76 UM

in the LMU, and (2) estimated non-Federal recoverable reserves in the LMU which will be mined prior to the extraction of all estimated Federal reserves in the LMU. The LMU reserves associated with a Federal lease are the estimated LMU reserves as of the effective date of the approval of the LMU, of which that lease is a part, except that the estimate of LMU reserves under both subparagraphs (1) and (2) of this paragraph may be adjusted by the Mining Supervisor whenever he approves a modification of the LMU boundaries, whenever the lessee surrenders deposits subject to a lease in the LMU, or whenever significant new information becomes available about the amount of such reserves, including the time at which a mining plan is approved.

(f) *Diligent Development.* (1) Diligent development of any Federal coal lease issued or readjusted after August 4, 1976, means the timely preparation for and initiation of production of coal from the LMU of which the lease is a part so that coal is actually produced in commercial quantities by the end of the tenth year from the effective date of the lease in the case of a lease issued after August 4, 1976, or by June 1, 1986, in the case of a lease issued before August 4, 1976, unless the period of time during which diligent development had to be achieved on a lease issued prior to August 4, 1976, has been extended pursuant to subparagraph (2) of this paragraph in which case the period of time authorized thereunder may continue in effect, but not beyond August 4, 1986, or the date on which the lease terms first become subject to readjustment after August 4, 1976, whichever is later. For the purpose of this subparagraph (1), coal will be deemed to have been produced in commercial quatities if one percent of the LMU reserves associated with that lease are extracted by the end of the tenth year from the effective date of the lease, if the lease was issued after August 4, 1976, or by June 1, 1986 (or a later date if authorized under the immediately preceding sentence), if the lease was issued before August 4, 1976.

(2) Diligent development of any coal lease which was issued before August 4, 1976, and the terms and conditions of which have not been readjusted since that date means the timely preparation for and initiation of production of coal from the LMU of which the lease is a part so that coal is actually produced in commercial quantities before June 1, 1986, except that the period of time during which production of coal in commerical quantities must be achieved may be extended as provided below. For the purpose of this subparagraph (2) coal will be deemed to have been produced in commercial quantities if one-fortieth of the LMU reserves associated with that lease are extracted before June 1, 1986, or such later date as may be prescribed under this subdivision. The period of time during which production in commercial quantities must be achieved may be extended as provided below, but in no event beyond August 4, 1986, or the date on which the lease terms first become subject to readjustment after August 4, 1976, whichever is later:

(i) Upon application by the lessee, the period by the end of which development must have been achieved shall be increased by an amount of time equal to the period during which diligent development is, in the opinion of the Secretary, significantly impaired by (A) a strike, the elements, or casualties not attributable to the lessee, (B) an administrative delay in the Department which is not caused by the lessee's action, or (C) extraordinary circumstances not attributable to the lessee and not foreseeable by a reasonably prudent operator. In the determination of whether any of the conditions listed in subdivisions (A)–(C) of this subdivision occurred and whether one or more of those conditions did in fact significantly impair diligent development, the Secretary's finding shall be final. The Secretary shall, however, not find to be an extraordinary circumstance under (C) any condition arising out of normally foreseeable business risks such as: Fluctuations in prices, sales, or costs, including foreseeable costs of compliance with requirements for environmental protection; commonly experienced delays in delivery of supplies or equipment; or inability to obtain sufficient sales.

(ii) Upon application by the lessee, the Secretary may grant one extension, not exceeding five years, of the ten-year period within which diligent development must be achieved. An extension may be granted when the lessee shows to the satisfaction of the Secretary that diligent development cannot be achieved within the ten-year period because of (A) time needed to complete development of advanced technology, e.g., in situ, gasification or liquefaction processes; (B) the large magnitude of the project (ordinarily large magnitude means a mine in which the production in the first year after the end of the extended period for diligent development is expected to be at least two million tons if an underground mining operation or five million tons if a surface mining operation); or (C) a contract or its equivalent which is a firm commitment for the sale or use of the first one-fortieth of the LMU reserves after the ten-year period. Irrespective of the reason for granting an extension, the lessee must produce the first one-fortieth of the LMU reserves before the end of the extension.

(iii) At the time when the Secretary grants any extension of time for achieving diligent development under subdivision (i) or (ii) of this subparagraph (2), he shall notify the lessee of the revised date by which diligent development must be achieved.

(g) *Continued Operation.* Continued operation means the extraction, processing, and marketing of coal in the amount of one percent of all the LMU reserves associated with the lease for each of the first two years of continued operation and an annual average amount of one percent of all the LMU reserves associated with the lease for all years after the first two years of continued operation. The annual average amount shall be computed on a three year basis, and the three-year period for which the average shall be computed shall consist of the year in question and the two preceding years.

2. 43 CFR 3503.3–2(b)(1) is amended to read as follows:

§ 3503.3–2 General statement on royalties.

* * * * * *

(b) * * *

(1) The Mining Supervisor shall have discretion, upon the request of the lessee, to authorize the payment of an advance royalty in lieu of continued operation for any particular year. Each lease issued or readjusted after August 4, 1976, shall make provision for this annual advance royalty which shall be based on a minimum number of tons of coal; for any lease issued after August 4, 1976, the minimum number of tons shall be determined on a schedule sufficient to exhaust the leased reserves in 40 years from the date of approval of the mining plan for the LMU of which the lease is a part; for any lease issued before August 4, 1976, the minimum number of tons shall be determined on a schedule sufficient to exhaust the leased reserves in 40 years from June 1, 1976. Advance royalties shall not be paid for more than ten years in all during the life of any lease, including the life of the lease after readjustment.

3. 43 CFR 3520.2–1 is amended by the addition of the following:

§ 3520.2–1 Duration of leases.

* * * * * *

(a) * * *

(3) *Coal.* A coal lease shall be for a period of 20 years and as long as thereafter as coal is produced annually in commercial quantities from that lease or the LMU of which it is a part. As the term "commercial quantities" is used in this subparagraph (3) it means quantities of coal sufficient to meet the requirements for continued operation under § 3500.0–5(g) of this chapter. Any coal lease which is issued or readjusted after August 4, 1976 and on which diligent development has not been achieved by the end of the tenth year from the effective date of the lease or by June 1, 1986 (or such other date as may be provided under § 3500.0–5(f)(2) of this chapter), whichever is later, will automatically terminate.

4. 43 CFR 3520.2–5 is amended to read as follows:

§ 3520.25 Coal: Diligent development and continued operation.

Section 7 of the Mineral Leasing Act (30 U.S.C. 207) provides that each coal lease shall require:

(a) Diligent development; and

(b) Either continued operation or, in lieu thereof, an annual advance royalty on a minimum number of tons of coal, except that advance royalties may not be paid in lieu of continued operation for more than ten years. Each lease will become subject to the requirement of continued operation beginning with the year after the achievement of diligent development, and shall remain subject to the requirement of continued operation except when operations under the lease are interrupted by strikes, the elements, or casualties not attributable to the lessee. However, the Secretary has determined that the public interest will be served by authorizing the Mining Supervisor to permit the payment of an annual advance royalty in lieu of continued operation for any particular year. The payment of annual advance royalties is described in § 3503.3–2(b)(1) of this chapter.

5. 43 CFR Subpart 3520 is amended by adding the following:

§ 3520.2–6 Coal: Logical mining unit.

(a) *Establishment and modification of logical mining units.* Every Federal coal lease will automatically be considered by itself an LMU as of the effective date of the lease or June 1, 1976, whichever is later, unless it is included in an LMU with other Federal coal leases or with interests in non-Federal coal deposits, or both. An LMU containing any interest other than a single Federal lease will become effective only at the direction of the Mining Supervisor or upon its approval by the Mining Supervisor where it is requested by the lessee; the Mining Supervisor shall not direct or approve the establishment of such an LMU unless he has determined that the maximum economic recovery of all Federal deposits in the LMU will be served thereby. The boundaries of an LMU may later be changed either upon application by the lessee and with the approval of the Mining Supervisor after consultation with the authorized officer or by direction of the Mining Supervisor after consultation with the authorized officer.

(b) *Amendment of lease terms.* When a Federal coal lease is included in an LMU with other Federal coal leases or with interests in non-Federal coal deposits, the terms and conditions of the lease will be amended so that they are not inconsistent with the requirements imposed on that LMU of which it has become a part. In particular, diligent development, production in commercial quantities, and continued operation anywhere within the LMU, with respect to either Federal or non-Federal coal deposits, shall be deemed to have occurred on each Federal lease in the LMU. The rental and royalty payments on all Federal leases in an LMU shall be combined and advanced royalties paid on any Federal lease in that LMU may, at the request of the operator of the LMU, be credited against those combined royalties.

(c) *Computation of LMU reserves.* When the Mining Supervisor is determining the LMU reserves, he shall consult the lessee as to any deposits (such as deposits in specified strata) subject to his lease which the lessee does not intend to mine and the rights to which the lessee is prepared to surrender in order to decrease the LMU reserves upon which the requirements of diligent development, production in commercial quantities, and continued operation will be based. The lessee may surrender his rights to any deposits, and, if he does so, the LMU reserves shall be adjusted.

6. 43 CFR 3522.2–1 is amended to read as follows:

§ 3522.2–1 Terms and conditions.

(a) *Potassium and phosphate.* The terms and conditions of potassium and phosphate leases are subject to readjustment at the end of each 20-year period succeeding the effective date of the lease unless otherwise provided by law at the time of the expiration of such periods. Before the expiration of each 20-year period, whenever feasible, the lessee will be notified of the proposed readjustment of terms or notified that no readjustment is to be made. Within 30 days after receipt of the notice, unless the lessee files his objection to the proposed readjusted terms, or the lessee files a relinquishment of the lease, he will be deemed to have agreed to such readjusted terms.

(b) *Coal.* All coal leases will be subject to readjustment at the end of the first 20-year period following the issuance of the lease and at the end of each ten-year period thereafter. Before the expiration of the initial 20-year period or any succeeding 10-year period thereafter, the authorized officer shall, if it is feasible, notify the lessee of any proposed readjustment of terms and conditions or that no readjustment will be made. Unless the lessee within 30 days after receipt of notice of any proposed readjustment from the authorized officer files either an objection to the proposed readjustment or a relinquishment of his lease, he will be deemed to have agreed to the readjusted terms. At the time for their next scheduled readjustment of terms and conditions, all coal leases will be readjusted, if necessary, by the addition of provisions consistent with § 3503.3–2(b)(1) of this chapter so that they authorize advance royalties. The percentages of reserves on which the advance royalty for the years following the readjustment of terms for leases issued before August 4, 1976, will be based, will be the same percentages as those appropriate for a lease dated June 1, 1976. No lessee will be allowed to credit against production royalties due after the twentieth year of a lease any advance royalties paid during the first 20 years of that lease. If the date on which a coal lease became liable for readjustment of terms and conditions occurred before August 4, 1976, but the authorized officer prior to that date neither readjusted the terms and conditions nor informed the lessee that no readjustment would be made, the terms and conditions of that lease shall be readjusted to conform to the requirements of the Federal Coal Leasing Amendments Act of 1975.

7. 43 CFR 3523.2–1(b)(1) is amended by the insertion of "(i)" after the word "Coal" and by adding the following subdivisions (ii) and (iii):

§ 3523.2–1 Judicial proceedings.

* * * * * *

(b) * * *

(1) * * *

(ii) Any coal lease issued or readjusted on or after August 4, 1976, on which the lessee does not meet diligent development requirements will terminate automatically. Any other coal lease on which the lessee does not meet diligent development requirements will be subject to cancellation in whole or in part. Any coal lease on which the lessee does not meet either continued operation or advance royalty requirements will be subject to cancellation in whole or in part. In deciding whether to cancel a lease under this subdivision (ii), the Secretary will not consider adverse circumstances which arise out of: (A) Normally foreseeable costs of compliance with requirements for environmental protection; (B) commonly experienced delays in delivery of supplies or equipment; or (C) inability to obtain sufficient sales. The requirements as to notice included in subdivision (i) of this subparagraph are applicable to cancellations under this subdivision (ii) also.

(iii) Should a lease be cancelled or relinquished for any reason, all rentals and royalties, including advance royalties already paid or due, will be forfeited to the United States.

Approved: October 8, 1976.

W. W. LYONS,
Deputy Under Secretary of the Interior.

ENDANGERED AND THREATENED WILDLIFE; SEA TURTLES

Denial of Request for Public Hearing on Proposed Regulations

Section 4(f)(2)(A)(ii) of the Endangered Species Act of 1973 (16 U.S.C. 1531–1543) states that if any person, who feels that he may be adversely affected by a regulation proposed pursuant to the Act, requests a public hearing thereon, the Secretary may grant such request, but shall, if he denies such request, publish his reasons therefore in the FEDERAL REGISTER.

On July 22, 1976, Mr. Carleton S. Jones, Counsel for Cayman Turtle Farm, Ltd., requested that a public hearing be held on the Proposed Regulations Treating Three Species of Sea Turtles as Threatened under the Similarity of Appearance Clause of the Endangered Species Act of 1973, published by the U.S. Fish and Wildlife Service and the National Marine Fisheries Service in the FEDERAL REGISTER of June 16, 1976 (41 FR 24378–24380). Mr. Jones gave the following reasons for his request: (1) The alleged

V41N201 OCT 15 76 UM

inadequacy of the Environmental Impact Assessment concerning the Proposed Regulations; (2) The alleged failure of the Services to prepare an Environmental Impact Statement on the Proposal; and (3) The absence of a provision excepting from the prohibitions of the Proposed Regulations turtles taken for or derived from captive populations in the course of mariculture operations, or, in the alternative, of provisions specifically authorizing the grant of permits to such operations based upon enumerated criteria.

The Fish and Wildlife Service and National Marine Fisheries Service consider that the Environmental Impact Assessment is adequate and covers all necessary points. When reviewed in conjunction with the public comments received, the Environmental Impact Assessment supports the contention that an Environmental Impact Statement is not necessary to satisfy the requirements of the National Environmental Policy Act (42 U.S.C. 4321 et seq.). The Services also consider that the permit provisions of the Proposed Regulations are fully sufficient and applicable to mariculture operations. Moreover, the Services consider that the comment period established by the Proposal is adequate for purposes of public participation, and that no further delay is warranted, especially in the light of the extensive past public discussion of the whole Sea Turtle issue. Therefore, this request for public hearing is denied.

Mining Enforcement and Safety Administration

[30 CFR Part 100]

CIVIL PENALTY ASSESSMENT

Proposed Procedures

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior under section 508 of the Coal Mine Health and Safety Act of 1969 (Pub. L. 91-173; 83 Stat. 803; 30 U.S.C. 957) it is proposed that section 100.7(c), Part 100, Title 30, Code of Federal Regulations be amended as set forth below.

Concurrent with this Notice there is published in this issue of the FEDERAL REGISTER (at page 45574) a Notice of Proposed Rulemaking for special procedural rules applicable to summary disposition of civil penalty cases during mine health and safety hearings (43 CFR Part 4). The purpose of this proposed amendment to 30 CFR Part 100 is merely to conform those regulations to the proposed changes in 43 CFR Part 4, which would authorize the assessment officer to enter the order of assessment as the final order of the Department of the Interior when the respondent coal mine operator has waived its right to a hearing.

It is the policy of the Department of the Interior whenever practicable to afford the public an opportunity to participate in the rulemaking process. Therefore, interested persons are invited to submit written data, views and comments to: Administrator, Mining Enforcement and Safety Administration, Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Comments received on or before November 15, 1976, will be considered before final action is taken on this proposal.

Accordingly, it is proposed to amend 30 CFR Part 100 by revising § 100.7(c) to read as follows:

§ 100.7 Request for hearing.

* * * * *

(c) In accordance with 43 CFR 4.545, the Office of Hearings and Appeals shall thereafter issue an order, based on findings of fact and conclusions of law unless the petition is dismissed by consent of the parties, or summarily dismissed pursuant to 43 CFR 4.544.

Dated: October 8, 1976.

KENT FRIZZELL,
Under Secretary of the Interior.

Office of Hearings and Appeals

[43 CFR Part 4]

SPECIAL RULES APPLICABLE TO MINE HEALTH AND SAFETY HEARINGS AND APPEALS—SUMMARY DISPOSITION

Notice of Proposed Rulemaking

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior under section 508 of the Coal Mine Health and Safety Act of 1969 (Pub. L. 91-173; 83 Stat. 803; 30 U.S.C. 957) it is proposed that § 4.544, Part 4, Subtitle A, Title 43, Code of Federal Regulations be amended as set forth below.

The proposed amendment will relieve the Department from the unnecessary burden of preparing a formal decision based upon proposed findings of fact and conclusions of law for civil penalty cases where the respondent fails to file a timely answer to a petition for civil penalty, or fails to timely comply with a prehearing order. As an added protection, the respondent coal mine operators will be given an opportunity to show cause and thereby avoid summary dismissal. This procedure is virtually identical to the prior regulations in effect during the period from June 28, 1972 until April 24, 1973.

The amendment does not affect the rights of respondent coal mine operators to a full and fair hearing in contested civil penalty proceedings where the respondent has complied with procedural regulations consistent with his prior request for a hearing. Under present practice, undue time and expense are spent preparing routine proposed findings of facts and conclusions of law prior to the imposition of default civil penalties by Administrative Law Judges. A conforming amendment to 30 CFR Part 100 is also proposed in this issue of the FEDERAL REGISTER (at page 45574).

It is the policy of the Department of the Interior whenever practicable to afford the public an opportunity to participate in the rulemaking process. Therefore, interested persons are invited to submit written data, views and comments to: James R. Richards, Director, Office of Hearings and Appeals, 4015 Wilson Boulevard, Arlington, Virginia 22203. Comments received on or before November 15, 1976 will be considered before final action is taken on this proposal.

Accordingly, it is proposed to amend 43 CFR Part 4 by revising § 4.544 to read as follows:

§ 4.544 Summary Disposition.

(a) Where the respondent fails to file a timely answer to the Mining Enforcement and Safety Administration's petition for assessment of civil penalty, or fails to timely comply with any prehearing order of an administrative law judge, the Office of Hearings and Appeals shall issue an order to show cause why (1) the respondent should not be deemed to have waived his right to a hearing and (2) the proceedings should not be summarily dismissed and referred to the assessment officer.

(b) If the order to show cause is not satisfied as provided in the order, the administrative law judge shall order the proceedings summarily dismissed and referred to the assessment officer, who shall enter the order of assessment as the final order of the Department and institute collection procedures pursuant to section 109(a)(4) of the Act.

(c) Where the respondent fails to appear at a hearing, the respondent will be deemed to have waived his right to a hearing and the administrative law judge may assume for purposes of the assessment: (1) That each violation listed in the petition occurred; and (2) the truth of any fact alleged in any order or notice concerning such violation. In order to issue an initial decision assessing an appropriate penalty for each violation cited in accordance with § 4.545(a), an administrative law judge shall either conduct such hearing or require the Mining Enforcement and Safety Administration to furnish proposed findings of fact and conclusions of law.

(d) Nothing in this section shall be construed to deprive the respondent of its opportunity to have the Mining Enforcement and Safety Administration prove the violations charged in open hearing with confrontation and cross-examination of witnesses, except where said respondent fails to file timely answer to a petition for civil penalty, fails to timely comply with a pre-hearing order, or fails to appear at the scheduled hearing.

Dated: October 8, 1976.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 989]

RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Proposed Change in Minimum Grade Standards for Packed Raisins

Notice is given of a proposal to temporarily change the minimum grade standards for certain varietal types of packed raisins. This change is pursuant to the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989; 41 FR 32412), hereinafter referred to collectively as the "order." The order regulates the handling of raisins produced from grapes grown in California and is effective pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The proposal was recommended by the Raisin Administrative Committee.

Section 989.59(a) prescribes minimum standards for packed raisins. Section 989.59(b) provides that the standards for any varietal type then in effect may be changed by the Secretary, on the basis of a recommendation by the Committee or other pertinent information, if he finds that to do so would tend to effectuate the declared policy of the act. Paragraph (b) also authorizes the Secretary, upon recommendation of the Committee, to prescribe minimum standards for any varietal type. The minimum standards for packed natural (sun-dried) Thompson Seedless, natural (sun-dried) Muscat, natural (sun-dried) or artificially dehydrated Sultana, Golden Seedless, Sulfur Bleached Valencia, and Zante Currant raisins, are prescribed in § 989.59(a)(2). The minimum standards for packed Dipped Seedless raisins are prescribed in § 989.212 of Subpart—Supplementary Regulations (7 CFR 989.201-989.231).

Heavy rains and poor drying conditions during September 1976, seriously damaged this year's raisin crop. Although the full extent of the rain damage is still unknown, total production this season is expected to be much smaller than market needs. In addition, cool weather and rain earlier in the season delayed proper development of sugar in the raisin grapes, and thus adversely affected the maturity of the 1976 raisin crop. Also, when grapes are subjected to rain while drying in the field, there is a sugar loss. This leaching of sugar further reduced the maturity of the 1976 raisin crop.

The proposed changes in the minimum grade standards for packed raisins, as hereinafter set forth, would end November 30, 1977, and would aid in the recovery of raisins acceptable for human consumption from the 1976 production and since they are less restrictive, would help make more raisins available to consumers than would be made available without the temporary change in grade standards. Because the proposed changes are temporary, it is proposed that they be set forth in § 989.202 (currently reserved) in Subpart—Supplementary Regulations.

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than November 1, 1976. All written submissions made pursuant to the notice shall be made in quadruplicate and will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is as follows:

§ 989.202 Changes in minimum grade standards for certain packed raisins for the period ending November 30, 1977.

Pursuant to § 989.59(b), the requirements set forth in § 989.59(a)(2) for natural (sun-dried) Thompson Seedless, natural (sun-dried) Muscat, natural (sun-dried) or artificially dehydrated Sultana, Golden Seedless, Sulfur Bleached and Valencia raisins, and the requirement set forth in § 989.212 for Dipped Seedless raisins, shall be as prescribed in those respective sections, except that the tolerances prescribed for mold shall be changed to five percent, and the total tolerance for discolored, damaged or moldy raisins shall be changed to 10 percent. Pursuant to § 989.59(b), the requirement set forth in § 989.59(a)(2) for Zante Currant raisins shall be as prescribed in that section, except that the tolerance prescribed for mold shall be changed to five percent and the total tolerance for discolored, damaged or moldy raisins shall be changed to eight percent. In addition, for natural (sun-dried) Thompson Seedless, Golden Seedless, Sulfur Bleached, and Dipped Seedless raisins, the term "with not less than 55 percent, by weight, of raisins that are well-matured or reasonably well-matured" shall not be applicable. These changes shall terminate November 30, 1977.

CIGAR TOBACCO

Proposed Grade Loan Rates for Price Support on 1976-Crop

Notice is hereby given that CCC is considering the grade loan rates to be applied in making price support available on 1976-crop cigar tobacco.

Interested persons are invited to participate in establishing the grade loan rates to be applied by submitting views and recommendations in writing to the Director, Tobacco and Peanut Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington, D.C. 20250. To assure consideration, all submissions must be received not later than November 15, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Director during regular business hours (8:15 a.m. to 4:45 p.m.).

Under the Tobacco Loan Program published in this part, CCC proposes to establish loan rates by grades for the 1976-crop Ohio filler tobacco, types 42-44, Connecticut Valley broadleaf tobacco, type 51, Connecticut Valley Havana seed tobacco, type 52, New York and Pennsylvania Havana seed tobacco, type 53, and Southern Wisconsin tobacco, type 54, Northern Wisconsin tobacco, type 55, and Puerto Rican tobacco, type 46, as set forth herein. These proposed rates, calculated to provide the level of support of 75.6 cents per pound for types 51-52, 56.7 cents per pound for type 46 and 54.6 cents per pound for types 42-44, 53-55, are determined under Section 106 of the Agricultural Act of 1949 (7 U.S.C. 1445).

In consideration of the foregoing, it is proposed to amend 7 CFR Part 1464, as follows:

By revising §§ 1464.22-1464.27 to read as follows:

Liquidation of Chattel Property and Related Actions

The purpose of this notice is to withdraw the proposal published in the FEDERAL REGISTER (40 FR 5539) on February 6, 1975 amending § 1871.40(c)(3). The proposed amendment provided that the interest rate on Operating and Emergency loans to be paid by an ineligible transferee would be the current interest rate in effect at the time the transfer is approved or the rate in the note(s) being assumed, whichever was greater. In consideration of a new proposal pertaining to eligibility requirements being published as of this date, the proposed rule amending the § 1871.40 (c)(3) is hereby withdrawn.

CHATTEL SECURITY

Securing Emergency Loans, Clarification

Notice is hereby given that the Farmers Home Administration has under consideration the proposed amendment of § 1871.11 of Subpart A of Part 1871, Title 7, Code of Federal Regulations (36 FR 1110; 37 FR 17543; 41 FR 24700) is amended by adding paragraph (b)(10) and amending paragraph (c). The addition of paragraph (b)(10) clarifies the reasons for subordinating chattel liens security Emergency loans; the amendment of paragraph (c) establishes that the amount of a new subordination plus the principal balance of any existing subordinations or waivers will not exceed the loan approval authority of the loan official.

Interested persons are invited to submit written comments, suggestions, data or arguments regarding the proposed amendment to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, South Building, Washington, D.C. 20250, on or before November 29, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Chief, Directives Management Branch, during regular business hours. (8:15 a.m.-4:45 p.m.)

As amended, § 1871.11(b)(10) and (c) read as follows:

§ 1871.11 Use of other credit and subordination of chattel security.

• • • • • • •

(b) *Purposes and limitations.* • • •

(10) FmHA may subordinate chattel liens securing EM loans to another creditor or permit that creditor to loan for any authorized EM loan purpose including capital purchases, providing it is determined:

(i) The borrower needs the loan to continue his farming operation and it will be to his benefit to receive such a loan.

(ii) The loan will enhance the borrower's possibility of accomplishing the objectives of loans owed FmHA.

(iii) FmHA's financial interest will not be adversely affected.

(c) *Approval authorization.* Loan approval officials are authorized to approve subordinations and waivers of FmHA lien priority provided the amount of the proposed subordination or waiver, plus the principal balance of existing subordinations or waivers does not exceed their loan approval authority stated in Subpart B of Part 1810 of this chapter for the type of loan being subordinated. When the lien priority for more than one type of loan is subordinated or waived, the total amount of the approval officials authority will be limited to the amount of the loan approval authority for the type of loan with the lowest approval authority for that official, as stated in Subpart B of Part 1810 of this chapter. However, the State Director may approve subordinations or waivers regardless of the amount, except as provided in paragraph (b)(9) of this section. State Directors may redelegate their authority for approving subordinations to qualified State Office personnel, including District Directors.

CHATTEL SECURITY

Liquidation of Property and Related Actions

Notice is hereby given that the Farmers Home Administration has under consideration the proposed amendment of § 1871.40 of Subpart B of Part 1871, Title 7, Code of Federal Regulations (36 FR 1118) by amending paragraph (b)(3) and (c)(3). Paragraph (b)(3) is amended to clarify the eligibility requirements for transfer of an Emergency loan to an eligible applicant; paragraph (c)(3) is amended to provide the interest rates to be paid by an ineligible transferee for Operating, Economic Opportunity, and Emergency loans. A proposed amendment of § 1871.40(c)(3) published at 40 FR 5539 which sets forth this interest rate on Operating or Emergency loans at the rates in effect at the time the transfer is approved or the rate in the note being assumed, whichever is greater, is being withdrawn as of this date.

Interested persons are invited to submit written comments, suggestions, or arguments regarding the proposed amendment to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, South Building, Washington, D.C. 20050, on or before November 15, 1976. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Chief, Directives Management Branch during regular business hours. (8:15 a.m.-4:45 p.m.)

As proposed, § 1871.40 (b)(3) and (c)(3) read as follows:

§ 1871.40 Transfer of chattel security and EO property and assumption of debts not provided for in § 1871.39 and release of liability.

• • • • • • •

(b) *Transfer to eligible.* • • •

(3) Transfer of Emergency (EM) actual loss loans, or EM loans made before September 12, 1975, can only be made as provided under paragraph (c) of this section for transfers to ineligibles. Except that a transfer to a remaining borrower(s) or partner(s) may be made as to an eligible transferee when one or more of the joint borrowers or jointly obligated partners withdraw from the operation and the remaining borrower(s) or partner(s) desire to assume the total indebtedness and continue the operation.

(c) *Transfer to ineligibles.* • • •

(3) FmHA debts assumed will be scheduled for repayment in amortized installments not to exceed five years using Form FmHA 460-5. The transferred property (including EO property) will be made subject to any existing FmHA lien. In the absence of an existing FmHA lien a new lien instrument will be executed. Interest rates to the transferee will be as follows:

(i) Interest rates for Operating loans will be the current interest rate in effect at the time of approval of the transfer or the rate specified in the note(s) evidencing the loan(s) being assumed, whichever is the greater.

(ii) Interest rate for EO loans will be 6 percent.

(iii) Interest rate for EM loans will be the current prevailing market rate, as established by the Secretary, in effect at the time of the transfer or the rate specified in the note(s) evidencing the loan(s) being assumed, whichever is the greater.

PROHIBITED ACTS

Notice of Proposed Rulemaking

Notice is hereby given that the Department of Agriculture is considering amending regulations in 7 CFR Part 2 and 36 CFR Parts 251, 261, 291 and 295.

The provisions of 36 CFR 212.7, 212.20 (c) and (d) and 212.21 will also be revised in accordance with this proposal.

The purposes of these amendments are to bring all acts prohibited in the National Forest System into one CFR part; to establish a uniform system for adopting and posting rules; and to clarify the delegations of authority regarding certain acts which may be prohibited in the National Forest System. In addition, all regulations which presently prohibit acts on National Forest lands have been reviewed to determine whether such regulations are necessary.

It is proposed that all regulations prohibiting certain acts in the National Forest System be in 36 CFR Part 261. This part is divided as follows:

(1) Subpart A, General Provisions, contains general regulations that apply to all parts of the National Forest System.

(2) Subpart B, Prohibitions in Areas Designated by Order, contains national regulations which are effective only if applied by an order.

(3) Subpart C, Delegations of Authority, contains delegations to the Chief and Regional Foresters to promulgate regulations in specific situations.

(4) Subpart D, Rewards and Impoundments, contains regulations governing rewards in connection with fire or property prosecutions. It also contains regulations on impoundment of property on National Forest System lands.

The provisions of 7 CFR 2.60(b)(1) currently reserves to the Assistant Secretary for Conservation, Research, and Education the authority to issue regulations. Upon adoption of the proposed 36 CFR Part 261, 7 CFR 2.60(b)(1) would be amended to allow for the delegation of authority proposed in 36 CFR 261.70.

All persons wishing to submit written data, views, or objections pertaining to the proposed revision may do so by submitting them to the U.S. Department of Agriculture, Forest Service, Fiscal and Accounting Management Staff, Washington, D.C. 20250, on or before November 29, 1976.

All written submissions made pursuant to this notice will be available for public inspection in room 4007—South Building, U.S. Department of Agriculture, 14th Street and Independence Avenue, S.W., Washington, D.C., during regular business hours (7 C.F.R. 1.27(b)).

In consideration of the foregoing, the Department of Agriculture proposes to revoke §§ 251.25, 291.4, 291.5, 291.6, 295.6, 296.7 and 295.8 of title 36 of the Code of Federal Regulations. It is also proposed that 7 CFR 2.60(b)(1) be amended to read as follows:

§ 2.60 Chief, Forest Service.

• • • • • • •

(b) *Reservations.* The following authorities are reserved to the Assistant Secretary for Conservation, Research, and Education.

1) The authority to issue regulations, except as provided in 36 CFR 261.70.

• • • • • • •

(60 Stat. 379, 5 U.S.C. 301.)

In addition, 36 CFR 261 is revised as follows:

Subpart A—General Prohibitions

§ 261.1 Definitions.

The following definitions apply to this subpart and to subparts B and C.

(a) "Areas of concentrated public use" means those areas identified by a posted map delineating their boundaries.

(b) "Campfire" means a fire, outside of any building, mobile home or living accommodation mounted on a motor vehicle, which is used for cooking, personal warmth, lighting, ceremonial, or esthetic purposes. "Campfire" includes a fire in the open, a fireplace, an enclosed stove, a portable brazier, or a space-heating device. "Campfire" also includes a fire in a stove using pressurized liquid or gaseous fuel.

(c) "Camping" means the temporary use of land for the purpose of occupancy without a permanently-fixed structure.

(d) "Camping equipment" means the personal property used in or suitable for camping, and includes any vehicle used for transport and all personal property in possession of a person camping.

(e) "Developed recreation site" means an area which has been improved for visitor use by the addition of improvements to facilitate human occupancy for picnicking, camping or other outdoor recreation use.

(f) "Forest development road" means a road wholly or partly within or adjacent to and serving a National Forest and other lands administered by the Forest Service and which has been included in the forest development transportation plan.

(g) "Forest development trail" means a trail wholly or partly within or adjacent to and serving a National Forest and other lands administered by the Forest Service and which has been included in the forest development transportation plan.

(h) "Forest officer" means an agent or employee of the Forest Service.

(i) "National Forest System" shall include all national forest lands reserved or withdrawn from the public domain of the United States, all national forest lands acquired through purchase, exchange, donation, or other means, the national grasslands and lands utilization projects administered under Title III of the Bankhead-Jones Farm Tenant Act (50 Stat. 525, 7 U.S.C. 1010–1012), and other lands, waters, or interests therein which are administered by the Forest Service or designated for administration through the Forest Service as a part of the system.

(j) "National Forest wilderness" means those parts of the National Forest System which were designated units of the National Wilderness Preservation System by the Wilderness Act of September 3, 1964, and such other areas of National Forest lands as have been or may later be, added to the wilderness system by act of Congress.

(k) "Permission" means oral authorization of a Forest officer.

(l) "Permit" means authorization in writing by a Forest officer.

(m) "Road" means any continuous set of wheel tracks which has been established by and can be used by motor vehicles with an overall width exceeding 40 inches including bridges currently open and used for general travel.

(n) "Trail" means a designated path or way of travel other than a road, which is commonly used by, and maintained for, hikers, horsemen, snow travelers, bicyclists or other vehicles with a total width of 40 inches or less.

(o) "Unauthorized livestock" means cattle, sheep, goats, hogs, and equines not defined as wild free-roaming horses and burros, which are not authorized by permit to be upon the land on which the livestock is located and which are not related to use authorized by a grazing permit.

§ 261.2 Posting.

Posting is accomplished by:

(a) Placing a copy of the prohibitions imposed by an order in the offices of the District Ranger and Forest Supervisor who have jurisdiction over the lands affected by the order.

(b) Attaching the prohibitions imposed by an order to posts, structures, buildings, or other objects in such a manner as to reasonably bring the prohibitions to the attention of the public. Signs displaying the prohibitions may be placed:

(1) At or near the boundary of the area affected;

(2) At or near the principle routes of entry to the area affected;

(3) On or near the road or trail affected;

(4) As part of a permit issued to a person for the occupancy and use of the National Forest System.

§ 261.3 Interference within the National Forest System.

Interfering in the National Forest System by threat, intimidation, physical or verbal assault or otherwise, with any Forest officer, or with any person engaged in lawful activity pursuant to a Forest Service contract, lease, permit or easement is prohibited.

§ 261.4 Disorderly conduct.

Disorderly conduct is prohibited in the National Forest System. A person is guilty of disorderly conduct if, to cause public inconvenience, annoyance, or alarm, or recklessly creating a risk thereof, he shall:

(a) Engage in fighting or in threatening, violent tumultuous behavior; or

(b) Make unreasonable noise or offensively cause utterance, gesture or display, or address abusive language to person present; or

(c) Create a hazardous or physically offensive condition by any act which serves no legitimate purpose.

§ 261.5 Fire.

The following are prohibited in the National Forest System:

(a) Setting or causing to be set on fire any timber, brush, grass, leaves, rotten wood, or large or hollow logs or stumps, except as authorized by permit.

(b) Maintaining or using a fire in or near timber, brush, grass, leaves, rotten wood , large hollow logs, or stumps or any other place from which it spreads, or is likely to spread, or is difficult to completely extinguish.

(c) Setting, causing to be set, maintaining, or using any fire during windy weather not confined to holes, devices or cleared spaces from which all growing vegetable material had been removed.

(d) Leaving any fire set, caused to be set, maintained or used which is not completely extinguished.

(e) Using an internal or external combustion engine not equipped with either a spark arrester or an exhaust system approved by a Forest Officer.

(f) Throwing, shooting, or placing any tracer bullet, flare incendiary ammunition, other burning, glowing or ignited substance, or any other substance into any place where it might start a fire.

(g) Allowing any fire to escape from control.

(h) Setting, causing to be set, maintaining, using or leaving a fire in violation of State law.

§ 261.6 Timber and other forest products.

The following are prohibited in the National Forest System:

(a) Cutting, killing, destroying, girdling, chipping, chopping, boxing, injuring, or otherwise damaging, or removing, any timber or other forest product, except as authorized by permit, timber sale contract, or regulation of the Secretary of Agriculture.

(b) Damaging or cutting any living tree, under permit or timber sale contract, before it is marked or otherwise designated for cutting by a forest officer.

(c) Removing any timber or other forest product cut under permit or timber sale contract, except to a place designated for scaling, or removing it from that place before scaled, measured, counted or otherwise accounted for by a forest officer.

(d) Stamping, marking with paint, or otherwise identifying any timber or other forest product in a manner similar to that employed by forest officers to mark or designate timber or other forest product for cutting or removal.

(e) Planting, releasing, or spreading seed of any tree or plant without a permit.

(f) Removing, destroying or damaging any plant that is classified as threatened, endangered or is otherwise protected by State or Federal law unless authorized by permit.

§ 261.7 Livestock.

The following are prohibited in the National Forest System:

(a) Placing or allowing unauthorized livestock to enter or be in the National Forest System.

(b) Not removing unauthorized livestock from the National Forest System when requested by a Forest officer.

(c) Abandoning any animal.

(d) Failing to reclose an entry to an area of the National Forest System.

§ 261.8 Hunting, trapping, and fishing.

The following are prohibited in the National Forest System:

(a) Hunting, trapping, fishing, catching, molesting, killing or possessing any kind of wild animal, bird, amphibian, crustacean, mollusk, reptile or fish or taking the eggs of any of the above in violation of federal or State law.

(b) Carrying or possessing in violation of Federal or State law, a firearm, or any other implement designed to discharge missiles capable of destroying animal life in violation of State law.

(c) Possessing equipment which could be used for hunting, fishing or trapping in violation of Federal or State law.

(d) Permitting a dog or other domesticated animal to run at large in violation of the laws of the State in which such land is situated.

(e) Removing or attempting to remove, converting to use, causing the death or harassing or interfering with, selling or commercially processing any part or carcass of, any wild, free-roaming horse or burro.

§ 261.9 Restrictions on hunting, trapping or fishing within the boundaries of national refuge.

The following are prohibited within the boundaries of a national game refuge or preserve or wildlife preserve, which is part of the National Forest System, unless authorized by permit:

(a) Hunting, trapping, fishing, catching, molesting, taking the eggs of, or having in possession, any kind or parts of a game or wild nongame animal, amphibian, crustacean, mollusk, reptile, bird, or fish.

(b) Carrying or possessing a firearm or any other implement designed to discharge missiles in the air or under water and which is capable of destroying animal life.

(c) Possessing a dog not on a leash or otherwise confined.

§ 261.10 Property.

The following are prohibited in the National Forest System:

(a) Mutilating, defacing, removing, disturbing, injuring or destroying any property of the United States, or, if not authorized by a permit, any natural feature or plant.

(b) Being in any building or structure owned or controlled by the United States without a permit, except in an emergency to prevent suffering, or leaving any building or structure without placing it in the same condition as when entered.

(c) Using any herbicide, pesticide or fungicide except as authorized by permit, or for personal use for medical purposes or as insect repellants or other minor uses as are determined to be exempt by a Forest officer.

(d) Digging in, excavating, distributing, injuring, or destroying any archeological, paleontological, or historic site, or removing, disturbing, injuring, or destroying an object in such a site except as authorized by a permit.

§ 261.11 Occupancy.

The following are prohibited in the National Forest System:

(a) Taking possession of, occupying, or otherwise using such lands for residential purposes without a permit.

(b) Constructing, placing, maintaining, or using any kind of structure, fence, enclosure, or improvements without a permit.

(c) Selling or offering for sale any merchandise, conducting any kind of business enterprise, or performing any kind of work unless authorized by federal law, regulation or permit.

(d) Discharging a firearm or other implement capable of destroying life, or causing injury of property damage in or within 150 yards of a residence, building, camp, recreation site or occupied area, or across or on a road or body of water adjacent to or within such area whereby any person is exposed to injury as a result of such discharge.

(e) Operating a motorboat in excess of 5 miles per hour within 150 feet of a bather, boat landing, or boat not being operated under motorized power.

(f) Abandoning a vehicle or other personal property.

(g) Placing a vehicle or other object upon such lands in such a manner that it is an impediment or hazard to the safety, convenience or comfort of other users in the area.

(h) Distributing any handbill, circular or similar notice, or posting, placing, or erecting any bill, notice, paper, advertising material, sign, or similar matter of any kind without a permit.

(i) Operating or using any audio device, including a radio, television, or musical instrument, or any other device which produces noise, such as an electrical generator plant, motor driven equipment or engines in such a manner and at such times so as to disturb other persons.

(j) Operating or using a public address system, whether fixed, portable, or vehicle mounted, in or near a camp, developed recreation site, area of concentrated use, recreation area, or over an adjacent body of water without a permit.

(k) Installing, maintaining, or using special radio, telephone or television aerial or tower equipment in or near a camp, developed recreation site, recreation area, or over an adjacent body of water without a permit.

(l) Inciting or participating in riots, or engaging in boisterous, abusive, threatening, or indecent conduct which is prohibited by State law.

(m) Conducting, demonstrating, or participating in a public meeting, assembly, or special event, except as authorized by permit.

(n) Violating any requirement for manufacture, transportation, use, storage, or disposal of a pesticide under the Federal Insecticide, Fungicide and Rodenticide Act, as amended (7 U.S.C. 136–136Y).

§ 261.12 Sanitation.

The following are prohibited in the National Forest System:

(a) Depositing, except in places or receptacles provided for that purpose, any body waste, refuse, debris, or litter.

(b) Depositing in any toilet or plumbing fixture any bottle, can, cloth, rag, metal, wood, stone, or other substance which could damage the fixture.

(c) Possessing or leaving refuse, debris, or litter in an exposed or unsanitary condition.

(d) Placing in or near a stream, lake, or other water any substance which does or may pollute a stream, lake, or other water.

(e) Failing to dispose of all garbage, including paper, cans, bottles, waste materials, or rubbish either by removal from the site or area, or disposal at places provided for such disposition.

(f) Polluting or contaminating water supplies or water used for human consumption.

(g) Dumping or leaving in a refuse container, dump, or similar facility, refuse, debris, or litter brought as such from private property or from land occupied under permit.

§ 261.13 Roads and trails.

The following are prohibited on forest development roads and trails under Forest Service jurisdiction:

(a) Damaging and leaving in a damaged condition any road or trail or segment thereof or failing to report such damage to a Forest officer.

(b) Blocking, restricting, or otherwise interfering with the use of a road or trail.

§ 261.14 Vehicles.

The following are prohibited in the National Forest System:

(a) Operating any vehicle, including an "off-road" vehicle:

(1) Without a valid operator's license or learner's permit as required by the law of the State in which the vehicle is being operated;

(2) Without adult supervision as required by State law;

(3) With an internal or external combustion engine not equipped with a properly installed spark arrestor, or exhaust system. A spark arrestor shall meet either Forest Service standard 5100–1a, or the 80 percent efficiency level determined in accord with appropriate Society of Automotive Engineers (SAE) Recommended Practices J335 or J350, and shall be determined to be qualified thereunder by a Forest officer;

(4) Without an operable braking system, or a properly installed and working exhaust system;

(5) From one-half hour after sunset to one-half hour before sunrise unless equipped with working head and tail lights;

(6) In violation of any applicable noise emission standard established by any Federal or State agency. If standards overlap, the most stringent will govern.

(b) Driving any vehicle, including an "off-road" vehicle:

(1) In excess of posted or established limits on speed, load, weight, or width;

V41N201 OCT 15 76 UM

(2) While under the influence of alcohol or other drug;
(3) In violation of State law;
(4) In a manner that creates excessive or unusual noise or smoke;
(5) Carelessly and without regard for the safety of others;
(6) In a manner that endangers, or is likely to endanger, any person or property.

§ 261.15 Developed recreation sites.

The following are prohibited in the National Forest System within developed recreation sites and posted areas of concentrated public recreation use:
(a) Occupying any portion of a site for other than recreation purposes.
(b) Erecting or using unsightly or inappropriate structures.
(c) Building, attending, maintaining, or using a fire outside of fire rings provided for such purpose or outside stoves, grills or fireplaces.
(d) Cleaning or washing personal property, fish, animals, or food at a hydrant or at a water faucet located in a restroom.
(e) Discharging a firearm, or any other implement designed to discharge missiles capable of destroying life or inflicting injury or damaging property.
(f) Discharging firecrackers, rockets or other fireworks.
(g) Occupying between 10 p.m. and 6 a.m. places designated for day use only.
(h) Failing to remove camping equipment, personal belongings, or litter when departing the area of site.
(i) Placing, maintaining, or using camping equipment except in a place specifically designated or provided for such equipment.
(j) Failing to have at least one person occupy a camping area during the first night after camping equipment has been set up without obtaining permission from a Forest officer.
(k) Leaving camping equipment unattended for more than 24 hours without permission from a Forest officer.
(l) Bringing in or possessing an animal, other than a seeing eye dog, unless it is crated, caged, or upon a leash not longer than 6 feet, or otherwise under physical restrictive control.
(m) Bringing in or possessing in a swimming area an animal, other than a seeing eye dog.
(n) Bringing in or possessing a saddle, pack, or draft animals, except as authorized by an official sign.
(o) Driving or parking a motor vehicle or trailer except in places developed for this purpose.
(p) Driving a bicycle, motorbike, or motorcycle on a trail within a developed recreation site unless designated for this use.
(q) Driving a motorbike, motorcycle, or other motor vehicle on a road in a developed recreation site for any purpose other than access into, or egress out of, the site.

§ 261.16 Admission and recreation-use fees.

The following are prohibited in the National Forest System:
(a) Failing to pay fees where required for the use of sites, facilities, equipment, or services furnished at Federal expense.
(b) Failing to pay a prescribed fee applicable to any site or area under 16 U.S.C. 406L–4 to 460L–10.

§ 261.17 National Forest wilderness.

The following are prohibited in National Forest wilderness:
(a) Using motorized equipment except small battery-powered, hand-held devices, such as cameras, shavers, flashlights and Geiger counters.
(b) Possessing or using a hang glider, motorboat, motor vehicle, bicycle or other form of mechanical transport.
(c) Possessing or using a power saw.
(d) Landing of aircraft, or the dropping or picking up of materials from aircraft.
(e) Transporting over land any watercraft by mechanical means, including the use of wheels, rollers, or other devices, except as authorized by a permit.
(f) Possessing any motor or other mechanical device capable of propelling a water craft through water.
(g) Leaving unattended any watercraft, motor, mechanical device, or equipment not used in connection with a current visit to the area.

Subpart B—Prohibitions in Areas Designated by Order

§ 261.50 Orders.

(a) The Chief, each Regional Forester, each Experiment Station Director, the Administrator of the Lake Tahoe Basin Management Unit and each Forest Supervisor may issue orders which close or restrict the use of specified areas within the area over which he has jurisdiction. An order may prohibit all or any of the uses of the designated area. Any or all of the prohibitions authorized in this subpart may be applied to an area by order.
(b) The Chief, each Regional Forester, each Experiment Station Director, the Administrator of the Lake Tahoe Basin Management Unit and each Forest Supervisor may issue orders which close, restrict the use of, or otherwise establish the conditions for use of, forest development roads or trails under the jurisdiction of the Forest Service.
(c) Each order shall:
(1) For orders issued under § 261.50 (a), describe the area which is restricted or closed.
(2) For orders issued under § 261.50 (b), describe the road or trail to which the order applies.
(3) Specify the times during which the prohibitions apply.
(4) State the prohibitions which is applied or established.
(5) Be posted in accordance with § 261.2.
(d) The prohibitions which are applied by an order are supplemental to the general prohibitions in subpart A.
(e) An order may exempt the following persons from any of the prohibitions contained in the order:
(1) Persons with a permit authorizing the otherwise prohibited acts;
(2) Owners or lessees of land in the area;
(3) Residents in the area;
(4) Persons traveling on a public road or public highway;
(5) Any Federal, State, or local officer, or member of an organized fire fighting force in the performance or an official duty; and
(6) Persons engaged in a business, trade, or occupation in the area.
(f) The Chief, each Regional Forester, each Experiment Station Director, Administrator of the Lake Tahoe Basin Management Unit, each Forester Supervisor and each District Ranger or equivalent officer may issue permits to persons authorizing the occupancy or use of a road, trail, area or other part of the National Forest, for the promotion of ficer may include in any permit such conditions as he considers necessary for the protection and administration of the National Forest, for the promotion of public health, safety, or welfare.
(g) In an area which is not closed to vehicular use, the Chief, each Regional Forester, the Administrator of the Lake Tahoe Basin Management Unit, and each Forest Supervisor may establish by order limits on the type, speed, load, weight, length, height, or width, of vehicles which may use such areas.
(h) Any person wishing to use a National Forest or portion thereof, should contact the Forest Supervisor or District Ranger to ascertain the special restrictions which may be applicable to that National Forest or portion thereof.

§ 261.51 Fire.

When provided by an order, the following are prohibited:
(a) Setting, building, maintaining, attending or using a fire.
(b) Failing to extinguish a fire when set, built, maintained, or used.
(c) Using an explosive.
(d) Smoking.
(e) Smoking outside buildings or vehicles.
(f) Going into or being upon an area of fire danger without a permit.
(g) Possessing, discharging or using any kind of fireworks or other pyrotechnic devices.
(h) Using a portable stove fueled by gas or liquid except at a developed recreation site.
(i) Going or being upon an area of fire danger without firefighting tools, such as axes, shovels, and similar implements when entry is by motor vehicle, pack outfit, or other forms of transportation which provides a means for carrying such tools or implements.

§ 261.52 Disease.

When provided by an order, the following are prohibited:
(a) Possessing an animal.
(b) Possessing a bird.
(c) Transporting an animal.
(d) Transporting a bird.
(e) Possessing any part of a severed tree or plant.
(f) Transporting any part of a tree or plant.

§ 261.53 Protection of property.

When provided by an order, the following are prohibited:
(a) Going into or being upon an area designated by an order to protect public or privately owned property from malicious injury or destruction.
(b) Entering, occupying, or using any building or structure owned or controlled by the United States which is closed to the public by an order, except in an emergency to prevent suffering.

§ 261.54 Health, safety, and protection of special areas.

It is prohibited to go upon or be in a part of the National Forest System closed by an order for the protection of:
(a) Endangered, threatened, rare or vanishing species of plants or animals.
(b) Special biological communities.
(c) Objects or areas of historical or archaeological interest.
(d) Scientific experiments or investigations.
(e) The public health or safety of users of the National Forests System.

§ 261.55 Forest development roads.

The following are prohibited on roads designated in an order:
(a) Using a prohibited vehicle on a road which has been restricted by an order to certain classes of vehicles, such a passenger cars, buses, trucks, motorcycles, snowmobiles, and trailers or restricted to certain types of traffic such as commercial hauling, recreational and administrative traffic.
(b) Using a road for commercial hauling without a permit.
(c) Using a road without a permit.
(d) Operating a vehicle in violation of the speed, load, weight, height, length, width or other limitations established for such road.

§ 261.56 National forest development trails and national scenic trails.

It is prohibited to travel by foot, or use a motorized vehicle, bicycle or animal on national forest development trails or national scenic trails.

§ 261.57 Use of vehicles off roads.

It is prohibited to possess or use a vehicle off roads in areas and trails of the National Forest System designated closed by an order.

§ 261.58 National Forest Wilderness.

When designated by an order, the following are prohibited in National Forest wilderness:
(a) Entering or being in a National Forest wilderness without a permit.
(b) Possessing any camping or pack-outfitting equipment.
(c) Possessing firearms or fireworks.
(d) Possessing bottles, cans or similar containers.
(e) Camping, using a campfire, grazing, or storing equipment or supplies.
(f) Disposing of debris, garbage, or other waste.

§ 261.59 Occupancy and use.

When designated by an order, the following are prohibited:
(a) Camping for a period longer than permitted by the order.
(b) Entering or using a developed recreation site.
(c) Entering or remaining in a campground during established night periods except for persons who are occupying such campgrounds.
(d) Occupying a developed recreation site with prohibited camping equipment.
(e) Camping without a permit.
(f) Using a campsite by more than eight persons unless authorized by permit.
(g) Parking or leaving a vehicle in violation of a posted sign.
(h) Parking or leaving a vehicle outside a parking space assigned to one's own camp unit.
(i) Possessing, parking or leaving more than two vehicles, excluding two-wheel vehicles other than trailers, per camp unit.
(j) Being publicly nude.
(k) Entering or being in a body of water.
(l) Being in the area after sundown or before sunrise.
(m) Firing a firearm, air rifle, or gas gun.
(n) Possessing or operating a motorboat.
(o) Water skiing.
(p) Storing or leaving a boat or raft.
(q) Operating any watercraft in excess of a posted speed limit.
(r) Launching a boat except at a designated launching ramp.
(s) Being in area.

§ 261.60 Violation of an order or permit.

It is prohibited to enter, be in, or use, an area designated by an order in violation of the terms or conditions of a permit issued under 261.50(f).

Subpart C—Delegation of Authority

§ 261.70 Authority to issue local regulations.

(a) The Chief and each Regional Forester may issue regulations prohibiting acts within all or any part of the area over which he has jurisdiction, for one or more of the following purposes:
(1) Fire prevention or control.
(2) Disease prevention or control.
(3) Protection of property, roads or trails.
(4) Protection of threatened, endangered, rare, or unique species of plants or animals, or special biological communities.
(5) Protection of objects or places of historical, archeological, geological or paleontological interest.
(6) Protection of scientific experiments or investigations.
(7) Public safety.
(8) Protection of health.
(9) Establishing reasonable rules of public conduct.
(b) No regulation may be issued under this subpart if the act is prohibited by existing regulations or may be prohibited by order.
(c) In issuing any regulations under paragraph (a) of this section, the issuing officer shall comply with the Administrative Procedure Act, 5 U.S.C. 553, by:
(1) Publishing the proposed rule in the FEDERAL REGISTER.
(2) Providing a period of not less than 30 days for public comment.
(3) Publishing the final rule in the FEDERAL REGISTER.
(d) In an emergency situation, the issuing officer shall:
(1) State that the proposed regulation is effective immediately upon publication in the FEDERAL REGISTER as a proposed regulation.
(2) Follow the procedures in paragraph (c) of this section for publication as a final rule.
(3) In the case of a regulation issued by a Regional Forester, obtain the approval of the Chief, Forest Service.
(e) No regulation issued in any emergency situation may be effective for more than 90 days unless adopted as a final rule as provided in paragraph (c) of this section.

Subpart D—Rewards and Impoundments

§ 261.90 Rewards in connection with fire or property prosecutions.

(a) Hereafter, provided Congress shall make the necessary appropriation or authorize the payment thereof, the Department of Agriculture will pay the following rewards:
(1) Not exceeding $500 and not less than $100 for information leading to the arrest and conviction of any person on the charge of willfully and maliciously setting on fire, or causing to be set on fire, any timber, underbrush, or grass upon the lands of the United States within or near a National Forest;
(2) Not exceeding $300 and not less than $25 for information leading to the arrest and conviction of any person on the charge of building a fire on lands within or near the National Forest System in or near any forest timber or other inflammable material, and leaving said fire before the same has been totally extinguished;
(3) Not exceeding $100 and not less than $25 for information leading to the arrest and conviction of any person charged with destroying or stealing any property of the United States within the custody of the Chief of the Forest Service, United States Department of Agriculture.
(b) A reward may be paid to the person or persons giving the information leading to such arrest and conviction upon presentation to the Department of Agriculture of satisfactory evidence thereof, subject to the necessary appropriation as aforesaid, or otherwise as may be provided.
(c) Officers and employees of the Department of Agriculture are barred from receiving such rewards.

V41N201 OCT 15 76 UM

(d) The Department of Agriculture reserves the right to refuse payments of any claim for reward when, in its opinion, there has been collusion or that improper methods used to secure arrest and conviction. The Department also reserves the right to allow only one reward where several persons have been convicted or several offenses, unless the circumstances entitle the person to a reward on each conviction.

(e) Applications for reward should be forwarded to the Regional Forester, Research Director, or Area Director who has responsibility for the land or property involved in the trespass. However, no application will be considered unless presented to a responsible Forest Service officer within 3 months from the date of conviction of an offender. In order that all claimants for rewards may have an opportunity to present their claims within the prescribed limit, the Department will not take action with respect to rewards for 3 months from the date of the conviction of an offender. (58 Stat. 736; 16 U.S.C. 559a)

§ 261.91 Impoundment and disposal of unauthorized livestock.

Unauthorized livestock or livestock in excess of those authorized by a grazing permit on the National Forest System, which are not removed therefrom within the periods prescribed by this regulation, may be impounded and disposed of by a forest officer as provided herein.

(a) When a Forest officer determines that such livestock use is occurring, has definite knowledge of the kind of livestock, and knows the name and address of the owners, such livestock may be impounded any time 5 days after written notice of intent to impound such livestock is mailed by certified or registered mail or personally delivered to such owners.

(b) When a Forest officer determines that such livestock use is occurring, but does not have complete knowledge of the kind of livestock, or if the name of the owner is unknown, such livestock may be impounded any time 15 days after the date a notice of intent to impound livestock is first published in a local newspaper and posted at the county courthouse and in one or more local post offices. The notice will identify the area in which it will be effective.

(c) Unauthorized livestock or livestock in excess of those authorized by a grazing permit on National Forest System which are owned by persons given notice under paragraph (a) of this section, and any such livestock in areas for which a notice has been posted and published under paragraph (b) of this section, may be impounded without further notice any time within the 12-month period immediately following the effective date of the notice or notices given under paragraphs (a) and (b) of this section.

(d) Following the impoundment of livestock, a notice of sale of impounded livestock will be published in a local newspaper and posted at the county courthouse and in one or more local post offices. The notice will describe the livestock and specify the date, time, and place of the sale. The date shall be at least 5 days after the publication and posting of such notice.

(e) The owner may redeem the livestock any time before the date and time set for the sale by submitting proof of ownership and paying for all expenses incurred by the United States in gathering impounding, and feeding or pasturing the livestock. However, when the impoundment costs exceed fair market value a minimum acceptable redemption price at fair market value may be established for each head of livestock.

(f) If the livestock are not redeemed on or before the date and time fixed for their sale, they shall be sold at public sale to the highest bidder, providing this bid is at or above the minimum amount set by the Forest Service. If a bid at or above the minimum amount is not received, the livestock may be sold at private sale at or above the minimum amount, reoffered at public sale, condemned and destroyed, or otherwise disposed of. When livestock are sold pursuant to this regulation, the forest officer making the sale shall furnish the purchaser a bill or other written instrument evidencing the sale. Agreements may be made with State agencies whereby unbranded livestock of unknown ownership are released to the agency for disposition in accordance with State law.

§ 261.92 Impounding of dogs.

Any dog found running at large in a part of the National Forest System, which has been closed to dogs running at large, may be captured and impounded by Forest officers. Forest officers will notify the owner of the dog, if known, of such impounding, and the owner will be given 5 days to redeem the dog. A dog may be redeemed by the owner submitting adequate evidence of ownership and paying all expenses incurred by the Forest Service in capturing and impounding it. If the owner fails to redeem the dog within 5 days after notice, or if the owner cannot be ascertained within 10 days from the date of impounding, the dog may be destroyed or otherwise disposed of at the discretion of the Forest officer having possession of it.

§ 261.93 Impounding of personal property.

(a) Automobiles or other vehicles, trailers, boats, camping equipment and other inanimate personal property on National Forest or other land or waters under Forest Service control without the authorization of a Forest officer which are not removed therefrom within the prescribed period after a warning notice as provided in this regulation may be impounded by a Forest officer. Whenever, such Forest officer knows the name and address of the owner, such impoundment may be effected at any time 5 days after the date that written notice of the trespass is mailed by registered mail or delivered to such owner.

(b) In the event, the local Forest officer does not know the name and address of the owner, impoundment may be effected at any time fifteen days after the date a notice of intention to impound the property in trespass is first published in a local newspaper and posted at the county courthouse and in one or more local post offices. A copy of this notice shall also be posted in at least one place on the property or in proximity thereto.

(c) Personal property impounded under this regulation may be disposed of at the expiration of 90-days after the date of impoundment. The owner may redeem the personal property within the 90-day period by submitting proof of ownership and paying all expenses incurred by the United States in advertising, gathering, moving, impounding, storing, and otherwise caring for the property, and also for the value of the use of the site occupied during the period of the trespass.

(d) If the personal property is not redeemed on or before the date fixed for its disposition, it shall be sold by the Forest Service at public sale to the highest bidder. If no bid is received, the property, or portions thereof, may, in the discretion of the responsible Forest officer, be sold at private sale or be condemned and destroyed or otherwise disposed of. When personal property is sold pursuant to this regulation, the Forest officer making the sale shall furnish the purchaser a bill of sale or other written instrument evidencing the sale.

§ 261.94 Removal of obstructions.

A Forest officer may remove or cause to be removed, to a more suitable place, a vehicle or other object which is an impediment of hazard to the safety convenience, or comfort, or other users of the area.

[Docket No. 75P-0038]

CANNED CHERRIES

Withdrawal of Petition and Termination of Proposed Rule Making Procedure

The National Red Cherry Institute has requested that the petition to provide for safe and suitable color additives as optional ingredients in canned cherries be withdrawn without prejudice to a future filing.

The Food and Drug Administration issued a proposal in the FEDERAL REGISTER of June 23, 1975 (40 FR 26276), based on this petition filed by the National Red Cherry Institute, 415 West Grand River Ave., East Lansing, MI 48823, to amend the standard of identity for canned cherries under § 27.30 (21 CFR 27.30) by adding in § 27.30(a) color additives to the list of safe and suitable optional ingredients.

In accordance with § 10.2(d) (21 CFR 10.2(d)), the petitioner has withdrawn its petition without prejudice to a future filing. Therefore, the Commissioner of Food and Drugs announces that the petition to provide for use of safe and suitable color additives in canned cherries is withdrawn and the rule making procedure on this matter is terminated.

This action is taken under the Federal Food, Drug, and Cosmetic Act (sections 401, 701, 52 Stat. 1046, 1055 as amended by 70 Stat. 919, 72 Stat. 748 (21 U.S.C. 341, 371)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: October 7, 1976.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 411]

[FRL 631-2]

CEMENT MANUFACTURING POINT SOURCE CATEGORY

Amendment of New Source Performance Standards

Notice is hereby given that the Environmental Protection Agency (EPA) is proposing to revise standards of performance for new sources for the cement manufacturing point source category (40 CFR Part 411) by revising § 411.35 to the materials storage piles runoff subcategory (Subpart C), pursuant to section 306(b) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1316(b) and 1317 (b) and (c), 86 Stat. 816 et seq.; Pub. L. 92-500) (the Act). On February 20, 1974 the EPA promulgated the effluent limitations guidelines for the cement manufacturing point source category by adding Part 411 to Title 40 of the Code of Federal Regulations (39 FR 6590). That regulation established effluent limitations and guidelines for existing sources based on the best practicable control technology currently available and the best available technology economically achievable. Also established were standards of performance for new sources and pretreatment standards for existing and for new sources.

Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306(b)(1)(B) of the Act requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306(b)(1)(A) of the Act. The Administrator published in the FEDERAL REGISTER of January 16, 1973, (38 FR 1624) a list of 27 source categories, including the cement manufacturing category. Standards of performance for new cement manufacturing sources were proposed in the FEDERAL REGISTER of September 7, 1973 (38 FR 24462) and promulgated on February 20, 1974 (39 FR 6590). Section 306(b)(1)(B) of the Act authorizes the Administrator in the event of changes in technology and alternatives to revise promulgated standards of performance. In revising Federal standards of performance the Administrator is to consider the cost of achieving the effluent reduction and any non-water quality environmental impact and energy requirements. Section 411.35, proposed below, revises the standards of performance applicable to new sources for the materials storage piles runoff subcategory (Subpart C) of the cement manufacturing point source category.

On February 20, 1974 standards of performance for new sources were promulgated specifying no discharge of pollutants for the materials storage piles runoff subcategory (Subpart C). That standard was based on several alternate technologies. For new wet process plants excess precipitation can be used as makeup water in the mixing of the raw materials. Runoff can be diverted from storage piles by means of diversion berms and ditches, thus minimizing the amount of contaminated storage piles runoff. The storage piles can be situated so as to prevent the discharge of contaminated runoff into navigable waters. Storage piles can also be covered to prevent any contaminated runoff from them.

Since the regulation was promulgated, the industry has decided to construct only totally dry process plants. This has resulted from the concern over fuel cost and availability, since the evaporation of the mixing water in a wet process requires considerable energy. For the same reason it is desirable to store the raw materials in locations where they can naturally dewater to the maximum extent. The storage of raw materials in rainproof enclosures is a costly alternative which was assumed to be needed in only unusual situations. The present emphasis on building new plants which use the dry process will necessitate the extensive use of these enclosures.

Subsequently, Ideal Basic Industries and the Portland Cement Association representing several cement manufacturing companies petitioned the EPA to revise the new source standards for the materials storage piles runoff subcategory (Subpart C). After several meetings and discussions with the industry, sufficient documentation was presented to initiate review of the standards.

Based upon the data submitted and prior documentation, the Agency believes there is sufficient evidence to revise the standards of performance for new sources for the materials storage piles runoff subcategory of the cement manufacturing point source category. Treated contaminated materials storage piles runoff will be allowed to be discharged. The Agency has not found sufficient data to justify making the effluent limitations more stringent than the promulgated limitations representing the best practicable control technology currently available and the best available technology economically achievable. Those limitations require discharges of materials storage pile runoff not to exceed 50 milligrams per liter of total suspended solids and to be within the pH range of 6.0 to 9.0. An untreated discharge is allowed during a major rainfall event if the treatment facilities are designed to handle the 10-year 24 hour precipitation event. These limitations can be achieved by the construction of diversion berms and ditches to exclude excess runoff from storage piles areas in order to minimize the volume of contaminated runoff that must be treated in adequately sized and designed sediment ponds with pH control, if necessary.

The proposed regulations will significantly reduce the capital cost of complying with the standards of performance, and the operating costs and energy requirements attributed to environmental controls will be the same as for existing sources.

The report entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the Cement Manufacturing Point Source Category" and an errata for this report detail the analysis undertaken in support of the regulation being proposed herein and is available for inspection at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M St., SW., Washington, D.C. 20460, at all EPA regional offices, and at State water pollution control offices. Copies of the Development Document are available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. The errata for that report can be obtained by writing the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, Attention: Distribution Officer, WH-552.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the Environmental Protection Agency, 401 M St., SW., Washington, D.C. 20460, Attention: Distribution Officer, WH-552. Comments on all aspects of the proposed regulation are solicited. Criticisms as to the adequacy of the data relied upon by the Agency should be accompanied by new or additional data which the commenter thinks should have been used by the EPA in the development of this regulation. In the event comments address the approach taken by the Agency in establishing a standard of performance, EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of section 306 of the Act.

A copy of all public comments will be available for inspection and copying at EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M Street, SW., Washington, D.C. A copy of the Development Document and errata and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments received on or before December 14, 1976, will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202).

Dated: October 12, 1976.

JOHN QUARLES,
Acting Administrator.

Subpart C—Materials Storage Piles Runoff Subcategory

Subpart C is proposed to be amended by revising § 411.35 to read as follows:

§ 411.35 Standards of performance for new sources.

(a) Subject to the provisions of paragraph (b) of this section the following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	*Effluent limitations*
TSS	Not to exceed 50 mg/l.
pH	Within the range 6.0 to 9.0.

(b) Any overflow from facilities designed, constructed and operated to treat to the applicable limitations the precipitation and runoff resulting from a 10-year 24 hour precipitation event shall not be subject to the limitations of this section.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 21, 81]

[Docket No. 19943; RM-1894; FCC 76-894]

DOMESTIC PUBLIC LAND MOBILE RADIO AND MARITIME SERVICES

Fixed Relay and Control Operations in Hawaii

Adopted: September 28, 1976.

Released: October 7, 1976.

In the matter of amendment of Parts 2, 21, and 81 of the Commission's Rules to permit fixed relay and control operations in the state of Hawaii on certain frequencies in the 76–108 MHz band in the Domestic Public Land Mobile Radio and Maritime Services.

1. On February 21, 1974, the Commission adopted a Notice of Proposed Rule Making (NPRM), in response to a petition (RM–1894) from Radiocall, Inc. (Radiocall), to amend the Commission's Rules as stated in the above caption. The NPRM was published in the FEDERAL REGISTER on March 7, 1974 (39 FR 8932). Comments and/or reply comments were received from the Hawaiian Telephone Company, Radiocall, and Heftel Broadcasting Honolulu, Inc.

2. In the Notice the Commission proposed to make available five channels (totalling 100 kHz) in the 107–108 MHz band for fixed relay and control operations in Hawaii. Radiocall had requested access to all of the unused portions (those frequencies not assigned to the Hawaiian Telephone Company) in the 76–108 MHz band. After studying the request in detail the Commission determined that five channels could be made available and it appeared that this would satisfy the immediate needs of the petitioner. However, in its comments Radiocall indicated that the proposed allocation would not provide sufficient spectrum to adequately satisfy its total long term control and fixed relay circuit requirements and that at least 2.5 MHz of spectrum would be necessary. Since it did not appear that this requirement could be met within the 76–108 MHz band, Radiocall concurrently filed a separate petition (RM–2364) requesting that TV Broadcast Channel 17 be reallocated for this purpose in Hawaii.

3. On December 2, 1974, the Commission received from Radiocall late comments suggesting that Radiocall be allowed to use the five frequencies proposed in the NPRM for control of its one-way paging operations on the island of Oahu. While the staff was reviewing this new requirement to determine the availability of the five frequencies for controlling one-way paging operations, Radiocall, through its attorneys, filed a letter dated May 14, 1976 requesting withdrawal of its petition. Although Radiocall's letter did not indicate any specific reason for withdrawing their petition, the staff has informally been advised that Radiocall hopes to fulfill its wideband control requirements (both one-way paging and two-way voice) through a petition (RM–2261) filed by the National Association of Radiotelephone System (NARS). The NARS petition, if granted, would allow access to the 952–960 MHz band by the Domestic Public Land Mobile Radio Service for control and repeater operations. Since none of the parties commenting in the subject rule making (RM–1894) supported the NPRM, the staff can see no justification for adopting the rule amendments proposed in the NPRM.

4. Radiocall's new petition (RM–2364) is currently under study, and in disposing of that petition, all relevant comments filed in Docket 19943 will be taken into consideration.

5. Accordingly, *It Is Ordered*, That proceedings in Docket 19943 are hereby Terminated. *It Is Further Ordered*, That petition RM–1894 is hereby Denied.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

VESSEL TRAFFIC SERVICES SYSTEMS

Proposed Addition of San Francisco and Seattle Ports to Designated Radio Protection Areas

Adopted: September 28, 1976.

Released: October 7, 1976.

In the matter of amendment of Parts 81 and 83 of the rules to add the ports of San Francisco and Seattle to the designated radio protection areas for Vessel Traffic Services purposes.

1. Notice of proposed rulemaking in this matter is hereby given.

2. In recent rule making proceedings in Dockets 20444 and 20717, we have provided, pursuant to U.S. Coast Guard requests, VHF frequencies in the Maritime Mobile Service for use in Coast Guard designated Vessel Traffic Services (VTS) areas in the ports of New York, New Orleans and Houston. The Coast Guard has now similarly requested that effective January 1, 1977, the frequency 156.6 MHz (channel 12) be designated for exclusive use in the San Francisco radio protection area and effective July 1, 1977, the frequency 156.7 MHz (channel 14) be designated for exclusive use in the Seattle radio protection area, for VTS purposes.

3. The rule changes proposed in the attached Appendix comply with this latest request of the Coast Guard.

4. The proposed amendments to the Commission's rules, as set forth in the attached Appendix, are issued pursuant to the authority contained in Sections 4(i) and 303(c), (h) and (r) of the Communications Act of 1934, as amended.

5. Pursuant to the applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before November 11, 1976, and reply comments on or before November 22, 1976. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding.

6. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 11 copies of all statements, briefs or comments shall be furnished the Commission. All comments received in response to this notice of proposed rulemaking, will be available for public inspection in the Docket Reference Room in the Commission's Offices in Washington, D.C.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

Parts 81 and 83 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

In § 81.357 new paragraphs (b) (4) and (5) are added as follows:

§ 81.357 Frequencies available for use in Vessel Traffic Services Systems.

* * * * *

(b) * * *

(4) San Francisco, effective January 1, 1977: The rectangle between north latitudes 37°15′ and 39° and west longitudes 121° and 123°; frequency 156.6 MHz.

(5) Seattle, effective July 1, 1977: From 49° North 121° West on the U.S.-Canadian Border, south to 46°30′ North 121° West, then west to 46°30′ North 125° West, then north to 48°30′ North 125° West, then east to the U.S.-Canadian Border and thence along the U.S.-Canadian Boarder to 49° North 121° West; frequency 156.7 MHz.

* * * * *

In § 83.361 new paragraphs (b) (4) and (5) are added as follows:

§ 83.361 Frequencies available for use in Vessel Traffic Services Systems.

* * * * *

(b) * * *

(4) San Francisco, effective January 1, 1977: The rectangle between north latitudes 37°15′ and 39° and west longitudes 121° and 123°; frequency 156.6 MHz.

(5) Seattle, effective July 1, 1977: From 49° North 121° West on the U.S.-Canadian Border, south to 46°30′ North 121° West, then west to 46°30′ North 125° West, then north to 48°30′ North 125° West, then east to the U.S.-Canadian Border and thence along the U.S.-Canadian Border to 49° North 121° West; frequency 156.7 MHz.

FEDERAL ENERGY ADMINISTRATION

[10 CFR Part 211]

AVIATION FUEL ALLOCATION LEVELS

Proposed Rulemaking and Public Hearing

The Federal Energy Administration ("FEA") hereby gives notice of a proposal to amend certain provisions of the Mandatory Petroleum Allocation Regulations relating to allocation levels of aviation fuels. FEA will receive written comments and hold a public hearing with respect to this proposal.

Evidence available to FEA suggests that significant adjustments are occurring within the aviation industry with respect to the nature of aviation operations and changes in the use of aviation facilities. Such changes are occurring as a result of increased use of aviation turbine fuel and a decrease in use of aviation gasoline largely due to the continuing conversion of various classes of aircraft fleets from piston-powered to jet-powered equipment. Similarly, airport facility operation and usage is changing. For example, many airport authorities have separated civil air carrier facilities from facilities serving general aviation and public aviation. In some instances, general aviation usage of commercial airports has been restricted, necessitating relocation or redirection of such usage to other airports.

In connection with this, continuing fuel supply problems are currently being experienced by an increasing number of fixed base operators and the wholesale purchaser-consumers and end-users which they supply. FEA believes that many of the supply problems associated with these changes may be due to the fact that allocation levels for fixed base operators and many of their purchasers are established with reference to such firms' base period uses and to the apparent difficulty of adjusting such allocation levels under the regulations. In addition, overall demand for aviation fuels has increased substantially since the 1972 base year.

These changes within the industry and the apparent inadequacy of the regulations to permit allocation obligations to shift to correspond to current demand patterns are presenting a particulary severe problem to fixed base operators and their customers. FEA believes that the resultant supply dislocations are sufficiently widespread to warrant amendments to the regulations to provide to fixed base operators and their customers a more expeditious means of assuring predictable sources of fuel supplies. While the allocation program presently contains a number of provisions designed to respond to changed circumstances and special needs, only the Exceptions and Appeals process under Subpart D of Part 205 is currently available to adjust the base period uses for fixed base operators. Civil air carriers have been able to keep generally abreast of current needs because of the availability of adjustments as provided in § 211.145 to accommodate such factors as changes in routes, equipment, and traffic demand. It appears, however, that the pervasiveness of the fuel supply problems of fixed base operators is such that they should no longer be resolved by means of the exceptions process.

Accordingly, the FEA hereby proposes to adopt a new § 211.144 effective November 1, 1976, which would provide that fixed base operators are entitled to 100 percent of their current requirements subject to application of an allocation fraction for use in the conduct of an ongoing business of selling aviation fuels to wholesale purchaser-consumers and end-users.

The provisions proposed hereby would establish a fixed base operator's allocation entitlement with reference to the requirements of his customers rather than with reference to a base period volume as currently provided. The new § 211.144 would generally give fixed base operators a comparable basis for establishing an allocation entitlement as is currently provided to some wholesale purchaser-consumers and end-users of aviation fuels which are entitled to one hundred percent of current requirements subject to application of an allocation fraction.

Because fixed base operators are resellers of fuel and not consumers of fuel, a new definition of "current requirements" applicable specifically to the activities of fixed base operators is also proposed. As proposed, the current requirements of a fixed base operator would be equal to the sum of the allocation entitlements of all its customers including base and transient customers.

FEA is aware of the difficulties that some fixed base operators could experience in determining their own allocation entitlements under the proposal with reference to the allocation entitlements of their transient purchasers. In cases where it is difficult for a fixed base operator to certify the actual allocation entitlements attributable to transient purchasers, the proposed definition of current requirements provides that the entitlements of such purchasers may be based on either amounts actually certified to the fixed base operator or on amounts equal to the volumes sold to transient purchasers in the immediately preceding calendar year. Comments on this particular aspect of the proposal are solicited including alternative methods of determining a fixed base operator's current requirements.

The intended effect of the proposed change with respect to establishing allocation levels for fixed base operators will be to permit fixed base operators to purchase volumes of fuel commensurate with actual requirements of their purchasers.

A definition of "fixed base operator" substantially identical to that contained in § 212.31 of the Mandatory Petroleum Price Regulations has also been proposed to be added which would appear at § 211.142.

In light of the foregoing, § 211.143 which establishes allocation levels for wholesale purchaser-consumers and end-users of aviation fuel is also proposed to be amended with respect to those customers which traditionally have obtained aviation fuel supplies from fixed base operators. Therefore, uses of aviation fuel for business flying, public aviation, personal flying, instructional flying and air travel club flying are proposed to be eligible for an allocation level of one hundred percent of current requirements subject to application of an allocation fraction. FEA believes that the proposed allocation level modifications for these uses, in conjunction with the proposed changes in allocation levels applicable to fixed base operators, will tend to alleviate substantially the aviation fuel supply dislocations currently occurring within these segments of the aviation industry.

The general rule establishing the allocation entitlements of wholesale purchaser-resellers contained in § 211.12(b) is also proposed to be amended to make reference to the proposed new § 211.144.

Interested persons are invited to participate in this rulemaking proceeding by submitting data, views, or arguments

with respect to the subject matter set forth in this notice to Executive Communications, Room 3309, Federal Energy Administration, Box JE, Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation "Aviation Fuel Allocation Levels". Fifteen copies should be submitted. All comments received by October 27, 1976, and all relevant information, will be considered by the Federal Energy Administration. Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

The public hearing will be held at 9:30 a.m. on October 27, 1976 in Room 2105, 2000 M Street, NW., Washington, D.C.

Any person who has an interest in the subject matter of the hearing, or who is a representative of a group or class of persons that has such an interest, may make a written request for an opportunity to make an oral presentation. Such a request should be directed to Executive Communications, FEA, and must be received before 4:30 p.m., October 20, 1976.

Such a request may be hand delivered to Room 3309, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8:00 a.m., and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons that has such an interest and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through October 22, 1976. Each person selected to be heard will be so notified by FEA before 4:30 p.m. e.d.t., October 22, 1976, and must submit 100 copies of his or her statement to Allocation Regulation Development Office, FEA, Room 2214, 2000 M Street, NW., Washington, D.C. before 4:30 p.m., e.d.t., on October 26, 1976.

FEA reserves the right to select the persons to be heard at these hearings, to schedule their respective presentations and to establish the procedures governing the conduct of the hearings. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearings. These will not be judicial or evidentiary-type hearings. Questions may be asked only by those conducting the hearings, and there will be no cross-examination of persons presenting statements. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested persons may submit questions, to be asked of any person making a statement at the hearings, to Executive Communications, FEA before 4:30 p.m., e.d.t., October 22, 1976. Any person who wishes to ask a question at the hearings may submit the question, in writing, to the presiding officer. FEA or the presiding officer, if the question is submitted at the hearings, will determine whether the question is relevant, and whether the time limitations permit it to be presented for answer.

Any further procedural rules need for the proper conduct of the hearings will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearings, including the transcript, will be retained by FEA and made available for inspection at the Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

As required by section 7(c)(2) of the Federal Energy Administration Act of 1974, Pub. L. 93–275, a copy of this notice has been submitted to the Administrator of the Environmental Protection Agency for his comments concerning the impact of this proposal on the quality of the environment. The Administrator had no comments.

This proposal has been reviewed in accordance with Executive Order 11821, issued November 27, 1974, and has been determined not to be of a nature that requires an evaluation of its inflationary impact pursuant to Executive Order 11821.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93–159, as amended, Pub. L. 93–511, Pub. L. 94–99, Pub. L. 94–133, Pub. L. 94–163, and Pub. L. 94–385; Federal Energy Administration Act of 1974, Pub. L. 93–275, as amended, Pub. L. 94–385; Energy Policy and Conservation Act, Pub. L. 94–163, as amended, Pub. L. 94–385; E.O. 11790, 39 FR 23185; E.O. 11933, 41 FR 36641.)

In consideration of the foregoing, it is proposed to amend Part 211, Chapter II of Title 10, Code of Federal Regulations, as set forth below.

Issued in Washington, D.C., October 8, 1976.

MICHAEL F. BUTLER,
General Counsel.

1. Section 211.12 is amended in subparagraph (1) of paragraph (b) to read as follows:

§ 211.12 Purchaser's allocation entitlement.

* * * * *

(b) *Entitlements*—(1) *Wholesale purchaser-reseller.* A wholesale purchaser-reseller, other than a fixed base operator whose allocation entitlement for aviation fuels is determined as provided in § 211.144, shall be entitled to receive a volume of an allocated product equal to the sum of the volumes allocable to it from each of its suppliers. The volume supplied to a wholesale purchaser-reseller by each of its suppliers shall equal the sum of (i) any amounts which that purchaser has certified to a supplier to be for ultimate use under an allocation level not subject to an allocation fraction plus (ii) the product of that supplier's allocation fraction multiplied by an amount equal to that part of that wholesale purchaser's base period use purchased or obtained from that supplier minus any amounts which that purchaser has certified to be for ultimate use under an allocation level not subject to an allocation fraction.

2. Section 211.142 is amended to add new definitions of "current requirements" and "fixed base operator" in appropriate alphabetical sequence as follows:

§ 211.142 Definitions.

* * * * *

"Current requirements" means current requirements as defined in § 211.51, except that as to a fixed base operator, current requirements means the sum of the volumes of aviation fuels that the based and transient wholesale purchaser-consumers and end-users supplied by such fixed base operator are entitled to purchase under the allocation levels prescribed in § 211.143. For the purpose of determining a fixed base operator's current requirements, the allocation entitlements of transient purchasers shall be an amount equal to either the total volumes certified to the fixed base operator by such purchasers or the total volumes sold to transient purchasers in the corresponding quarter of the preceding calendar year.

* * * * *

"Fixed base operator" means a firm or that portion of a firm which maintains facilities at an airport for the purpose of (1) engaging in the retail sale of aviation fuels primarily to purchasers other than (a) scheduled or supplemental air carriers certificated by the Civil Aeronautics Board pursuant to 49 U.S.C. 1371 or (b) the Department of Defense; and (2) performing one or more of the following general aviation activities: (a) Aircraft maintenance, servicing, parking, tie-down, storage and other aircraft services; (b) baggage and cargo handling and other passenger/freight services; and (c) maintenance of avionics equipment and systems.

* * * * *

3. Section 211.143 is amended in paragraph (c) to read as follows:

§ 211.143 Allocation levels.

* * * * *

(c) *Allocation levels subject to an allocation fraction.* (1) One hundred (100) percent of current requirements (as reduced by application of an allocation fraction) for the following uses:

(i) Emergency aviation services, safety and mercy missions;

(ii) Energy production flying;

(iii) Aircraft manufacturing but not to exceed one hundred thirty (130) percent of base period use;

(iv) Telecommunications flying;

(v) Business flying, including requirements for crew training and proficiency flying;

(vi) Public aviation;

(vii) Personal non-business flying;

(viii) Instructional flying; and

(ix) Air travel club flying, including requirements for crew training and proficiency flying.

(2) One hundred (100) percent of base period use (as reduced by application of an allocation fraction) for the following uses:

(i) Domestic, supplemental and scheduled cargo air carriers, including requirements for crew training and proficiency flying;

(ii) International air carriers, including requirements for crew training and proficiency flying—the total of both bonded and non-bonded fuels;

(iii) Intrastate carriers, including requirements for crew training and proficiency flying;

(iv) Local service air carriers, including requirements for crew training and proficiency flying;

(v) Other air carriers, including requirements for crew training and proficiency flying; and

(vi) Non-flying use of aviation fuels;

4. Part 211 is amended by adding a new § 211.144 to read as follows:

§ 211.144 Fixed base operators.

Notwithstanding the general provisions of § 211.12(b)(1), fixed base operators are entitled to receive from their suppliers an amount of aviation fuel equal to one hundred (100) percent of current requirements as reduced by the application of the supplier's allocation fraction for use in the conduct of an ongoing business of selling aviation fuels to wholesale purchaser-consumers and end-users.

POSTAL RATE COMMISSION

[39 CFR Part 3001]

[Docket No. RM77-1]

POSTAL SERVICE DETERMINATIONS TO CLOSE OR CONSOLIDATE POST OFFICES

Appeals Procedures

OCTOBER 7, 1976.

Pursuant to 5 U.S.C. 553, and 39 U.S.C. 404(b) and 3603, the Commission gives notice that it proposes to amend certain sections of 39 CFR Part 3001, Subpart A, and to add a new Subpart H to implement procedures governing appeals of determinations of the United States Postal Service to close or consolidate any post office.

Section 9(a) of the Postal Reorganization Act Amendments of 1976 (Pub. L. 94–421) has added a new § 404(b) to title 39 which circumscribes the specific power of the Postal Service contained in 39 U.S.C. 404(a) to "determine the need for post offices." The statute creates a set of substantive criteria which must be considered by the Postal Service in making any determination to close or consolidate a post office and establishes procedures whereby the rights of affected postal patrons to adequate service can be protected through sufficient notice of intended closing or consolidation, the opportunity for hearing on the record, a written determination which specifies the reasons for any closing or consolidation, and the right of appeal to the Postal Rate Commission. During the pendency of any appeal the Commission may suspend the effectiveness of the determination to close or consolidate which is under review.

Adequate notice of the intention of the Postal Service to close or consolidate any post office must be given to persons served by that facility at least 60 days prior to the proposed action. The opportunity to present information relevant to the proposed action, including the opportunity for a hearing, must be accorded to these patrons. Thereafter, a determination by the Postal Service to close or consolidate must be in writing and must include specific findings regarding each of the criteria set forth in 39 U.S.C. 404(b)(2). This written determination, in turn, is to be made available to effected postal patrons at least 60 days prior to closing or consolidation. Continuing the time sequence, local postal patrons, aggrieved by this determination, have 30 days after it has been made available to them in which to appeal to this Commission. In reviewing a determination to close or consolidate a post office, the Commission may affirm, set aside, or remand for further consideration based upon the appellate standards of 39 U.S.C. § 404(b)(5). It should be noted that a strict time frame of 120 days is imposed upon all appellate action of this Commission, from inception of appeal to issuance of the decision.

Proposed amendments to 39 CFR Part A are designed to expand the scope of certain rules of general application of fit the requirements of appellate practice. Section 3001.5 would be amended to add a new paragraph "(m)" defining the term "appellant." Section 3001.7(a) would be amended to include appellate proceedings under new Subpart H within the proscription of ex parte communications. Section 3001.12(d) would be amended to require the Secretary of this Commission to serve a copy of the official service list in any appellate proceeding on the postmaster of the affected post office with instructions that it be prominently displayed for the information of postal patrons. A new paragraph "(b)" to § 3001.17 would be added to govern the issuance of notice in appellate proceedings, in distinction to proceedings subject to hearing on the record. A new paragraph "(c)" to § 3001.17 would be added in lieu of existing paragraph "(b)", which would include appellate proceedings within the provision governing the publication and service of notice of proceedings. Finally, a new paragraph "(d)" to § 3001.17 would be added, in lieu of existing paragraph "(c)," expanding the requirements of the contents of a notice of proceedings before the Commission.

The Commission also proposes a new Subpart H to 39 CFR, "Rules Applicable to Appeals of Postal Service Determinations to Close or Consolidate Post Offices." New §§ 3001.110 through 3001.117 generally are modeled upon the Federal Rules of Appellate Procedure, 28 U.S.C., which govern the United States Courts of Appeals in the review of orders of administrative agencies. In instances where sections within Subpart H are borrowed from the Federal Rules, time requirements for pleading have been significantly tightened in recognition of the statutory 120 day limitation placed upon the appelate deliberation of this Commission by 39 U.S.C. 404(b)(5).

New § 3001.110 would govern the application of proposed Subpart H to appellate proceedings. The right of appeal is strictly limited to local patrons of the post office to be closed or consolidated, consistent with the language of 39 U.S.C. 404(b)(5).

Section 3001.111 would require that appeals be initiated by means of a petition for review, filed with the Commission within 30 days after the Postal Service issues a written determination to close or consolidate a post office as prescribed by statute. Consistent with the requirement imposed upon appellants, intervention is limited to persons served by the affected post office.

Section 3001.112 follows the language of 39 U.S.C. 404(b)(1) through (3) to include in the appellate record all documentation which the Postal Service is required to provide to local postal patrons (including notice of proposed action), plus all materials filed in response by interested persons. The record is to contain all evidence considered by the Postal Service in making a determination to close or consolidate; extraneous, non-record evidence will not suffice on appeal, governed by the standard of "substantial evidence on the record" contained in 39 U.S.C. 404(b)(5)(C). The Commission stresses the fact that its appellate proceedings may not be viewed as an opportunity for de novo review of the evidence. The record on review shall not include any evidence not previously considered by the Postal Service in making the determination under review.

Section 3001.113 would require the Postal Service to file the record on review expeditiously, within 15 days after service on it of the petition for review.

Section 3001.114 would govern an application for suspension of a Postal Service determination to close or consolidate a post office, which the Commission may grant pursuant to 39 U.S.C. 404(b)(5). Consistent with precedent, applicants would be expected to present all facts and reasons necessary to meet the four criteria for suspension of an administrative decision established in *Virginia Petroleum Jobbers Association* v. *FPC*,

V 41 N 201 OCT 15 76 UMI

259 F.2d 921 (D.C. Cir. 1958). The requirement that an application for suspension be made at the time of filing of a petition for review, or for leave to intervene, is necessitated by the overall time limitations imposed upon appellate proceedings before the Commission.

Section 3001.115 would govern the content and time requirements for the filing of appellant's initial and reply briefs and for the answering brief of the Postal Service. These requirements would also apply to the briefs of intervenors.

Section 3001.116 would create a right of participation in appellate proceedings for those who are not local patrons of the post office to be closed or consolidated. Briefs of amicus curiae would be permitted when in the opinion of the Commission, or that of all parties to an appeal, they would facilitate the illumination of the issues on review.

Finally, § 3001.117 would require the Secretary of this Commission to serve appellate pleadings, notices, orders, etc., upon postmasters of post offices affected by the determination under review with the direction that they be publicly displayed. It is the intention of the Commission that all information relevant to an appeal be made available locally to postal patrons. Should a postmaster fail to comply with this directive, it would be incumbent upon any appellant, intervenor, or other interested person to bring the matter to the attention of the Commission, where it will be deemed adequate grounds for suspension of the determination pending review.

In consideration of the foregoing, the Commission proposes amendments and additions to 39 CFR Part 3001 which would govern all procedural aspects of such appeals as follows:

Subpart A—Rules of General Applicability

1. By adopting a new § 3001.5(m) to read as follows:

§ 3001.5 Definitions.

* * * * *

(m) "Appellant" means a person who as permitted by section 404(b) of the Act appeals to the Commission a determination of the Postal Service to close or consolidate a post office.

2. By revising § 3001.7(a) to read as follows:

§ 3001.7 Ex Parte communications.

(a) *Prohibition.* To avoid the possibility or appearance of impropriety or of prejudice to the public interest and persons involved in proceedings pending before the Commission, no person who is a party to any on-the-record proceeding, or a proceeding conducted pursuant to Subpart H of this part, or who is granted limited participation in accordance with § 3001.19(a) or his counsel, agent, or other person acting on his behalf, nor any interceder, shall volunteer or submit to any member of the Commission or member of his personal staff, to the presiding officer, or to any employee of the Commission, any ex parte off-the-record communication regarding any matter, either substantive or procedural, which is at issue, or any substantive matter which is likely to be at issue in the on-the-record proceeding, except as authorized by law; and no Commissioner, member of his personal staff, presiding officer, or employee of the Commission, shall request or entertain any such communication. For the purposes of this section, the term "on-the-record proceeding" means a proceeding noticed pursuant to § 3001.17(a). The prohibitions of this paragraph shall apply from the date of issuance of such notice. The prohibitions of this section do not apply to a communication between a participant or a limited participator and the Officer of the Commission designated to represent the interest of the general public (or his staff or the technical staff designated to support him), if such communication relates to matters of procedure only, including matters arising in the course of requests for interrogatories or discovery and informal requests for clarification of evidentiary material. Said Officer shall file with the Commission a monthly report briefly describing any ex parte communication received pursuant to this exception, and this report, which shall be a public record of the Commission, shall identify the individuals involved and the nature of the subject matter discussed.

* * * * *

3. By amending § 3001.12(d) to read as follows:

§ 3001.12 Service of documents.

* * * * *

(d) *Service list.* The Secretary shall maintain a current service list in each proceeding which shall include the participants in that proceeding and the person or persons designated for service of documents by each party with the address designated in the party's initial pleading in such proceeding or a notice of appearance as provided in § 3001.6(c); *Provided, however,* The Secretary is not required to include on such list more than two designated representatives for any party to the proceeding. The service list shall show the participants actively participating in the hearing and representative groups established pursuant to paragraph (c) of this section. Service on the persons, active participants or groups on the Secretary's service list in any proceeding, as directed by the Commission or hearing officer, shall be deemed service in compliance with the requirements of this section. In the instance of a proceeding conducted pursuant to Subpart H of this Part, the Secretary shall additionally serve a copy of the service list on the postmaster(s) of post office(s) proposed to be closed or consolidated with the instruction that such list be posted within the post office(s) in a place reserved for prominent display of information to postal patrons.

* * * * *

4. By revising § 3001.17 (b), (c), and (d) to read as follows:

§ 3001.17 Notice of proceedings.

* * * * *

(b) *Appellate proceedings under 39 U.S.C. 404(b).* The Commission shall issue a notice of proceeding to be determined on a record compiled by the Postal Service whenever:

(1) An appeal of a determination of the Postal Service to close or consolidate a post office is taken to the Postal Rate Commission pursuant to Subpart H of this Part; or

(2) An application to suspend the effective date of a determination of the Postal Service to close or consolidate a post office pending appeal to the Postal Rate Commission is made pursuant to Subpart H of this Part.

(c) *Publication and service of notice.* Each notice of proceeding shall be published in the FEDERAL REGISTER and served on the Postal Service, the complainant in a complaint proceeding, and the appellant in the appeal of a Postal Service determination to close or consolidate a post office.

(d) *Contents of notice.* The notice of a proceeding shall include the following:

(1) The general nature of the proceeding involved in terms of categories listed in paragraphs (a) and (b) of this section;

(2) A reference to the legal authority under which the proceeding is to be conducted;

(3) A concise description of proposals for changes in rates of fees, proposals for the establishment of or changes in the mail classification schedule, proposals for changes in the nature of postal services, in the case of a complaint, an identification of the complainant and a concise description of the subject matter of the complaint or, in the case of an appeal, an identification of the appellant and a summarization of the Postal Service determination to close or consolidate under review;

(4) The date by which petitions for leave to intervene and requests for hearing must be filed; and

(5) Such other information as the Commission may desire to include.

5. By adding a new Subpart H, initially containing §§ 3001.110 through 3001.117, to read as follows:

Subpart H—Rules Applicable to Appeals of Postal Service Determinations To Close or Consolidate Post Offices

Sec.
3001.110 Applicability.
3001.111 Initiation of review proceedings.
3001.112 Record on review.
3001.113 Filing of record.
3001.114 Suspension pending review.
3001.115 Briefs on appeal.
3001.116 Briefs on amicus curiae.
3001.117 Service of documents on postmasters of affected post offices.

AUTHORITY: Sections 404(b), 3603 of the Postal Reorganization Act; 39 U.S.C. 404(b), 90 Stat. 1303; 39 U.S.C. 3603, 84 Stat. 759; 5 U.S.C. 553, 80 Stat. 383.

Subpart H—Rules Applicable to Appeals of Postal Service Determinations To Close or Consolidate Post Offices

§ 3001.110 Applicability.

Rules in this Subpart govern the procedure regarding the appeal of a determination of the Postal Service to close or consolidate a post office by patrons of the post office in question. Pursuant to section 404(b) of the Act any decision

to close or consolidate a post office must be preceded by 60 days notice to persons served by such post office, the opportunity for a hearing on the record, and a written determination based upon consideration of each of the factors listed in section 404(b)(2) of the Act. Appeal to this Commission may be taken by an aggrieved local patron within 30 days after the issuance of a written determination by the Postal Service. The Rules of General Applicability in Subpart A of this Part, which do not relate solely to evidentiary proceedings on the record, are also applicable to proceedings subject to this Subpart.

§ 3001.111 Initiation of review proceedings.

(a) *Petition for review.* Review of a determination of the Postal Service to close or consolidate a post office shall be obtained by filing a petition for review with the Secretary of this Commission within 30 days after the Service has made available to persons served by that post office the written determination to close or consolidate required by 39 U.S.C. 404(b)(3)-(4).

The petition shall specify the parties seeking review, all of whom must be persons served by the post office proposed to be closed or consolidated and shall identify the Postal Service as respondent. A copy of the Postal Service written determination shall be appended to the petition for review as an exhibit thereto. If two or more persons are entitled to petition for review of the same determination and their interests are such as to make joinder practicable, they may file a joint petition for review and may thereafter proceed as a single petitioner.

(b) *Intervention.* A person served by the post office to be closed or consolidated pursuant to the Postal Service written determination under review who desires to intervene in the proceeding shall file with the Secretary of the Commission and serve upon all parties a petition for leave to intervene. The petition shall contain a concise statement of the interest of the moving party and the grounds upon which intervention is sought. A petition for leave to intervene shall be filed within 20 days of the date on which the petition for review is filed. The provisions of § 3001.20(c)-(f) of Subpart A of this part shall apply to petitions for leave to intervene in review proceedings.

§ 3001.112 Record on review.

The written determination sought to be reviewed or enforced, the conclusions and findings upon which it must be based under section 404(b)(3) of the Act, and the notices to local patrons, pleadings, evidence and proceedings before the Postal Service shall constitute the record on review. The record shall contain all evidence considered by the Postal Service in making its determination, and shall contain no evidence not previously considered by the Postal Service.

§ 3001.113 Filing of record.

(a) *Time for filing of the record by the Postal Service.* The Postal Service shall file the record with the Secretary of the Commission within 15 days after service on it of the petition for review. The Commission may shorten or extend the time prescribed above. The Secretary shall give notice to all parties of the date on which the record is filed.

(b) *Composition of the filing.* The Postal Service may file the entire record or such parts thereof as the parties may designate by stipulation filed with the Postal Service. The original papers in the Postal Service proceeding or certified copies thereof may be filed. All parts of the record retained by the Postal Service shall be a part of the record on review for all purposes.

§ 3001.114 Suspension pending review.

(a) *Application.* Application for suspension of a determination of the Postal Service to close or consolidate any post office pending the outcome of an appeal to the Postal Rate Commission shall be made at the time of the filing of a petition for review or of the filing of a petition for leave to intervene in an extant appellate proceeding. The application shall show the reasons for the relief requested and the facts relied upon, and if the facts are subject to dispute the application shall be supported by affidavits or other sworn statements or copies thereof. The applicant must be a person served by the affected post office. With the application shall be filed such parts of the record as are relevant to the relief sought. Immediate notice of the application shall be given to all parties to the proceeding. The application shall be filed with the Secretary of the Commission.

(b) *Answer by the U.S. Postal Service.* Within 10 days after the application for suspension is filed, the Postal Service shall file with the Secretary of the Commission and serve on the petitioners an answer to the application.

§ 3001.115 Briefs on appeal.

(a) *Appellant's initial brief.* The initial brief of the appellant shall be filed with the Secretary of the Commission and served on all parties 30 days after the filing of the petition for review of a decision to close or consolidate a post office. The brief will be limited in length to 30 pages, typewritten and double spaced, and shall include the following in the order indicated:

(1) A subject index with page references, and a list of all cases and authorities relied upon, arranged alphabetically, with references to the pages where the citation appears;

(2) A concise statement of the case from the viewpoint of the filing participant;

(3) A clear, concise and definitive statement of the position of the author as to the merits of the determination under review;

(4) A discussion of the evidence, reasons, and authorities relied upon with exact references to the record and the authorities; and

(5) Proposed holding with appropriate references to the record or the prior discussion of the evidence and authorities relied upon, and to the appellate criteria of section 404(b)(5) of the Act.

Briefs before the Commission shall be completely self-contained and shall not incorporate by reference any portion of any other brief, pleading or document. Testimony and exhibits shall not be quoted or included in briefs except for short excerpts pertinent to the argument presented.

(b) *Answering brief of the Postal Service.* The answering brief of the Postal Service shall be filed 15 days after the date designated for filing of the appellant's brief and shall follow the format detailed in paragraph (a) of this section.

(c) *Reply brief.* The appellant may file a brief in reply to the brief of the Postal Service 15 days after the date designated for filing of that brief, which shall be strictly limited in content to reply to arguments made by the Postal Service. It shall conform to the format detailed in paragraph (a) of this section.

(d) *Intervenor briefs.* An intervenor shall file its brief within the time allowed for initial and reply, or answering, briefs, as appropriate and shall follow the format detailed in paragraph (a) of this section.

§ 3001.116 Briefs of amicus curiae.

A brief of an amicus curiae may be filed only if accompanied by written consent of all parties, or by leave of the Commission granted on motion or at the request of the Commission, except that consent or leave shall not be required when the brief is presented by the United States or an elected official, officer or agency thereof, or by a State, Territory or Commonwealth. The brief may be conditionally filed with the motion for leave. A motion for leave shall identify the interest of the applicant and shall state the reasons why a brief of an amicus curiae is desirable. An amicus curiae shall limit its brief to the issue in which it has interest and file its brief within the time allowed the party whose position as to affirmance or reversal the amicus brief will support.

§ 3001.117 Service of Documents on postmasters of affected post offices.

In all proceedings conducted pursuant to this Subpart H, the Secretary of the Commission shall serve a copy of all pleadings, notices, orders, briefs and opinions on the postmaster(s) in charge of the post office(s) affected by the determination to close or consolidate which is under review. The Secretary shall provide instruction that the notice be displayed within the post office(s) in a place reserved for prominent display of information to postal patrons. Failure by the postmaster(s) to prominently display any document served on him or her by the Secretary of the Commission pursuant to this Section shall be deemed sufficient reason to suspend the effectiveness

of the Postal Service determination under review until final disposition of the appeal.

Comments are invited regarding the efficacy and fairness of the proposed rules which are to be filed by November 22, 1976. Any replies to such comments are to be filed by December 13, 1976. An original plus 19 fully conformed copies of all comments and replies must be filed with the Secretary of the Commission at the offices of the Postal Rate Commission, 2000 L Street, NW., Washington, D.C. 20268.

(Secs. 404(b), 3603 of the Postal Reorganization Act; 39 U.S.C. 404(b), 90 Stat. 1306; 39 U.S.C. 3603, 84 Stat. 759; 5 U.S.C. 553, 80 Stat. 383.)

FEDERAL ENERGY ADMINISTRATION

INTERNATIONAL ENERGY AGENCY'S LONG-TERM COOPERATION PROGRAM

Request for Expressions of Interest and Public Comments; Extension of Time

On September 7, 1976, the Federal Energy Administration (FEA) requested expressions of interest and public comments in support of its function under the Long-Term Cooperation Program of the International Energy Agency (IEA) to identify potential commercial energy projects in the United States in which participation by public or private enterprises and parties from other IEA member countries may be appropriate, and elicited from U.S. enterprises and parties their views on and interest in participating in such energy projects located in other IEA countries (41 FR 38818, September 13, 1976). The period for furnishing such expressions of interest was scheduled to expire on October 15, 1976. In view of the complexity of preparing these responses, FEA hereby extends that period through November 1, 1976. In all other respects, the notice remains the same.

Issued in Washington, D.C., on October 8, 1976.

The facilities will enable applicant to make natural gas from shut-in wells available for industrial and domestic use.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application; and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed natural gas gathering pipeline right-of-way to file their objections in this office. Any person asserting a claim to the lands or having bona fide objections must include evidence that a copy thereof has been served on the applicant.

Any comment, claim, or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, as promptly as possible after publication of this notice.

MERRILL G. ANDERSON,
Acting Chief, Branch of Land Operations.

OUTER CONTINENTAL SHELF OFF LOUISIANA AND TEXAS

Oil and Gas Lease Sale No. 44

NOVEMBER 16, 1976.

1. *Authority.* This notice is published pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331–1343) and the regulations issued thereunder (43 CFR Part 3300).

2. *Filing of Bids.* Sealed bids will be received by the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, Hale Boggs Federal Building, 500 Camp Street, Suite 841, New Orleans, Louisiana 70130. Bids may be delivered, either by mail or in person, to the above address until 4:30 p.m., c.s.t., November 15, 1976; or by personal delivery to the Presidential Salon, Braniff Place, 1500 Canal Street, New Orleans, Louisiana 70140, between the hours of 8:30 a.m., c.s.t., and 9:30 a.m., c.s.t., November 16, 1976. Bids received by the Manager later than the times and date specified above will be returned unopened to the bidders. Bids may not be modified or withdrawn unless written modification or withdrawal is received by the Manager prior to 9:30 a.m., c.s.t., November 16, 1976. All bids must be submitted and will be considered in accordance with applicable regulations, including 43 CFR Part 3300. The list of restricted joint bidders which applies to this sale was published in 41 FR 43747, October 4, 1976.

3. *Rent, Royalty and Bonus.* Bids submitted on all tracts to be offered at this sale must be on a cash bonus bid basis. The royalty for all tracts is fixed at 16⅔ percent. Leases which may be issued will provide for a yearly rental or minimum royalty of $3.00 per acre or fraction thereof.

4. *Method of Bidding.* A separate bid in a sealed envelope, labeled "Sealed Bid for Oil and Gas Lease (insert number of tract), not to be opened until 10:00 a.m., c.s.t., November 16, 1976." must be submitted for each tract. A suggested bid format appears in paragraph 16. Bidders are advised that tract numbers are assigned solely for administrative purposes and are not the same as block numbers found on official protraction diagrams. All bids received shall be deemed submitted for a numbered tract. Bidders must submit with each bid one-fifth of the cash bonus in cash, or by cashier's check, bank draft, certified check or money order, payable to the order of the Bureau of Land Management. No bid for less than a full tract as described in paragraph 12 will be considered. Bidders submitting joint bids must state on the bid form the proportionate interest of each participating bidder, in percent to a maximum of five decimal places, as well as submit a sworn statement that the bidder is qualified under 43 CFR 3302. The form for this statement to be used in joint bids appears in paragraph 16. Other documents may be required of bidders under 43 CFR 3302.4. Bidders are warned against violation of 18 U.S.C. 1860, prohibiting unlawful combination or intimidation of bidders.

5. *Equal Opportunity.* Each bidder must have submitted by 9:30 a.m. c.s.t., November 16, 1976, the certification required by 41 CFR 60–1.7(b) and Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375 of October 13, 1967, on the Compliance Report Certification Form, Form 1140–8 (November 1973), and the Affirmative Action Representation Form, Form 1140–7 (December 1971).

6. *Bid Opening.* Bids will be opened on November 16, 1976, beginning at 10:00 a.m., c.s.t., in the Presidential Salon at the address stated in paragraph 2. The opening of the bids is for the sole purpose of publicly announcing and recording bids received and no bids will be accepted or rejected at that time. If the Department is prohibited for any reason from opening any bid before midnight, November 16, 1976, that bid will be returned unopened to the bidder, as soon thereafter as possible.

7. *Deposit of Payments.* Any cash, checks, drafts, or money orders submitted with a bid may be deposited in a suspense account in the Treasury during the period the bids are being considered. Such a deposit does not constitute and shall not be construed as acceptance of any bid on behalf of the United States.

8. *Withdrawal of Tracts.* The United States reserves the right to withdraw any tract from this sale prior to issuance of a written acceptance of a bid for that tract.

9. *Acceptance or Rejection of Bids.* The United States reserves the right to reject any and all bids for any tract. In any case, no bid for any tract will be accepted and no lease for any tract will be awarded to any bidder unless:

(a) The bidder has complied with all requirements of this notice and applicable regulations;

(b) His bid is the highest valid cash bonus bid; and

(c) The amount of the bid has been determined to be adequate by the United States.

No bid will be considered for acceptance unless it offers a cash bonus in the amount of $25.00 or more per acre or fraction thereof.

10. *Successful Bidders.* Each person who has submitted a bid accepted by the United States will be required to execute copies of the lease specified below, pay the balance of the cash bonus bid together with the first year's annual rental and satisfy the bonding requirements of 43 CFR 3304.1 within the time provided in 43 CFR 3302.5.

11. *Leasing Maps.* Tracts offered for lease may be located on the following official leasing maps which are available from the Manager, New Orleans Outer Continental Shelf Office at the address stated in paragraph 2.

(a) Outer Continental Shelf, Louisiana Leasing Maps—Set of 26. These maps may be purchased for $15 per set.

(b) Outer Continental Shelf, East Texas Leasing Maps—Set of 8. These maps may be purchased for $5 per set.

(c) Official Leasing Map, Mobil South No. 2 NH 16–10. This may be purchased for $2.

13. *Lease Terms and Stipulations.* Leases issued as a result of this sale will be on Form 3300–1 (May 1976), available from the Manager, New Orleans Outer Continental Shelf Office, at the address stated in paragraph 2. Except as otherwise noted, the following stipulations will be included in each lease resulting from this sale.

Stipulation No. 1. (To apply to all leases resulting from this sale.)

If the Supervisor, having reason to believe that a site, structure, or object of historical or archaeological significance, hereinafter referred to as "cultural resource," may exist in the lease area, gives the lessee written notice that the lessor is invoking the provisions of this stipulation, the lessee shall upon receipt of such notice comply with the following requirements:

Prior to any drilling activity or the construction or placement of any structure for exploration or development on the lease, including but not limited to, well drilling and pipeline and platform placement, hereinafter in this stipulation referred to as "operation," the lessee shall conduct geophysical surveys to determine the potential existence of any cultural resource that may be affected by such operations. All data produced by such geophysical surveys shall be examined by the Supervisor to determine if anomalies are present which suggest the existence of a cultural resource that may be adversely affected by any lease operation.

If such anomalies exist the lessee shall: (1) locate the site of such operation so as not to adversely affect the anomaly identified; or (2) establish, to the satisfaction of the Supervisor, on the basis of further archaeological investigation conducted by a qualified marine archaeological surveyor using such survey equipment and techniques as deemed necessary by the Supervisor, either that such operation will not adversely affect the anomaly identified or that the potential cultural resource suggested by the occurrence of the anomaly does not exist.

A report of this investigation prepared by the marine archaeological surveyor shall be submitted to the Supervisor for review. Should the Supervisor determine that the existence of a cultural resource which may be adversely affected by such operation is sufficiently established to warrant protection, the lessee shall take no action that may result in an adverse effect on such cultural resource until the Supervisor has given directions as to its disposition.

The lessee agrees that if any site, structure, or object of historical or archaeological significance shall be discovered during the conduct of any operations on the leased area, he shall report immediately such findings to the Supervisor, and make every reasonable effort to preserve and protect the cultural resource from damage until the Supervisor has given directions as to its disposition.

Stipulation No. 2. (This stipulation will be applied to any leases for tracts 44–10, 44–11, and 44–61 resulting from this sale.)

The lessee agrees that, prior to any drilling activity or placement of any permanent production platform or pipeline, he will submit as part of his exploration and/or development plan, a bathymetry map sufficiently detailed to indicate the presence and location (or absence) of hard bank biological communities.

Stipulation No. 3. (To apply to all leases resulting from this lease sale.)

Structures for drilling or production, including pipelines and subsea systems, shall be kept to the minimum necessary for proper exploration, development, and production and, to the greatest extent consistent therewith, shall be placed so as not to interfere unnecessarily with other significant uses of the Outer Continental Shelf.

14. *Restriction on Leases.* Some of the tracts offered for lease may fall in areas which may be included in fairways, precautionary zones, or traffic separation schemes. Department of the Army permits are required for construction of any structures in or over any navigable waters of the United States pursuant to Section 10 of the River and Harbor Act of 1899 (30 Stat. 1151; 33 U.S.C. 403) and for artificial islands and fixed structures located on the Outer Continental Shelf in accordance with section 4(f) of the Outer Continental Shelf Lands Act of 1953 (67 Stat. 463; 43 U.S.C. 1333 (f)).

Permit applications and inquiries should be directed to the appropriate District Engineer, New Orleans District or Galveston District, U.S. Army Corps of Engineers.

15. *OCS Orders.* Operations on all leases resulting from this sale will be conducted in accordance with the provisions of all Gulf of Mexico Area OCS Orders, issued effective February 1976 and any other applicable OCS Order, as it becomes effective. Bidders are advised that the Departments of the Interior and Transportation have entered into a Memorandum of Understanding dated May 6, 1976, concerning the design, installation, operation and maintenance of offshore pipelines. Bidders should consult the Department of Transportation for regulations applicable to offshore pipelines under its jurisdiction.

16. *Suggested Bid Form.* It is suggested that bidders submit their bids to the Manager, New Orleans Outer Continental Shelf Office, in the following form:

WISCONSIN

Filing of Plats of Survey

OCTOBER 6, 1976.

The plats of survey for the following described lands will be officially filed in the Eastern States Office, Silver Spring, Maryland as of 10:00 a.m. on November 17, 1976. The plat for the island in Crawling Stone Lake in T. 40 N., R. 5 E. was accepted on November 10, 1975, and the plat of islands in Statenaker and Toulish Lakes was accepted on May 11, 1976. The remaining plats were accepted on March 31, 1976. All the islands are: similar in all respects to the adjacent surveyed mainland; well over 50% upland in character within the meaning of the Swampland Act of September 28, 1850; and located in the Fourth Principal Meridian, Wisconsin. The surveys were executed at the request of the Bureau of Indian Affairs since the lands are located within the Lac du Flambeau Reservation.

The plat of survey of an island in Crawling Stone Lake represents the survey of an island not previously surveyed or included within the areas as shown on the original survey plat. This island is described as:

T. 40 N., R. 5 E.
Tract 37
Containing 3.54 acres.

The soil is typically glacial till and sand, mixed with small amounts of clay, gravel and larger rocks and topped with a thin layer of organic matter. Timber consists of oak, Norway pine and white pine, and the elevations of the island range up to approximately 25 feet above the ordinary high-water mark.

The plat of survey of an island in Toulish Lake, now described as Tract 37, containing 1.40 acres, and another in Statenaker Lake, now described as Tract 38, containing 1.75 acres, represents the survey of previously unsurveyed lands in T. 40 N., R. 6 E. The soil of both tracts is sandy and gravelly loam, and the vegetation consists of pine, birch, poplar, maple and native grasses. Tract 38 is about 25 feet above the original high-water mark of Statenaker Lake.

The plat of survey of ten islands in Pokegana Lake represents the survey of lands omitted from the previous survey of T. 41 N., R. 5 E., as well as a dependent resurvey of a portion of the east and south boundaries and a portion of the subdivisional lines and the survey of the subdivisions of Section 34. The previously omitted islands are now described as:

T. 41 N., R. 5 E.
Tract 37 (1.28 acres)
Tract 38 (0.85 of an acre)
Tract 39 (1.15 acres)
Tract 40 (4.58 acres)
Tract 41 (0.40 of an acre)
Tract 42 (0.26 of an acre)
Tract 43 (0.20 of an acre)
Tract 44 (0.31 of an acre)
Tract 45 (0.42 of an acre)
Tract 46 (0.37 of an acre)
The area aggregates 9.82 acres.

Tract 37 rises abruptly from the water line to an elevation of approximately 14 feet with soil composed of a thin layer of duff on a base of glacial till and some organic matter near the surface. Vegetation consists of red and white pine, aspen, white birch, grasses and alder.

Tract 38 rises abruptly from the ordinary high-water mark and levels off to a plateau with an elevation of 10 to 12 feet. On the east side of the island, a low, narrow strip of boggy land supports a stand of alder. Having a soil of glacial till with a moderate amount of organic matter in the top layer, this island maintains vegetation consisting of white and red pine, white birch, grasses, northern white cedar, balsam fir, and alder.

Tract 39 rises sharply 7 to 8 feet to a plateau and has typical glacial till soil. Timber is limited to aspen, white birch and white pine, while the undergrowth is comprised of northern white cedar and grasses.

Tract 40, having a soil of glacial till covered with layer of duff, rises from the shore line to a high point of approximately 40 feet on the south end. Aspen, oak, white birch and red and white pine comprise the forest; the undergrowth consists of young timber, hazel and grasses.

Tract 41 rises to about 5 feet above the ordinary high-water mark and has a soil composed of organic matter on glacial till. Vegetation consists of white and red pine, white birch, aspen, balsam fir, northern white cedar and alder.

V 41 201 OCT 15 76 UM

Tract 42, with a soil of glacial till, supports growth of white birch, northern white cedar, balsam fir, grass and alder. The highest point on the island is approximately 7 feet above the ordinary high-water mark.

Tract 43, having a high point approximately 4 feet above the ordinary high-water mark, has a typically glacial till soil with an accumulation of organic matter on top. Timber consists of white and red pine and white birch, with an almost complete ground cover of moss. Alder and some grass are also found.

Tract 44 rises approximately 10 feet above ordinary high water. The glacial till soil sustains red and white pine, aspen, northern white cedar, balsam fir, yellow birch, grasses and alder.

Tract 45, with vegetation consisting of red pine, white brich and alder, has glacial till soil topped by a layer of organic material. Elevations on this island range up to 15 feet above the ordinary high-water mark.

Tract 46, with rises sharply to 30 feet above the ordinary high-water mark, has soil consisting of glacial till with a covering of duff. Red pine, white birch, aspen, northern white cedar and alder comprise the vegetation.

The plat designating Tracts 37 through 40, T. 41 N., R. 6 E. represents a survey of portions of two islands and two complete islands in Ike Walton Lake not previously surveyed. Tract 40, containing 0.99 of an acre, is a portion of an island with elevation ranging up to 10 feet above the ordinary high-water line. The glacial till soil has a thin topping or organic matter and vegetation consisting of birch, fir, maple, hemlock, hazelnut brush and alder. Tract 39, containing 15.08 acres, is a portion of an island having an elevation of 25 feet above the ordinary high-water line. In a low, swampy area in the northwest portion of this tract, the soil is mostly peat; elsewhere the soil is glacial till with a thin layer of humus. Again the vegetation consists of birch, fir, maple, pine, hemlock, hazelnut brush and alder. Tract 38 is an island with an elevation of approximately 5 feet above the ordinary high-water line which covers 0.06 of an acre. Having a glacial till soil, it sustains growths of birch, fir, maple, pine, hemlock and alder. Tract 37, containing 15.60 acres, is an island with elevation ranging up to approximately 20 feet above the ordinary high-water line. Vegetation growing in the soil of glacial till topped with a thin layer of organic matter consists of birch, fir, maple, pine, hemlock, hazlenut brush and alder. The total area surveyed in T. 40 N., R. 6 E. aggregates 31.73 acres.

A plat in two sheets represents: the dependent resurvey of a portion of the east boundary of T. 41 N., R. 5 E.; a portion of the subdivisional lines and the reestablishment of the west record meander line of Big Crooked Lake within Section 15, T. 41 N., R. 5 E.; a survey of two islands in Ike Walton Lake; and the survey of 4 islands in Big Crooked Lake and 1 island in Muskesin Lake which were omitted from the original township survey. The islands are described as:

T. 41 N., R. 5 E.
- Tract 47 (0.56 of an acre)
- Tract 49 (0.33 of an acre)
- Tract 50 (1.61 acres)
- Tract 51 (0.05 of an acre)
- Tract 52 (0.60 of an acre)
- Tract 53 (2.37 acres)
- Tract 54 (0.99 of an acre).

The area aggregates 6.51 acres.

Elevations of the areas described as Tracts 52 and 54, which are located in Ike Walton Lake, range up to approximately 10 feet above the ordinary high-water mark. The typically glacial till soil is topped with a thin layer of organic matter, and vegetation is comprised of birch, fir, maple, pine, hemlock, hazelnut brush and alder.

Tracts 47, 49, 50 and 51 are islands located in Big Crooked Lake. Tract 47 has an elevation ranging up to 15 feet above the ordinary high-water mark, typically glacial till soil with a thin covering of organic matter, and vegetation consisting of Norway and white pine, birch, aspen, grasses and alder. Tract 49 rises to about 6 feet, has typically glacial till soil covered with a layer of duff, timber comprised of Norway and white pine and birch and an understory of hazelnut brush and alder. The elevation of Tract 50 ranges up to approximately 25 feet above the ordinary high-water mark, and the soil is typically glacial till covered with a layer of organic matter. Its vegetation consists of Norway and white pine, red and white oak, birch, aspen, grasses, hazelnut brush and alder. Tract 51 rises to about 3 feet, has glacial till soil covered with a layer of duff, and the only vegetation consists of white pine and alders.

Located in Muskesin Lake, Tract 53 has an elevation ranging up to 15 feet and typical glacial till soil with a thin topping of organic matter. A small portion of the island has swamp characteristics with more organic matter in the soil. Timber on this island is comprised of birch, fir, maple and pine, with an undergrowth of hazelnut brush and alder.

All the lands described above, being located within the boundaries of the Lac du Flambeau Indian Reservation, are hereby added to and made a part of this reservation and hereafter shall be subject to all laws and regulations applicable thereto.

All inquiries relating to these islands should be sent to Director, Eastern States, Bureau of Land Management, 7981 Eastern Avenue, Silver Spring, Maryland 20910.

COLORADO

Proposed Withdrawal and Reservation of Lands

OCTOBER 7, 1976.

The Bureau of Land Management, Department of the Interior, has filed an application, Serial Number Colorado 22843, for the withdrawal of lands described below from all forms of appropriation under the public land laws, including location and entry under the general mining laws, but not the mineral leasing laws, subject to valid existing rights. The withdrawal would prohibit construction of roads under Revised Statutes 2477 and other authorities, except under authorization of Special Land Use Permits (43 U.S.C. 315g).

The applicant wishes to secure Tenure of the described lands for the protection of BLM constructed campground facilities and to preserve public recreation, scenic, and other values near DeWeese Reservoir.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections, in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202 (CO–943).

The Department's regulations, 43 CFR 2351.4(c), provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

6TH PRINCIPAL MERIDIAN

COLORADO

T. 21 S., R. 72 W.,
- Sec. 19, SE¼SE¼;
- Sec. 20, SE¼SE¼;
- Sec. 21, W½SW¼;
- Sec. 28,, NW¼NW¼;
- Sec. 29, Lots 1 and 2.

The area described aggregates 281.44 acres in Custer County.

JAMES S. LAVENDER,
Acting State Director.

NAVAJO NATIONAL MONUMENT

Public Use Restrictions

By proclamation No. 1186 dated March 14, 1912 (37 Stat. 1733) and an Act for the Preservation of American Antiquities of June 8, 1906 (345 Stat. 225, 16 U.S.C. 433) warning is expressly given to all unauthorized persons not to appropriate, excavate, injure or destroy any of the relics declared to be a National Monument.

In the administration of Navajo National Monument, the Secretary of the Interior is authorized to utilize statutory authorities relating to areas administered and supervised by the Secretary through the National Park Service and such statutory authority otherwise available to him for the conservation and management of natural and historic resources as he deems appropriate to carry out the purpose of the Act of August 25, 1916 (39 Stat. 535 as amended, 16 U.S.C. 1 et seq.), the National Environmental Policy Act of 1969 (83 Stat. 852, 42 U.S.C. 4321, 4332 and 4335 et seq.), the National Historic Preservation Act of 1966 (80 Stat. 915), Executive Order 11593 dated May 13, 1971 (36 FR 8921) and subsections 3(a) (1), 4(a) (2) and 245 DM–1 (34 FR 13879) as amended, notice is given to all persons planning to visit the monument that local restrictions have been established to control use and safeguard the prehistoric ruins. A written permit or a guide must be obtained through the Superintendent's office prior to any visit to Betatakin, Keet Seel, and Inscription House ruins.

Persons who are planning to visit the monument are urged to request copies of free informational material which describe the monument, authorized activities and public use restrictions and limits by writing to the Superintendent, Navajo National Monument, Tonalea, Arizona 86044.

[Docket No. M 76-443]

CHEROKEE COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861 (c) (1970), Cherokee Coal Company has filed a petition to modify the application of 30 CFR 75.1710 to its Nos. 1 and 2 Mines, both located in Tazewell County, Virginia.

30 CFR 75.1710 provides:

An authorized representative of the Secretary may require in any coal mine where the height of the coalbed permits that electric face equipment, including shuttle cars, be provided with substantially constructed canopies, or cabs, to protect the miners operating such equipment from roof falls and from rib and face rolls.

To be read in conjunction with § 75.-1710 is 30 CFR 75.1710–1 which in pertinent part provides:

• • • Except as provided in paragraph (f) of this section, all self-propelled electric face equipment, including shuttle cars, which is employed in the active workings of each underground coal mine on and after January 1, 1973, shall, in accordance with the schedule of time specified in subparagraphs (1), (2), (3), (4), (5), and (6) of this paragraph (a), be equipped with substantially constructed canopies or cabs, located and installed in such a manner that when the operator is at the operating controls of such equipment he shall be protected from falls of roof, face, or rib, or from rib and face rolls. The requirements of this paragraph (a) shall be met as follows:

(1) On and after January 1, 1974, in coal mines having mining heights of 72 inches or more;

(2) On and after July 1, 1974, in coal mines having mining heights of 60 inches or more, but less than 72 inches;

(3) On and after January 1, 1975, and in coal mines having mining heights of 48 inches or more, but less than 60 inches;

(4) On and after July 1, 1975, in coal mines having mining heights of 36 inches or more, but less than 48 inches;

(5) On and after January 1, 1976, in coal mines having mining heights of 24 inches or more, but less than 36 inches; and

(6) On and after July 1, 1976, in coal mines having mining heights of less than 24 inches. • • •

The substance of Petitioner's statement is as follows:

1. Petitioner's Nos. 1 and 2 Mines have sections in which coalbed height is 38 inches or less.

2. The design characteristics of the electrical face equipment presently in use at the subject mines will not permit the installation of cabs or canopies which will allow the operator proper vision for safe operation of the equipment while remaining under the cab or canopy, which will clear the top in areas where the equipment must operate in these mines, or which will allow the operator to rapidly escape the confines of such cabs or canopies in the event of an emergency.

3. Petitioner contends that application of 30 CFR 75.1710 and 75.1710–1(a) (5) to its present electrical face equipment in the coalbed height shown in paragraph 1 of its Nos. 1 and 2 Mines will result in a diminution of safety in the operation of said equipment.

4. Petitioner proposes the following alternative method for maintenance of safe roof and rib conditions in connection with operation of its presently used electric face equipment at the subject mines:

a. Petitioner will replace its present electrical face equipment as that equipment wears out with new redesigned smaller equipment with cabs or canopies installed to the extent that the cabs or canopies on such new equipment may be developed to satisfy the human and physical engineering problems identified in paragraph 2 above.

b. In addition to complying with the roof control plan in effect at each of the subject mines, Petitioner will reinstruct all face workers and section supervisory and inspection personnel in roof and rib falls recognition and prevention techniques as well as safe equipment operation.

5. Wherefore, Petitioner Cherokee Coal Company, respectfully requests that its Petition for Modification of the application of 30 CFR 75.1710 and 1710–1(a) (5) be granted until such time as it is able to acquire or construct cabs or canopies configured for safe operation in the coalbed heights at these mines for which this Petition is filed.

REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before November 15, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: October 5, 1976.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

[Docket No. M 76-475]

PATHFORK HARLAN COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Pathfork Harlan Coal Company has filed a petition to modify the application of 30 CFR 75.800 to its Lucky Star Mine, Karen Mine, and Rice Harlan Mine, all located in Harlan County, Kentucky.

30 CFR 75.800 provides:

High-voltage circuits entering the underground area of any coal mine shall be protected by suitable circuit breakers of adequate interrupting capacity which are properly tested and maintained as prescribed by the Secretary. Such breakers shall be equipped with devices to provide protection against under-voltage, grounded phase, short circuit, and over-current.

The substance of Petitioner's statement is as follows:

1. The present ground fault system gives no less protection to the personnel at the mine than would a system in compliance with § 75.800.

2. The electrical system that is used at these mines consists of a Wye-connected secondary which is resistance grounded. This transformer then feeds a bank of fan transformers prior to entering the underground portion of the mine. The frames of all transformers (except the fan transformers) and hardware in the electrical enclosure are grounded to the power company's ground. The resistance ground is insulated and removed by a minimum of 50 feet. The bank of transformers which feed the fan are fused on the primary side in accordance with the National Electrical Code of 1975.

3. The fan transformers are insulated from all paths to ground except for two solid connected wires from the frames of the fan transformers back to the grounded side of the grounded resistor. These two ground wires are insulated from any other ground.[1] The fan trans-

formers are mounted 15 feet above ground. In case the fan transformer had a phase to frame short, no hazard would exist. The two separate frame conductors would conduct fault current to the 160-ohm current limiting resistor and would limit the fault current to 15 amps and the fault voltage to a safe standpoint. If the ground wire were to become open, which is unlikely since there are two separate wires, no safety hazard would exist. Since the transformers are insulated from all grounds no current would flow, therefore, it poses no hazard to the underground system of the mine.

4. Petitioner feels that the ground fault protection provided at these mines is in compliance with the Federal Mine Safety law and offers no less protection for the men as any method proposed by MESA.

REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before November 15, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. SLATER MINING CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861 (c) (1970), Slater Mining Corp., has filed a petition to modify the application of 30 CFR 75.1710 to its Apple Mine, located in Pike County, Kentucky.

30 CFR 75.1710 provides:

An authorized representative of the Secretary may require in any coal mine where the height of the coalbed permits that electric face equipment, including shuttle cars, be provided with substantially constructed canopies, or cabs, to protect the miners operating such equipment from roof falls and from rib and face rolls.

To be read in conjunction with § 75.1710 is 30 CFR 75.1710–1 which in pertinent part provides:

• • • Except as provided in paragraph (f) of this section, all self-propelled electric face equipment, including shuttle cars, which is employed in the active workings of each underground coal mine on and after January 1, 1973, shall, in accordance with the schedule of time specified in subparagraphs (1), (2), (3), (4), (5), and (6), of this paragraph (a), be equipped with substantially constructed canopies or cabs, located and installed in such a manner that when the operator is at the operating controls of such equipment he shall be protected from falls of roof, face, or rib, or from rib and face rolls. The requirements of this paragraph (a) shall be met as follows:

(1) On and after January 1, 1974, in coal mines having mining heights of 72 inches or more;

(2) On and after July 1, 1974, in coal mines having mining heights of 60 inches or more, but less than 72 inches;

(3) On and after January 1, 1975, in coal mines having mining heights of 48 inches or more, but less than 60 inches;

(4) On and after July 1, 1975, in coal mines having mining heights of 36 inches or more, but less than 48 inches;

(5) On and after January 1, 1976, in coal mines having mining heights of 24 inches or more, but less than 36 inches; and

(6) On and after July 1, 1976, in coal mines having mining heights of less than 24 inches. • • •

The substance of Petitioner's statement is as follows:

1. Petitioner feels that installing canopies on the haulage equipment in this mine would create a hazard to the equipment operators.

2. Petitioner's haulage equipment consists of two S & S 86 UNA TRAC's. The other face equipment consists of an LRB 15A Long Airdox roof bolter, an 11 RU Joy cutting machine, and a Long Airdox mobile drill.

3. The Apple Mine is in the Thacker seam which ranges from 39 to 44 inches in height. Petitioner is constantly running into ascending and descending grades in this seam, resulting in dips in the coalbed. As a result of these dips, the canopies have to be installed in such a manner as to prevent the canopies from striking the roof and possibly destroying roof support, cables and ventilation curtains. Installation of canopies on the equipment allows only a 23-inch vertical operating compartment which limits the vision of the operators of the equipment, creating a hazard to them as well as to the other employees in the mine.

4. Petitioner feels that since the equipment operators' vision is limited and since their position in the decks is cramped with the canopies installed, that canopy installation could be a contributing factor in any accidents that may arise.

REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before November 15, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: October 5, 1976.

[Docket No. M 76-388]

THACKER COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Thacker Coal Company has filed a petition to modify the application of 30 CFR 75.1710 to its Nos. 1 and 2 Mines, both located in Pike County, Kentucky.

30 CFR 75.1710 provides:

An authorized representative of the Secretary may require in any coal mine where the height of the coalbed permits that electric face equipment, including shuttle cars, be provided with substantially constructed canopies, or cabs, to protect the miners operating such equipment from roof falls and from rib and face rolls.

To be read in conjunction with § 75.1710 is 30 CFR 75.1710–1 which in pertinent part provides:

• • • Except as provided in paragraph (f) of this section, all self-propelled electric face equipment, including shuttle cars, which is employed in the active workings of each underground coal mine on and after January 1, 1973, shall, in accordance with the schedule of time specified in subparagraphs (1), (2), (3), (4), (5), and (6) of this paragraph (a), be equipped with substantially constructed canopies or cabs, located and installed in such a manner that when the operator is at the operating controls of such equipment he shall be protected from falls of roof, face, or rib, or from rib and face rolls. The requirements of this paragraph (a) shall be met as follows:

(1) On and after January 1, 1974, in coal mines having mining heights of 72 inches or more;

(2) On and after July 1, 1974, in coal mines having mining heights of 60 inches or more, but less than 72 inches;

(3) On and after January 1, 1975, in coal mines having mining heights of 48 inches or more, but less than 60 inches;

(4) On and after July 1, 1975, in coal mines having mining heights of 36 inches or more, but less than 48 inches;

(5) On and after January 1, 1976, in coal mines having mining heights of 24 inches or more, but less than 36 inches; and

(6) On and after July 1, 1976, in coal mines having mining heights of less than 24 inches. • • •

The substance of Petitioner's statement is as follows:

1. This petition is in reference to canopies on haulage equipment and face equipment.

2. Petitioner feels that the canopies that have been installed on the haulage and face equipment are creating a hazard to the operators and to the people working around the equipment.

3. The Thacker Coal Company Mines are located in the No. 2 Elkhorn seam. This seam ranges from 42 to 48 inches in height. This seam is always running into ascending and descending grades. This seam is also subject to rolls and sways in the roof rock. These conditions, plus the canopies, limit the equipment operators' vision from up to 50 or 75 percent, creating a hazard to them and anyone around them.

4. After having discussed this situation with the operators of this equipment, Petitioner feels that further use of these canopies can only result in more haulage and tramming accidents.

REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before November 15, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: October 5, 1976.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Notice of Designation Number A379]

UTAH

Designation of Emergency Areas

The Secretary of Agriculture has determined that farming, ranching, or aquaculture operations have been substantially affected in the following Utah Counties as a result of drought April 1, 1976 through August 19, 1976.

Beaver	Millard
Iron	San Pete
Juab	Sevier

Therefore, the Secretary has designated this area as eligible for emergency loans pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 94-68, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Calvin L. Rampton that such designation be made.

Applications for emergency loans must be received by this Department no later than November 18, 1976, for physical losses and June 17, 1977, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rulemaking and invite public participation.

Done at Washington, DC, this 28th day of September 1976.

CHEQUAMEGON NATIONAL FOREST TIMBER MANAGEMENT PLAN

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement on the Timber Management Plan for the Chequamegon National Forest, USDA-FS-R9-DES-(ADM)-77-01.

The environmental statement concerns a proposed plan for managing the timber resources on the Chequamegon National Forest for the period 10/1/76 through 9/30/86. The Chequamegon National Forest is located in parts of Ashland, Bayfield, Sawyer, Price, Taylor, and Vilas Counties, Wisconsin.

This draft environmental statement was transmitted to CEQ on October 8, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3231, 12th St. and Independence Ave., SW., Washington, D.C. 20250.
USDA, Forest Service, Eastern Region, 633 West Wisconsin Avenue, Milwaukee, Wisconsin 53203.
USDA, Forest Service, Chequamegon National Forest, Federal Building, Park Falls, Wisconsin 54552.

A limited number of single copies are available upon request to Forest Supervisor, Chequamegon National Forest, Federal Building, Park Falls, Wisconsin 54552.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Written comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Written comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, Chequamegon National Forest, Federal Building, Park Falls, Wisconsin 54552. Written comments must be received by December 7, 1976, in order to be considered in the preparation of the final environmental statement.

W. D. WILLIAMS,
Acting Regional Forester.

MEAT IMPORT LIMITATIONS

Fourth Quarterly Estimates

Pub. L. 88-482, approved August 22, 1964 (hereinafter referred to as the Act), provides for limiting the quantity of fresh, chilled, or frozen cattle meat (TSUS 106.10) and fresh, chilled, or frozen meat of goats and sheep, except lamb (TSUS 106.20), which may be imported into the United States in any calendar year. Such limitations are to be imposed when it is estimated by the Secretary of Agriculture that imports of such articles, in the absence of limitations during such calendar year, would equal or exceed 110 percent of the estimated quantity of such articles, prescribed by section 2(a) of the Act.

V 41 N 201 OCT 15 76 UM

In accordance with the requirements of the Act, the following fourth quarterly estimates are published:

1. The estimated quantity of such articles prescribed by section 2(a) of the Act during the calendar year 1976 is 1,120.9 million pounds.

2. The estimated aggregate quantity of such articles which would, in the absence of limitations under the Act, be imported during calendar year 1976 is 1,250 million pounds.

Since the estimated quantity of imports exceeds 110 percent of the estimated quantity prescribed by section 2(a) of the Act, action is required to be taken under the Act with respect to the quantity of fresh, chilled, or frozen cattle meat (TSUS 106.10) and fresh, chilled, or froden meat of goats and sheep (TSUS 106.20), which may be entered during the calendar year 1976.

Done at Washington, D.C., this 8th day of October 1976.

JOHN A. KNEBEL,
Acting Secretary of Agriculture.

UPPER NANTICOKE RIVER WATERSHED PROJECT, DELAWARE

Availability of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Upper Nanticoke River Watershed project, Kent and Sussex Counties, Delaware.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Otis D. Fincher, State Conservationist, Soil Conservation Service, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection, flood prevention, and drainage. The planned works of improvement remaining to be installed include conservation land treatment supplemented by about 38.3 miles of multiple-purpose channels.

The negative declaration is being filed with the Council on Environmental Quality and copies are being sent to various federal, state, and local agencies. The basic data developed during the environmental assessment is on file and may be reviewed by interested parties at the Soil Conservation Service, Treadway Towers, Suite 2-4, 9 East Loockerman Street, Dover, Delaware 19901. A limited number of copies of the negative declaration is available from the same address to fill single copy requests.

No administrative action on implementation on the proposal will be taken on or before November 1, 1976.

OFFICE OF REGIONAL AFFAIRS

Delegation of Authority

DEPARTMENT ORGANIZATION ORDER SERIES

SEPTEMBER 23, 1976.

This order effective September 23, 1976 supersedes the material appearing at 41 FR 8520 of February 27, 1976.

Section 1. Purpose.

This order establishes, and prescribes the functions of, the Office of Regional Affairs.

Section 2. Establishment, reorganization and transfers.

.01 The Office of Regional Affairs is hereby established and the functions, personnel, funds, property and records of the Field Programs Staff are hereby transferred to it.

.02 In accord with the above, the Field Programs Staff is abolished.

.03 The position title of Deputy Under Secretary for Field Programs is changed to Deputy Under Secretary for Regional Affairs.

Section 3. Status and line of authority.

The Office of Regional Affairs, a Departmental Office, shall be headed by the Deputy Under Secretary for Regional Affairs who shall coordinate the activities of the Secretarial Representatives, who shall be representatives of the Secretary to business, government, and other individuals and organizations in the Standard Federal Regions described in OMB Circular A-105. There shall be ten Secretarial Representatives, one stationed in each of the ten Standard Federal Regional cities. The Secretarial Representatives shall be responsible to the Secretary.

Section 4. Functions.

.01 The Deputy Under Secretary for Regional Affairs shall coordinate the activities of the Secretarial Representatives on behalf of the Secretary; he shall assist the Under Secretary in his function as a member of the Under Secretaries' Group for Regional Operations established in Executive Order 11647, as amended by Executive Order 11892; and shall be the liaison between the Secretarial Representatives and Washington-based officials in the Department and other Federal agencies.

The Deputy Under Secretary for Regional Affairs shall also be responsible for assuring that the Department's policies and programs are communicated to, and are responsive to the needs of, the public and business, government, and other individuals and organizations in the Standard Federal Regions; and that Department programs which affect the Regions are coordinated with related programs of other government agencies.

.02 The Secretarial Representatives shall:

a. Represent the Secretary to individuals and organizations in the Regions.

b. As authorized by Executive Order 11892, represent the Department on, and provide staff support to, the Federal Regional Councils.

c. Maintain continuing liaison with the regional programs operating officials of the Department to insure coordination both among the Department's programs and between these programs and the programs of other Federal agencies, states, and local governments.

d. Initiate, plan, and conduct studies and reviews to identify conditions which may limit the ability of the Department's operating officials to coordinate their programs with other programs of the Department, and those of other Federal agencies, states, and local governments; recommend to the Secretary and to other officials in the Department, in other Federal agencies, and in state and local governments, the policy and procedural changes which could eliminate these conditions; and work with these officials to implement decisions consequent thereto.

e. Maintain continuing liaison with the public, and with business, government, and other officials in the Regions to facilitate the delivery of the Department's services within these Regions.

f. Make periodic reviews of the effectiveness of the Department's programs in meeting the needs of the Regions, and report the findings and recommendations of such reviews to the Secretary.

g. Provide the Secretary with information on developments and activities in the Regions, particularly on legislative, business, and economic issues which may affect the Department's programs in the Regions.

h. Perform such other functions as the Secretary may from time to time direct.

Section 5. Limitation on authority.

Nothing in this order shall alter, amend, modify, or repeal any parts of other standing orders which delineate the duties and responsibilities of program officials operating in the Regions.

JOSEPH E. KASPUTYS,
Assistant Secretary for Administration.

MEPROBAMATE ORAL PREPARATIONS

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

In a notice (DESI 9698; Docket No. FDC-D-227 (now Docket No. 76N-0295)) published in the FEDERAL REGISTER of September 19, 1970 (35 FR 14663), the Food and Drug Administration announced its conclusions that the drug products described below are (1) effective for the relief of anxiety and tension; as an adjunct in the treatment of various disease states in which anxiety and tension are manifested; and to promote sleep in anxious, tense patients; (2) probably effective in anxiety states associated with tension headache, medical and surgical disorders and procedures, heart disease, and behavior disorders; (3) possibly effective as adjunctive therapy in the control and rehabilitation of chronic alcoholic patients, and as adjunctive therapy in the treatment of psychoses; and (4) lacking substantial evidence of effectivenes for all their other labeled indications. The notice also offered an opportunity for a hearing concerning the indications concluded at that time to lack substantial evidence of effectiveness. The manufacturers of the drug products deleted from the labeling of the drug products the probably effective indications, the possibly effective indications, and the indications lacking substantial evidence of effectiveness. No person has submitted any data in support of the probably effective and possibly effective indications and those indications are now reclassified as lacking substantial evidence of effectiveness. This notice offers an opportunity for a hearing concerning those indications and sets forth the conditions for marketing the drug products for the indications for which they continue to be regarded as effective. Persons who wish to request a hearing may do so on or before November 30, 1976.

The notice that follows does not pertain to the indications stated in the September 19, 1970 notice to lack sub-

2. NDA 12-513; Pertranquil Tablets; Philadelphia Pharmaceutical & Cosmetic Co., 9815 Roosevelt Blvd. & Blue Grass Rd., Philadelphia, PA 19114.

3. NDA 12-866; Meprobamate Tablets; Riverton Laboratories, 852 Clinton Ave., & 20th St., Newark, NJ 07108.

4. NDA 14-322; Meprobamate Tablets; Richlyn Laboratories, 3725 Castor Ave., Philadelphia, PA 19124.

5. NDA 14-344; Meprobamate Tablets; Bryant Pharmaceutical Corp., 70 S. Mac Questen Pkwy., Mt. Vernon, NY 10550.

6. NDA 14-359; Neuramate Tablets; Halsey Drug Co., Inc., 1827 Pacific St., Brooklyn, NY 11233.

7. NDA 14-364; Meprobamate Tablets; Bates Laboratories, Inc., Division LTC Pharmaceuticals Corp., 2312 West Main St., Evanston, IL 60202.

8. NDA 14-365; Meprobamate Tablets; Philadelphia Laboratories, Inc., Division Philadelphia Pharmaceutical & Cosmetic Co.

9. NDA 14-367; Meprobamate Tablets; American Pharmaceutical Co., P.O. Box 2222, Elizabeth, NJ 07207.

10. NDA 14-368; Meprobamate Tablets; McKesson Laboratories, P.O. Box 548, Bridgeport, CT 06602.

11. NDA 14-417; Meprobamate Tablets; BBC Laboratories, Division Brunswig Drug Co., 700 N. Seperlueda Blvd., El Segundo, CA 90245.

12. NDA 14-464; Meprobamate Tablets; Towne Paulsen & Co., Inc., 140 East Duarte Rd., Monrovia, CA 91016.

13. NDA 14-474; Meprobamate Tablets; Stanley Drug Products, Inc., Division Sperti Drug Corp., P.O. Box 3108, Portland, OR 97208.

14. NDA 14-509; Meprobamate Tablets; Chase Chemical Co., 280 Chestnut St., Newark, NJ 07105.

15. NDA 14-511; Meprobamate Tablets; Davis-Edwards Pharmacal Corp., Davis-Edwards Rd., Danbury, CT 06810.

16. NDA 14-547; Meprobamate Tablets; Premo Pharmaceutical Laboratories, Inc., 111 Leuning St., S. Hackensack, NJ 07606.

17. NDA 14-600; Meprobamate Tablets; Vitamix Pharmaceuticals, Inc., Division Philadelphia Pharmaceutical & Cosmetic Co., Inc., 1500 Walnut St., Philadelphia, PA 19102.

18. NDA 14-601; Meprobamate Tablets; Leo Linden Laboratories, Inc., 5353 Grosvenor Blvd., Los Angeles, CA 90066.

19. NDA 14-644; Meprobamate Tablets; Wynlit Pharmaceuticals, Division Unimed, Inc., Rt. 202, Morristown, NJ 07960.

20. NDA 14-769; Meprobamate Tablets; Nysco Laboratories, Inc., Division USV Pharmaceuticals Corp., 34-24 Vernon Blvd., Long Island City, NY 11106.

21. NDA 14-772; Viobamate Tablets; Rowell Laboratories, Inc., Baudette, MN 56623.

22. NDA 14-862; Meproleaf Tablets; Gold Leaf Pharmacal Co., Inc., Division Ormont Drug & Chemical Co., 520 South Dean St., Englewood, NJ 07631.

23. NDA 14-882; Meprobamate Tablets; The Lannett Co., Inc., 9000 State Rd., Philadelphia, PA 19136.

24. NDA 15-023; Meprobamate Tablets; Wynlit Pharmaceuticals.

25. NDA 15-072; Probamin Tablets and Sedabamate Tablets; Mallard, Inc., 3021 Wabash Ave., Detroit, MI 48216.

26. NDA 15-079; Meprobamate Tablets; Rexall Drug Co., P.O. Box 7189, St. Louis, MO 63115.

27. NDA 15-081; Meprobamate Tablets; Kirkman Laboratories, Inc., P.O. Box 3929, Portland, OR 97208.

28. NDA 15-132; Meprobamate Tablets; Professional Drug Products, 621 West Pico Blvd., Los Angeles, CA 90015.

29. NDA 15-139; Meprobamate Tablets and Meprobamate Yellow Tablets; ICN Pharmaceuticals, 222 North Vincent Ave., Covina, CA 91722.

30. NDA 15-170; Fas-cile Tablets; Schlicksup Drug Co., Inc., 420 Southwest Washington St., Peoria, IL 61602.

31. NDA 15-202; Meprobamate Tablets; Truett Laboratories, Division Southwestern Drug Corp., P.O. Box 34029, Dallas, TX 75234.

32. NDA 15-417; Meprobamate Tablets; West-Ward, Inc., 745 Eagle Ave., Bronx, NY 10456.

33. NDA 15-426; Meprobamate Tablets; Ketchum Laboratories, Inc., 26 Edison St., Amityville, NY 11701.

34. NDA 15-437; Meprobamate Tablets; Phoenix Laboratories, Inc., 175 Lauman Ln., Hicksville, NY 11811.

35. NDA 15-438; Meprobamate Tablets; Zenith Laboratories, Inc., 140 LeGrand Ave., Northvale, NJ 07647.

36. NDA 16-021; Meprobamate Tablets; Pennex Products Co., Inc., Eastern Ave. at Pennex Dr., Verona, PA 15147.

37. NDA 16-025; Meprobamate Tablets; Barrows Chemical Co., Inc., 303 Prospect St., Inwood, Long Island, NY 11696.

38. NDA 16-039; Meprobamate Tablets; Vita-Fore Products Co., Inc., 95-07 98th St., Ozone Park, NY 11416.

39. NDA 16-051; Meprobamate Tablets; Lit Drug Co., 2530 Polk St., Union, NJ 07083.

40. NDA 16-068; Meprobamate Tablets; Leeds Dixon Laboratories, Inc., Moonachie, NJ 07074.

41. NDA 16-069; Klort Tablets; Lemmon Pharmacal Co., Sellersville, PA 18960.

42. NDA 16-107; Protran White Tablets and Protran Yellow Tablets; Rand Laboratories, Inc., P.O. Box 7312, Metairie, LA 70002.

43. NDA 16-112; Meprobamate Tablets; Purepac Corp., Division Elizabeth Laboratories, 200 Elmora Ave., Elizabeth, NJ 07207.

44. NDA 16-249; Meptran Tablets and Traner Tablets; Reid-Provident Laboratories, Inc., 25 Fifth St., N.W., Atlanta, GA 30308.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD-310), 5600 Fishers Lane, Rockville, MD 20852.

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drug products are effective for the indications listed in the labeling conditions below. The drug products now lack substantial evidence of effectiveness for the indications evaluated as probably effective and possibly effective in the September 19, 1970 notice.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* The drug is in tablet, capsule, or suspension form suitable for oral administration. The dosage form may be formulated for standard or controlled release.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indications are as follows:

For the relief of anxiety and tension; as an adjunct in the treatment of various disease states in which anxiety and tension are manifested; and to promote sleep in anxious, tense patients.

3. *Marketing status.* a. Marketing of such drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before December 14, 1976, the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD-356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1(f)).

b. Approval of an abbreviated new drug application (ANDA) (21 CFR 314.1(f)) must be obtained prior to marketing such product. For controlled release forms, data from appropriate bioavailability studies will be required as part of the ANDA. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

c. *Notice of opportunity for hearing.* On the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a)(5), demonstrating the effectiveness of the drug(s) for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice.

Notice is given to the holder(s) of the new drug application(s), and to all other interested persons, that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) and all amendments and supplements thereto providing for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have all the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

In addition to the ground for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above (21 CFR 310.6), are hereby given an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and all identical, related, or similar drug products.

If an applicant or any person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before November 15, 1976, a written notice of appearance and request for hearing, and (2) on or before December 14, 1976, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of such drug product. Any such drug product labeled for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgments against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk (address given below) during working hours, Monday through Friday.

Communications forwarded in response to this notice should be identified with the reference number DESI 9698, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

Supplements (identify with NDA number): Division of Neuropharmacological Drug Products (HFD-120), Rm. 10B-34, Bureau of Drugs.

Original abbreviated new drug applications (identify as such): Division of Generic Drug Monographs (HFD-530), Bureau of Drugs.

NAPROSYN TABLETS

Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application

The Food and Drug Administration (FDA) proposes to withdraw approval of the new drug application (NDA 17-581) for Naprosyn (naproxen) Tablets held by Syntex Corporation, 3401 Hillview Ave., Palo Alto, CA 94304, on the ground that it contains untrue statements of material facts. Any request for a hearing or comments must be submitted on or before November 15, 1976.

V41N201 OCT 15 76 UM

Naproxen is a nonsteroidal anti-inflammatory agent indicated for use in the management of rheumatoid arthritis and thus intended for long term administration when appropriate. NDA 17-581 authorizing marketing of Naprosyn brand of naproxen tablets was approved on March 11, 1976. The application contained statements regarding studies of the long-term toxicity of Naprosyn which represented the drug to be safe for chronic human use.

The Director of the Bureau of Drugs now has reason to believe that certain material facts either were misstated in the application for Naprosyn or were omitted from the application. As a consequence, the agency's evaluation of the safety of Naprosyn was based on erroneous data. Therefore, the Director is proposing to withdraw the approval of the application for Naprosyn.

BACKGROUND

The new drug regulations require that an NDA contain full reports of adequate preclinical tests by all methods reasonably applicable to show whether or not the drug is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling. The reports are to include all studies made on laboratory animals, the methods used, and the results obtained. 21 CFR 314.1(c). The NDA form itself states that the application may be refused unless it contains full reports of such preclinical tests and unless those tests adequately take into consideration such special factors as whether the drug is intended for long-term administration. 21 CFR 314.1(c), Form FD-356H, paragraph 10a, b.

This regulatory requirement supplements section 505(d)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(d)(1)), under which the Commissioner of Food and Drugs shall, after affording the applicant due notice and an opportunity for a hearing, refuse to approve an NDA that fails to contain evidence of adequate safety testing by all reasonably applicable methods. Protection of the public health, as well as the strictures of the act and regulations, requires that new drugs lacking evidence of adequate tests of safety not be permitted on the market.

The act also provides for the withdrawal of approval of an application that contains any untrue statement of a material fact. Section 505(e)(4) (21 U.S.C. 355(e)(4)). Among the grounds on which an application may be deemed to contain an untrue statement of a material fact is the omission from the application of any information obtained from investigations as to safety if such omission prevents a proper evaluation of the safety of the drug. 21 CFR 314.12 (b)(1). Likewise, the misstatement, whether inadvertent or not, of significant data from which conclusions as to safety are to be drawn must be deemed to constitute an untrue statement of material fact.

ANIMAL STUDIES

Because Naprosyn is intended for long-term administration to humans, one test essential to a determination of its safety is a long-term animal toxicity study designed to measure the effects of chronic exposure to the drug over a substantial portion, or all, of the life span of the animal. It has long been the policy of FDA that an NDA for a drug intended for chronic administration, i.e., more than 6 months, is not approvable unless the preclinical tests include a long-term rodent toxicity study. This policy is widely recognized among drug manufacturers and has been enunciated publicly in speeches made between 1968 and 1972 by Dr. William D'Aguanno, Chief Pharmacologist of the FDA Bureau of Drugs, and in publications. ("Drug Toxicity Evaluation—Pre-Clinical Aspects," FDA Introduction to Total Drug Quality, U.S. Government Printing Office No. 1712-00220, Nov. 1973, pp. 35-40; and "Drug Safety Evaluation—Pre-Clinical Considerations," Industrial Pharmacology, Vol. I, S. Fielding, ed., Futura Publishing Co., Mount Kisco, NY, 1974, pp. 317-332.)

To comply with this requirement for Naprosyn, Syntex submitted the results of one study, a 22-month chronic oral toxicity study in 160 albino rats carried out by Industrial Bio-Test Laboratories (IBT) of Northbrook, IL, under Syntex sponsorship (the "IBT rat study"). That study was used for evaluating both the chronic toxic effect of the compound and the likelihood of its having carcinogenic potential. Two other long-term animal toxicity studies (a 12-month study in the mini-pig and 39-week study in the rhesus monkey) were not adequate to answer these questions because they were not carried out over the major portion of the life span of the animals, and they did not involve a sufficient number of animals to permit a meaningful assessment of carcinogenic potential. The clinical trials and usage to date are also not sufficient to assure long-term safety or lack of oncogenic potential; only a relatively small number of patients have received the drug for as long as 3 years, while the latent period for chemical carcinogenesis in humans may be 10 years or more. Furthermore, clinical experience is an insensitive indicator of carcinogenic potential of drugs.

The agency's assessment of long-term safety underlying the approval of NDA 17-581 was based, therefore, exclusively on the IBT rat study. The materiality of this study and the data reported to FDA is evident from the fact that without the study, Syntex's application would not have been approved, for it would have failed to meet the agency's requirement of adequate long-term animal toxicity data to show whether Naprosyn is safe for chronic use.

UNTRUE MATERIAL STATEMENTS

FDA scientific and regulatory personnel have recently conducted an investigation of the circumstances of performance and the laboratory records of the IBT rat study. On the basis of this investigation, the Director of the Bureau of Drugs has determined that the report of the study submitted to FDA contained serious discrepancies from the records of the study held by IBT, and that other significant information concerning the study was omitted from the reports in the NDA. The Director of the Bureau of Drugs therefore finds that the report of the study in the NDA contains untrue statements of material facts that render the report uninterpretable in documenting the lack of chronic toxic effects or carcinogenic potential of the drug and thereby vitiate the earlier conclusions reached by the agency regarding the long-term safety of Naprosyn. Specifically:

1. The original NDA submitted by Syntex represents that the IBT rat study contained a sufficient number of animals for which records pertaining to necropsy, urinalysis, hematology, histopathology, general animal condition, and feeding and weight data were available to permit an adequate evaluation of the long-term toxic and carcinogenic potential of the drug.

Instead, the original laboratory records revealed that for no single animal among the 160 animals that began the study was a complete set of such records maintained as required by the study protocol agreed upon by Syntex and IBT and submitted to FDA in the application, and that the extent of missing records was substantial and serious. For example, the protocol required daily examinations of all animals, with special attential to be given to the presence of externally visible tissue masses likely to be tumors; however, no systematic records of such daily examinations were available during the FDA investigation. Further, while the results of hematology, clinical chemistry, and urinalysis determinations and gross (readily visible without a microscope) pathology observations were reported in the NDA, the agency's investigation revealed no records at all to support the hematology and clinical chemistry determinations and only partial records on urinalysis determinations, body-weight values, and gross observations, ante and post mortem.

2. Syntex's submissions regarding the IBT rat study represented that a specified set of tissues had been examined histopathologically (with a microscope). In fact, laboratory records show that only some of these tissue samples were collected or prepared for examination. In addition, FDA inspection of the raw data in IBT's files disclosed that, in certain cases, actual tumors were found in animals but were not mentioned in the submission, which is part of the NDA, and that the same was true with certain lesions other than tumors.

3. Withheld from the report submitted in the NDA was the fact that the majority of the animals observed post mortem had already entered a state of advanced autolysis or decomposition at the time of examination, rendering unreliable any gross observations made. Despite such unreliability, the NDA contains data on the results of gross observations of certain organs, and reports, for example, that the lung tissues of animals showed signs of congestion or, by a lack of attribution of findings, implies that the tissues examined were normal. The original laboratory records discovered at IBT indicate that the problem of autolysis was so extensive that, had it been made known to FDA during the agency's review and evaluation of the IBT rat study, this discovery alone would have rendered the entire study unacceptable in documenting the safety of the drug. In addition, many of the 47 animals described in one log kept by IBT as being "too badly autolysed, technician destroyed animal" were found to have certain gross pathologic findings ascribed to them in another log and reported in the NDA. Whether, in fact, these pathology observations were not made because of immediate discarding of the animals or instead were made in animals too badly decomposed to permit a reliable evaluation is not known, but either conclusion renders unacceptable the findings reported in the NDA.

4. An inspection of the records at IBT disclosed numerous inconsistencies with the report, which is part of the NDA, indicating that experimental animals were either identified incorrectly or were misplaced within and among the various treatment groups. For example, many animal weights were recorded as having been collected while the animals were alive on date subsequent to their dates of death; several animals were recorded as having died on more than one date, usually with different versions of gross post mortem findings; extreme variations in body weight were noted both during successive weighings of the same animals and within any group of animals weighed at the same time, even though all animals were reported to have received standard care and drug administration. Such confusion with respect to animal identity renders unreliable any estimate of the onset and persistence of certain important toxic manifestations of naproxen, such as gastrointestinal ulcerations.

The applicant, Syntex, was made aware of these findings by a letter dated August 5, 1976, from the Director of the Bureau of Drugs. The company was more fully advised of the findings in a meeting held between representatives of the Food and Drug Administration and Syntex on August 20, 1976, during which the Syntex representatives acknowledged and discussed many of the discrepancies and deficiencies found in the report of the IBT rat study. Copies of the letter and minutes of the meeting have been placed on file at the office of the Hearing Clerk, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852.

LEGAL BASIS FOR WITHDRAWAL OF NDA

When an approved NDA is later found to have contained untrue statements of facts which were material at the time of approval and which remains material when the untruth is discovered, the law requires that the application be withdrawn, after appropriate notice of opportunity for a hearing and the holding of such hearing if justified. In certain circumstances, statements of fact that were material to approval of an NDA at the time the agency evaluated the application may have ceased to be material when they are discovered to be untrue. For example, evidence invalidating a study that was essential to the original evaluation of the safety of a drug may not be discovered until years after the drug is approved and marketed, and under some circumstances intervening wide clinical experience or additional studies with the drug may be sufficient to resolve the questions of safety originally addressed by the study in question. In another possible situation, the Bureau of Drugs might determine that the studies that were required at the time of the initial approval of an NDA are not, in light of more recent toxicological standards, in fact essential to such continuing approval. An untrue statement in such information would not be regarded as material for purposes of withdrawing approval of the NDA, notwithstanding that initial approval would not have been granted had the untrue statements been known at the time. In such situations, the Director of the Bureau of Drugs may decline to initiate withdrawal of approval of the NDA.

No such circumstances exist in this case, however. Naprosyn is not a long-approved or an extensively used drug. Moreover, the agency regards a long-term toxicity study as having been essential to the approval of the NDA for Naprosyn and essential to a current assessment of its safety, and thus as material. The Director concludes, therefore, that the misstated facts, which were material to the original approval of the NDA for Naprosyn and continue to be material, justify its withdrawal at this time.

In a proceeding to determine whether to withdraw approval of the NDA for Naprosyn under section 505(e)(4) of the act, the only issues are whether the statements in the application (a) were actually made, (b) were untrue, and (c) were material, and continue to be material, to the approval of the application. To justify a hearing on the proposed withdrawal of approval, Syntex must be able to show that there is a genuine dispute with respect to one or more of these issues. No other issues are germane to a decision to withdraw approval of an NDA on this ground.

Evidence supporting a claim that statements in the report of the IBT rat study included in the NDA were not untrue must demonstrate that the report as submitted was complete and accurate in all respects. This evidence must consist of original records, such as laboratory records, log books, and pathology slides which prove that the report is supported by the actual raw data and is therefore true.

Evidence supporting a claim that the misstatements in and omissions from the report of the IBT rat study were not material must demonstrate either of the following two propositions:

(a) That valid scientific conclusions can be drawn from the actual raw data generated during the study and therefore that the misstatements and omissions are not material to an evaluation of the study as evidence of the safety of Naprosyn for long-term use. Evidence to support this proposition must consist of original records, such as laboratory records, log books, and pathology slides which demonstrate clearly and objectively that the study was performed with the requisite number of property identified animals, that adequate contemporaneous records were maintained, and that unequivocal scientific conclusions regarding the safety of the drug for long-term use can be drawn from the data obtained from this study. Hypothetical reconstructions of portions of the IBT rat study, such as those offered by Syntex representatives in the August 20, 1976 meeting, and plausible, but conjectural, explanations cannot suffice to demonstrate that the errors in the report are not material.

(b) That the IBT rat study itself was not material to the approval of the application at the time it was approved or is not now material to an evaluation of the long-term safety of the drug. Evidence to support this proposition must demonstrate either (1) that the study was not essential to the original evaluation of the safety of the drug; or (2) that intervening events since the time of approval, e.g., new scientific information derived from human experience or animal investigations or changing scientific standards, have rendered the study scientifically obsolete and therefore not material to a current appraisal of safety.

In the absence of a showing that such proof is available to demonstrate that the statements are not untrue or are not material, the statute mandates that FDA withdraw the NDA.

If approval of the Naprosyn NDA is withdrawn, Syntex may resubmit the application and may include either new data providing evidence of long-term safety from a rodent study completed since March 1976 or a resubmission of the IBT rat study. If the application is resubmitted, the Bureau of Drugs will determine whether the application is approvable under the statutory criteria set forth in section 505(d). If the Bureau finds the application to be not approvable, it would follow the customary procedures for denying an NDA, including providing Syntex with an opportunity for a hearing on the proposed denial. That process provides the proper forum for assessing whether Syntex's attempt to reconstruct the IBT rat study provides an acceptable basis for determining the safety of Naprosyn for long-term use.

Accordingly, notice is hereby given to the holder of the new drug application for Naprosyn, and to all other interested persons, that the Director of the Bureau

of Drugs proposes to issue an order under section 505(e)(4) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355 (e)(4)), withdrawing approval of the new drug application and all amendments and supplements thereto on the ground that the application contains untrue statements of material facts.

If any person subject to this notice elects to avail himself of the opportunity for a hearing, he shall file on or before November 15, 1976, a written notice of appearance and request for hearing, and the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of the applicant and any other person subject to the notice to file a timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such persons not to avail themselves of the opportunity for a hearing, and the approval will be summarily withdrawn.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. For the purposes of such a hearing, the sole issue in this case is whether the application as originally submitted and approved contained untrue statements of a fact material to such approval and to a current evaluation of safety. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person who requests the hearing, making findings and conclusions and denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate and directed to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk during working hours, Monday through Friday.

(Sec. 505, 52 Stat. 1052-1053, as amended (21 U.S.C. 355)), and under authority delegated to the Director of the Bureau of Drugs (21 CFR 5.31) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: October 4, 1976.

J. RICHARD CROUT,
Director, Bureau of Drugs.

BORG-WARNER CORP.

Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348 (b)(5))), notice is given that a petition (FAP 6B3169) has been filed by Borg-Warner Corp., Technical Centre, Washington, WV 26181, proposing that § 121.2633 Acrylonitrile/butadiene/styrene copolymer (21 CFR 121.2633) be amended to provide for expansion of the use of the subject copolymer to conditions of use C and D described in table 2 of § 121.2526(c) (21 CFR 121.2526(c)).

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the proposed use of the additive will not have a significant environmental impact. Copies of the environmental impact analysis report may be seen in the office of the Assistant Commissioner for Public Affairs, Rm. 15B-42 or the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, during working hours, Monday through Friday.

Dated: October 6, 1976.

HOWARD R. ROBERTS,
Acting Director, Bureau of Foods.

ADVISORY COMMITTEES

Meetings

This notice announces forthcoming meetings of the public advisory committees of the Food and Drug Administration. It also sets out a summary of the procedures governing the committee meetings and the methods by which interested persons may participate in the open public hearings conducted by the committees. The notice is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)). The following advisory committee meetings are announced:

Committee name	Date, time, and place	Type of meeting and contact person
1. Ophthalmic Prosthetic Devices Subcommittee of the Ophthalmic Device Classification Panel.	Nov. 1, 9:30 a.m., room 6821, FB-8, 200 C St. SW., Washington, D.C.	Open public hearing 9:30 a.m. to 10:30 a.m.; open committee discussion 10:30 a.m. to 4:30 p.m.; James G. Dillon, Ph. D., (HFK-470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7238.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to establishment of experience and training requirements for intraocular lens implant surgeons to James G. Dillon, Ph.D., Executive Secretary.

Open committee discussion. Section 520(e)(3)(D)(iii) of the Medical Device Amendments of 1976 establishes that the Secretary may choose to restrict intraocular lenses to investigational use by experts qualified by scientific training and experience. This intent was reemphasized in the Congressional Record of the House, May 13, 1976, page H-4383.

In view of the above, the panel will discuss and render guidelines concerning experience and training requirements for intraocular lens implant surgeons for consideration by the Bureau of Medical Devices and Diagnostic Products. Any person and/or organization wanting to present comments to the panel or to the Bureau of Medical Devices should contact Dr. James G. Dillon, Executive Secretary, Food and Drug Administration, Bureau of Medical Devices and Diagnostic Products, 8757 Georgia Ave., Silver Spring, MD 20910, (301) 427-7238.

2. Pediatric Subcommittee of the Psychopharmacological Agents Advisory Committee.	Nov. 1, 8:30 a.m., conference room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing 8:30 a.m. to 9:30 a.m.; open committee discussion 9:30 a.m. to 5 p.m.; Julius J. Cinque, (HFD-120), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3300.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in the practice of psychiatry and related fields.

Agenda—Open public hearing. Any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Report on long-term effects of stimulant medication; report on the pediatric guidelines subcommittee; final report on the long-term protocol subcommittee; final report on efficacy of phenothiazine and haloperidol for less than psychotic indications.

Committee name	Date, time, and place	Type of meeting and contact person
3. Science Advisory Board....	Nov. 4 and 5; on Nov. 4, 9 a.m., lecture room, building 12, NCTR, Jefferson, Ark.; on Nov. 5, 8 a.m., conference room 510, University of Arkansas, Little Rock, Ark.	Open public hearing Nov. 4, 9 a.m. to 10 a.m.; open committee discussion Nov. 4, 10 a.m. to 5 p.m., Nov. 5, 8 a.m. to 12 m.; Ruth Magee, National Center for Toxicological Research, Jefferson, Ark. 72079, 501-526 6200.

General function of the committee. Advises on establishment and implementation of a research program that will assist the Commissioner of Food and Drugs and the Administrator, Environmental Protection Agency, in fulfilling their regulatory responsibilities.

Agenda—Open public hearing. Any interested person may present data, information, or views, orally or in writing, on issues pending before the Board.

Open committee discussion. Report on status of facilities, staff, good laboratory practices and research overview: Carcinogenesis, teratogenesis, mutagenesis, hormone program, computer development, and new initiatives. Discussion of subcommittee reports on the following: bladder cancer, aromatic amines, hormones, matrix approach, risk analysis, teratology, graduate education, immunology, pathology, and inhalation.

4. Diagnostic and Monitoring Instruments and Devices Subcommittee of the Neurological Device Classification Panel.	Nov. 5, 9 a.m., room 1813, FB-8, 200 C St. SW., Washington, D.C.	Open public hearing 9 a.m. to 10 a.m.; open committee discussion 10 a.m. to 4 p.m.; James R. Veale, (HFK-450), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7226.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. There will be a presentation by Allen Grahn, Ph.D., Utah Biomedical Test Laboratories, on the results of a study performed on Electroconvulsive Therapy Apparatus. Interested parties are encouraged to present safety or efficacy information pertinent to the classification of the devices listed below to James R. Veale, Executive Secretary. Submission of data relative to tentative classification findings is also invited.

Open committee discussion. The subcommittee will classify the following devices: Cortical electrodes; depth electrodes; electroconductive media; EEG electrode/lead testers; naso-pharyngeal electrodes; needle electrodes; surface cutaneous electrodes; electrical stimulators, evoked response; mechanical stimulators, evoked response; photostimulators, evoked response; sonic (aural) stimulators, evoked response; audiometers; two-point discriminators; dynamanual esthesiometers; neurodermamometers (GSR measurement); percussion hammers; percussors; pinwheels; rheoencephalographs; rigidity analyzers; tuning forks; electroencephalograph units; electromyograph units; nerve conduction velocity measurement instruments; intracranial pressure measuring systems; physiological signal telemetry systems.

5. Surgical Implants and Instruments Subcommittee of the Neurological Device Classification Panel.	Nov. 6, 9 a.m., Crystal City Marriott Hotel, Arlington, Va.	Open public hearing 9 a.m. to 10 a.m.; open committee discussion 10 a.m. to 4 p.m.; James R. Veale, (HFK-450), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7226.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present safety and/or efficacy information pertinent to the classification of the devices listed below to James R. Veale, Executive Secretary. Submission of data relative to tentative classification findings is also invited.

Open committee discussion. The subcommittee will classify the following devices: Ventricular cannulas; angiographic catheters; ventricular catheters; drill motors (electric and pneumatic); manual drill handpiece (brace); manual drills, burrs; trephines and accessories; powered compound drills, burrs, trephines and accessories; powered simple drills, burrs, trephines and accessories; cranioplasty material forming instruments; skull plate anvils; skull plate screwdrivers; skull punches; angiographic needles; angiographic wire guides and accessories; neurosurgical needles; neurosurgical probes; neurosurgical chairs; neurosurgical head holders (skull clamps); neurosurgical headrests; neumoencephalographic chairs; fiber optic illuminators; neurosurgical headlights; operating microscope systems; stereotaxic instruments and accessories; electrical cutting/coagulating devices (electrosurgical units); chisels and osteotomes; curettes; dissectors; dowel cutters and accessories; elevators; coagulation forceps; manual forceps; gouges; hooks.

6. Clinical Chemistry Subcommittee of the Diagnostic Products Advisory Committee.	Nov. 8 and 9, room 4131, HEW-North, 330 Independence Ave. SW., Washington, D.C.	Open public hearing Nov. 8, 9 a.m. to 10 a.m.; open committee discussion Nov. 8, 10 a.m. to 5 p.m., Nov. 9, 9 a.m. to 5 p.m.; Kaiser Aziz, Ph. D., (HFK-200), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7234.

General function of the committee. Reviews and evaluates available data concerning the safety and efficacy of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to the petition for reclassification of OVA II to: Kaiser Aziz, Ph.D., Head of Classification.

Open committee discussion. The subcommittee will classify the following clinical chemistry in vitro diagnostic products: Aspartate amino transferase; alanine amaino transferase; lactate dehydrogenase; phosphatase (acid and alkaline); lipase; albumin; protein (total); proteins (abnormal); phosphorus inorganic; amylase; creatinine; creatine phosphokinase; lipids (total); lipids (fractionation); phospholipids; catecholamines and epinephrine; estrogens (total); estrone; estriol; estradiol; 17-ketogenic steroids; cortisol; folic acid; deoxycorticosterone; gamma-glutamyl transpeptidase; triiodothyronine; thyroxine; vanilmandelic acid; vitamin B_{12}; follicle-stimulating hormone; luteinizing cell-stimulating hormone; prolacting; human chorionic gonadotropin; galactose; calcium.

7. Microbiology Subcommittee of the Diagnostic Products Advisory Committee.	Nov. 8 and 9, room 3131, HEW-North, 330 Independence Ave., SW., Washington, D.C.	Open public hearing Nov. 8, 9 a.m. to 10 a.m.; open committee discussion Nov. 8, 10 a.m. to 5 p.m. Nov. 9, 9 a.m. to 3 p.m.; closed committee deliberations Nov. 9, 3 p.m. to 4:30 p.m.; Bobbi Dresser, (HFK-200), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7175.

General function of the committee. Reviews and evaluates available data concerning the safety and efficacy of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Submission of data relative to tentative classification findings is invited and should be submitted to Mr. Thomas M. Tsakeris, Head of Classification.

Open committee discussion. The subcommittee will review for classification of the following products: Desoxycholate reagent (bile solubility); optochin discs; bacitracin differentiation discs; fluorescent antisera; typing phages, all types; enterotoxins, all types; enterotoxin antisera, all varieties; oxidase (cytochrome oxidase) differentiation discs, strips and reagents; X and V factor discs; fluorescent antisera (pertussis and parapertussis); B. pertussis agglutinating sera, all; B. pertussis antigen; B. parapertussis agglutinating sera; B. parapertussis antigen; corynebacterium diphtheriae flourescent antisera; C. diphtheria antiserum; exotoxin tests virulence strips; corynebacterium acnes antisera (544,605); salmonella sp. fluorescent antisera, all globulins; Bethesda-ballerup polyvalent antisera; Arizona antisera, antisera, all; shigella sp. fluorescent antisera, all globulins; klebsiella antisera, all types; klebsiella sp. fluorescent antisera, all; shigella sp. fluorescent antisera, all; febril antigens, all groups; proteus all globulins; klebsiella antisera, all herella vaginicola antiserum; acinetobacter calcoaceticus (mima polymorpha) antiserum; flavobacterium meningosepticuum antiserum, all groups; pseudommas pseudomallei antiserum; pseudomonas aeruginosa fluorescent antisera pseudomonas pseudomallei fluorescent antisera; vibrio cholerae antiserum, all varieties; vibrio fetus fluorescent antisera; brucella agglutination antigens (febrile antigens); brucella sp. febrile antigen control serum (positive and negative controls); brucella sp. fluorescent antisera; franchisella tularensis antigen (slide and tube); francisella tularensis antiserum; franchisella tularensis fluorescent antisera; listeria antigens (slide and tube), all types; listeria antisera, all types; listeria fluorescent antisera, all types; erysipelothrix rhusiopathiae antigen; erysipelothrix rhusiopathiae antiserum; erysipelothrix rhusiopathiae fluorescent antisera; mycoplasma discs; mycoplasma complement fixation antigens, all; mycoplasma antisera, all; mycoplasma fluorescent antisera, all; leptospira antigens, all; leptospira antisera, all; leptospira fluorescent antisera, all; mycobacterium tuberculosis fluorescent antisera; auramine differentiation discs; TB niacin test strips; TB niacin test control; clostridium sp. antisera, all types; clostridium sp. fluorescent antisera, all types; botulinum antitoxin; stains-acid fast, albert, auramine-rhodamine fluorescent, giemsa, gram, koster, methylene; blue, silver, spore (dorner), wayson; wright, macchriavello, gimenez and iodine; rhinovirus neutralizing sera, all types; CF antigens, all (including control); CF antisera, all; reovirus CF antigen, all (including control); reovirus hemagglutinating antigens all types (including control); reovirus CF antisera; reovirus chicken HAI antisera, all types; reovirus neutralizing serum, all types; psittacosis (chlamydia group) CF antigen; psittacosis (chlamydia group) CF serum; Q fever antigen for CF; Q fever CF serum; screen antigen for spotted fever group; rocky mountain spotted fever serum; screen antigen for typhus fever group; typhus fever serum; murine typhus fever serum; rickettsiae control antigen; rickettsiae pox serum, Q fever fluorescent antisera; lactophenol cotton blue preparation; sporatrichum schenekil fluorescent antisera; Wood's light fluorescence; complement fixing kit for aspergillin; trichinella antigen for bentonite flocculation test; trichinella antiserum for bentonite flocculation test; trichinella spiralis antibody; echinococcosis agglutinating antigen; echinococcosis positive sera; echinococcosis granulosus antigen for fluorescent antisera; schistosoma mansoni antigen for fluorescent antibody test; countercurrent electrophoresis Kit (T. cruzi); Latex Kit for chagas disease (T. cruzi); indirect hemagglutination test kit for T-cruzi.

Closed committee deliberations. The subcommittee will be reviewing a new drug application (NDA) for a transitional in vitro diagnostic product. This portion of the meeting will be closed to permit discussion of trade secret data (5 U.S.C. 552(b)(4)).

Committee name	Date, time, and place	Type of meeting and contact person
8. Fetal Monitoring Devices Subcommittee of the Obstetrics and Gynecological Device Classification Panel.	Nov. 9, 9 a.m., room 6821, FB-8, 200 C St. SW., Washington, DC.	Open public hearing 9 a.m. to 10 a.m.; open committee discussion 10 a.m. to 4 p.m.; Lillian Yin, Ph. D., (HFK-470), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7238.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to fetal monitoring devices to Lillian Yin, Ph.D., Executive Secretary. Submission of data relative to tentative classification findings is also invited.

Open committee discussion. The subcommittee will discuss specific clinical hazards of fetal monitoring devices.

Committee name	Date, time, and place	Type of meeting and contact person
9. FDA-NIDA Drug Abuse Research Advisory Committee.	Nov. 11, conference room G, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing 8:30 a.m. to 9:30 a.m.; open committee discussion 9:30 a.m. to 2:15 p.m.; closed committee deliberations 2:15 p.m. to 5 p.m.; John A. Seigliano, Ph. D., (HFD-120), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3504.

General function of the committee. Advises the Food and Drug Administration on action to be taken with respect to investigational use of substances with abuse potential. Advises the National Institute on Drug Abuse on supplies of substances for clinical studies and on quantities of substances for animal and in vitro studies. Advises FDA and NIDA on development of broad outlines for studies of substances with abuse potential and on new methods and tests in animals and man by which the dependence liability of investigational drugs may be estimated.

Agenda—Open public hearing. Any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Discussion of FDA policy regarding opening of meetings; guide for use of cannabis/THC for I.O.P. reduction; use of females with terminal cancer in cannabis research: take-home medication; psychoactive effects from "new" street herbs; and report of Schedule I brochure.

Closed committee deliberations. Review of IND application and amendments; review of preclinical requests. This portion of the meeting will be closed to protect the confidentiality of personnel and medical files, the disclosure of which would constitute a clearly unwarranted invasion of personal property (5 U.S.C. 552(b)(6)).

Committee name	Date, time, and place	Type of meeting and contact person
10. Pulmonary-Allergy and Clinical Immunology Advisory Committee.	Nov. 11 and 12, conference room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing Nov. 11, 9 a.m. to 10 a.m.; open committee discussion Nov. 11, 10 a.m. to 4 p.m., Nov. 12, 9 a.m. to 11 a.m.; closed committee deliberations Nov. 12, 11 a.m. to 2 p.m.; Gerald M. Rachanow, (HFD-160), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3500.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drugs for use in the treatment of pulmonary disease and disease with allergenic and/or immunologic mechanisms.

Agenda—Open public hearing. Any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Discussion of changes in FDA advisory committee procedures; new drug application (NDA) 17-573, Vancenil Inhaler: Discussion of Phase 4 studies and management of patients continued on oral steroids while receiving inhaled Vancenil; stinging insect hypersensitivity: the potential role of Daroil-whole body extract preparations and the role of epinephrine (aerosol vs. parenteral); experimental design of bronchodilator clinical studies; and discussion of intravenous aminophylline dosage requirements in the treatment of asthma.

Closed committee deliberations. Review of investigational new drug (IND) 3369. IND's presently under consideration. This portion of the meeting will be closed to permit discussion of trade secret data (5 U.S.C. 552(b)(4)).

Committee name	Date, time, and place	Type of meeting and contact person
11. Panel on Review of Blood and Blood Derivatives.	Nov. 12 and 13, 9 a.m., room 121, N111, building 29, 8800 Rockville Pike, Bethesda, Md.	Open public hearing Nov. 12, 9 a.m. to 10 a.m.; open committee discussion Nov. 12, 10 a.m. to 1 p.m.; closed committee deliberations Nov. 12, 1 p.m. to 5 p.m., Nov. 13, 9 a.m. to 5 p.m.; Clay Sisk, (HFB-6), 8800 Rockville Pike, Bethesda, Md. 20014. 301-443-5155.

V41201 OCT 15 76 UM

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of biological products.

Agenda—Open public hearing. Any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. Administrative discussion of meeting format and records; discussion of fibrinogen (human) and minutes of previous meeting.

Closed committee deliberations. Review of data submissions from producers of plasma fractionation products including fibrinogen (human), antihemophilic factor (human), factor IX complex (human), normal serum albumin (human), plasma protein fraction (human), Rh_0 (D) immune globulin (human), and stored red blood cell products. This portion of the meeting will be closed to permit discussion of trade secret data and to allow for the free exchange of internal views and for formulation of recommendations (5 U.S.C. 552(b) (4) and (5)).

Committee name	Date, time, and place	Type of meeting and contact person
12. Panel on Review of Miscellaneous External Drug Products.	Nov. 12 and 13, 9 a.m., Conference room C, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing Nov. 12, 9 a.m. to 10 a.m.; closed committee deliberations Nov. 12, 10 a.m. to 4:30 p.m., Nov. 13, 9 a.m. to 4:30 p.m.; Michael D. Kennedy, (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing/open committee discussion. Any interested person may present data, information, or views, orally or in writing, on issues pending before the committee. Explanation will be given of new FDA policy concerning open meetings.

Closed committee deliberations. The panel will review data submitted in confidence pursuant to the OTC review's call for data for this panel (see also 21 CFR 330.10(a)(2)). This will include product names, formulas and formulation process data, sales data, and in some cases, portions of pending or approved new drug applications (NDA's). Also, discussions relating to labeling, drug class standards and testing will often be intermixed with discussion of formulas, sales data, or NDA material in such a way that the two discussions often cannot be separated without seriously impeding the progress of the panel's deliberations.

The panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization of ingredients and claims.

This portion of the meeting will be closed to permit discussion of trade secret data and to protect the free exchange of internal views (5 U.S.C. 552(b) (4) and (5)).

13. Panel on Review of Miscellaneous Internal Drug Products.	Nov. 14 and 15, 9 a.m. on Nov. 15, conference room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Closed committee deliberations Nov. 14, 9 a.m. to 4:30 p.m.; open public hearing Nov. 15, 9 a.m. to 10 a.m.; closed committee deliberations Nov. 15, 10 a.m. to 4:30 p.m.; Armond M. Welch, (HFD-510), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing/open committee discussion. Any interested person may present data, information, or views, orally or in writing, on issues pending before the committee. Explanation will be given of new FDA policy concerning open meetings.

Closed committee deliberations. The panel will review data submitted in confidence pursuant to the OTC review's call for data for this panel (see also 21 CFR 330.10(a)(2)). This will include product names, formulas and formulation process data, sales data, and in some cases, portions of pending or approved new drug applications (NDA's). Also, discussions relating to labeling, drug class standards, and testing will often be intermixed with discussion of formulas, sales data, or NDA material in such a way that the two discussions often cannot be separated without seriously impeding the progress of the panel's deliberations.

The panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization of ingredients and claims.

This portion of the meeting will be closed to permit discussion of trade secret data and to protect the free exchange of internal views (5 U.S.C. 552(b) (4) and (5)).

14. Toxicology Subcommittee of the Diagnostic Products Advisory Committee.	Nov. 15 and 16, 9 a.m., room 4131, HEW-North, 330 Independence Ave., SW., Washington, DC.	Open public hearing Nov. 15, 9 a.m. to 10 a.m.; open committee discussion Nov. 15, 10 a.m. to 5 p.m.; Nov. 16, 9 a.m. to 5 p.m.; Nabeeh Mourad, Ph. D., (HFK-200), 8757 Georgia Ave., Silver Spring, Md. 20910, 301-427-7175.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of devices currently in use and makes recommendations for their regulation.

Agenda—Open public hearing. Interested parties are encouraged to present information pertinent to classification of in vitro diagnostic products listed in the announcement to Nabeeh Mourad, Ph.D., Executive Secretary, Toxicology Subcommittee, 8757 Georgia Ave., Rm. 1219-D (HFK-200), Silver Springs, MD 20910, or S. K. Vadlamudi, Ph.D., D.V.M., Head of Classification, 8757 Georgia Ave., Rm. 1351-E (HFK-440), Silver Spring, MD. 20810.

Open committee discussion. The subcommittee will classify the following in vitro diagnostic products: Products (kits) marketed for the determination of heavy metals in human specimens, products marketed for the determination of drugs other than drugs of abuse in human specimens, and products marketed for use as controls and calibrators in the clinical toxicology laboratory.

The subcommittee on November 16 will classify the following products marketed for use in clinical laboratories: Multipurpose reagents, instruments, systems and components used for the quantitative or qualitative determination of drugs in human specimens.

It will also review the supplemental data sheets forwarded by the subcommittee. The devices are as follows: Flow totalizer; gas pressure gauge; direct ultrasonic blood flowmeter; transcutaneous ultrasonic blood flowmeter; blood loss monitor; automatic nonultrasonic blood pressure monitor; manual nonultrasonic blood pressure monitor; ultrasonic blood pressure monitor; automatic ultrasonic blood pressure monitor; carbon dioxide with noninvasive electrode monitor; infusion rate monitor; oxygen monitor; oxygen with noninvasive electrode monitor; pH with invasive electrode monitor; pH with noninvasive electrode monitor; spinal fluid pressure monitor; spinal fluid pressure AC-powered monitor; invasive blood pressure transducer; invasive blood-flow transducer; noninvasive blood-flow transducer; line isolation monitor; floor conductivity tester; instrument conductivity tester; needle electrode; transcutaneous electrode; electrocardiographic monitor; electroencephalographic monitor; electromyographic monitor; eye-movement monitor; pulse-rate monitor; skin resistance monitor; temperature monitor; oxygen-uptake computer; invasive gas detector; noninvasive detector; airway pressure monitor; gas flow monitor; powered gas flow monitor; humidity monitor; lung volume monitor; minute ventilation monitor; electrical impedance respiration monitor; electronic transducer respiratory frequency monitor; mechanical transducer respiratory frequency monitor; carbon dioxide respiratory monitor; oxygen analyzer w/wo alarm respiratory monitor; pneumotachometer. A draft supplemental data sheet will be prepared for these devices.

Each public advisory committee meeting listed above may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. The dates and times reserved for the separate portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1-hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

The Commissioner, with the concurrence of the Chief Counsel, has determined for the reasons stated that those portions of the advisory committee meetings so designated in this notice shall be closed. Both the Federal Advisory Committee Act and 5 U.S.C. 552(b) permit such closed advisory committee meetings in certain circumstances. Those portions of a meeting designated as closed shall, however, be closed for the shortest time possible consistent with the intent of the cited statutes.

Generally, FDA advisory committees will be closed because the subject matter is exempt from public disclosure under 5 U.S.C. 552(b) (4), (5), (6), or (7), although on occasion the other exemptions listed in 5 U.S.C. 552(b) may also apply. Thus, a portion of a meeting may be closed where the matter involves a trade secret; commercial or financial information that is privileged or confidential; personnel, medical, and similar files, disclosure of which could be an unwarranted invasion of personal privacy; and investigatory files compiled for law enforcement purposes. A portion of a meeting may also be closed if the Commissioner determines: (1) That it involves inter-agency or intra-agency memoranda or discussion and deliberations of maters that, if in writing would constitute such memoranda, and which would, therefore, be exempt from public disclosure; and (2) that it is essential to close such portion of a meeting to protect the free exchange of interval views and to avoid undue interference with agency or committee operations.

Examples of matters to be considered at closed portions are those related to the review, discussion, evaluation or ranking of grant applications; the review, discussion, and evaluation of specific drugs or devices; the deliberation and voting relative to the formation of specific regulatory recommendations (general discussion, however, will generally be done during the open committee discussion portion of the meeting); review of trade secrets or confidential data; consideration of matters involving FDA investigatory files; and review of medical records of individuals.

Examples of matters that ordinarily will be considered at open meetings are those related to the review, discussion, and evaluation of general preclinical and clinical test protocols and procedures for a class of drugs or devices, consideration of labeling requirements for a class of marketed drugs and devices, review of data and information on specific investigational or marketed drugs and devices that have previously been made public, and presentation of any other data or

information that is not exempt from public disclosure.

Dated: October 12, 1976.

A. M. SCHMIDT,
Commissioner of Food and Drugs.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions hereinafter ordered.

Accordingly, *It Is Ordered That:*

Agreement C.A.B. 26119, R–1 through R–4, is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications; provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[Docket 29860; Order 76-10-48]

TRANS WORLD AIRLINES, INC.

Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of September 1976.

By a tariff [1] marked to become effective on October 1, 1976, Trans World Airlines, Inc. (TWA), proposes to provide for the transportation of Department of Defense sponsored persons between New York, New York, on the one hand, and Madrid, Spain, and Rome and Milan, Italy, on the other, on scheduled flights at fares which are equivalent to the minimum Military Airlift Command (MAC) Category B round-trip charter rate. Designated "Category Y" by the carrier, the tariff closely resembles the Category Y tariffs of Pan American World Airways, Inc. (Pan Am), and Northwest Airlines, Inc. (Northwest), which are under investigation in the Category Y Fare Investigation, Docket 28096.

Pan Am and Northwest provide Category Y transportation over the North/Central Pacific and the North Atlantic on scheduled service as a substitute for Category B charter transportation previously contracted for pursuant to their annual MAC "fixed buy" awards. Although TWA had no previous contracts with MAC for Category B service, its justification indicates that a contract award was received for fiscal year 1977. However, no Category B charter flights will be operated, and all of the Category B passengers will be carried on scheduled flights as "Category Y" traffic. TWA argues that the "elimination" of Category B flights will save 1.5 million gallons of fuel, at a time when fuel conservation is in the national interest. The carrier's economic analysis of the profitability of Category Y service, which assumes that no additional capacity costs will be incurred, and that only incremental costs are assignable to this traffic, results in a forecast profit for fiscal year 1977 of $1.8 million. Finally, TWA argues that Category Y service benefits the Department of Defense by providing increased scheduling flexibility and by allowing more efficient use of military personnel.

Member carriers of the National Air Carrier Association (NACA) [2] filed a complaint against the tariff requesting the Board to institute an investigation of the proposed tariff and to suspend the tariff pending such investigation. The complaint was not filed within the time limit established by the Board's regulations. Good cause has not been shown for the late filing, and accordingly, it will be dismissed insofar as it requests suspension of the tariff.[3]

Upon consideration of all relevant factors, the matters contained in the tariff justification, and the character of the service involved, the Board has concluded that the proposed fares may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. We further conclude that the fares should be suspended pending investigation.

In Order 75–7–104, dated July 22, 1975, we allowed the Category Y fares of Pan Am and Northwest to remain in effect pending investigation. However, TWA's Category Y proposal raises new issues relating to the economic reasonableness of transporting Category B passengers on scheduled service.[4] It is apparent from TWA's justification that, unlike Pan Am or Northwest, TWA is not committed, and it does not intend, to move any of this traffic in charter operations. Indeed, the record in Docket 28096 indicates that TWA has no aircraft configured to operate as Category B military charters. It was implicit in the justifications of Pan Am and Northwest that their Category Y services would be true substitution for Category B. Since the Category Y fares are approximately 33 percent of the normal fare level, the carriers argued that the service should not be evaluated on a fully allocated cost basis, but that the Category Y traffic should be regarded as "fill-up." In peak travel periods or on flights which the carriers predicted would be oversold, the carriers would divert the Category Y passengers to charter flights. In this manner, inconvenience to normal traffic would be avoided, and revenues from this traffic would not be reduced. TWA, however, does not have this capability of diverting its Category Y passengers to charter operations. Since Category Y service is furnished on a confirmed reservation basis, there is a possibility that regular passengers would be displaced from TWA flights during peak travel periods.

There is also a problem regarding self-diversion of the Category A and Z traffic that TWA currently carries over these routes. The rates for these services are approximately twice the Category Y fare per mile. Since Category A and Z service is similar to Category Y, there is a possibility that the Category A and Z traffic would move on exactly the same flights, but at the Category Y rate, resulting in a 45% reduction in revenues to TWA.

[1] Local Military Passenger Fares Tariff No. MAC–1, C.A.B. No. 308.

[2] By power of attorney duly executed by Overseas National Airways, Inc., Saturn Airways, Inc., Trans International Airlines, Inc., and World Airways, Inc.

[3] The Department of Defense has filed a late answer to NACA's complaint, requesting that the complaint be dismissed. Since the answer was also untimely, we have decided to dismiss it. Furthermore, DOD has raised no arguments that have not already been considered.

The tariff justification takes no account of this serious potential for diversion.[5]

In view of the substantial questions raised as to the adverse impact of TWA's Category Y services upon the general traveling public, we have determined that its tariff should be suspended pending investigation. We are aware that the Department of Defense requires a substantial amount of lead-in time to procure civilian airlift, and we have been informed that Category Y service on TWA flights has already been arranged for the months of October and November. In order to avoid any disruption of the movement of military personnel, we have decided to postpone the beginning of the suspension period until December 1, 1976.

We have decided not to consolidate the investigation of TWA's Category Y proposal into the Category Y Fare Investigation. The significant differences between TWA's fare and the fares under investigation in that proceeding raise new factual issues which may not have been explored in the Investigation. Inclusion of this proposed fare in the Investigation could cause further delay, and in the interests of regulatory efficiency we have decided not to erect a procedural obstacle in the path of a timely resolution of that case.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. Except to the extent granted herein, the complaint of the member carriers of the National Air Carrier Association in Docket 29787 be and it hereby is dismissed;

2. The motion of The Department of Defense filed herein be and it hereby is denied;

3. An investigation be instituted to determine whether the fares and provisions in Tariff C.A.B. No. 308, issued by Trans World Airlines, Inc., including revisions and reissues thereof, and rules, regulations, and practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and, if found to be unlawful, to determine and prescribe what action may be taken to cancel such tariffs, and to prevent the use of such fares, rates, or charges, or such classifications, rules, regulations, or practices;

4. Pending hearing and decision by the Board, Tariff C.A.B. No. 308, filed by Trans World Airlines, Inc., is suspended and its use deferred from December 1, 1976, to and including November 30, 1977, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

5. This order shall be submitted to the President [6] and shall become effective on October 11, 1976;

6. The investigation ordered herein be assigned for hearing before an administrative law judge of the Board at a time and place hereafter to be designated; and

7. Copies of this order be filed in the aforesaid tariffs and be served upon Trans World Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[7]

Minetti and West, Members, FILED CONCURRENCE.

[FR Doc.76-30287 Filed 10-14-76;8:45 am]

[4] Since TWA's Category Y fares apply to different markets than those of Pan Am and Northwest, its filing cannot be justified on the basis of meeting competition.

[5] While the potential for diversion also exists in the case of the Pan Am and Northwest tariffs, the TWA proposal raises this issue more acutely. Thus, the justification accompanying the Pan Am and Northwest Category Y tariffs indicated exactly how many of their preexisting Category B missions would be converted to Category Y service. TWA, on the other hand, does not have a prior commitment for Category B operations. Its tariff justification does not provide any derivation of the 7,920 round-trip passengers to be carried in Category Y, and it does not indicate how many, if any, of the passengers would constitute new traffic.

[6] This order was submitted to the President on October 1, 1976.

[7] The concurring opinion of members Minetti and West is filed as a part of the original document.

MARYLAND

Approval of State Plan for Certification of Commercial and Private Applicators of Restricted Use Pesticides

Section 4(a) (2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), and the implementing regulations of 40 CFR Part 171 require each State desiring to certify applicators to submit a plan for its certification programs. Any State certification program under this section shall be maintained in accordance with the State Plan approved under this section.

On July 20, 1976, notice was published in the FEDERAL REGISTER of the intent of the Regional Administrator, EPA Region III, to approve, on a contingency basis, the Maryland State Plan for Certification of Commercial and Private Applicators of Restricted Use Pesticides (Maryland State Plan). Contingency approval was requested by the State of Maryland pending promulgation of regulations pursuant to the "Maryland Pesticide Applicators Law". Complete copies of the Maryland State plan were made available for public inspection at the Agency's Region III office in Philadelphia, Pennsylvania, at the Maryland Department of Agriculture, Annapolis, Maryland, and at the Agency's Technical Services Division, Federal Register Section, Office of Pesticide Programs, EPA Headquarters, Washington, D.C.

There were no comments received concerning the State Plan during the 30 day comment period.

The Maryland State Plan will remain available for public inspection at the Parole Plaza Office Building, Annapolis, Maryland.

It has been determined that the Maryland State Plan will satisfy the requirements of section 4(a) (2) of the amended FIFRA and of 40 CFR Part 171 if proposed regulations implementing the Maryland Pesticide Applicators Law are promulgated by the Maryland Department of Agriculture. Accordingly, the Maryland State Plan is approved contingent upon promulgation of implementing regulations in accordance with and as prescribed in the Maryland State Plan.

This contingency approval shall expire one (1) year from its effective date, if these terms and conditions are not satisfied by that time. On or before the expiration of the period of contingency approval, a notice shall be published in the FEDERAL REGISTER concerning the extent to which these terms and conditions have been satisfied, and the approval status of the Maryland State Plan as a result thereof.

Effective date: Pursuant to Section 4(d) of the Administrative Procedures Act, 5 U.S.C. 553(d), the Agency finds that there is good cause for providing that the one year contingency approval granted herein to the Maryland State Plan shall be effective immediately. Neither the Maryland State Plan itself nor this Agency's contingency approval of the Plan create any direct or immediate obligations on pesticide applicators or other persons in the State of Maryland. Delays in starting the work necessary to implement the Plan, such as may be occasioned by providing some later effective date for this contingency approval, are inconsistent with the public interest. Accordingly, this contingent approval shall become effective immediately.

Date: September 15, 1976.

DANIEL J. SNYDER, III,
Regional Administrator,
Region III.

CABLE TELEVISION

Statement of Commission Policy on Channel Identification

OCTOBER 8, 1976.

The Commission has completed its review of the comments submitted in response to the Notice of Proposed Rule-making and the Further Notice of Proposed Rulemaking in Docket 19334, FCC 71–1084, ---- FCC 2d -------- (1971) and FCC 74–667, 47 FCC 2d 670 (1974), respectively, wherein comment was elicited on the advisability of prescribing a method of identifying cablecast channels and programming and of prohibiting the use of call letters for this purpose. By separate action taken today, the Commission has concluded that the record in this proceeding fails to demonstrate that pervasive or significant problems have arisen either from the failure to identify cablecast channels or programming or from identifying them in any particular way. The Commission accordingly declined to adopt a rule of general applicability and terminated the proceeding.

The disposition of the rulemaking proceeding should not be taken to signify that the Commission is no longer concerned that in some situations cablecast programming might be confused with broadcast programming. The Commission is aware that the possibility of confusion still exists, and we expect cable television system operators to avoid using any inherently confusing method of channel identification. Additionally, cablecast programming should be identified where such identification is necessary to avoid viewer confusion.

The Commission believes that the use of call letter-type identifiers similar to those used by local broadcasters is especially prone to confuse viewers. For this reason the Commission would strongly advise against the use of such call letters to identify cablecast channels. Similarly, where broadcast programming and cablecast programming that closely resembles it are presented together on one channel, we believe it advisable to distinguish between the two types of programming.

In general, the Commission expects system operators to adopt whatever measures are appropriate to assure that confusion between broadcast and cablecast programming does not occur, and to act promptly to remedy such problems if they do occur. Indications that system operators are deliberately employing methods of channel identification shown to be confusing to viewers or that operators are persisting in failing to indentify cablecast programming in a manner that distinguishes it from broadcast programming will require that the Commission reconsider its decision not to adopt rules in this area. Any specific problems of viewer confusion should be promptly brought to the Commission's attention.

FEDERAL POWER COMMISSION

NATIONAL GAS SURVEY EXECUTIVE ADVISORY COMMITTEE, COORDINATING COMMITTEE AND CERTAIN ADVISORY COMMITTEES AND TASK FORCES

Renewal Determination and Certification

The Chairman of the Federal Power Commission has determined that renewal of the terms of the National Gas Survey's Executive Advisory Committee, Coordinating Committee, Supply—Technical Advisory Task Force—Nonconventional Natural Gas Resources, Supply—Technical Advisory Task Force—Synthesized Gaseous Hydrocarbon Fuels, Supply—Technical Advisory Task Force—Regulatory Aspects of Substitute Gas, Transmission, Distribution and Storage—Technical Advisory Task Force—Rate Design, Transmission, Distribution and Storage—Technical Advisory Task Force—Impact of Gas Shortage on Consumers, Conservation—Technical Advisory Task Force—Efficiency in Use of Gas, Finance—Technical Advisory Committee and Curtailment Strategies—Technical Advisory Committee, to and including a date not later than September 15, 1978, is necessary in the public interest in connection with the performance of duties imposed by law upon the Commission.

This notice is published pursuant to Commission General Order No. 464, issued December 19, 1972, 38 FR 1083, as amended by Commission General Order No. 464-A, issued August 2, 1974, and authorities referred to therein, 39 FR 28929. See also Office of Management and Budget, Advisory Committee Management, Circular A-63 Revised, March 27, 1974, 30 FR 12389, as amended July 19, 1974.

The Executive Advisory Committee was established by Commission Orders issued April 16, 1971: Order Establishing National Gas Survey Executive Advisory Committee and Designating Its Membership and Chairmanship, 36 FR 6922; the Coordinating Committee was established by Commission Order issued May 10, 1971, Order Establishing National Gas Survey Coordinating Committee and Designating Its Membership and Chairmanship, 36 FR 8910; the other Committees and Task Forces to be renewed were established by Commission Order issued September 15, 1975, Order Establishing National Gas Survey Technical Advisory Committee and Technical Advisory Task Forces and Designating Initial Membership, 40 FR 43956. The aforementioned orders all referred to an earlier order of the Commission issued February 23, 1971, Order Authorizing the Establishment of National Gas Survey Advisory Committees and Prescribing Procedures, 36 FR 2851.

The foregoing orders have been amended by subsequent Commission orders of April 25, 1972, 37 FR 8578, Order Amending National Gas Survey Orders issued February 23, 1971, and April 6, 1971; of June 27, 1972, 37 FR 13306, amending National Gas Survey Orders; and of December 19, 1972, 37 FR 28658, amending National Gas Survey Orders

V41N201 OCT 15 76 UM

and Order Renewing National Gas Survey Technical Advisory Committees issued December 31, 1974, 40 FR 2268, and Order Renewing the National Gas Survey Executive Advisory Committee, Coordinating Committee and Coordinating Task Force, issued December 31, 1974, 40 FR 2268.

The terms of the Executive Advisory Committee and Coordinating Committee were first extended by Commission order issued December 28, 1973, Order Renewing National Gas Survey Technical Advisory Committees and Coordinating Committee 39 FR 1540, again extended by Commission order issued December 31, 1974, Order Renewing the National Gas Survey Executive Advisory Committee, Coordinating Committee and Coordinating Task Force, 40 FR 2268, and again extended by Commission order issued September 15, 1975, Order Establishing National Gas Survey Technical Advisory Committees, 40 FR 43956.

As renewed, the subject committees and task forces would funciton as set forth in the aforementioned orders for the additional period of time set forth above.

It is intended that these committees will provide a framework for completing ongoing National Gas Survey assignments.

The Office of Management and Budget, Advisory Committee Management, has ascertained that renewal of the subject committees and task forces as set forth above is in accord with the requirements of the Federal Advisory Committee Act, 86 Stat. 770. Renewal of these committees shall be reflected in appropriate Commission orders hereafter issued.

RICHARD L. DUNHAM,
Chairman.

NATIONAL GAS SURVEY ADVISORY COMMITTEE

Establisment Determination and Certification

The Chairman of the Federal Power Commission has determined that the establishment of a new National Gas Survey Advisory Committee to and including a date not later than September 15, 1978, is necessary in the public interest in connection with the performance of duties imposed by law upon the Commission.

This notice is published pursuant to Commission General Order No. 464, issued December 19, 1972, 38 FR 1083, as amended by Commission General Order No. 464–A issued August 2, 1974, and authorities referred to therein, 39 FR 28929. See also Office of Management and Budget, Advisory Committee Management, Circular A–63 Revised, March 27, 1974, 30 FR 12389, as amended July 19, 1974.

The advisory committee will be established by Commission order and will conform to principles and details noted in an order of the Commission issued February 23, 1971, Order Authorizing the Establishment of National Gas Survey Advisory Committees and Prescribing Procedures, 36 FR 2851.

As established, the subject committee will function for a two-year period.

It is intended that this committee will provide a framework for a continuing National Gas Survey and that from time to time task forces or other subgroups subordinate to the advisory committee shall be established to support the committee work. The persistent and critical problems facing the nation's gas industry require continuation of the Survey's work. The purpose of the proposed committee will be to determine in each segment of the gas industry (supply, transmission and distribution) the conservation and energy management options available and to analyze and evaluate the potential costs and benefits of each and to suggest strategies for implementing these options. The committee is also expected to consider the matter of environmental tradeoffs.

The Office of Management and Budget, Advisory Committee Management, has ascertained that establishment of the subject committee as set forth above is in accord with the requirements of the Federal Advisory Committee Act, 86 Stat. 770. Establishment of this committee shall be reflected in appropriate Commission order hereafter issued.

RICHARD L. DUNHAM,
Chairman.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on October 8, 1976. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FCC request are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed request, comments (in triplicate) must be received on or before November 2, 1976, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, Room 5216, 425 I Street, NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202–376–5425.

FEDERAL COMMUNICATIONS COMMISSION

FCC requests clearance of a new Form 409, Application for Individual Mobile Radio Telephone License in the Domestic Public Land Mobile Radio Service. Form 409 was adopted by the Commission's Order of September 22, 1976. The use of this form is prescribed by section 21.9(c) of the FCC's Rules and Regulations. Form 409 is required to be filed when applying for authority to operate a mobile radio telephone by an individual user who intends to become a subscriber to a common carrier service. Form 409 is also required when applying for renewal of or modification to an existing license. Heretofore, Forms 401, 403, and 405 were required for this purpose. These three forms will continue to be used by the Commission for fixed base station licensees. FCC estimates reporting burden to average five minutes per response. The FCC anticipates receiving approximately 5,000 applications annually.

JOHN M. LOVELADY,
Acting Assistant Director,
Regulatory Reports Review.

NATIONAL COMMISSION ON ELECTRONIC FUND TRANSFERS

NOTICE OF HEARINGS

The National Commission on Electronic Fund Transfers will hold public hearings between 9:00 a.m. and 6:00 p.m. on October 28, 1976, and between 9:00 a.m. and 4:00 p.m. on October 29, 1976, in Room 2128 of the Rayburn House Office Building in Washington, D.C. These hearings, authorized by Pub. L. 93–495, Title II, section 204, will explore the conditions under which terminals performing electronic funds transfers should be deployed, and will focus on a resolution set out below.

These hearings are intended to aid the Commission in developing its recommendations to Congress and the President regarding appropriate administrative action and legislation necessary in connection with the possible development of public or private electronic fund transfer systems.

Prior to these hearings the Commission solicits the views of knowledgeable groups and individuals interested in these issues and able to address the areas of inquiry detailed below. Those interested in submitting statements for the record, giving testimony, presenting evidence or otherwise participating in these hearings should obtain a copy of the Commission's Hearing Rules, which were published in the FEDERAL REGISTER at 41 FR 43965, October 5, 1976, and which are also available directly from the Commission.

All persons may submit written statements and ask that they be included in the hearing record. The Commission will select from among those interested in presenting oral testimony to ensure that all points of view are represented. To this end, persons giving oral testimony may be asked to be part of a panel presentation.

Written requests to testify must be received by the Executive Director of the Commission, 1000 Connecticut Avenue, NW., Suite 900, Washington, D.C. 20036, by October 20, 1976. Such requests must be accompanied by a concise description of the material the party desires to present and the reasons why the party's oral testimony would be useful to the Commission. The hearing record will remain open for twenty-one (21) days following the hearings for written statements and comments.

The specific areas concerning EFTS which the Commission intends to investigate at these hearings are those set out in a resolution which the Commission's Committee on Regulatory Issues, at its meeting on October 7, 1976 adopted for the purpose of providing a focus for these hearings. All persons interested in testifying are asked to address the resolution, both in its entirety and in its specific parts. The resolution reads as follows:

RESOLUTION REGARDING EFTS TERMINALS

The Committee on Regulatory Issues hereby rescinds its resolution of August 26, 1976, and hereby proposes as a means of focusing thinking and of making more precise the discussion at hearings and at subsequent Commission considerations of the issues, the following:

Whereas, the National Commission on Electronic Fund Transfers (the "Commission") has the statutory responsibility to conduct a thorough study and investigation and to recommend appropriate administrative action and legislation in connection with the development of electronic fund transfer systems, taking into account, among other factors, the need to preserve competition among depository institutions and other business enterprises using such a system and the need to promote competition among depository institutions and to assure that Government regulation and involvement or participation in a system competitive with the private sector be kept to a minimum; and,

Whereas, (a) where State or Federal laws require that electronic terminals be considered branches and subject to the limitations appertaining thereto, the Commission believes those limitations would be unduly restrictive on the development of electronic funds transfer systems and the provision of funds transfer services to consumers; and, (b) where individual State and Federal laws are in conflict, such conflict might create a competitive imbalance; and,

Whereas, there is a substantive difference between the character and scope of financial services provided the consumer through terminals providing electronic funds transfer services and those provided at a branch office of a depository institution; and,

Whereas, the Commission is of the opinion that the limitations on the deployment of electronic funds transfer terminals should be substantially less restrictive than those applicable to the establishment of branches of depository institutions:

Now, therefore, be it resolved: (1) That the Congress and State legislatures should provide for the timely and competitive development of electronic funds transfer services for consumers by enacting appropriate legislation to authorize the appropriate regulatory authorities to promulgate rules consistent with the thrust of this resolution for the deployment of off-premises electronic terminals, separate and distinct from and less restrictive than the set which presently governs branches.

(2) That business enterprises, by reason of permitting their customers to utilize electronic terminals to communicate with depository institutions, should not be considered to be regulated depository institutions or branches thereof.

(3) That Congress should take into consideration the amount of time it will take for the individual States to enact, implement and phase in electronic funds transfer laws.

(4) That recommendations regarding the deployment of terminals performing electronic funds transfer services be based upon the assumption, subject to continued study and analysis, that the effect of the deployment will not be to diminish competition among regulated depository institutions and other business enterprises, regardless of size or type.

(5) That the National Commission on Electronic Fund Transfers does not intend, by this resolution, to recommend any alteration in the division of powers between the individual States and the Federal Government in regard to the regulation of depository institutions.

Dated: October 12, 1976.

WILLIAM B. WIDNALL,
Chairman.

RESEARCH GRANTS PANEL ADVISORY COMMITTEE

Meeting

SEPTEMBER 29, 1976.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463) notice is hereby given that a meeting of the Research Grants Panel will be held at 806—15th Street NW., Washington, D.C. 20506, in Room 1130, from 9 a.m. to 5:30 p.m. on November 12, 1976.

The purpose of the meeting is to review General Research applications in the field of Social Science submitted to the National Endowment for the Humanities for projects beginning after April 1, 1977.

Because the proposed meeting will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552 (b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street NW., Washington, D.C. 20506, or call area code 202–382–2031.

Office of Federal Procurement Policy

RECRUITMENT FOR FEDERAL PROCUREMENT INSTITUTE

Staff Positions

Notice is given that four Assistant Director positions for the Federal Procurement Institute are in the Competitive Civil Service and prospective candidates are advised of the following recruiting procedures. Inquiries may be directed to Michael Martinez, Assistant Administrator for Procurement Personnel and Training, Office of Federal Procurement Policy, 202/395–4934.

HUGH E. WITT,
Administrator.

The Federal Procurement Institute has recently been established under the Executive Branch of the U.S. Government to serve as the focal point for coordinating the Governmentwide planning, development, implementation and evaluation of programs in the areas of procurement research, education and training and career development. The Institute will provide leadership and assistance in improving the quality, efficiency and performance of Federal procurement personnel.

Recruitment action is expected to commence in the near future to fill the following positions in the Competitive Civil Service:

1. Assistant Director for Education and Training, GS–1102–15—Responsible for procurement curriculum planning and design; teaching methodology; course content; and development of educational resources at the Institute.

2. Assistant Director for Career Management and Development, GS–1102–15—Responsible for promotion and implementation of career management and professional development of employees in the Federal procurement work force.

3. Assistant Director for Procurement Research, GS–1102–15—Responsible for conducting procurement research and developing advanced procurement and contracting techniques and methods.

4. Assistant Director for Evaluation, GS–1102–15—Responsible for evaluating the effectiveness of all Institute activities including education and training; career management and development; and procurement research.

All positions require extensive experience in or knowledge of Federal procurement. Additionally, for each Assistant Director position substantial experience in program development, execution and evaluation is required in the specialty area outlined above.

Since these positions are in the Competitive Service, prospective candidates are advised that they must currently possess Career or Career-Conditional status, Reinstatement eligibility or eligibility on the U.S. Civil Service Commission Senior Level register in order to receive consideration for appointment. Candidates who do not possess personal Career or Career-Conditional status, or Reinstatement eligibility are requested to apply by October 30 by sending two copies of Standard Form 171, Personal Qualifications Statement, available at all U.S. Civil Service Commission Offices, to:

U.S. Civil Service Commission
1900 E Street, N.W., Desk 408–A
Washington, D.C. 20415

After item "1A, Kind of Position • • •" On the SF–171, enter the Assistant Director position for which you want consideration.

If you are currently on the Senior Level register, do not reapply; simply send a letter indicating your interest in one of these posi-

OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

[Doc. No. 301-10]

AMERICAN IRON AND STEEL INSTITUTE

Complaint

On October 6, 1976 the Chairman of the section 301 Committee received from the American Iron and Steel Institute a petition alleging unfair trade practices by the European Coal and Steel Community (ECSC) and the Ministry of International Trade and Industry of Japan (MITI) resulting from a bilateral agreement between ECSC and MITI which allegedly diverts significant quantities of Japanese steel exports to the United States.

Relief is requested pursuant to section 301 of the Trade Act of 1974 (Pub. L. 93-618, 88 Stat. 1978; 19 U.S.C. 2411). The text of the petition is as follows:

IN THE OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

AMERICAN IRON AND STEEL INSTITUTE, COMPLAINANT

Complaint under section 301 of the Trade Act of 1974.

Complaint

To the Chairman, Section 301 Committee, Office of the Special Representative for Trade Negotiations, Room 725, 1800 G Street, N.W., Washington, D.C. 20506:

1. Complainant, American Iron and Steel Institute ("AISI") is a nonprofit trade association, the membership of which includes 62 companies engaged in the manufacture and sale of iron and steel products in the United States. Approximately 95 percent of the raw steel produced in the United States (including products like or similar to those covered by the agreement described below) is made by the above mentioned companies. AISI represents a significant economic interest materially affected by the agreement which is the subject of this Complaint.

2. This complaint is filed pursuant to section 301 of the Trade Act of 1974.

3. The European Coal and Steel Community ("ECSC") and the Ministry of International Trade and Industry of Japan ("MITI") have entered into a bilateral agreement ("Agreement") whereby quantitative restrictions are imposed upon Japanese exports of certain steel products to the Common Market nations. Details of the Agreement are set forth in Section II of the supporting Brief attached hereto as Exhibit I and made a part hereof. The Agreement is unjustifiable, unreasonable and discriminatory within the meaning of section 301 of the Trade Act of 1974.

4. ECSC is an instrumentality of the governments of Belgium, Denmark, France, Ireland, Italy, Luxembourg, the Netherlands, the United Kingdom and West Germany (the "European Nations"). MITI is an instrumentality of the government of Japan. Details are set forth in Section IV of Exhibit I.

5. The Agreement is not the result of any specific or particular laws or regulations of either ECSC, the European Nations, MITI or Japan. The Agreement is oral and was deliberately attempted to be concealed from the United States. The General Agreement on Tariffs and Trade is relevant and material, as detailed on Exhibit I.

6. All iron and steel products, other than pig iron, ferralloys and stainless steel products, are covered by the Agreement.

7. ECSC (and, therefore, the European Nations) and Japan are engaged in unjustifiable and unreasonable import restrictions which impair the value of trade commitments made to the United States in that by the Agreement quantitative restrictions are imposed on exports of steel from Japan to the European Nations in violation of Article XI of GATT without similar restrictions being imposed on exports of steel to the United States as required under the most favored-nation obligations provided for in Article XIII of GATT. In addition, the Agreement contravenes the principles embodied in the Tokyo Declaration, the O.E.C.D. pledge, the Declaration of Rambouillet, and the Dorado Beach Declaration. See Section V of Exhibit I.

8. ECSC (and, therefore, the European Nations) and Japan are engaged in discriminatory acts and policies which are unjustifiable and unreasonable and which burden or restrict United States commerce in that the Agreement substantially restrains the amount of Japanese steel which may enter the European Nations and thereby diverts significant quantities of Japanese steel exports to the United States. The Agreement will reduce Japanese exports of steel to the European Nations from a minimum free market level of 4,000,000 net tons to a maximum of 1,344,000 net tons in calendar year 1976 and will result in increased exports of Japanese steel to the United States of 1,500,000 net tons or more in calendar year 1976.

9. Details of the effect of the Agreement on United States steel producers and workers are set forth in Section III of Exhibit I.

10. Complainant seeks such relief as will (a) eliminate the burden, restriction and discrimination caused by the Agreement, and (b) provide compensation for the burden, restriction and discrimination already sustained. Complainant respectfully requests the President's Special Representative for Trade Negotiations to make a report to the President so that the President may take the authorized action to provide such relief. No other forms of relief are being sought by the Complainant under the Trade Act of 1974 or any other act.

Respectfully submitted,

F. C. LANGENBERG,
President,
American Iron and Steel Institute.

OCTOBER 6, 1976.

No hearing has thus far been requested by complainant American Iron and Steel Institute.

A copy of the complaint and supporting brief are available for public inspection in Room 725, 1800 G Street, N.W., the Office of the Special Representative for Trade Negotiations.

Interested parties are invited to submit preliminary views on this matter. Such views should conform to the procedures for complaints received pursuant to section 301 of the Trade Act of 1974, specifically Part 2006.6 (40 FR 39499, Aug. 28, 1975), and should be sent to the attention of "Secretary, Section 301 Committee, Room 725, Office of the Special Representative for Trade Negotiations, 1800 G Street, N.W., Washington, D.C. 20506." It is requested that all such preliminary views be submitted by November 15, 1976.

Chairman,
Section 301 Committee.

PRIVACY PROTECTION STUDY COMMISSION

RECORDKEEPING PRACTICES OF EDUCATIONAL INSTITUTIONS

Hearings

The Privacy Protection Study Commission will hold two additional days of hearings on the personal-data record-keeping practices of educational institutions in Washington, D.C. on November 11 and 12, 1976. The hearings will

be held in Room 2358, Rayburn House Office Building, Independence Avenue and South Capitol Street from 9:30 a.m. to 5:00 p.m. on November 11, and from 9:00 a.m. to 5:00 p.m. on November 12.

On October 7 and 8, 1976, the Commission held its first set of hearings on the record-keeping practices of educational institutions in Los Angeles, California. These hearings were announced in the FEDERAL REGISTER, Vol. 41, No. 164, dated Monday, August 23, 1976. The Los Angeles hearings concentrated on the impact of the Family Educational Rights and Privacy Act of 1974 (hereinafter FERPA) on the record-keeping policies and practices of elementary and secondary institutions. The Washington hearings will emphasize the practices of post-secondary institutions, organizations maintaining personal records related to school admissions or financial aid, the Department of Health, Education, and Welfare resources and strategies for implementing FERPA, and the development of state-wide or regional computer-based information systems for auditing, eligibility determination, or provision of special services in schools.

In Section I of its August 23 FEDERAL REGISTER notice, the Commission solicited background information on a number of questions related to both the Los Angeles and Washington hearings. Now the Commission is seeking additional written submissions and oral testimony on the following matters.

FERPA AND POST-SECONDARY INSTITUTIONS

The Definition of Education Records. With four exceptions, FERPA applies to records "which contain information directly related to a student * * * and * * * are maintained by an educational agency or institution."

This definition refers to any institutional record which contains information about an identifiable student, including records which are not maintained for the purpose of making decisions about the rights, privileges, or status of a student within an institution, such as the minutes of meetings of institutional committees on which a student sits. The Commission is interested in learning how the definition of "education records" affects the implementation of FERPA by institutions, particularly with regard to the DHEW requirement that an educational institution give students notice of the types of records it maintains on them (45 CFR 99.5(a)(2)(iv) and 99.6). Has this definition caused special problems for higher education institutions (which are more likely to have decentralized record-keeping procedures and multiple points of contact with the student from which "education records" are generated)?

The exceptions to what may be considered "education records" under FERPA appear to have ratified certain practices in educational institutions. The Commission would like to know: (1) whether the exceptions actually serve any legitimate institutional or public policy purposes and, if so, what those purposes are; (2) whether the exceptions allow the Act's intent to be circumvented and, if so, whether and how the student or parent is injured; and (3) how any adverse effects might be avoided, while still meeting any legitimate objectives of the exceptions.

In addition, the Commission would like to learn whether there are records presently classified as "education records" which should not be. Specifically, (1) what types of records might these be; (2) what legitimate institutional or public purposes would be served by excluding them from the Act's coverage; (3) why should these purposes outweigh consideration for the privacy of the student or his need to know what is recorded about him; (4) are there less drastic methods of accomplishing these purposes than by excluding the records from coverage by the Act; and (5) how will the interests of the student be protected in the absence of FERPA coverage?

Consortia and Membership in Regulatory Organizations. Many such institutions participate in consortia and other organizations for the purpose of sharing educational services, providing greater opportunities for their students, or regulating certain aspects of inter-institutional relationships and activities, such as athletics. The Commission would like to know how FERPA has affected the activities of these organizations and whether their information practices should be regulated by FERPA or similar legislation. As a first step, the Commission needs more information about these organizations—what functions they perform, what services they provide to educational institutions, and what their information practices are. Further, the Commission must determine (1) whether services or opportunities provided by such organizations are contingent upon disclosure, or consent to disclosure, by the student of personally identifiable information to the organization and, if so, how the administration of any such requirement has been treated under FERPA: (2) to whom identifiable information about students obtained by these organizations is redisclosed, including whether institution A (as a member of the organization) can obtain information (through the organization) about a student enrolled at institution B.

Applicants' Records. While not arising from the definition of "education records," several related matters affect the student's access to records. "Student" is defined by the Act so as to give an applicant for admission to an institution no right to inspect the admission file on him unless he is actually admitted. Yet it would appear that the unsuccessful applicant is the one with the greater need to inspect his admission file. The Commission would like to know what the record-keeping practices are regarding applicants' records and what legitimate purpose is served by preventing an applicant from inspecting them.

Waiver Rights. The Act also provides that a student may waive the right to inspect letters and statements of recommendation. This issue was raised in the Commission's August 23 FEDERAL REGISTER notice in Section II, Waivers of Rights. The Commission is interested in additional testimony on the issues specified in the previous notice.

Directory Information. FERPA provides that an institution which discloses "directory information" to the public must first give the student notice of its intent and an opportunity to specify that some or all of the data elements, including name, current enrollment status, or degrees received from the institution, not be disclosed. How has this procedure been set in practice? What difficulties has it caused and how may they be avoided? Specifically, can a student foreclose an institution from even acknowledging the student's existence or enrollment in the institution, Is this result appropriate, or should some data elements be specified by the Act as public information about whose disclosure the student may not object? If the public information approach were adopted, what elements should be included, and why should they be considered to be in the public domain? In addition, the Act appears to enable a student to prevent an institution from acknowledging his or her receipt or non-receipt of a degree, thus allowing the student to claim without contradiction that a certain degree was awarded when in fact it was not. In this instance, what is an appropriate balance between the student's desires for privacy and the institution's need, if any, to protect itself against such claims?

RELATED EDUCATIONAL SERVICE ORGANIZATIONS

There are several national organizations which develop and administer standardized admission tests to assist institutions in determining the qualifications of an applicant. Further, such organizations provide credential assembling and referral services wherein an applicant's credentials are submitted to a central point from which they are transmitted to designated institutions to which the applicant has applied. Finally, these organizations also offer financial aid evaluation services similar to their credential assembling and referral services.

The Commission is interested in determining whether FERPA or similar legislation should apply to these organizations. In order to make a reasoned decision, the Commission needs to learn more about the information practices of these organizations regarding the information they receive on students and/or their families, and the nature of their relationship to educational institutions, on the one hand, and applicants/students on the other. Specifically, the Commission needs to know (1) from what sources these organizations obtain their information about an applicant or a student; (2) what information is disclosed by educational institutions to these organizations; (3) whether these disclosures are with the consent of the student; (4) to whom and for what purposes information is redisclosed by these organizations without the student's knowledge

V41N201 OCT 15 76 UMI

or consent; and (5) are the data collected about students used for research purposes unrelated to administration and validation of tests administered by these organizations and, if so, for which research purposes and under what conditions and procedures are data made available to researchers?

HEW ENFORCEMENT

The Act provides that the Secretary of the Department of Health, Education and Welfare shall enforce the provisions of FERPA and deal with alleged violations. The Commission is interested in obtaining information concerning the Department's enforcement activities from the standpoint of the Department the regulated institutions, and parents and students.

Has interpretative guidance provided by the Department to institutions or parents and students been adequate? How might additional specific guidance be provided without the Department's appearing to require standardized procedures and practices among educational institutions?

The Department has elected to enforce the act through the complaint adjudication process and by provision of individual guidance upon request. Has this method been as effective as an enforcement procedure which requires submission of individual institutional implementation plans with review and approval of these plans by the Department? How might the Department's enforcement effort be improved?

STATE-WIDE OR REGIONAL COMPUTER BASED INFORMATION SYSTEMS

Many Federal and State financed special services programs for targeted populations of students, e.g., gifted, handicapped, economically deprived, etc., establish record-keeping requirements. The Commission is interested in looking at State-wide, multi-district, and district-wide computer-based systems established for reporting purposes under these types of programs. Do such systems collect and retain individually identifiable data? Do other government agencies have access to such data? Under what conditions? Do contributing agencies have access to the total file on a routine basis? On a specific request basis? Are such files maintained by educational agencies or other social service agencies and if the latter, are their records being considered as educational records?

GENERIC PROBLEMS WITH FERPA IMPLEMENTATION

The Commission is also interested in further written submissions and public testimony regarding general problems with FERPA implementation in elementary and secondary as well as post-secondary institutions.

Third-Party Disclosure. FERPA establishes the general rule that information contained in education records will not be disclosed to third parties unless the circumstances of disclosure qualify under one of the exceptions specified in the Act. Generally, the Commission is interested in the appropriateness of these exceptions. Principles of fair information practice hold that disclosure should not be made without the record subject's consent unless the disclosure is for a purpose consistent with the purpose for which the information was originally collected. Has the Act ratified disclosures which are not appropriate under this standard or which are not in the student's best interest? Which of the exceptions should be deleted and why? Which should be modified to include further specification regarding the circumstances under which a disclosure without consent may be made? What modifications should be made and why? Are there additional exceptions to the prior consent rule which should be enacted? If there are, the Commission needs to know why parental or student consent to the disclosure is inappropriate or not feasible.

Separate Treatment for Elementary and Secondary Institutions. The exceptions to the prior consent rule specified in FERPA apply equally to elementary and secondary and to post-secondary institutions. Is this consistency desirable, or are there circumstances under which a disclosure without consent would be appropriate if the student were enrolled in a secondary educational institution and inappropriate of enrolled in a post-secondary institution? For example, unlike post-secondary institutions, elementary and secondary schools are usually considered to have a socialization mission in addition to their primary educational mission. The existence of this mission suggests that there may be relationships between the school and external service agencies, such as juvenile justice or other social service agencies, to which the disclosure of information without prior consent would be appropriate. If disclosures are to be made to such agencies, should they be prohibited from disclosing it to anyone else (other than the student or parent) or from using it for any purpose other than the purpose for which it was given to them?

Moreover, are there other circumstances in which disclosure of information from student records to non-student parties would be appropriate in view of a need to provide elementary and secondary students with remedial counseling or treatment? What circumstances are these and why is it inappropriate or not feasible to obtain prior parental consent? Are these situations in elementary and secondary institutions so different that they require separate legislative treatment of elementary and secondary schools?

State Laws. FERPA permits disclosure of a student's record without consent when the disclosure is to State or local officials to whom the information is specifically required to be reported under a State statute adopted prior to November 19, 1974.

The Commission is interested in knowing the types of information reported under these statutes, as well as the provisions of the statute which are construed to "specifically require" such disclosure. By adoption of a retroactive November 19, 1974 cut-off point for enactment of State laws compelling disclosure, the Act appears simultaneously to prohibit a practice in one State when that practice is permitted in another simply because the first State provided for the disclosure prior to the cut-off date. The Commission is concerned about the apparent inconsistencies created by this provision and would like to learn about its impact in the field. The Commission would like to consider whether it is desirable or feasible for the Act only to specify the general instances in which State legislation compelling disclosure would be permissible, thereby permitting all States to decide, within a range of choices, what sorts of disclosures would be appropriate. Instances in which States might adopt legislation could include, for example, audit or enforcement of State aid programs to schools, juvenile justice, treatment and education of exceptional children, or verification of eligibility to attend (such as whether a student meets a residency requirement). In regard to this issue, the Commission is interested in learning, relative to particular disclosures which might be proposed, (1) why parental or student consent is inappropriate or not feasible; (2) the purpose for which the disclosures would be made; (3) the sorts of information that would be disclosed. Further, the Commission needs to know more about the information practices of the parties to whom information would be disclosed, including redisclosure practices, provisions protecting against unauthorized redisclosure, procedures for inspection of the record by the record subject, and procedures for verifying the accuracy of the records maintained by these third parties.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 19708; 70-5909]

ALABAMA POWER CO.

Proposed Sale of Transmission Facility

OCTOBER 6, 1976.

Notice is hereby given that Alabama Power Company ("Alabama"), P.O. Box 2641, Birmingham, Alabama 35291, an electric utility subsidiary of The Southern Company, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 12(d) of the Act and Rule 44 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Alabama proposes to sell its Opp Transmission Substation to Alabama Electric Cooperative, Inc. ("Cooperative") pursuant to the request of the Cooperative. The substation will be conveyed from Alabama to the Cooperative by deed and bill of sale for a sale price of $1,900,000; depreciated book value of the substation was $1,456,736 as of July 31, 1976. Alabama will obtain from its first mortgage bond trustee a release of the substation from the lien of Alabama's first mortgage indenture.

Alabama presently delivers power to the Cooperative pursuant to an interconnection agreement, and the Cooperative uses the Opp substation in connection with the receipt of such power. The Cooperative has paid Alabama a monthly facilities charge in connection with this substation. The charge will be eliminated upon the consummation of the proposed transaction. There is to be no substantial change in the use of the transmission substation.

The fees and expenses to be incurred in connection with the proposed transaction are estimated at $3,500, including legal fees of $1,000. It is stated that no State commission and no Federal commission, other than this Commission has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than October 29, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the filing which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Order Approving Proposed Rule Changes

On July 1, 1976, the Chicago Board Options Exchange, Inc. (the "CBOE"), LaSalle at Jackson, Chicago, Illinois 60604, filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b-4 thereunder, copies of proposed rule changes to amend rules relating to transfer of memberships, admission of members, and association with members and to prescribe procedures to govern such matters.

Notice of the proposed rule changes together with the terms of substance of the proposed rule changes was given by publication of Securities Exchange Act Release No. 12625 (July 14, 1976) and by publication in the FEDERAL REGISTER (41 FR 30750, July 26, 1976). On September 28, 1976, the CBOE made certain technical amendments in the proposed rule changes.

The Commission finds that the proposed rule changes, as amended,[1] are consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of Section 6 and the rules and regulations thereunder.[2]

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule changes, as amended, be, and they hereby are, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[1] Rule 3.4(b) provides in part that the CBOE "may deny membership to, or condition the membership of, a registered broker or dealer if (1) such broker or dealer is unable to satisfactorily demonstrate its present capacity to adhere to applicable provisions of (i) Sections 15 and 17 of the Securities Exchange Act of 1934 * * *" The CBOE does not contemplate the imposition of standards of training, experience, education, or character based in Rule 3.4. Rule 3.5(b) governs in part the extent to which a member organization or a person associated with a member organization may affiliate with another organization in the securities business. It is understood to mean that any member organization or any person associated with a member organization may associate with or have any financial interest in any other organization engaged in the securities business unless such association or financial interest has been disclosed to and disapproved by the CBOE.

[2] The Commission's approval of amendments to the rules, particularly Rules 3.1, 3.2, and 3.3, is subject, nevertheless, to the Commission's review pursuant to Section 31(b) of the Securities Acts Amendments of 1975. See, e.g., Securities Exchange Act Release No. 12157 (March 2, 1976).

COMBUSTION EQUIPMENT ASSOCIATES, INC.

Application To Withdraw From Listing and Registration

OCTOBER 12, 1976.

The above named issuer has filed an application with the Securities and Exchange Commission pursuant to Section 12(d) of the Securities Exchange Act of 1934 and Rule 12d2-2(d) promulgated thereunder, to withdraw the specified security from listing and registration on the American Stock Exchange, Inc.

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

This security has become listed and registered on the New York Stock Exchange, and the Company has concluded that the costs and expenses of maintaining dual listings outweigh the possible benefits of both listings.

The American Stock Exchange has not objected to this application, and this security retains unlisted trading privileges on the Philadelphia Stock Exchange, Inc.

Any interested person may, on or before November 12, 1976 submit by letter to the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549, facts bearing upon whether the application has been made in accordance with the rules of the Exchange and what terms, if any, should be imposed by the Commission for the protection of investors. An order granting the application will be issued after the date mentioned above, on the basis of the application and any other information furnished to the Commission, unless it orders a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[Release No. 33-5750]

EMPLOYEE'S STOCK OWNERSHIP PLAN, SECURITIES ISSUED

Resale

The Securities and Exchange Commission today announced that the Division of Corporation Finance issued the following letter reversing the position stated in Securities Act Release No. 5223, January 1, 1972 [1] and Securities Act Release No. 5243, April 12, 1972 [2] regarding the status of securities acquired pursuant to an Employee's Stock Ownership Plan ("ESOP").

BACKGROUND

Rule 144 (17 CFR 230.144), under the Securities Act of 1933 (the "Act") (15 U.S.C. 77a et seq.), adopted a procedure relating to the resale of "securities" acquired directly or indirectly from issuers or from affiliates of such issuers in transactions not involving any public offering.[3] Rule 144 permits resales by affiliates [4] of securities of an issuer and resales by other persons of restricted securities of an issuer to be made without such persons being deemed to be engaged in a distribution and thus be considered underwriters as defined in Section 2(11) of the Act. Rule 144(a)(3) defines "restricted securities" as securities acquired directly or indirectly from the issuer thereof, or from an affiliate of such issuer, in a transaction or chain of transactions not involving any public offering. Subsequent to the adoption of Rule 144 questions were raised as to the types of transactions engaged in by an issuer which would result in the issuance of "restricted securities." In this regard the Commission took the position [5] that securities acquired pursuant to stock bonus or similar plans were included within the Rule 144 definition of "restricted securities." Accordingly, the Division of Corporation Finance, in issuing interpretive and "no-action" letters, consistently took the position [6] that common stock acquired by a trustee of an ESOP, from the issuer, for allocation, distribution and subsequent sale by employees of the issuer would be "restricted securities" for purposes of Rule 144.

In the instant case, the amount of common stock of the Company contributed to the ESOP trustee in the first year would be less than 0.3 percent of the outstanding common stock and the maximum amount distributed to a single employee would be eleven shares. In addition, pursuant to the Tax Reduction Act of 1975 the trustee must hold the common stock until the earlier of seven years or termination of employment of the employee. In light of the foregoing facts and other facts set forth in the letter, the Commission does not believe it in the public interest or in the interest of the protection of investors to take the position in this situation or any similar situation that ESOP shares in the hands of non-affiliate employees are "restricted." The small number of shares which each employee could sell and the consequent limited market impact of such sales does not warrant requiring the employee to comply with the provisions of Rule 144. In addition, in many instances, because of the limited number of shares to be sold, the cost to the employee, assuming a broker would handle the transaction, would be disproportionate to the amount received from the sale. Therefore, in light of the possible burdens of compliance and the limited benefits if any, the Commission authorized the Division of Corporation Finance to issue the following letter:

"DEAR MR. X: "This is in response to your letters of July 23, 1976 and August 13, 1976 concerning the applicability of the registration requirements of the Securities Act of 1933 (the 'Act') to the Employee Stock Ownership Plan (the 'Plan') of ---------- (the 'Company').

"We understand the facts to be as follows. The Company is a publicly-owned corporation whose common stock is registered under Section 12(b) of the Securities Exchange Act of 1934 and is traded on the New York and other national securities exchanges and is quoted on the NASDAQ automated quotation system. The Plan is intended to qualify as a stock bonus plan under Section 401 of the Internal Revenue Code of 1954 and as an employee stock ownership plan under Section 301(d) of the Tax Reduction Act of 1975. The Trustee of the Plan will be an independent bank which will not be affiliated with the Company.

"The Plan calls for the Company and each of its consolidated subsidiaries to elect a specified additional amount of investment tax credit to be given to their employees. It is intended that the Company and its electing subsidiaries will issue the Company's common shares to the Plan Trustee. Plan members may not contribute to the Plan. An account will be maintained for each participant and will be administered by a Plan Committee of the Company. All employees of the Company and its participating subsidiaries who had compensation paid during the year and who performed a minimum number of service hours will be eligible to participate. A participant's interest in the shares allocated to his or her account will vest and be non-forfeitable at all times. Distribution to Plan participants will occur seven years after the shares have been credited to a participant's account or upon termination of employment, whichever occurs first. Distributions are intended to be made solely in the Company's common stock. Each Plan participant will have the right to direct the voting of the shares allocated to his or her account. You estimate that the Company's contribution for the first year would be less than 0.3 percent of the outstanding common stock of the Company. In addition, because of the seven year holding period, you estimate that less than 10 percent of the eligible number of employees would be able to sell only 22 percent of the average weekly trading volume in the Company's common stocks during the year. You opine that such aggregate sales would not have a significant impact on the market.

"You have raised questions relating to the applicability of the registration requirements of the Act to the common stock contributed to the Plan by the Company, the interests in the Plan of eligible employees, and the distributions of the Company's common stock by the Trustee. Based on the facts presented, and contingent upon a favorable ruling from the International Revenue Service concerning the qualification of the Plan under Section 401 of the Internal Revenue Code, this Division will not recommend any enforcement action to the Commission if the Plan is implemented as described, without registration under the Act, in reliance upon your opinion as counsel that the transactions are exempt therefrom.

"Because this position is based upon representations made to the Division in your letter, it should be noted that any different facts or conditions might require a different conclusion. Furthermore, this view only expresses the Division's position on enforcement action and does not purport to express any legal conclusion on the questions presented.

"In addition, you have questioned whether or not the Company's common stock distributed to Plan participants constitutes 'restricted securities' pursuant to Rule 144. The Commission has authorized the Division to inform you that, in the circumstances of this case, the Commission is of the view that Company's shares received by the Trustee from the Company would not be 'restricted securities' under Rule 144 when distributed to employees pursuant to the Plan."

By the Commission.

Secretary.

FOURSQUARE FUND, INC., ET AL.

Application Pursuant to Section 17(b) of the Act for an Order Exempting a Proposed Transaction From Section 17(a) of the Act

OCTOBER 5, 1976.

Notice is hereby given that Foursquare Fund, Inc. ("Fund"), 24 Federal Street, Boston, Massachusetts 02110, an open-end, diversified, management investment company registered under the Investment Company Act of 1940 ("Act"), Marvin M. Demchick ("Demchick"), President of Life of Pennsylvania Financial Corporation ("Financial"), 230 South Fifteenth Street, Philadelphia, Pennsylvania 19102, Alfred P. Coletta ("Coletta") and Raymond H. Kraftson ("Kraftson"), Vice-Presidents of Financial, and Triangle Processing Corporation ("Triangle"), 97 North Main Street, Gloversville, New York 12078, (Demchick, Coletta, Kraftson and Triangle are hereinafter collectively referred to as "Purchasers") (Purchasers and Fund are hereinafter collectively referred to as "Applicants") filed an application on August 24, 1976, pursuant to Section 17(b) of the Act, for an order of the Commission exempting from the provisions of Section 17(a) of the Act the proposed purchase from the Fund by Purchasers of 50,000 shares of the common stock of Financial, an affiliated person of the Fund. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The Fund owns 50,000 shares of the common stock of Financial, an insurance holding company, which represent approximately 7.5% of the issued and outstanding shares of Financial. These securities were acquired in 1969 in exchange for 50,000 shares of the common stock of Life Assurance Company of Pennsylvania ("Assurance"). The Assurance shares were purchased for $500,000 in 1968 as part of a private sale to two registered investment companies.

Pursuant to an agreement dated August 1, 1976 ("Agreement"), the Fund proposes to sell to Purchasers and Purchasers propose to purchase from the Fund the shares of Financial stock presently held by the Fund at a price of $.625 per share for an aggregate consideration of $31,250. No commissions or fees will be payable in connection with the proposed transaction other than legal fees incurred in connection with this application.

Section 17(a) of the Act provides, in pertinent part, that it shall be unlawful for any affiliated person of a registered investment company, or any affiliated person of such a person, acting as principal, knowingly to purchase from or sell to such registered investment company any security or other property subject to certain exceptions. Section 17(b) of the Act provides that the Commission upon application, may exempt a proposed transaction from the provisions of Section 17(a) of the Act if the evidence establishes that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, and the proposed transaction is consistent with the policy of each investment company concerned and with the general purposes of the Act.

Section 2(a)(3) of the Act defines an affiliated person of another person to include any person owning 5% or more of the outstanding voting securities of such other person, any person 5% or more of whose outstanding securities are owned by such other person, and any officer of such other person. Consequently, the Fund and Financial are affiliated persons of each other. Triangle owns 9.1% of the issued and outstanding shares of Financial. Therefore, Triangle and Financial are affiliated persons of each other. Demchick, Coletta and Kraftson, as officers of Financial, are affiliated persons of Financial. Accordingly, the Purchasers, as affiliated persons of an affiliated person of the Fund, are, in the absence of an exemptive order, prohibited by Section 17(a) from purchasing shares of Financial from the Fund.

Applicants assert that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of the Fund and with the general purposes of the Act. In support of this assertion, Applicants represent that the agreement between the Purchasers and the Fund is the result of arms length negotiations and that the agreed-upon purchase price of $.625 per share is equal to the mean between the bid and asked prices for Financial's common stock as quoted on the Philadelphia Stock Exchange on June 30, 1976, the date upon which informal agreement on the proposed transaction was reached. Applicants state that the Fund has been advised by Eaton & Howard, the Fund's investment adviser, that its investment in Financial is no longer within the investment criteria established by the Fund and that more favorable opportunities for investment exist elsewhere. Applicants further assert that the Fund would have difficulty in otherwise disposing of the Financial shares since the shares are restricted securities and only a limited market exists for the unrestricted shares of Financial, which have been trading on the Philadelphia Stock Exchange from 1974 to the present at an average weekly volume of fewer than 500 shares per week. Applicants believe that any disposition by the Fund of such a large block of shares could be expected to depress substantially the market for Financial's common and, thus, the price the Fund would receive for the shares.

Applicants represent that none of the Purchasers have any interest in, or agreements, understandings or affiliation with, the Fund, other than set forth in the Agreement. Applicants further represent that the Agreement is conditioned upon approval by a majority of the disinterested directors of the Fund and of Financial.

Notice is further given that any interested person may, not later than October 29, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the addresses stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certification) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

NEW YORK STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

OCTOBER 7, 1976.

On March 11, 1976, the New York Stock Exchange Incorporated ("NYSE"), 20 Broad Street, New York, New York 10005, filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b-4 thereunder, copies of a proposed rule change to authorize listed issuers to use a single denomination stock certificate. The new certificate would not be required to have corner engravings denoting or limiting the share denomination of the certificate. Instead, the denomination would, at the time of issuance, be placed upon the certificate using a combination of printing, engraving and other safety devices specified in the rule.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 12452 (May 14, 1976)) and by publication in the FEDERAL REGISTER (41 FR 21257 (May 24, 1976)).

Teh Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of Section 6 and the rules and regulations thereunder.

V41201 OCT 15 76 UMI

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change filed with the Commission on March 11, 1976, be, and it hereby is, approved.

For the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on October 1, 1976, the above mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

New Language Italicized

ARTICLE III

* * * * *

SEC. 12. Any person made, or threatened to be made, a party to any action or proceeding, whether civil or criminal, by reason of the fact that he, his testator or intestate, is or was a Director or officer of the Exchange or serves or served any other corporation, or any partnership, joint venture, trust or other enterprise, in any capacity at the request of the Exchange, shall be indemnified by the Exchange, and the Exchange may advance his related expenses, to the full extent permitted by law.

Indemnification shall be accorded by the Exchange, and related expenses may be advanced, in respect of members of any committee authorized by the Constitution or by the Board of Directors, Floor Officials, Arbitrators, *Members of the Hearing Board*, Trustees of the Gratuity Fund, Trustees of the Special Trust Fund, employees of the Exchange and directors, officers and employees of any corporation a majority of the stock of which is held by the Exchange to the same extent as provided by law in respect of Directors and officers. The foregoing right of indemnification shall not affect any rights to indemnification to which persons other than Directors and officers of the Exchange may be entitled by contract or otherwise under law.

NYSE's STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The amendment was enacted to codify an existing interpretation of the Exchange Constitution. The Constitutional provision providing indemnification for those who act on behalf of the Exchange is very old. Members of the Hearing Board are not included in the enumeration of those to be indemnified because this Section of the Constitution was last amended prior to the creation of the Hearing Board. Prior to this amendment, the Exchange has taken the view that members of the Hearing Board may be indemnified as members of a commitee authorized by the Constitution, or as officers of the Exchange.

The amendment is based upon Section 6(b)(1).

(i) The Exchange must enforce compliance with the Act, the Constitution and Rules of the Exchange, by its members, and persons associated with its members. The enforcement proceedings of the Exchange are conducted before a Hearing Panel composed of members of the Hearing Board and an Exchange official who serves as Hearing Officer. This Panel issues decisions and may impose sanctions. Members of the Hearing Board are knowledgeable persons from the securities industry appointed by the Chairman of the Exchange and approved by the Board of Directors. The Exchange intends that the indemnification provisions of the Constitution shall apply to those who act on behalf of the Exchange. However, the absence of specific reference to the Hearing Board in that section of the Constitution which deals with indemnification, may raise doubts in the minds of some, and may cause qualified and prominent members of the securities industry who serve on the Hearing Board to consider resigning or declining to serve.

(ii) through (viii)—Not applicable.

Comments were not solicited upon the amendment.

The technical clarifying amendment in no way affects competition and imposes no burden thereupon.

The foregoing rule change has become effective, pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934. At any time within sixty days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submission should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, NW. Washington D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before November 8 1976.

For the Commission by the Division of Market Regulation pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

OPTIONS CLEARING CORP.

Order Approving Rule Changes Submitted by the Options Clearing Corporation Relating to Clearing Members' Financial Responsibility

OCTOBER 8, 1976.

On May 25, 1976, the Options Clearing Corporation ("OCC"), 5950 Sears Tower, 233 S. Wacker Drive, Chicago, Illinois 60606, submitted, pursuant to Rule 19b-4 under the Securities Exchange Act of 1934 (the "Act"), proposed changes to OCC Rules 301–308.

In accordance with Section 19(b) of the Act and Rule 19b-4 thereunder, notice of the proposed rule changes was published in the FEDERAL REGISTER (41 FR 23501, June 10, 1976) and the public was invited to comment thereon. Notice of the filing and an invitation for comments also appeared in Securities Exchange Act Release No. 34-12514, June 3, 1976. By amendments to the filing, OCC proposed further changes to Rule 305, and, with respect to both Rules 304 and 305, extended the time for Commission action on those rules. The amendments were incorporated in the OCC submission and included in the public file.

The proposed changes to OCC Rules 301–303 and 306–308 would establish net capital requirements for Clearing Members which have elected to operate under the alternative net capital requirements set forth in paragraph (f) of Rule 15c3-1 under the Act, would increase the initial net capital requirements for Clearing Member applicants which have not so elected, would make certain revisions in OCC's requirements with respect to early warning notices, and would conform to Commission usage certain terms used in OCC's net capital rules.

The Commission has reviewed the proposed changes to Rules 301–303 and Rules 306–308 and finds that they are consistent with the requirements of the Act and the rules and regulations thereunder applicable to registered clearing agencies. The Commission has not reviewed and makes no finding at this time regarding the proposed changes to Rules 304 and 305.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed changes to OCC Rules 301–303 and 306–308 contained in File No. SR-OCC-76-3 be, and hereby are, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

FEDERAL SUPPLEMENTAL BENEFITS (EMERGENCY UNEMPLOYMENT COMPENSATION)

Ending of Federal Supplemental Benefit Period in Arizona

This notice announces the ending of the Federal Supplemental Benefit Period in the State of Arizona effective October 16, 1976.

BACKGROUND

The Emergency Unemployment Compensation Act of 1974 (Pub. L. 93-572, enacted December 31, 1974) (the Act) created a temporary program of supplementary unemployment benefits (referred to as Federal Supplemental Benefits) for unemployed individuals who have exhausted their rights to regular and extended benefits under State and Federal unemployment compensation laws. Federal Supplemental Benefits are payable during a Federal Supplemental Benefit Period in a State which has entered into an Agreement under the Act with the United States Secretary of Labor. A Federal Supplemental Benefit Period is triggered on in a State when unemployment in the State or in the State and the nation reaches the high levels set in the Act. During a Federal Supplemental Benefit Period the maximum amount of Federal Supplemental Benefits which are payable to eligible individuals is up to 13 weeks or 26 weeks, depending upon the level of the rate of insured unemployment in the State. A Federal Supplemental Benefit Period commenced in the State of Arizona on January 5, 1975.

The Act also provides that a Federal Supplemental Benefit Period in a State will trigger off when the rate of insured unemployment in the State averages less than 5.0 percent over a period of thirteen consecutive calendar weeks. The benefit period actually terminates at the end of the third week after the week for which there is an "off" indicator, if the benefit period will have been in effect for a minimum duration of 26 weeks.

DETERMINATION OF "OFF" INDICATOR

The employment security agency of the State of Arizona has determined under the Act and 20 CFR 618.19(b) (published in the FEDERAL REGISTER on March 23, 1976, at 41 FR 12151, 12157) that the average rate of insured unemployment in the State for the period consisting of the week ending on September 25, 1976, and the immediately preceding twelve weeks, was less than 5.0 percent.

Therefore, I have determined in accordance with the Act and 20 CFR 618.19(b), and as authorized by the Secretary of Labor's Order 4-75, dated April 16, 1975 (published in the FEDERAL REGISTER on April 28, 1975, at 40 FR 18515), that there was a Federal Supplemental Benefit "off" indicator in the State of Arizona for the week ending on September 25, 1976, and that the Federal Supplemental Benefit Period in that State terminates on October 16, 1976.

INFORMATION FOR CLAIMANTS

Any individual to whom Federal Supplemental Benefits or Federal-State Extended Benefits were payable in the State (whether or not any payment actually was made), for any portion of the last week of the Federal Supplemental Benefit Period, will have an additional eligibility period beginning immediately following the end of the Federal Supplemental Benefit Period. During the additional eligibility period the individual will be entitled to Federal Supplemental Benefits to the same extent as if the Federal Supplemental Benefit Period continued to be in effect. The additional eligibility period will have a duration of 13 weeks, unless it is terminated sooner by reason of the beginning of a new Federal Supplemental Benefit Period in the State.

Individuals currently filing claims for Federal Supplemental Benefits will receive written notices from the Arizona Department of Economic Security, of the end of the Federal Supplemental Benefit Period in that State and its effect on their entitlement to Federal Supplemental Benefits. The notice to any individual who will have an additional eligibility period following the Federal Supplemental Benefit Period will include information concerning potential entitlement to Federal Supplemental Benefits during the additional eligibility period.

V41201 OCT 15 76 UMI

Although the Federal Supplemental Benefit Period has terminated, an Extended Benefit Period will continue in effect in the State due to the National "on" indicator for the Federal-State Extended Benefit Program, as announced in a notice published in the FEDERAL REGISTER on February 21, 1975, at 40 FR 4722. Therefore, Federal-State Extended Benefits will continue to be payable to eligible individuals in the State.

Persons who wish information about their rights to Federal Supplemental Benefits or Federal-State Extended Benefits in the State of Arizona should contact the nearest Employment Security Office of the Arizona Department of Economic Security in their locality.

Signed at Washington, D.C., on October 8, 1976.

WILLIAM H. KOLBERG,
Assistant Secretary for Employment and Training.

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list below. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended. 7 U.S.C. 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary; only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance of the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availablity of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.

2. Employment trends in the same industry in the local area.

3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of his notice to:

Deputy Assistant Secretary for Employment and Training, 601 D St., NW., Washington, D.C. 20213.

FEDERAL SUPPLEMENTAL BENEFITS (EMERGENCY UNEMPLOYMENT COMPENSATION)

Ending of Federal Supplemental Benefit Period in Arkansas

This notice announces the ending of the Federal Supplemental Benefit Period in the State of Arkansas effective October 9, 1976.

BACKGROUND

The Emergency Unemployment Compensation Act of 1974 (Pub. L. 93-572, enacted December 31, 1974) (the Act) created a temporary program of supplementary unemployment benefits (referred to as Federal Supplemental Benefits) for unemployed individuals who have exhausted their rights to regular and extended benefits under State and Federal unemployment compensation laws. Federal Supplemental Benefits are payable during a Federal Supplemental Benefit Period in a State which has entered into an Agreement under the Act with the United States Secretary of Labor. A Federal Supplemental Benefit Period is triggered on in a State when unemployment in the State or in the State and the nation reaches the high levels set in the Act. During a Federal Supplemental Benefit Period the maximum amount of Federal Supplemental Benefits which are payable to eligible individuals is up to 13 weeks or 26 weeks, depending upon the level of the rate of insured unemployment in the State. A Federal Supplemental Benefit Period commenced in the State of Arkansas on January 5, 1975.

The Act also provides that a Federal Supplemental Benefit Period in a State will trigger off when the rate of insured unemployment in the State averages less than 5.0 percent over a period of thirteen consecutive calendar weeks. The benefit period actually terminates at the end of the third week after the week for which there is an "off" indicator, if the benefit period will have been in effect for a minimum duration of 26 weeks.

DETERMINATION OF "OFF" INDICATOR

The employment security agency of the State of Arkansas has determined under the Act and 20 CFR 618.19(b) (published in the FEDERAL REGISTER on March 23, 1976, at 41 FR 12151, 12157) that the average rate of insured unemployment in the State for the period consisting of the week ending on September 18, 1976, and the immediately preceding twelve weeks, was less than 5.0 percent.

Therefore, I have determined in accordance with the Act and 20 CFR 618.19(b), and as authorized by the Secretary of Labor's Order 4-75, dated April 16, 1975 (published in the FEDERAL REGISTER on April 28, 1975, at 40 FR 18515), that there was a Federal Supplemental Benefit "off" indicator in the State of Arkansas for the week ending on September 18, 1976, and that the Federal Supplemental Benefit Period in that State terminated on October 9, 1976.

INFORMATION FOR CLAIMANTS

Any individual to whom Federal Supplemental Benefits or Federal-State Extended Benefits were payable in the State (whether or not any payment actually was made), for any portion of the last week of the Federal Supplemental Benefit Period, will have an additional eligibility period beginning immediately following the end of the Federal Supplemental Benefit Period. During the additional eligibility period the individual will be entitled to Federal Supplemental Benefits to the same extent as if the Federal Supplemental Benefit Period continued to be in effect. The additional eligibility period will have a duration of 13 weeks, unless it is terminated sooner by reason of the beginning of a new Federal Supplemental Benefit Period in the State.

Individuals currently filing claims for Federal Supplemental Benefits will receive written notices from the Arkansas Department of Labor of the end of the Federal Supplemental Benefit Period in that State and its effect on their entitlement to Federal Supplemental Benefits. The notice to any individual who will have an additional eligibility period following the Federal Supplemental Benefit Period will include information concerning potential entitlement to Federal Supplemental Benefits during the additional eligibility period.

Although the Federal Supplemental Benefit Period has terminated, an Extended Benefit Period will continue in effect in the State due to the National "on" indicator for the Federal-State Extended Benefit Program, as announced in a notice published in the FEDERAL REGISTER on February 21, 1975, at 40 FR 4722. Therefore, Federal-State Extended Benefits will continue to be payable to eligible individuals in the State.

Persons who wish information about their rights to Federal Supplemental Benefits or Federal-State Extended Benefits in the State of Arkansas should contact the nearest Employment Office of the Arkansas Department of Labor in their locality.

Signed at Washington, D.C., on October 12, 1976.

WILLIAM H. KOLBERG,
Assistant Secretary for Employment and Training.

which was filed by Local 190 of the International Ladies' Garment Workers' Union on behalf of former workers producing sweaters at Bergman Knitting Mills, Philadelphia, Pennsylvania.

Notice of the investigation was published in the FEDERAL REGISTER on September 17, 1976 (41 FR 40243). No public hearing was requested and none was held.

During the course of the investigation, it was established that all workers of Bergman Knitting Mills were previously certified eligible to apply for adjustment assistance on November 16, 1975 (See TA-W-166).

The existing certification will expire on November 16, 1977 unless terminated by the Secretary of Labor. Since workers newly separated, totally or partially, are covered by the existing certification provided such separations occurred on or after the impact date (October 3, 1974) and before the certification expiration date (November 16, 1977), a new investigation would serve no purpose; consequently the investigation has been terminated.

Signed at Washington, D.C. this 1st day of October 1976.

Director, Office of Trade Adjustment Assistance.

CROMPTON AND KNOWLES CORP.

Determinations Regarding E gibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-934: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on June 10, 1976 in response to a worker petition dated May 25, 1976 which was filed by former workers at the Grand Street, Worcester, Massachusetts Textile Machinery plant of Crompton and Knowles Corporation.

The notice of investigation was published in the FEDERAL REGISTER on July 6, 1976 (41 FR 27801). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Crompton and Knowles Corporation, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that all four of the above criteria have been met by workers engaged in employment related to the production of castings and power loom parts. Furthermore, the investigation has revealed that criteria (2), (3), and (4) have not been met by workers engaged in employment related to the production of automotive parts.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production and maintenance workers at the Grand Street, Worcester, Massachusetts plant decreased 40.3 percent in 1975 compared to 1974. The first half of 1976 registered an increase of 29.0 percent in employment of all production and maintenance workers compared to the first half of 1975.

Employment of salaried workers at the Grand Street, Worcester, Massachusetts plant decreased 28.5 percent in 1975 compared to 1974 and 17.5 percent in the first half of 1976 compared to the first half of 1975. Various salaried employees were transferred to the corporation's Charlotte, North Carolina office in 1976.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales and production of power looms manufactured by Crompton and Knowles Corporation, Textile Machinery Group, Weaving Division, decreased 66.2 percent in quantity and 58.4 percent in value from 1974 to 1975. Sales and production of power looms, in quantity, declined 0.9 percent; while sales, in value, increased 52.3 percent in the first half of 1976 compared to the first half of 1975.

Production of castings at the Grand Street, Worcester, Massachusetts plant of Crompton and Knowles Corporation decreased 55.6 percent in quantity and 11.3 percent in value from 1974 to 1975. Production of castings increased 499.0 percent in quantity and 100.0 percent in value in the first half of 1976 compared to the first half of 1975.

Sales of power loom parts by the Weaving Division decreased 3.2 percent in 1975 compared to 1974 and increased 1.7 percent in the first half of 1976 compared to the first half of 1975.

Production of power loom parts by the Weaving Division, Textile Machinery Group of Crompton and Knowles decreased 51.1 percent in value in 1975 compared to 1974. Production of power loom parts increased 107.7 percent in value in the first half of 1976 compared to the first half of 1975.

Sales of automotive parts by the Grand Street, Worcester, Massachusetts plant of Crompton and Knowles Corporation increased 6.2 percent in value from 1974 to 1975 and increased 34.5 percent in value in the first half of 1976 compared to the first half of 1975.

INCREASED IMPORTS

Automotive parts manufactured by the Grand Street, Worcester, Massachusetts plant of Crompton and Knowles are unique to one automotive customer. The sole automotive customer does not import these automotive parts.

Imports of power looms increased from 1,817 units for the first half of 1975 to 2,994 units for the first half of 1976, an increase of 64.8 percent.

Average industry lead time is approximately 9 months from order receipt to shipment of completed power loom. Therefore, orders lost to foreign manufacturers after the first quarter of 1975 would result both in a production decline in 1975 and an increase in imports of completed power looms in early 1976.

CONTRIBUTED IMPORTANTLY

The evidence developed during the Department's investigation indicates that imports of power looms have increased in recent months. Purchases by the Weaving Division, Crompton and Knowles Corporation of power loom parts represent a substantial quantitative portion (ninety percent) of the Grand Street, Worcester, Massachusetts plant's total production of power loom parts. Those power loom parts acquired by the Weaving Division are either assembled into finished power looms that carry the Crompton and Knowles label or are sold as repair parts for old Crompton and Knowles looms. Due to the fact that the Worcester plant participates in an integrated production process where the end product is a power loom, imports of power looms are considered to be more indicative of the influence of imports upon production and employment at the Grand Street, Worcester, Massachusetts plant, than are imports of power loom parts.

Customers of the Weaving Division, Crompton and Knowles Corporation indicated that they had increased their orders of foreign-made power looms in 1975 compared to 1974, while reducing their orders of power looms from Crompton and Knowles for the same period.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with the power loom parts produced at the Grand Street, Worcester, Massachusetts plant of Crompton and Knowles Corporation, contributed importantly to the total or partial separations of the workers of that plant who are engaged in employment related to the production of castings and power loom parts. In accordance with the provisions of the Act, I make the following certification:

All workers at the Grand Street, Worcester, Massachusetts plant of Crompton and Knowles Corporation engaged in the production of castings and power loom parts who became totally or partially separated from employment on or after May 25, 1975 and before January 1, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. All workers who became separated on or after January 1, 1976 are denied adjustment assistance.

I further conclude that increases of imports of articles like or directly competitive with the automotive parts produced at the Grand Street, Worcester, Massachusetts plant of Crompton and Knowles Corporation did not contribute importantly to the total or partial separations of the workers at such plant as required in section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 1st day of October 1976.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary for International Affairs.

DRAGGER "BRANT"

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 17, 1976 the Department of Labor received a petition dated August 10, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Dragger "Brant", Walpole, Maine (TA-W-1,088). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221 (a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with the shrimp caught by Dragger "Brant" or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 25, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than October 25, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 23rd day of September 1976.

INDIANA GENERAL ELECTRO-MECHANICAL PRODUCTS

Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, an investigation was initiated on August 6, 1976 in response to a worker petition received on that date which was filed on behalf of office and technical personnel at the Indiana General Electro Mechanical Products plant in Oglesby, Illinois.

The Notice of the investigation was published in the FEDERAL REGISTER on August 17, 1976 (41 FR 34838). No public hearing was requested and none was held.

During the course of the investigation, it was established that all workers of the Oglesby plant were previously certified as eligible to apply for adjustment assistance on September 27, 1976 (See TA-W-959).

The existing certification will expire on September 27, 1978 unless terminated by the Secretary of Labor. Since workers newly separated, totally or partially, are covered by the existing certification provided such separations occurred on or after the impact date (June 3, 1975) and before the certification expiration date (September 27, 1978), a new investigation would serve no purpose; consequently the investigation has been terminated.

INTERNATIONAL FIELD DATA CORP.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-989: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 16, 1976 in response to a worker petition dated June 26, 1976 which was filed on behalf of workers and former workers assembling data on petroleum fields for International Field Data Corporation, Houston, Texas.

The notice of investigation was published in the FEDERAL REGISTER on July 30, 1976 (41 FR 31959). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of International Field Data Corporation, Petroconsultants, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

If any of the above criteria is not satisfied, a negative determination must be made.

The Department has already determined that the performance of services is not included within the term "articles" as used in section 222(3) of the Act. See Notice of Negative Determination in Pan American World Airways, Incorporated (TA-W-153, 40 FR 54639).

The facts obtained in the investigation of this petition clearly show that International Field Data Corporation performed the service of gathering and distilling data on petroleum fields, on a contract basis, for a publisher of petroleum data.

After a careful review of the issues, I have determined that services of the kind provided by International Field Data Corporation, Houstin, Texas, are not "articles" within the meaning of section 222(3) of the Trade Act of 1974.

Signed at Washington, D.C., this 1st day of October 1976.

KAISER REFRACTORIES

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On September 23, 1976 the Department of Labor received a petition dated September 3, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Kaiser Refractories, Natrona, Pennsylvania, a division of Kaiser Aluminum and Chemical Corp., Oakland, California (TA–W–1,093). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221 (a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with the production of refractories and the performance of services for Allegheny Ludlum by Kaiser Refractories or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than OCTOBER 25, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than OCTOBER 25, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

KENOSHA AUTO TRANSPORT CORP.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–1058: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on August 31, 1976 in response to a worker petition received on that date which was filed by the General Teamsters Union Local 654, on behalf of workers and former workers at the Springfield, Ohio terminal of Kenosha Auto Transport Corporation a subsidiary of Jupiter Corporation, Chicago, Illinois, who were engaged in providing the service of delivering new trucks to dealers.

The notice of investigation was published in the FEDERAL REGISTER on September 10, 1976 (41 FR 38566). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Kenosha Auto Transport Corporation and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in that workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of the firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separation, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

If any one of the above criteria is not satisfied a negative determination must be made.

Kenosha Auto Transport Corporation does not produce an article within the meaning of section 222(3) of the Act and this Department has already determined that the performance of services are not covered by the adjustment assistance program. See Notice of Determination in Pan American World Airways, Incorporated (TA–W–153, 40 FR 54639). The only question presented in this case is whether International Harvester Company, i.e., a firm which produces an article, namely pickup trucks, and for whom the service is provided, can be considered the "workers' firm". The Department has also previously determined that an independent firm for which such services are provided cannot be considered the "workers' firm". See Notice of Determination in Nu-Car Driveaway, Inc. (TA–W–393, 41 FR 12749).

Kenosha Auto Transport Corporation is a transport business incorporated in the state of Wisconsin and licensed and regulated by the state and the Interstate Commerce Commission. Kenosha Auto Transport competed for available business with other carriers in the Springfield, Ohio area and each was free to haul for any business requesting their services.

Neither International Harvester, on the one hand, nor Kenosha Auto Transport, on the other, is financially or otherwise involved in the business of the other. Kenosha Auto Transport either owns or leases the facilities necessary to the operation of its business and owns or leases all its trucks and equipment.

The workers upon whose behalf this petition was filed were hired and are paid by Kenosha Auto Transport Corporation. They are supervised by and subject to the control of Kenosha Auto Transport personnel only. All employment benefits which they enjoy are provided and maintained by Kenosha Auto Transport.

CONCLUSION

After careful review of the issues and facts involved, I have determined that services of the kind provided by Kenosha Auto Transport Corporation, Springfield, Ohio, are not "articles" within the meaning of section 222(3) of the Trade Act of 1974, and that International Harvester Company cannot be considered the "workers' firm." The petition for trade adjustment assistance is, therefore, denied.

Signed at Washington, D.C. this 1st day of October 1976.

Director, Office of Management, Administration and Planning.

STRIDE RITE MANUFACTURING CORP.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–969; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on June 30, 1976 in response to a worker petition received on that date which was filed on behalf of workers and former workers producing children's footwear at the Hiatt Shoe plant, Lawrence, Massachusetts of the Stride Rite Manufacturing Corporation, Boston, Massachusetts.

The notice of investigation was published in the FEDERAL REGISTER (41 FR 29520) on July 16, 1976. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Stride Rite Manufacturing Corporation, its customers, the American Footwear Industries Association, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The Department's investigation revealed that although the second and third criteria have been met, the first and fourth criteria have not been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

From 1974 to 1975, the average number of production workers at the Hiatt Shoe plant increased 0.8 percent, and average weekly hours increased 2.8 percent. In the first half of 1976 employment and weekly hours were 11.7 percent and 7.5 percent above respective levels in the same period of 1975.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Production at the Hiatt Shoe plant declined in quantity by 3.6 percent from 1973 to 1974 and by 0.3 percent from 1974 to 1975. In the first half of 1976 plant production was 24.8 percent above that in the like period of 1975.

INCREASED IMPORTS

Imports of nonrubber footwear for infants and babies declined in volume each year from 1972 through 1974 and then increased in 1975 over 1974. Imports rose in volume in the first quarter of 1976 compared to the like period in 1975.

Imports of children's nonrubber footwear decreased in volume each year from 1972 through 1975 and increased in the first quarter of 1976 compared to the same period in 1975.

Imports of nonrubber footwear for youth and boys decreased in volume each year from 1972 through 1974 and rose in 1975 over 1974. Imports increased in volume in the first quarter of 1976 compared to the like period of 1975.

Imports of misses' nonrubber footwear declined in volume each year from 1972 through 1975 and increased in the first quarter of 1976 compared to the same period in 1975.

CONTRIBUTED IMPORTANTLY

A survey of customers who bought children's footwear from the Stride Rite Manufacturing Corporation indicated that those customers who reduced their purchases from Stride Rite did not switch to imports. Customers indicated that Stride Rite's footwear had higher quality than and was generally price competitive with imports.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with the children's footwear produced at the Hiatt Shoe plant, Lawrence, Massachusetts of the Stride Rite Manufacturing Corporation did not contribute importantly to the total or partial separations of the workers at such plant.

Signed at Washington, D.C. this 2nd day of October 1976.

MURPHY'S WHOLESALE TAILORS

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA–W–1000: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on July 27, 1976 in response to a worker petition received on July 27, 1976 which was filed on behalf of workers and former workers producing men's and women's suits and uniforms at Murphy's Wholesale Tailors, New Orleans, Louisiana. The Department's investigation revealed that Murphy's Wholesale Tailor's produced only men's custom tailored suits.

The notice of investigation was published in the FEDERAL REGISTER on August 6, 1976 (41 FR 32926). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Murphy's Wholesale Tailors, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales, production or both, of the firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation revealed that the fourth criteria has not been met.

SIGNIFICANT TOTAL OR PARTIAL SEPARATIONS

Employment of production workers declined 4 percent from 1973 to 1974, and declined 15 percent from 1974 to 1975. In the first six months of 1976, employment declined 5 percent compared to the first six months of 1975. The average number of hours worked were not available for 1973. The average number of hours worked declined 12 percent from 1974 to 1975. In the first six months of 1976, the average number of hours worked declined 12 percent compared to the first six months of 1975. Murphy's has been operating on a part-time basis, less than 40-hour work week, for the past five years.

Salaried employment remained stable from 1973 to 1974 and then declined 33 percent from 1974 to 1975. Salaried employment did not change in the first six months of 1976 compared to the first six months of 1975. Salaried employees work a constant 35 hour week.

Labor turnover data is not maintained by the company.

SALES OR PRODUCTION, OR BOTH, HAVE DECREASED ABSOLUTELY

Sales are equivalent to production, since production is based on orders received.

Production of custom made men's suit coats declined 18 percent in quantity from 1973 to 1974 and declined 28 percent in quantity from 1974 to 1975. In the first six months of 1976, the quantity of men's suit coats produced declined 20 percent compared to the first six months of 1975.

Production of men's customized suit vests declined 13 percent in quantity from 1973 to 1974, and then increased 10 percent from 1974 to 1975. In the first six months of 1976, the quantity of vests produced increased 52 percent compared to the first six months of 1975.

V41201 OCT 15 76 UMI

INCREASED IMPORTS

Imports of men's made-to-measure tailored suits and sportcoats are not separately identified in the Tariff Schedules of the United States, but are included with the aggregate data on imports of men's tailored suits and sportcoats.

Imports of men's tailored suits increased absolutely and relatively in each year from 1971 through 1975, and then declined relatively from the first half of 1975 to the first half of 1976. The ratios of imports of men's tailored suits to domestic production and consumption declined from 24.68 percent and 19.79 percent, respectively, in the first half of 1975 to 21.39 percent and 17.62 percent, respectively, in the first half of 1976.

CONTRIBUTED IMPORTANTLY

Industry experts believe that imports of men's custom tailored apparel account for a negligible portion of total men's apparel. Imports of men's tailored suits, which are predominantly ready-to-wear suits, have not had an impact on sales of custom made clothing by Murphy's Wholesale Tailors. All of Murphy's customers are small tailor shops which sell made-to-measure men's apparel. Customers reduced orders from Murphy's in 1975 and in 1976 as a result of decreased consumer demand for such apparel associated with general economic conditions and with shifts in consumer preferences away from the tailored look. None of Murphy's customers purchase imports of made-to-measure or ready-to-wear suits.

CONCLUSION

After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with men's custom-made suits produced at Murphy's Wholesale Tailors, New Orleans, Louisiana did not contribute importantly to the total or partial separations of the workers at that plant.

Signed at Washington, D.C. this 1st day of October 1976.

SECRETARY'S COMMITTEE ON VETERANS' AFFAIRS

Meeting

Announcement is made of the following Committee meeting:

Name: Department of Labor Secretary's Committee on Veterans' Affairs.
Date: October 19, 1976.
Place: Secretary's Conference Room S2508 (South Wing), New Department of Labor Building, 200 Constitution Avenue, N.W., Washington, D.C.

DEPARTMENT OF LABOR

Office of the Secretary

[Application No. L-502]

EMPLOYEE BENEFIT PLANS

Pendency of Exemption Relating to a Transaction Involving the Wisconsin Operating Engineers Skill Improvement and Apprenticeship Fund and Griese-Ross Construction Company, Inc.

Notice is hereby given of the pendency before the Department of Labor (the Department) of a proposed exemption from the restrictions of section 406(a) of the Employee Retirement Income Security Act of 1974 (the Act). The pending exemption was requested in an application filed by the Board of Trustees (Trustees) of the Wisconsin Operating Engineers Skill Improvement and Apprenticeship Fund (the Plan) for the construction of a new training center at Coloma, Wisconsin, by Griese-Ross Construction Company, Inc. (Griese-Ross), a contributing employer.

The application was filed pursuant to section 408(a) of the Act and in accordance with the procedure set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975).

Summary of Representatives. The application contains representations with regard to the pending exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the Trustees.

The Plan provides training opportunities to apprentices and skill improvement opportunities to members of Local 139 of the International Union of Operating Engineers, whose jurisdiction covers the State of Wisconsin.

Currently the Plan conducts its training program in the Milwaukee area at a site known as the Jaeger Pit. Continued use of this site is in jeopardy because of zoning problems. There is a possibility that training and classroom activities at the Jaeger Pit site will be terminated upon short notice, causing substantial relocation expenses and loss of the training program for an indeterminate period of time. In addition, approximately two-thirds of the participants are from outside the Milwaukee metropolitan area and must travel great distances to use the Milwaukee area site for training.

To alleviate the above existing and potential problems, the Plan acquired two adjoining parcels of land for a training site near Coloma, Wisconsin, which is located in the central part of the State. The Trustees anticipate that the Coloma training site will be within a short traveling distance for approximately 75 per cent of the participants of the Plan. The proposed training center will consist of a multi-purpose structure for office, classrooms, and storage facilities for various items of machinery and equipment.

The Plan's training director and the Trustees developed the initial specifications for the training center, advertised the Plan's intent to build in several trade journals, and received expressions of interest from six construction firms. The Trustees selected Enterprise Engineering Corporation (Enterprise), of Peshtigo, Wisconsin—an architectural-engineering firm engaged principally in commercial projects—to prepare the final architectural drawings, develop the final specifications, supervise and administer the bidding process, open and evaluate the bids, and conduct an end of construction inspection to determine the contractor's compliance with all specifications. Enterprise has no present or prior business relationship with the Plan, the Trustees, or the bidders. The final specifications and bid forms were distributed by Enterprise to ten potential bidders (including the six firms that had expressed an interest) and to three builder exchange offices in Wisconsin. Enterprise estimated that the Project would cost $185,000. The plan received two bids, of $196,300 and $138,895, respectively.

Both bidders are parties in interest with respect to the Plan solely because they are contributing employers. Neither bidder employs any of the Trustees or their relatives and none of the Trustees has any financial relationship with the bidders or with any of their principals. The contract will be awarded to the lower bidder, Griese-Ross. During the course of construction, no employee of Griese-Ross will become a trustee of the Plan and no Trustee or relative of any Trustee will have any financial relationship with Griese-Ross. Griese-Ross currently employs eight operating engineers who are members of Local 139. The Plan has 6000 participants. None of the three subcontractors Griese-Ross will use for the project is a party in interest with respect to the Plan. The obligation of the Trustees to pay Griese-Ross the bid price will be conditioned upon compliance by Griese-Ross with all the specifications contained in the construction contract between the Plan and Griese-Ross.

On May 31, 1976, the Plan had total assets of $419,911.09 and total liabilities of $72,718.66. As a result of collective bargaining agreements effective June 1, 1976, employer contributions increased from 5¢ per hour to 10¢ per hour, which the Trustees anticipate will increase the annual employer contributions by a sum in excess of $125,000.00. The contribution rate was increased to enable the Trustees to improve the training program and to develop a new training facility.

Notice of this proposed exemption as published in the FEDERAL REGISTER will be given by posting copies in the office of Local 139 of the International Union of Operating Engineers, located in Milwaukee, Wisconsin, and in its District Offices located in the cities of Eau Claire, Madison, and Appleton for at least thirty (30) days beginning within five (5) days after publication of the notice in the FEDERAL REGISTER. Also, copies of the proposed exemption will be mailed to the employer associations which are parties to the trust agreement creating and governing the Plan within five (5) days after publication of the notice in the FEDERAL REGISTER.

General Information: The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act does not relieve a fiduciary or other party in interest with respect to a plan to which the exemption is applicable from certain other provisions of the Act, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interests of the plan's participants and beneficiaries and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act.

(2) The requested exemption, if granted, will not extend to transactions prohibited under section 406(b) of the Act;

(3) Before an exemption may be granted under section 408(a) of the Act, the Department must find that the exemption is administratively feasible, in the interests of the Plan and of its participants and beneficiaries, and protective of the rights of participants and beneficiaries of such Plan; and

(4) The pending exemption, if granted, is supplemental to, and not in derogation of, any other provisions of the Act, including statutory exemptions and transitional rules. Furthermore, the fact that a transaction is the subject of an exemption is not dispositive of whether the transaction would have been a prohibited transaction in the absence of such exemption or, though it would have been a prohibited transaction, is exempt by operation of a statutory exemption or a transitional rule.

All interested persons are invited to submit written comments on the pending exemption contained herein. In order to receive consideration, such comments must be received by the Department on or before November 26, 1976.

All written comments (preferably six copies) should be addressed to Pension and Welfare Benefit Programs, Office of Regulatory Standards and Exceptions, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216, Attention: Application No. L-502. The application for exemption referred to herein and all such comments relating thereto will be available for public inspection at the Public Documents Room of Pension and Welfare Benefit Programs, Room N-4677, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

Pending Exemption. Based upon the application, hereinabove described, the Department has under consideration the granting of the requested exemption, under authority of section 408(a) of the Act in accordance with the procedure set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) whereby the restrictions of section 406(a) shall not apply to the construction of a new training center at Coloma, Wisconsin, by Griese-Ross pursuant to the terms, conditions, and representations set forth in the application.

The pending exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 13th day of October 1976.

WILLIAM J. CHADWICK,
Acting Administrator of Pension and Welfare Benefit Programs.

TRANSPORTATION OF "WASTE" PRODUCTS FOR REUSE OR RECYCLING

Special Certificate Letter Notice(s)

The following letter notices request participation in a Special Certificate of Public Convenience and Necessity for the transportation of "waste" products for reuse or recycling in furtherance of a recognized pollution control program under the Commission's regulations (49 CFR 1062) promulgated in *"Waste" Products*, Ex Parte No. MC 85, 124 MCC 483 (1976).

An original and one copy of protests against applicant's participation may be filed with the Interstate Commerce Commission on or before November 8, 1976. A copy must also be served upon applicant or its representative. Protests against the applicant's participation will not operate to stay commencement of the proposed operation.

If the applicant is not otherwise informed by the Commission, operations may commence within 30 days of the date of its notice in the FEDERAL REGISTER, subject to its tariff publication effective date.

P–25–76 (Correction) (Special Certificate—Waste Products), filed September 14, 1976, published in the FEDERAL REGISTER issue of October 5, 1976, and republished as corrected this issue. Applicant: RAY KURTZ AND LINDA FARLEY, a Partnership, doing business as PLASTIC EXPRESS, P.O. Box 5593, Orange, Calif. 92667. Applicant's representative: Linda Farley (same address as applicant). Authority sought to operate pursuant to a certificate of public convenience and necessity authorizing operations in interstate or foreign commerce, as a *common carrier* by motor vehicle over irregular routes, in the transportation of *waste and waste products which are cans, chemical solutions, cullet, glass and glass containers, iron, steel and metal products, metal scrap, paper, paper products, petroleum products, plastic, plastic articles, rags, textile products, rubber, rubber products, trash, wood,* and *wood products*, between points in the United States in and west of Alabama, Tennessee, Kentucky, Ohio, and Michigan (except Alaska and Hawaii), in furtherance of recognized pollution control programs sponsored by: (1) Glass Container Manufacturers Institute, Inc. of Irvine, Calif., for the purpose of recycling glass containers (cullet); (2) Apollo Plastic's Inc. of Los Angeles, Calif., for the purpose of brokering waste scrap including plastic milk bottles and scrap plastics; (3) A. E. Taylor of Santa Monica, Calif., for the purpose of brokering waste scrap metals; (4) Century Enterprises of Denver, Colo., for the purpose of brokering waste scrap metals; (5) Brockway Glass Company, Inc. of Brockway, Pa., for the purpose of brokering broken glass (cullet); and (6) Alpha Recycle of Gardena, Calif., for the purpose of brokering waste paper.

NOTE.—The purpose of this republication is to indicate the correct commodity description as wood products in lieu of food products as was previously published. Applicant presently holds Waste Products Special Certificate No. P–25–73.

By the Commission.

ROBERT L. OSWALD,
Secretary.

No. MC 141426 (Notice of filing of petition to modify permit), filed September 20, 1976. Petitioner: WHEATON CARTAGE CO., Millville, N.J. 08332. Petitioner's representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, NW., Washington, D.C. 20001. Petitioner holds a motor *contract carrier* Permit, in No. MC 141426, issued August 13, 1976, authorizing transportation over irregular routes, of *glass, metal, plastic, paper and wax products, foodstuffs, printer's machinery, anti-pollution and biochemical apparatus, products* used in radiological research, *organic chemistry kits, parts and accessories* for all of the above-described commodities, and *materials, equipment, and supplies* used or useful in the production, sale, and distribution, of the above-named commodities, between the facilities utilized by Wheaton Industries, located in Cumberland, Ocean, and Atlantic Counties, N.J., on the one hand, and, on the other, points in New York, New Jersey, Ohio, Michigan, Indiana, Kentucky, West Virginia, Illinois, Wisconsin, Missouri, Minnesota, Kansas, Iowa, Nebraska, North Dakota, South Dakota, and Wyoming, restricted against the transportation of commodities in bulk, in tank vehicles, under a continuing contract, or contracts, with Wheaton Industries, of Millville, N.J. By the instant petition, petitioner seeks to modify its Permit (1) by adding Dorchester Industries, Inc., of Millville, N.J., and Decora, Inc., of Williamstown, N.J., as additional contracting shippers and adding them as additional base facilities in the territorial description; (2) by adding Gloucester, Cape May, Salem, Camden, and Mercer Counties, N.J., as additional base points; and (3) by modifying the commodity description to read as follows: "*glass, metal, plastic, paper, wax, and wood products, foodstuffs, anti-pollution and biochemical apparatus, products* used in radiological research, *organic chemistry kits, clay, talc, feldspar, clay products, feldspar products, candles, pottery, chinaware, ceramics, gift items, materials, and supplies* used in the repair and maintenance of *boats, machinery, and machine parts, presses, molders, bottle coating systems, parts* and *accessories* for all of the above-described commodities, and *materials, equipment, and supplies* used or useful in the production fabrication, sale, distribution, assembly, finishing, coating, pressing, maintenance, and molding of the above-named commodities.

No. MC 141878 (Notice of filing of petition to broaden territorial description), filed August 6, 1976. Petitioner: DIRECT COURIER, INC., 2780 S. Jefferson Davis Hwy., Arlington, Va. 22202. Petitioner's representative: Gerald K. Gimmel, 303 N. Frederick Ave., Gaithersburg, Md. 20760. Petitioner holds a motor *common carrier* Certificate in No. MC 141878, issued October 5, 1976, authorizing transportation, as pertinent, over irregular routes, of *live laboratory animals*, between points in Maryland, Virginia, West Virginia, Pennsylvania, Delaware, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, and the District of Columbia.

By the instant petition, the petitioner seeks to broaden the territorial description to include points in North Carolina, Georgia, and South Carolina.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

NOTICE

The following grants of operating rights authorities are republished by Order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of protests to the granting of the authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR § 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition shall not be tendered at this time. A copy of the protest shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 115092 (Sub-No. 4) (Republication), filed March 2, 1976, published in the FEDERAL REGISTER issue of April 8, 1976, and republished this issue. Applicant: TOMAHAWK TRUCKING, INC., P.O. Box 10, Vernal, Utah 84078. An Order of the Commission, Review Board Number 3, dated September 14, 1976, and served September 29, 1976, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes in the transportation of (1) *Bentonite*, in bags, from the facilities of American Colloid Company, located at or near Belle Fourche, S. Dak., and Upton, Wyo., to points in Texas and Oklahoma; (2) *bentonite* used in, or in connection with, the discovery, development, production, refining, manufacturing, processing, storage, transmission, and distribution of natural gas and petroleum and their products and byproducts, or used in connection with the construction, operation, repair, servicing, maintenance, and dismantling of petroleum pipelines, including the stringing and picking up thereof in bags, from the facilities of American Colloid Company, located at or near Upton, Wyo., to points in Utah; and (3) *lignite coal and treated lignite*, in bags, from the facilities of American Colloid Company, located at or near Belle Fourche, S. Dak., to points in Texas and Oklahoma; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate that the grant of authority and applicant's amended authority sought differs from that which appeared in the previous FEDERAL REGISTER publication.

No. MC 117765 (Sub-No. 196) (Republication), filed September 2, 1975, and published in the FEDERAL REGISTER issue of October 2, 1975, and republished this this issue. Applicant: HAHN TRUCK LINE, INC., 5315 Northwest Fifth St., Oklahoma City, Okla. 73107. Applicant's representative: R. E. Hagan (same address as applicant). An Order of the Commission, Review Board Number 2, dated September 8, 1976, and served September 29, 1976, finds that the present and future public convenience and necessity require operations by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes in the transportation of, (1) *Malt beverages*, in containers, from San Antonio, Tex., to points in Kansas, Nebraska, and Oklahoma; (2)(a) *petroleum and petroleum products*, in containers, from Ponca City, Okla., to points in Michigan and Nebraska; and (b) *petroleum products*, in containers, from Eldorado, Kans., to points in Michigan; and (c) *empty used containers*, from points in Michigan and Nebraska, to Coffeyville and Kansas City, Kans., and Tulsa, Okla., that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate that applicant's grant of authority in part (c) above is not limited to the transportation of traffic having a prior movement from Continental Oil Company located at Ponca City, Okla.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATION

The following applications are governed by Special Rule 247 of the Commission's general Rules of Practice (49

CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the methods—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protest not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representatives, or applicant if no representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute tis application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

McCanta and John L. Anthony, both of 5050 1st Ave., So., Seattle, WA., 98134, of control of (B) Western Cartage, Inc., and (BB) Amac Trucking Incorporated, dba ATI, by the acquisition by Charles H. McCanta and John L. Anthony. Applicants' attorney: George H. Hart, 1100 IBM Building, Seattle, WA., 98101. Operating rights sought to be controlled: (B) *General commodities*, except household goods as defined by the Commission and commodities in bulk, as a *common carrier* over irregular routes from Seattle, Wash., to points in King, Pierce, and Snohomish Counties, Wash., with no transportation for compensation or return except as otherwise authorized, with restrictions. On September 17, 1976 the applicants filed a petition to eliminate the dual operation problem between Western Cartage, Inc. and Amac Trucking Incorporated by imposing the following restriction on Western's Sub-No. 2 authority: restriction: Restricted against the transportation of traffic which either originates at or is destined to premises owned, or operated by Sears Roebuck & Co. (BB) *Such merchandise as is dealt in by mail order houses and retail stores, and equipment, materials, and supplies* used in the conduct of such business as a *contract carrier* over irregular routes between Seattle, Wash., on the one hand, and, on the other, Arlington, Bellingham, Bremerton, Chehalis, Cle Elum, Ellensburg, Enumelaw, Ephrata, Everett, Grandview, Lakewood, Longview, Marysville, Monroe, Moses Lake, Mount Vernon, Olympia, Pasco, Prosser, Puyallup, Richland, Snohomish, Spokane, Summer, Sunnyside, Tacoma, Union Gap, and Walla Walla, Wash.; Albany, Baker, Corvallis, Eugene, Hermiston, La Grande, Ontario, Pendleton, Portland, Salem, and Woodburn, Oreg.; and American Falls, Blackfoot, Boise, Burley, Caldwell, Coeur d' Alene, Idaho Falls, Mountain Home, Nampa, Pocatello, and Twin Falls, Idaho, John L. Anthony and Charles H. McCanta hold no authority from this Commission. However, applicants jointly own, in equal shares all of the capital stock in Western Cartage, Inc., and are also controlling stockholders of Amac Trucking Incorporated. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–12988. Authority sought for merger by SMITH'S TRANSFER CORPORATION, P.O. Box 1000, Staunton, VA., 24401 with Brady Motorfrate, Inc., 2150 Grand Avenue, Des Moines, IA., 50312, and for acquisition by R.R. Smith, P.O. Box 1000, Staunton, VA., 24401, of control of such rights through the merger. Applicants' attorney: Francis W. McInerny, Suite 502, Solar Building, 1000 16th Street, NW., Washington, D.C., 20036. Operating rights sought to be merged: *General commodities*, with certain specified exceptions, and numerous other specified commodities, as a *common carrier*, over regular and irregular routes, from, to, and between specified points in the States of Missouri, Illinois, Nebraska, Iowa, Minnesota, Ohio, South Dakota, Kansas, Kentucky, Indiana, Michigan, Kansas, Wisconsin, Maryland, New Jersey, New York, Pennsylvania, West Virginia, Delaware, Connecticut, Massachusetts, Rhode Island, and the District of Columbia, with certain restrictions, serving various intermediate and off-route points, over three alternate routes for operating convenience only, and more specifically described in Docket No. MC 52110 and Sub-numbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating, in full, the entirety thereof. Vendee is authorized to operate as a *common carrier* in Connecticut, Delaware, The District of Columbia, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Virginia, West Virginia, and Wisconsin.

Application has not been filed for temporary authority under section 210a(b).

NOTE.—In MC–F–11851, a decision and order was served on December 11, 1974 granting Smith's Transfer Corporation control of Brady Motorfrate, Inc.

NOTICE

THE ATCHISON, TOPEKA AND SANTA FE RAILWAY COMPANY, 114 Sansome Street, San Francisco, California 94104, represented by Mr. Frederick G. Pfrommer, General Attorney, The Atchison, Topeka and Santa Fe Railway Company, 114 Sansome Street, San Francisco, California 94104 hereby give notice that on the 23rd day of September, 1976, it filed with the Interstate Commerce Commission at Washington, D.C., an application under Section 5(2) of the Interstate Commerce Act for an order approving and authorizing the acquisition of trackage rights over a line of railroad of the Southern Pacific Transportation Company between Richmond, Contra Costa County, and Oakland, Alameda County, California, a distance of approximately 8.5 miles. The application has been assigned Finance Docket No. 28300. In Docket No. AB–52 (Sub-No. 8), applicant filed a directly related application for authority to abandon a line of railroad between Richmond, Contra Costa County, and Oakland, Alameda County, California.

Approval of the application will be consistent with the public interest in that it will enable applicant to remove a line located in significant part in residential areas and transfer operations currently conducted on that line to a line of Southern Pacific which is better located and better suited for the purpose. The consummation of the related trackage rights and abandonment proposals will result in a minimal loss of traffic and a minimal increase in the use of alternate transportation modes. It will eliminate safety hazards attendant with 59 street crossings at grade, transferring the operation to a line with only 15 crossings at grade. It will also allow removal of rails located in part within the streets of the City of Berkeley, long considered by the residents of that city as a safety hazard and a psychological barrier dividing residential areas within the community.

In the opinion of the applicant, the authority sought by these applications will have no significant effect upon the quality of the human environment within

V41N201 OCT 15 76 UM

the meaning of the National Environmental Policy Act of 1969.

In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), Implementation—National Environmental Policy Act, 1969, 352 I.C.C. 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See Implementation—National Environmental Policy Act, 1969, supra, at p. 487.

Pursuant to the provisions of the Interstate Commerce Act, as amended, the proceeding will be handled without public hearings unless comments in support or opposition on such application are filed with the Secretary, Interstate Commerce Commission, 12th and Constitution Avenue, N.W., Washington, D.C. 20423, and the aforementioned counsel for applicant, within 45 days after date of first publication in the Federal Register; that such comments shall be served upon (a) Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Room 5101, 400 Seventh Street, S.W., Washington, D.C. 20590, (b) Mr. Edward H. Levi, Attorney General, Department of Justice, 10th and Constitution Avenue, N.W., Washington, D.C. 20530, and certificate of all such service is given to the Interstate Commerce Commission; and that all other applications, which are inconsistent, in whole or in part, with such applications, and all petitions for inclusion in the transaction, shall be filed with the Commission and furnished to the Docket Clerk, Secretary of Transportation, within 90 days after the publication of notice of the application in the FEDERAL REGISTER.

THE ATCHISON, TOPEKA AND SANTA FE RAILWAY COMPANY

OPERATING RIGHTS APPLICATIONS DIRECTLY RELATED TO FINANCE PROCEEDINGS

NOTICE

The following operating rights applications are filed in connection with pending finance applications under Section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with pending transfer applications under Section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR § 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its applications.

No. MC 4491 (Sub-No. 17), filed August 25, 1976. Applicant: GREAT COASTAL EXPRESS, INC., 501 South 14th Street, Richmond, Va. 23219. Applicant's representative: David G. If a hearing is deemed necessary, the applicant requests it be held at Missoula, Mont.

ABANDONMENT APPLICATIONS

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act that orders have been entered in the following abandonment applications which are administratively final and which found that subject to conditions the present and future public convenience and necessity permit abandonment.

A Certificate of Abandonment will be issued to the applicant carriers 30 days after this FEDERAL REGISTER publication unless the instructions set forth in the notices are followed.

[Docket No. AB-6 (Sub-No. 37)]

BURLINGTON NORTHERN, INC. ABANDONMENT BETWEEN CARLTON AND WEST DULUTH IN CARLTON AND ST. LOUIS COUNTIES, MINNESOTA

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on August 19, 1976, a finding, which is administratively final, was made by the Commission, Commissioner Brown, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Chicago, B. & Q. R. Co., Abandonment, 257 ICC 700, the present and future public convenience and necessity permit the abandonment by the Burlington Northern, Inc. of its line of railroad, a distance of approximately 14.59 miles, between milepost 130.82 near Carlton, Minnesota, and milepost 145.41 near West Duluth, Minnesota, on the north end of the line located in Carlton and St. Louis Counties, Minnesota. A certificate of abandonment will be issued to the Burlington Northern, Inc. based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) a financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) it is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad. If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. Information and procedures regarding the financial assistance for continued rail service or the acquisition of the involved rail line are contained in the Notice of the Commission entitled "Procedures for Pending Rail Abandonment Cases" published in the FEDERAL REGISTER on March 31, 1976, at 41 FR 13691. All interested persons are advised to follow the instructions contained therein as well as the instructions contained in the above-referenced order.

NOTICE OF FINDINGS

Notice is hereby given pursuant to Section 1a(6)(a) of the Interstate Commerce Act (49 U.S.C. 1a(6)(a)) that by an order entered on August 10, 1976, a finding, which is administratively final, was made by the Commission, Review Board Number 5, stating that, subject to the conditions for the protection of railway employees prescribed by the Commission in Chicago, B. & Q.R. Co., Abandonment, 257 ICC 700, the present and future public convenience and necessity permit the abandonment by the St. Louis-San Francisco Railway Company County, Missouri, to Pittsburg, Crawford County, Kansas, and Barton County, Missouri, running in a southerly direction from milepost M-124.0 at Mulberry, Kansas, through Mindenmines, Barton County, Missouri, to Pittsburg, Crawford County, Kansas, at milepost M-136.7 a distance of approximately 14 miles. A certificate of abandonment will be issued to the St. Louis-San Francisco Railway Company based on the above-described finding of abandonment, 30 days after publication of this notice, unless within 30 days from the date of publication, the Commission further finds that:

(1) a financially responsible person (including a government entity) has offered financial assistance (in the form of a rail service continuation payment) to enable the rail service involved to be continued; and

(2) it is likely that such proffered assistance would:

(a) Cover the difference between the revenues which are attributable to such line of railroad and the avoidable cost of providing rail freight service on such line, together with a reasonable return on the value of such line, or

(b) Cover the acquisition cost of all or any portion of such line of railroad. If the Commission so finds, the issuance of a certificate of abandonment will be postponed for such reasonable time, not to exceed 6 months, as is necessary to enable such person or entity to enter into a binding agreement, with the carrier seeking such abandonment, to provide such assistance or to purchase such line and to provide for the continued operation of rail services over such line. Upon notification to the Commission of the execution of such an assistance or acquisition and operating agreement, the Commission shall postpone the issuance of such a certificate for such period of time as such an agreement (including any extensions or modifications) is in effect. [45 CFR Part 185]

EMERGENCY SCHOOL AID

Proposed Criteria and Procedures

Pursuant to the authority contained in the Emergency School Aid Act ("ESAA"; Title VII of Pub. L. 92–318, as amended by Pub. L. 93–380; 20 U.S.C. 1601–1619), the Assistant Secretary for Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 45, Part 185 of the Code of Federal Regulations as set forth below.

1. *Purpose of amendments.* The purpose of the proposed amendments is to establish, as a part of the codified regulations governing programs of assistance under sections 706(a), 706(b), 708(b), and 708(c) of the ESAA, standards for the minimum acceptable merit of applications for such assistance, and procedures for evaluating such applications. The standards and procedures in the proposed amendments are similar to those used in fiscal years 1975 and 1976 pursuant to a notice published at 40 FR 20660 on May 12, 1975. They differ from the approach used in fiscal years 1975 and 1976 in two principal respects. First, standards and procedures are established for the program authorized by section 708(c) of the ESAA (bilingual projects). Second, a larger portion of funds appropriated for each program is reserved for competition among applicants whose initial applications are not approved.

2. *Public participation.* Public comments on these procedures were invited in fiscal year 1975 (40 FR 20660, May 12, 1975). The procedures, establishment of minimum cut-off scores and establishment of a reservation of funds for resubmitted applications, have been the practice since fiscal year 1974. Section 710 (d)(2) of Pub. L. 92–318 requires that funds shall not all be obligated during the first review and funding of applications in order that applicants shall have appropriate opportunity to modify and resubmit their applications. No public comments on these procedures have been received.

3. *Citations to legal authority.* As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232 (a)), a citation to the legal authority for each substantive provision of the proposed amendments has been placed in parentheses on the line immediately following the text of such provisions. Each citation applies to the text of the regulations between that citation and the next preceding citation.

4. *Comments invited.* Pursuant to section 431(b)(2)(A) of the General Education Provisions Act (20 U.S.C. 1232 (b)(2)(A)), written comments and recommendations concerning the proposed amendments are invited from interested parties. Comments may be sent to Dr. Herman R. Goldberg, Associate Commissioner, Equal Educational Opportunity Programs, Room 2001, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

All comments must be received not later than November 29, 1976. Comments will be available for review in the above office between the hours of 8:30 a.m. and 4:00 p.m. Monday through Friday of each week.

(It is hereby certified that this proposal has been screened pursuant to Executive Order No. 11821, and does not require an Inflation Impact Evaluation.)

1. In § 185.14, paragraph (c) is revised to read as follows:

§ 185.14 Criteria for assistance.

* * * * *

(c) *Funding criteria and procedures.* (1) In determining amounts to be awarded to applicants for assistance under this subpart, the Assistant Secretary shall consider:

(i) The additional cost to such applicants (as such cost is defined in § 185.13 (a) of effectively carrying out its proposed program, project, or activity; and

(ii) The amount of funds available for assistance under this subpart within the State in relation to other applications from the State pending before the Assistant Secretary.

(2) An application for assistance under this subpart will be considered to set forth a program, project, or activity of such insufficient promise for achieving the purpose of the Act that its approval is not warranted, and shall not be approved for funding, if such application has been awarded:

(i) fewer than 40 points on the basis of the criteria in paragraphs (a) and (b) of this section; or

(ii) fewer than 28 points on the basis of the criteria in paragraph (b) of this section.

(3) An application determined on the basis of the standards in paragraph (c)(2) of this section to be unapprovable will be returned to the applicant. The Assistant Secretary shall notify the applicant of the specific reasons for such determination, and shall afford the applicant an appropriate opportunity to modify and resubmit its application.

(4) Except as provided in paragraph (c)(5) of this section, the Assistant Secretary shall award funds to applicants for assistance under this subpart from a State (whose applications meet the requirements of the Act and are approvable on the basis of the standards in paragraph (c)(2) of this section) in the order of their ranking on the basis of the criteria set out in paragraphs (a) and (b) of this section until the funds apportioned to the State for the purpose of this subpart have been exhausted.

(5)(i) Not less than one-third of the funds apportioned to a State for the purpose of this subpart shall be reserved until applicants whose initial applications were determined to be unapprovable on the basis of the standards in paragraph (c)(2) of this section have been afforded an appropriate opportunity to modify and resubmit their applications. From the funds not so reserved, the Assistant Secretary shall award funds to applicants whose applications are approvable in the order of the ranking of their initial applications (on the basis of the criteria set out in paragraphs (a) and (b) of this section) until unreserved funds are insufficient to support the next ranking approvable application at the level determined by the Assistant Secretary to be necessary to carry out effectively the proposed program, project or activity.

(ii) Where unreserved funds are insufficient to support the next ranking approvable application at the level determined by the Assistant Secretary to be necessary to carry out effectively the proposed program, project or activity, the Assistant Secretary shall notify the applicant of the specific reasons for its ranking, and shall afford the applicant an appropriate opportunity to modify and resubmit its application to compete for reserved funds. If such an applicant chooses to modify and resubmit its application, its ranking shall be determined on the basis of the criteria set out in paragraphs (a) and (b) of this section as applied to its resubmitted application.

(Public Law 92–318, sections 702; 705(a)(1), (b)(3); 706(a); 710(c), (d)(2).)

2. In § 185.24, paragraph (c) is revised to read as follows:

§ 185.24 Criteria for assistance.

* * * * *

(c) *Funding criteria and procedures.* The provisions of § 185.14(c) shall apply to awards of assistance under this subpart, except that:

(1) References in § 185.14(c) to "this subpart" shall be understood to refer to Subpart C—Pilot Projects;

(2) References in § 185.14(c) to "this section" shall be understood to refer to § 185.24; and

(3) The minimum points referred to in paragraph (c)(2) of § 185.14 shall, for the purpose of this subpart, be 45 on the basis of the criteria in paragraphs (a) and (b) of this section and 33 on the basis of the criteria in paragraph (b).

(Public Law 92–318, sections 702; 705(a)(2), (b)(3); 706(b); 710(c), (d)(2).)

3. In § 185.54, paragraph (c) is revised to read as follows:

§ 185.54 Criteria for assistance.

* * * * *

(c) *Funding criteria and procedures.* The provisions of § 185.14(c) shall apply to awards of assistance under this subpart, except that:

(1) References in § 185.14(c) to "this subpart" shall be understood to refer to Subpart F—Bilingual Projects;

(2) References in § 185.14(c) to "this section" shall be understood to refer to § 185.54;

(3) References in § 185.14(c) to a "State" shall be understood to refer to the 50 States and the District of Columbia, taken together; and

(4) The minimum points referred to in subparagraph (2) of § 185.14(c) shall, for the purpose of this subpart, be 45 on the basis of the criteria in paragraphs (a) and (b) of this section, and 33 on the basis of the criteria in § 185.54(b).

(20 U.S.C. 1601; 1603(b)(A); 1607(c); 1609 (d)(2).)

4. In § 185.64, paragraph (c) is revised to read as follows:

§ 185.64 Criteria for assistance.

* * * * *

(c) *Funding criteria and procedures.* The provisions of § 185.14(c) shall apply to awards of assistance under this subpart, except that:

(1) References in § 185.14(c) to "this subpart" shall be understood to refer to Subpart G—Public or Nonprofit Private Organizations; and

(2) References in § 185.14(c) to "this section" shall be understood to refer to § 185.64.

COMMODITY FUTURES TRADING COMMISSION

FUTURES COMMISSION MERCHANTS

Financial and Reporting Requirements

V41N201 OCT 15 76 UM

COMMODITY FUTURES TRADING COMMISSION

[17 CFR Parts 1, 145]

FUTURES COMMISSION MERCHANTS

Financial and Reporting Requirements

The Commodity Futures Trading Commission ("Commission") is currently engaged in a comprehensive study of the financial and reporting requirements imposed upon futures commission merchants to determine whether the requirements can be amended to afford commodity customers a greater degree of protection while at the same time increasing the regulatory efficiency of these requirements. As a result of this study, the Commission has determined that substantial revisions in its existing regulations under the Commodity Exchange Act, as amended ("Act"), 7 U.S.C. 1–22, are necessary. The Commission is at this time proposing, as the first of these revisions, amendments to §§ 1.10, 1.17 and 1.18 of the regulations (17 CFR 1.10, 1.17, and 1.18) and new regulations, §§ 1.10a and 1.16. The effect of these proposals would be (1) to require that financial reports submitted by futures commission merchants be audited annually be independent public accountants, (2) to increase the frequency of financial reports, (3) to expand the content of such reports, (4) to require that copies of these annual reports be sent to customers, (5) to require that futures commission merchants compute their minimum capital requirements on a monthly basis, and (6) to make these requirements uniform throughout the industry. Only futures commission merchants who are members of a contract market and conform to minimum financial and related reporting requirements set by the contract market and approved by the Commission pursuant to section 4f(2) of the Act subsequent to (the effective date of these revisions) would be exempt from these requirements.

The Commission will shortly consider proposing the adoption of rule amendments to provide for uniform capital requirements for all futures commission merchants ("FCM's") and an improved early warning system based upon those requirements. The uniform capital requirements would contain improved computational criteria with respect to the computation of the minimum capital requirements imposed upon FCM's and the computation of an FCM's adjusted net capital. The Commission has become increasingly concerned with an FCM's ability to finance its operations almost exclusively with non-subordinated, long-term debt. The new minimum capital rule would prevent this use of long-term debt. The new early warning system would, for the first time, be integrated with the Commission's minimum capital rule and would give warning of approaching financial problems as well as of existing ones. In addition, it would (1) require notice of the noncurrent status of an FCM's books and records and of any other problems uncovered by the audit of an independent public accountant; and (2) require the filing of financial statements when an FCM is expelled from any contract market.

The Commission wishes to stress at the outset that it is Commission policy to encourage contract market self-regulation. In this regard, the Commission anticipates requiring all contract markets to adopt and to enforce uniform minimum financial and related reporting requirements. Such requirements would be subject to the same active oversight regulation as are the other rule enforcement programs of the contract markets. However, because of the common interest of the contract markets in the financial integrity of their member FCM's and because of the uniform applicability of the minimum financial and related reporting requirements envisioned by the Commission, it may be advantageous for the contract markets to engage in a joint enforcement or audit program to monitor compliance with such uniform minimum financial and related reporting requirements. Such a joint program or an alternative program through a national futures association, as provided for in Title III of the Commodity Futures Trading Commission Act of 1974, 7 U.S.C. 21, could meet the anticipated Commission requirements. The Commission requests comments on the anticipated requirement that the contract markets adopt uniform minimum financial and related reporting requirements.

SUMMARY OF PROPOSED REVISION OF REGULATION 1.10

The proposed revision of regulation 1.10 would increase the frequency of financial reports FCM's are required to file with the Commission, expand the content of such reports, require that such reports be audited annually by independent public accountants and certified by them, require that copies of such certified annual reports be sent to customers, and make the financial reporting requirements uniform throughout the industry. In addition, any reports which are required to be filed with the Commission would also have to be filed with the exchanges of which the FCM is a member. The rule is divided into eight subparagraphs. A discussion of these follows.

Application for registration. As proposed, paragraph (a) of rule 1.10 would have three parts which are substantially the same as paragraphs (a), (b) and (c) of the present rule 1.10. The proposed rule would continue the requirement that application for registration as an FCM be made on Form 1–R and that a financial report, on Form 1–FR, be concurrently filed, as of a date not more than 45 days prior to the date on which such report is filed. As with the current rule, an exemption is recognized for persons succeeding to and continuing the business of another futures commission merchant.

As discussed below, the most significant departure from the current rule is the requirement, in paragraph (a)(2) of the proposed rule, that the Form 1–FR be certified by an independent public accountant. However, the proposed rule would no longer require an applicant to submit an estimate of his income and expenses for his first year of operations. The Commission's experience has shown this to be of very little value either as a basis for denying registration or for subsequent regulatory purposes.[1]

Independent public accountants. Paragraphs (a)(2) and (b)(2) of proposed rule 1.10 would require that the initial Form 1–FR filed by an applicant futures commission merchant and the Form 1–FR filed at the end of each fiscal year thereafter be certified by an independent public accountant. The present Form 1–FR requires that such reports be attested to only by a corporate officer, partner or sole proprietor of the applicant or registrant.

Accurate information which can be evaluated according to standardized criteria is essential to the effective protection of customers' funds and to the overall regulation of FCM's. In order to insure such accurate information on the Forms 1–FR filed pursuant to regulation 1.10, the Commission believes independent verification of such information is imperative. Generally, there are three alternative methods of obtaining such independent verification: (1) The Commission itself can conduct yearly general audits of all FCM's, (2) It can require contract markets to audit all their members yearly with the Commission auditing those few FCM's which are not members of any exchange, or (3) It can require that the financial reports filed by FCM's be certified annually by independent public accountants.

The Commission believes that the use of independent public accountants is the most efficient regulatory method of obtaining independent verification of the information provided on financial reports. In addition, the Commission's Advisory Committee on Commodity Futures Trading Professionals[2] has recommended that the Commission "require that the year-end financial statements submitted by FCM's be certified by independent public accountants."[3] While the Comptroller General's *"Report to Congress on Improvements Needed in Regulation of Commodity Futures Trading"* ("GAO Report") recommended that the exchanges be delegated the primary responsibility for audits of FCM's, that report also recommended that the Commission "require FCM's to engage independent public accountants to make the required audits and to furnish reports on the results of these audits to the cognizant exchanges and to the Commission."[4] Similarly, the Commission's Advisory Committee on Definition and Regulation of Market Instruments[5] has recommended that any financial reports required of persons dealing in commodity option transactions and leverage transactions in gold or silver be certified annually by independent public accountants.[6] The use of independent public accountants would relieve the Commission's staff of the burden of conducting general audits of FCM's. There are approximately 270 FCM's registered with the Commission. In fiscal year 1976 the Commission's staff conducted 133 general audits of such FCM's. By eliminating the need for such audits, the Commission would have greater flexibility (1) to conduct more frequent audits of FCM's which the Commission believes are experiencing financial difficulties and (2) to expand its audit program to include other persons subject to Commission regulation.

Good general business practices would appear to necessitate the use of yearly certified audits as part of a firm's internal control procedures. For example, independent accountants review internal control systems to determine if the controls are sufficient to provide timely information concerning a firm's financial status and adequate protection for customers' funds pursuant to the Act and Commission regulations. Moreover, certain checks which a public accountant would make (such as verifying inventory and sending statements to customers to verify their credit or debt balances) might be unacceptably costly for a government or exchange authority to do.

The Commission does not believe that this independent audit requirement will significantly increase costs to the industry. At least 240 FCM's, or approximately 90 percent of all FCM's, are currently using public accountants either voluntarily in their normal course of business or to comply with exchange or governmental requirements. In those instances where an FCM is not currently employing an independent auditor, the Commission believes the necessity for independent verification of the information contained in the Forms 1–FR filed by such FCM's is especially acute.

Filing of Financial Reports. Paragraph (b) of proposed rule 1.10 has four parts. Paragraph (b)(1), which is a revision of paragraph (d) of the present rule, would require reports on Form 1–FR to be filed quarterly instead of semi-annually. Such reports would have to be filed no later than 30 days after the date for which the report is made, with the exception of the certified annual reports which would have to be filed no later than 60 days after the close of each registrant's fiscal year.

Timely information is essential to the effective monitoring of the financial condition of any business; it is even more vital in the rapidly fluctuating commodity futures industry. While the Commission believes that monthly reporting is desirable from an informational point of view, the Commission also believes that the economic burden placed upon registrants by a monthly reporting requirement may outweigh its benefits. Accordingly, the Commission's proposal provides for quarterly reporting as a compromise between the necessity of timely information and the costs of such reporting.

The information which would be required in the new Form 1–FR is essentially that which would ordinarily be prepared in the normal course of business to facilitate management of the firm. Such reports are probably prepared monthly by most firms, though perhaps in a less formal manner than that required on the Form 1XFR. Although the quarterly reporting requirements may increase the costs of some FCM's, the Commission does not believe it will significantly increase costs in the industry as a whole. Quarterly reporting is a general business practice. Approximately fifty FCM's are registered as broker-dealers with the Securities and Exchange Commission and are accordingly required to file quarterly reports with that agency. For the most part, these are among the largest FCM's where the costs would be expected to be greatest. In addition, the Chicago Mercantile Exchange is now requiring quarterly financial reports from most of its members. Since there are approximately 55 CME members who are not registered broker-dealers, approximately 110, or 40 percent of the FCM population, are already filing quarterly statements.

As mentioned above, paragraph (b)(2) of the proposed rule would require that the Form 1–FR filed as of the close of a registrant's fiscal year be certified by an independent public accountant. Paragraph (b)(3) is the present rule 1.10(e) redesignated. It provides an exemption from the financial reporting requirements for members of contract markets whose financial regulations have been approved by the Commission pursuant to section 4f(2) of the Act. At present, only the Chicago Board of Trade and the Chicago Mercantile Exchange have received this type of approval. However, the exemption provided by this paragraph would apply only to members of contract markets whose financial regulations have been approved by the Commission subsequent to the effective date of this regulation. Consequently, contract markets wishing to exempt their members from the Commission's financial reporting requirements would have to submit and obtain Commission approval of their rules after regulation 1.10, as revised, is placed into effect. Commission approval of contract market financial requirements pursuant to section 4f(2) of the Act would be forthcoming only if such requirements are consistent with those of the Commission. At a minimum, contract market rules for which such approval is sought would have to require: (i) That the members of the contract market submit quarterly financial statements; (ii) That such members submit annual financial statements certified to by an independent public accountant; (iii) That the qualifications and responsibilities of the independent public accountants so certifying these annual financial statements include those set forth in regulation 1.16; (iv) That the contents of the financial statements filed by members contain, at a minimum, the financial information which would be required by proposed regulation 1.10(d); (v) That such statements be filed with all contract markets of which the FCM is a member; (vi) That certain portions of a member's financial statements be sent to and/or made available to the member's customers; (vii) That members comply with a minimum capital requirement which is at least as stringent as that set forth in the Commission's regulations; (viii) That the computational formula used to determine compliance with this minimum capital requirement be substantially the same as that set forth in the Commission's regulations; and (ix) That each member formerly compute his financial status and his compute his financial status and his minimum financial requirements monthly.

Paragraph (b)(4) of the proposed rule contains a new provision which requires an FCM to furnish more frequent reports on Form 1–FR or to supply additional information upon the written request of a contract market or the Commission. This enables the contract markets and the Commission to obtain more timely information than is supplied by the quarterly report and is expected to be used on a case-by-case basis, normally where an FCM is thought to be in a questionable financial condition.

Where to file reports. Proposed regulation 1.10(c) requires that all reports provided for in regulation 1.10 be filed with the nearest regional office of the Commission and with all contract markets of which the registrant is a member. The present practice is for an FCM to submit his financial reports only to the nearest regional office of the Commission. The requirement of regulation 1.10(c) that such reports be furnished to the contract markets is in furtherance of the Commission's policy of promoting contract market self-regulation.[7] The sole exception

[1] Present rule 1.10(a) also refers to floor brokers. Since this reference will be eliminated, the Commission proposes to add new Rule 1.10a to provide for application for registration by floor brokers. The procedure for such applications would not be changed by the Commission's present proposal.

[7] The Commission is aware that a number of commodity exchanges are considering the establishment of a joint audit program to avoid duplication of effort where an FCM is a member of more than one commodity exchange. In that event, it might be sufficient for an FCM to file his reports with one exchange rather than with each exchange of which the FCM is a member. However, until the exchanges develop such a program, the Commission can see no other alternative which adequately facilitates self-regulation than the requirement that each exchange of which an FCM is a member receive a copy of each report.

to this requirement is the information required by the Commission or a contract market pursuant to paragraph (b)(4); such information need be furnished only to the Commission and the contract market requiring the information.

Contents of financial reports. Paragraph (d) of proposed regulation 1.10 describes the required contents of a Form 1–FR. Under current requirements, each Form 1–FR must contain a Statement of Financial Condition, a Statement of the Computation of the Minimum Capital Requirements Pursuant to Regulation 1.17, and a Schedule of Segregation Requirements and Funds on Deposit in Segregation. To these, the Commission proposes to add Statements of Income (Loss), Changes in Financial Position (and comparative Statements of Income (Loss) and Changes in Financial Position for the corresponding period of the prior year), Changes in Ownership Equity, and Changes in Liabilities Subordinated to the Claims of General Creditors. The first two statements are considered basic financial statements and serve as indicators of the present and future status of a firm's financial condition. The later two statements are relatively simple to prepare and provide important information with respect to changes in an FCM's capital structure which may be unobtainable from the other financial statements in the Form 1–FR. The Commission points out that the Statement of Changes in Ownership Equity would not require the disclosure of changes in the individual ownership positions of an FCM's stockholders or partners, but would instead provide important information with respect to changes in an FCM's general capital structure by requiring the disclosure of such things as: additional sales of stock or partnership units, retirements or repurchases of stock or partnership units, cash or stock dividends, prior period adjustments, and recapitalizations.[1]

All the above statements must be certified annually, including the comparative Statements of Income (Loss) and Changes in Financial Position for the corresponding period of the prior year. The comparative Statements of Income (Loss) and Changes in Financial Position for the corresponding period of the prior year need not be certified, if such certification would require an audit of a period prior to the effective date of proposed rule 1.10. The Statements of Income (Loss) and Changes in Financial Position must be for the period between the date of the most recent certified Statement of Financial Condition filed with the Commission and the date for which the report is made. For example, if the prior certified statement was as of December 31, 1977, and the report was made as of March 31, 1978, the income statement would be for the three months ending March 31, 1978, with a comparative income statement for three months ending March 31, 1977. If the report was for the period ending September 30, 1978, the income statement would be for the nine months ending September 30, 1978, the comparative income statement would be for the nine-month period ending September 30, 1977. The Commission does not intend to require income statements, certified or otherwise, which include periods prior to effective date of regulation 1.10.

In addition to the above statements and schedules, the Commission's proposal would require that the Form 1–FR be completed in accordance with the instructions thereto; that appropriate footnote disclosure be added; and that, in addition to the information expressly required, such further material information be added, if any, as may be necessary to prevent the required statements and schedules from being misleading.

The Statement of Financial Condition and the Statements of Income (Loss), Changes in Financial Position, Changes in Ownership Equity, and Changes in Liabilities Subordinated to Claims of General Creditors filed in connection with the certified reports required by proposed regulations 1.10(a)(2) and 1.10(b)(2) need not be filed in Form 1–FR format if the independent public accountant determines such format would be inconsistent with generally accepted accounting principles for the financial statements of the applicant or registrant. If such a determination is made, the Statement of Financial Condition must be presented in a format which is as consistent as possible with Form 1–FR and a reconciliation must be provided which reconciles the Statement of Financial Condition to the Statement of the Computation of the Minimum Capital Requirements Pursuant to § 1.17 of the Commission's regulations.

Election of fiscal year. Paragraph (e)(1) of proposed regulation 1.10 provides that each applicant or registrant may establish a fiscal year other than the calendar year. Paragraph (e)(2) concerns the election by an FCM to file its financial reports as of calendar quarters in lieu of fiscal quarters. Each applicant or registrant may establish a fiscal year other than a calendar year and may elect to file its financial reports as of calendar quarters in lieu of fiscal quarters by notifying the Commission and all contract markets of which it is a member, if any, of its election of such fiscal year or of its intent to file as of calendar quarters, in writing, concurrently with the filing of a Form 1–FR pursuant to paragraph (a)(2) of regulation 1.10 or within 90 days after the effective date of the regulation. An FCM may not change such elections or make such elections after such dates unless it makes written application and receives approval from the Commission.

Extension of time for filing reports. In the event any applicant or registrant finds that he cannot file one of the unaudited reports without substantial undue hardship, he may file with the Commission an application for extension of time to a specified date not more than 90 days after the date as of which the financial condition is reported. The application must state the reasons for the requested extension and must contain an agreement to file the report on or before the date specified in the application. Notice of such application must also be given to all contract markets of which the FCM is a member. The application will be deemed denied unless the Commission, within 10 days after the receipt thereof, notifies the applicant or registrant of the grant of an extension. The Commission anticipates that it will grant such extensions only in those rare situations where the applicant or registrant is able to demonstrate to the satisfaction of the Commission that substantial undue hardships will be incurred as a result of timely filing. The Commission will notify all contract markets of which the applicant or registrant is a member, if any, of the grant of any such extension. (Requests for extensions of time for filing certified financial statements are covered separately in the discussion of proposed regulation 1.16(f).)

DISCLOSURE OF FINANCIAL INFORMATION

Paragraph (g) of proposed rule 1.10 provides that all Forms 1–FR filed pursuant to the rule will be public, except that, if the Statement of Financial Condition, the Computation of Minimum Capital Requirements Pursuant to Section 1.17 and the Schedule of Segregation Requirements and Funds on Deposit in Segregation are bound separately from the other financial statements and schedules of the Form 1–FR, certain information on such other statements and schedules will be deemed privileged or confidential. The report of the independent public accountant will be deemed public information. The Freedom of Information Act, 5 U.S.C. 552, requires that the Commission make its records available upon request to members of the public, unless such records fall within certain exemptions. Included among those exemptions are "trade secrets and commercial or financial information obtained from a person and privileged or confidential." The Commission has taken the position in Part 145 of its regulations, 17 CFR Part 145, that an FCM's Statement of Financial Condition and its Schedule of Segregation Requirements and Funds on Deposit in Segregation are not within this exemption. If paragraph (g) of proposed rule 1.10 is adopted as proposed, that portion of the Commission's regulations implementing the Freedom of Information Act, 17 CFR Part 145, will be amended so as to classify an FCM's Computation of Minimum Capital Requirements and the report of the independent public accountant as public records as well.

Paragraph (h) of proposed rule 1.10 would require that each certified Statement of Financial Condition, Computation of the Minimum Capital Requirements Pursuant to § 1.17, and the opinion of the independent public accountant, with appropriate footnote disclosures, be sent to all customers of the registrant

[1] The Commission also notes that the approximately fifty FCM's currently registered with the Securities and Exchange Commission as broker-dealers are required to prepare this statement under the rules of that agency.

with open contracts or credit balances and be available for examination upon request at all offices of the registrant where customer business is transacted. In addition, each uncertified Statement of Financial Condition and Computation of the Minimum Capital Requirements Pursuant to § 1.17, with appropriate footnotes, filed pursuant to regulation 1.10 must be made available for examination upon request at all offices of the registrant where customer business is transacted.

The Commission's present rules do not require that FCM's make any financial disclosures to their customers. However, the Commission believes that customers have a right to know the financial condition of the FCM's with whom they entrust their funds. Accordingly, the Commission proposes to require the financial disclosures to customers as set forth above. Such requirements would serve as a form of customer protection by providing customers with a readily available source of information upon which to make informed judgments in selecting a commodity broker. In so doing, these requirements may also act as an incentive for FCM's to maintain strong financial positions if they believe customers may take their financial reports into consideration in choosing an FCM. The Commission points out that neither its proposed position on public access to FCM financial statements nor its proposed disclosure to customers requirement is a new concept. The approximately fifty FCM's who are currently registered as broker-dealers with the Securities and Exchange Commission, and who account for approximately half of all customer business in the futures industry, are presently subject to similar provisions under the rules of that agency.

SUMMARY OF PROPOSED REGULATION 1.16: QUALIFICATIONS AND REPORTS OF ACCOUNTS

Proposed regulation 1.10 would require that the initial Form 1–FR filed by an applicant for registration as an FCM and the Form 1–FR filed each fiscal year thereafter be certified by an independent public accountant. Proposed regulation 1.16 details qualifications required of such independent public accountants and sets certain guidelines which must be followed in the conduct of the examination of an FCM's Form 1–FR.

Accountants who certify financial statements which are to be filed with the Commission must adhere to the standards the Commission promulgates for such filings. Failure to do so can lead to wtihdrawal of the accountant's right to practice before the Commission pursuant to 17 CFR Part 14. Any accountant who has been barred from practicing before the Commission pursuant to 17 CFR Part 14 for this or any other reason will not be considered a qualified accountant for purposes of regulation 1.16.

Definitions. Paragraph (a) of proposed regulation 1.16 defines certain terms used in proposed regulations 1.16 and 1.10.

The term "accountant's report" is defined as a document in which an independent licensed or certified public accountant indicates the scope of the audit (or examination) and sets forth his opinion regarding the financial statements. When an unqualified opinion can not be expressed, the reasons therefore must be stated.

The term "audit" is defined as an examination of the financial statements by an accountant in accordance with generally accepted auditing standards for the purpose of expressing an opinion thereon.

The term "certified" is defined to mean audited and reported upon with an opinion expressed by an independent certified public accountant or independent licensed public accountant.

Qualifications of accountants. The Commission will recognize only certified public accountants who are duly registered and in good standing under laws of their place of residence or principal office and licensed public accountants who are duly licensed on or before December 31, 1970, and in good standing under the laws of their place of residence or principal office.

The accountant must be independent in fact and in form. Examples of situations in which the accountant would not be considered independent are set forth in paragraph (b)(2) of proposed regulation 1.16. The Commission will give appropriate consideration to all relevant circumstances, including evidence bearing on all relationships between the accountant and the registrant or applicant and any affiliate thereof, and will not confine itself to any relationship existing in connection with the reports filed with the Commission, in determining whether an accountant is in fact independent. This provision is similar to Regulation S–X of the Securities and Exchange Commission. The Commission proposes the use of this provision because the accounting profession is familiar with it and has found it to be a satisfactory, workable concept, and the Securities and Exchange Commission's experience with it generally has been good.

Accountant's reports. Regulation 1.16(c) describes the technical requirements of the accountant's reports, the representations as to the audit that the accountant must make, and the statement of opinion to be expressed by the accountant. It also sets forth what is to be included in the accountant's report if the accountant takes exception to any matters related to the financial statements. It should be noted that the accountant must review the procedures of the FCM for safeguarding customer and firm assets and must so state in that paragraph of the opinion setting forth the scope of the audit.

Audit objectives. The audit must be made in accordance with generally accepted auditing standards and must include a review of the accounting system, the internal accounting control, and the procedures for safeguarding customer and firm assets, including appropriate tests thereof, since the prior examination date. For those firms having initial certified audits because of the promulgation of proposed regulation 1.10 and for those persons applying for registration under proposed regulation 1.10(a)(2), the tests would be confined to the period being reported on. The audit must include all procedures necessary under the circumstances to enable the independent public accountant to express an opinion on the financial statements and schedules as well as on the adequacies of the internal control procedures. The scope of the audit and review must be sufficient to provide reasonable assurance that any material inadequacies existing at the date of the examination will be discovered.

Accountants should be aware that in order to conduct a proper audit under these rules, they must be familiar with the rules and regulations of the Commission and in particular with the segregation requirements of section 4d(2) of the Act and the regulations thereunder. The accountant must assure himself that the daily computations of the segregation requirements are being computed in accordance with such requirements. In addition, the accountant must ascertain that the periodic computations of the minimum capital requirements are being made in accordance with regulation 1.17 and are being computed monthly in accordance with proposed regulation 1.18. The Commission anticipates that it will selectively review the FCM audits conducted by independent public accountants to monitor compliance with the auditing standards set forth in proposed regulation 1.16.

Extent and timing of audit procedures. If, during the course of an audit or interim work, the accountant determines that any material inadequacies exist (as described in the audit objectives of paragraph (d)(1) of proposed rule 1.16), he must call it to the attention of the FCM, who has the responsibility to inform the Commission and all contract markets of which the FCM is a member, if any, of such inadequacies by written notice within 24 hours given thereafter. The FCM must also furnish the accountant with a copy of the notice to the Commission within the same 24 hour period. If the accountant fails to receive such notice from the firm within the 24 hour period, or if he disagrees with the statements contained in the notice, the accountant must notify the Commission and all contract markets of which the FCM is a member, of the material inadequacy within the next 24 hour period.

The Commission believes it is the responsibility of the independent auditors to determine the extent and timing of their audit procedures. The audits must, at a minimum, be made in accordance with generally accepted auditing standards and the audit objectives set forth in paragraph (d) of proposed regulation 1.16. In determining the extent of testing, consideration must be given to the materiality of an area and the possible affect on the financial statements and schedules of a material misstatement in a related account.

Extension of time for filing audit reports. Paragraph (f) of proposed regulation 1.16 describes the procedures that must be followed in requesting an exten-

sion of time on a report which is required to be certified in accordance with proposed regulation 1.10. An application for extension of time to a specified date, which may not be more than 90 days after the date as of which the financial condition is reported, must be filed with the principal office of the Commission in Washington, D.C. Notice of such application must be sent to all contract markets of which the FCM is a member. The application must be made by the FCM and must (1) state the reasons for the request of the extension; (2) indicate that the inability to make a timely filing is due to circumstances beyond the control of the FCM, if such is the case; (3) be accompanied by the latest available formal computations of his adjusted working capital and of his minimum financial requirements; (4) be accompanied by the latest available computation of required segregation and by a computation of the funds actually in segregation as of the date of the required segregation computation; (5) contain an agreement to file the report on or before the date specified in the application; (6) be received by the Commission and all contract markets of which the applicant or registrant is a member, prior to the date on which the report is due; and (7) be accompanied by a letter from the independent public accountant which answers certain questions which are specified in paragraph (f) of proposed regulation 1.16.

An application for extension of time will be deemed denied unless the Commission, within ten days of the receipt thereof, notifies the FCM of the grant of an extension or that additional time is required to analyze the application satisfactorily, in which case the time needed shall be specified.

Replacement of an accountant. Pursuant to paragraph (g) of proposed regulation 1.16, an FCM would be required to file notice with the Commission and all appropriate contract market when the principal accountant of the FCM, or the principal account of a material subsidiary of the FCM, is replaced. The notice must describe any disagreements with the former accountant on any matter of accounting principles or practices, financial statements disclosure, auditing scope or procedures, or compliance with the applicable rules of the Commission, which disagreements, if not resolved to the satisfaction of the former accountant, would have caused him to make reference in his report to the subject matter of the disagreements. The FCM must also request the former accountant to furnish a letter addressed to the Commission stating whether he agrees with the statements contained in the notice of the applicant or registrant and, if not, stating in which respects he does not agree.

If (1) within 24 months prior to the date of the most recent certified financial statements, a notice was filed pursuant to paragraph (g) (1) of regulation 1.16, (2) included in such filing there is a reported disagreement, (3) during the fiscal year in which the change in accountants took place or during the subsequent fiscal year, there have been any transactions or events similar to those which involved a reported disagreement, and (4) such transactions or events are material and were accounted for or disclosed in a manner different from that which the former accountant apparently concluded was required, the existence and nature of the disagreements and the effect of such disagreements on the financial statements must be disclosed in a written notice to the Commission and all contracts markets of which the applicant or registrant is a member.

SUMMARY OF PROPOSED REVISIONS TO REGULATION 1.17—MINIMUM FINANCIAL REQUIREMENTS

Paragraph (b) of regulation 1.17 currently provides an exemption from the Commission's minimum financial requirements if the applicant or registrant is a member of a contract market and conforms to minimum financial standards and related reporting requirements of the contract market approved by the Commission pursuant to section 4f(2) of the Act. The proposed amendment to regulation 1.17 would provide a similar exemption, provided the financial standards of the appropriate contract market have been approved by the Commission subsequent to the effective date of these regulations. Previously approved contract market financial standards would have to be resubmitted for Commission review to determine if they meet with the Commission's new standards in order to enable the contract market's members to take advantage of the revised exemption.

The Commission anticipates that it will shortly propose a comprehensive revision of regulation 1.17. Under this anticipated revision, a contract market's financial standards would be approved by the Commission only if the contract market employed the same uniform computational formula as the Commission to determine compliance with its financial requirements. The Commission's financial requirements would then represent a minimum which the contracts markets could increase as deemed appropriate, but not decrease.

SUMMARY OF PROPOSED REVISION TO REGULATION 1.18: RECORDS FOR AND RELATING TO FINANCIAL REPORTING AND MONTHLY COMPUTATIONS

Paragraphs (a) and (c) of regulation 1.18 would remain unchanged. Paragraph (b) would be deleted in its entirety and a new paragraph (b) added. The present paragraph (b) requires a trial balance as of the end of each month.

Proposed paragraph (b) of regulation 1.18 would require each registrant to make, and to keep a record of, formal computations of his adjusted working capital and of his minimum capital requirements pursuant to regulation 1.17 as of the close of business each month. Such computation must be completed and made available for inspection by any representative of the Commission or any contract market of which the registrant is a member, if any, by the close of the tenth business day after the date for which the computations are made.

Such formal computations will admittedly place an additional burden on FCM's; however, without such computations the Commission believes it may not receive adequate notice of significant adverse changes in an FCM's capital structure. Without adequate notice of such changes, the Commission may be unable to take action to insure the protection of customer funds.[*]

Ideally, a registrant should compute its minimum capital requirements formally before the firm opens for business each day. However, it has been suggested that only a handful of firms with the most sophisticated accounting systems may be able to comply with a daily computation requirement. Moreover, while it is undoubtedly possible for an FCM with reasonable controls to make these computations weekly, such a requirement may be overly burdensome. In order to balance these conflicting factors, the Commission is proposing a monthly computation requirement.

FORM 1–FR

The Form 1–FR remains the same except that the title of Schedule I has been changed from "Determination of Adequacy of Capital Positions in Meeting Minimum Capital Requirements" to "Statement of the Computation of the Minimum Capital Requirements Pursuant to 1.17," and a "Statement of Income," a "Statement of Changes in Financial Position," a "Statement of Changes in Liabilities Subordinated to the Claims of General Creditors," and a "Statement of Changes in Ownership Equity" have been added. The format of the new statements is contained in Appendix A.

AUTHORITY

The following amendments of 17 CFR Part 1 are proposed under the authority of sections 4f, 4g and 8a of the Commodity Exchange Act, as amended (7 U.S.C. 6f, 6g and 12a).

In consideration of the foregoing, the Commission hereby proposes to amend 17 CFR Part 1 as follows:

1. By revising § 1.10 to read as follows:

§ 1.10 Application for registration and financial reports of Futures Commission Merchants.

(a) *Application for registration.* (1) Application for registration as a futures commission merchant must be made on Form 1–R. Each application must be executed and filed in accordance with the instructions accompanying the form.

(2) Except as provided in paragraph (a) (3) of this section, each person who files an application for registration as a futures commission merchant, and who

[*] The Commisison is presently developing a comprehensive early warning system based in part on compliance with this minimum capital requirements computation. If such an early warning system is adopted, the current regulation 1.18(c) would be replaced by this system.

is not so registered at the time of such filing, must, concurrently with the filing of such application, file a Form 1–FR as of a date not more than 45 days prior to the date on which such report is filed. Each such person must include with such financial report a statement describing the source of his current assets and representing that his capital has been contributed for the purpose of operating his business and will continue to be used for such purpose. Such Form 1–FR must be certified by an independent public accountant in accordance with § 1.16.

(3) The provisions of paragraph (a) (2) of this section do not apply to any person succeeding to and continuing the business of another futures commission merchant. Each such person who files an application for registration as a futures commission merchant and who is not so registered at the time of such filing must file a Form 1–FR as of the first month-end following the date on which his registration is approved. Such report must be filed with the Commission and all contract markets of which the applicant is a member, if any, not more than 30 days after the date for which the report is made.

(b) *Filing of financial reports.* (1) Except as provided in paragraph (b) (3) of this section, each person registered as a futures commission merchant must file a Form 1–FR for each fiscal quarter of each fiscal year: *Provided, however,* If a registrant so elects pursuant to paragraph (e) (2) of this section, a registrant may file a Form 1–FR for each calendar quarter of each calendar year. Each such Form 1–FR must be filed no later than 30 days after the date for which the report is made: *Provided, however,* That any Form 1–FR which must be certified by an independent public accountant pursuant to paragraph (b) (2) of this section must be filed no later than 60 days after the close of each registrant's fiscal year. Paragraph (b) (1) of this section will be applicable to all fiscal quarters beginning after (the effective date of this section) but in no event more than 90 days after (such effective date).

(2) The Form 1–FR filed pursuant to paragraph (b) (1) of this section as of the close of the registrant's fiscal year must be certified by an independent public accountant in accordance with § 1.16. A registrant who has elected to file its Forms 1–FR for each calendar quarter of each calendar year pursuant to paragraph (e) (2) of this section, must nonetheless file a form Form 1–FR as of the close of such registrant's fiscal year.

(3) The provisions of paragraphs (b) (1) and (b) (2) of this section shall not apply to any person registered as a futures commission merchant who is a member of a contract market and conforms to minimum financial standards and related reporting requirements set by such contract market in its bylaws, rules, regulations or resolutions and approved after (the effective date of these regulations) by the Commission pursuant to section 4f(2) of the Act: *Provided, however,* That each such registrant shall promptly file with the Commission a true and exact copy of each financial report which it files with such contract market.

(4) Upon receiving written notice from any representative of the Commission or any contract market of which it is a member, an applicant or registrant must, monthly or at such times as specified, furnish the Commission and the contract market requesting such information, if any, with a Form 1–FR and/or such other financial information as requested by the representative of the Commission or the contract market. Each such Form 1–FR or such other information must be furnished within the time period specified in the written notice.

(c) *Where to file reports.* The reports provided for in this § 1.10 will be considered filed when received by the regional office of the Commission where the applicant or registrant has its principal place of business and by all contract markets of which the applicant or registrant is a member, if any; *Provided, however,* That information required of an applicant pursuant to paragraph (b) (4) of this section need be furnished only to the Commission and the contract market requesting such information.

(d) *Contents of financial reports.* (1) Each Form 1–FR filed pursuant to this § 1.10 must be completed in accordance with the instructions to the form. Each Form 1–FR must contain: (i) A Statement of Financial Condition as of the date for which the report is made; (ii) Statements of Income (Loss), Changes in Financial Position, Changes in Ownership Equity, and Changes in Liabilities Subordinated to Claims of General Creditors, for the period between the date of the most recent certified Statement of Financial Condition filed with the Commission (or the beginning of the fiscal quarter immediately following the (effective date of this rule) but in no event more than 90 days after (such effective date)) and the date for which the report is made, together with Statements of Income (Loss) and Changes in Financial Position for the corresponding period of the previous year: *Provided,* That if such statements are filed as part of the certified statements required by paragraphs (a) (2) or (b) (2) of this section, such statements must be for the entire fiscal year; (iii) a Statement of the Computation of the Minimum Capital Requirements Pursuant to § 1.17, and a Schedule of Segregation Requirements and Funds on Deposit in Segregation, all as of the date for which the report is made; (iv) appropriate footnote disclosures; and (v) in addition to the information expressly required, such further material information, if any, as may be necessary to make the required statements and schedules not misleading.

(2) The statements required by paragraphs (d) (1) (i) and (d) (1) (ii) of this section may be presented in accordance with generally accepted accounting principles in the certified reports filed as of the close of the registrant's fiscal year pursuant to paragraph (b) (2) of this section or accompanying the application for registration pursuant to paragraph (a) (2) of this section, rather than in the format specifically prescribed by these regulations: *Provided,* The Statement of Financial Condition is presented in a format as consistent as possible with the Form 1–FR and a reconciliation is provided reconciling such Statement of Financial Condition to the Statement of the Computation of the Minimum Capital Requirements Pursuant to § 1.17. Such reconciliation must be certified by an independent public accountant in accordance with § 1.16.

(3) Attached to each Form 1–FR filed pursuant to this § 1.10 must be an oath or affirmation that to the best knowledge and belief of the individual making such oath or affirmation the information contained in the Form 1–FR is true and correct. If the applicant or registrant is a sole proprietorship, then the oath or affirmation must be made by the proprietor; if a partnership, by a general partner; or if a corporation, by the chief executive officer and chief financial officer.

(e) *Election of fiscal year.* (1) Any applicant or registrant wishing to establish a fiscal year other than the calendar year may do so by notifying the Commission and all contract markets of which it is a member, if any, of its election of such fiscal year in writing, concurrently with the filing of the Form 1–FR pursuant to paragraph (a) (2) of this section or within 90 days of (the effective date of this section), but in no event may such fiscal year end more than one year from the date of the Form 1–FR filed pursuant to paragraph (a) (2) of this section or more than one year from (the effective date of this regulation). An applicant or registrant which does not so notify the Commission and all contract markets of which it is a member will be deemed to have elected the calendar year as its fiscal year. A registrant must continue to use its elected fiscal year, calendar or otherwise, unless a change in such fiscal year is approved upon written application to the principal office of the Commission in Washington, D.C., and written notice of such change is given to all contract markets of which the registrant is a member.

(2) Any applicant or registrant may elect to file its Forms 1–FR for each calendar quarter in lieu of each fiscal quarter by notifying the Commission and all contract markets of which it is a member, if any, of its election, in writing, concurrently with the filing of the Form 1–FR pursuant to paragraph (a) (2) of this section or within 90 days after (the effective date of this section). Any registrant wishing to change such election or to make such election other than concurrently with the filing of the Form 1–FR pursuant to paragraph (a) (2) of this section or within 90 days of (the effective date of this section) may do so only if such change or election is approved by the Commission upon written application to the principal office of the Commission in Washington, D.C., and written notice of such change is given to all contract markets of which the registrant is a member.

V41201 OCT 15 76 UMI

(f) *Extension of time for filing reports.* In the event any applicant or registrant finds that it cannot file its report for any period within the time specified in paragraphs (a)(3), (b)(1), or (b)(4) of this section without substantial undue hardship, it may file with the principal office of the Commission in Washington, D.C., an application for an extension of time to a specified date which may not be more than 90 days after the date as of which its financial condition is reported. The application must state the reasons for the requested extension and must contain an agreement to file the report on or before the specified date. The application must be received by the Commission on or before the time specified in paragraphs (a)(3), (b)(1), or (b)(4) of this section for filing the report. Notice of such application must be given to all contract markets of which the applicant or registrant is a member, if any, concurrently with the filing of such application with the Commission. An application for extension of time will be deemed denied unless the Commission, within ten days after receipt of the application, notifies the applicant or registrant of the grant of an extension. (See § 1.16(f) for extension of the time for filing certified financial statements.)

(g) *Confidentiality of reports.* All of the Forms 1-FR filed pursuant to this section will be public; provided, however, that if the Statement of Financial Condition, the Computation of the Minimum Capital Requirements Pursuant to § 1.17, and the Schedule of Segregation Requirements and Funds on Deposit in Segregation are bound separately from the other financial statements and schedules of Form 1-FR, trade secrets and certain other commercial or financial information on such other statements and schedules will be deemed privileged or confidential. All information on such other statements and schedules will, however, be available for official use by any official or employee of the United States or any state, by any contract market of which the person filing such report is a member, and by any other person to whom the Commission believes disclosure of such information is in the public interest. Nothing in this paragraph (g) will limit the authority of any contract market to request or receive any information relative to its members' financial condition. The independent accountant's opinion filed pursuant to this § 1.10 will be deemed public information.

(h) *Financial reports to be sent to customers and made available for public inspection.* Each certified Statement of Financial Condition, Computation of the Minimum Capital Requirements Pursuant to § 1.17, and each opinion of the independent public accountant, with appropriate footnotes, filed pursuant to paragraph (b)(2) of this section, must be sent to all customers of the registrant with open contracts or credit balances and must be available for examination upon request at all offices of the registrant where customer business is transacted. Each such statement and opinion must be sent to customers and made available for examination no later than 45 days after the date that such statements are required to be filed pursuant to paragraph (b)(1) of this section. In addition, each Statement of Financial Condition and each Statement of the Computation of the Minimum Capital Requirements Pursuant to § 1.17, with appropriate footnotes, filed pursuant to this § 1.10 must be made available for examination upon request at all offices of the registrant where customer business is transacted.

2. By adding a new § 1.10a as follows:

§ 1.10a Application for Registration of Floor Brokers.

Application for registration as a floor broker shall be made on Form 2-R. Each application shall be executed and filed in accordance with the instructions accompanying the form.

3. By adding a new § 1.16 as follows:

§ 1.16 Qualifications and Reports of Accountants.

(a) *Definitions*—(1) *Accountant's report.* The term "accountant's report," when used in regard to financial statements, means a document in which an independent licensed or certified public accountant indicates the scope of the audit (or examination) which he has made and sets forth his opinion regarding the financial statements taken as a whole or an assertion to the fact that an overall opinion can not be expressed. When an overall opinion can not be expressed, the reasons therefore must be stated.

(2) *Audit or Examination.* The terms "audit" and "examination," when used in regard to financial statements, mean an examination of the statements by an accountant in accordance with generally accepted auditing standards for the purposes of expressing an opinion thereon.

(3) *Certified.* The term "certified," when used in regard to financial statements, means audited and reported upon with an opinion expressed by an independent certified public accountant or independent licensed public accountant.

(b) *Qualifications of Accountants.* (1) The Commission will recognize any person as a certified public accountant who is duly registered and in good standing as such under the laws of the place of his residence or principal office. The Commission will recognize any person as a licensed public accountant who was duly licensed on or before December 31, 1970, and is in good standing as such under the laws of the place of his residence or principal office.

(2) The Commission will not recognize any certified public accountant or licensed public accountant as independent who is not in fact independent. For example, an accountant will not be considered independent with respect to any applicant or registrant or any parent, subsidiary, or other affiliate of such applicant or registrant (i) in which, during the period of his professional engagement to examine the financial statements being reported on or at the date of his report, he or his firm or a member thereof had, or was committed to acquire, any direct financial interest or any material indirect financial interest, or (ii) with which, during the period of his professional engagement to examine the financial statements being reported on, at the date of his report or during the period covered by the financial statements, he or his firm or a member thereof was connected as a promoter, underwriter, voting trustee, director, officer, or employee, except that a firm will be deemed independent with respect to an applicant or registrant and its affiliates if a former employee or officer of such applicant or registrant or any such affiliate is employed by the firm and such individual has completely disassociated himself from the applicant or registrant and its affiliates and does not participate in auditing financial statements of the applicant or registrant or its affiliates covering any period of his employment by the applicant or registrant or its affiliate. An accountant will not be considered independent if he or his firm or a member thereof performs manual or automated bookkeeping services or assumes responsibility for maintenance of the accounting records, including accounting classification decisions, of such applicant or registrant or any of its affiliates. For the purposes of this § 1.16(b), the term "member" means all partners in the firm and all professional employees participating in the audit or located in the office of the firm participating in a significant portion of the audit.

(3) In determining whether an accountant may in fact not be independent with respect to a particular applicant or registrant, the Commission will give appropriate consideration of all relevant circumstances, including evidence bearing on all relationships between the accountant and that applicant or registrant or any affiliate thereof, and will not confine itself to the relationship existing in connection with the filing of reports with the Commission.

(c) *Accountant's Reports*—(1) *Technical requirements.* The accountant's report (i) must be dated, (ii) must be signed manually, (iii) must indicate the city and state where issued and (iv) must identify without detailed enumeration the financial statements covered by the report.

(2) *Representations as to the audit.* The accountant's report (i) must state whether the audit was made in accordance with generally accepted auditing standards, (ii) must state whether the accountant reviewed the procedures followed for safeguarding customer and firm assets in accordance with the provisions of the Act and the regulations thereunder, and (iii) must designate any auditing procedures deemed necessary by the accountant under the circumstances of the particular case which have been omitted and the reasons for their omission. However, nothing in this paragraph (c)(2) shall be construed to imply authority for the omission of any procedure

which independent accountants would ordinarily employ in the course of an audit made for the purposes of expressing the opinions required by paragraph (c)(3) of this section.

(3) *Opinions to be expressed.* The accountant's report must state clearly: (i) The opinion of the accountant with respect to financial statements covered by the report and the accounting principles and practices reflected therein and (ii) the opinion of the accountant as to the consistency of the application of the accounting principles, or as to any changes in such principles which have material effect on the financial statements.

(4) *Exceptions.* Any matters to which the accountant takes exception must be clearly identified, the exceptions thereto specifically and clearly stated, and to the extent practicable, the effect of each such exception on related financial statements given.

(d) *Audit objectives.* (1) The audit must be made in accordance with generally accepted auditing standards and must include a review of the accounting system, the internal accounting control, and the procedures for safeguarding customer and firm assets in accordance with the provisions of the Act and the regulations thereunder, including appropriate tests thereof, since the prior examination date. The audit must include all procedures necessary under the circumstances to enable the independent licensed or certified public accountant to express an opinion on the financial statements and schedule. The scope of the audit and review of the accounting system, the internal controls, and procedures for safeguarding customer and firm assets must be sufficient to provide reasonable assurance that any material inadequacies existing at the date of the examination in (i) the accounting system, (ii) the internal accounting controls, and (iii) the procedures for safeguarding customer and firm assets (including the segregation requirements of section 4d(2) of the Act and the regulations thereunder) will be discovered. Additionally, as specified objectives the audit must include reviews of the practices and procedures followed by the registrant in making (a) periodic computations of the minimum capital requirements pursuant to § 1.17 and (b) daily computations of the segregation requirements of section 4d(2) of the Act and the regulations thereunder.

(2) A material inadequacy in the accounting system, the internal accounting controls, the procedures for safeguarding customer and firm assets, and the practices and procedures referred to in paragraph (d)(1) of this section which is to be reported in accordance with paragraph (e)(2) of this section includes any conditions which contributed substantially to or, if appropriate corrective action is not taken, could reasonably be expected to (i) inhibit an applicant or registrant from promptly completing transactions or promptly discharging his responsibilities to customers and other creditors, (ii) result in material financial loss, (iii) result in material misstatement of the applicant's or registrant's financial statements, or (iv) result in violations of the Commission's segregation, recordkeeping or financial reporting requirements.

(e) *Extent and timing of audit procedures.* (1) The extent and timing of audit procedures are matters for the independent public accountant to determine on the basis of his review and evaluation of existing internal controls and other audit procedures performed in accordance with generally accepted auditing standards and the audit objectives set forth in paragraph (d) of this section. In determining the extent of testing, consideration must be given to the materiality of an area and to the possible effect on the financial statements and schedules of a material misstatement in a related account.

(2) If during the course of an audit or interim work, the independent public accountant determines that any material inadequacies exist in the accounting system, in the internal accounting control, in the procedures for safeguarding customer or firm assets, or as otherwise defined in paragraph (d) of this section, he must call it to the attention of the applicant or registrant, who has the responsibility to inform the Commission and all contract markets of which the applicant or registrant is a member, if any, of such inadequacies by written notice to be received by the Commission at its principal office in Washington, D.C., within 24 hours thereafter. The applicant or registrant must also furnish the accountant with a copy of said notice to the Commission within such 24 hour period. If the accountant fails to receive such notice from the applicant or registrant within said 24 hour period or if he disagrees with the statements contained in the notice of the applicant or registrant, the accountant must inform the Commission and all contract markets of which the applicant or registrant is a member, if any, by reporting the material inadequacy within 24 hours thereafter. Such report from the accountant must if the applicant or registrant failed to file a notice, describe the material inadequacies found to exist. If the applicant or registrant filed a notice, the accountant must file a report detailing the aspects, if any, of the applicant's or registrant's notice with which the accountant does not agree.

(f) *Extension of time for filing audited reports.* (1) In the event any applicant or registrant finds that it cannot file its audited reports for any year within the time specified in § 1.10 without substantial undue hardship, it may file with the principal office of the Commission in Washington, D.C., an application for extension of time to a specified date not more than 90 days after the date as of which the financial condition must be reported. Notice of such application must be sent to all contract markets of which the applicant or registrant is a member. The application must be made by the applicant or registrant and must: (i) State the reasons for the requested extension; (ii) indicate that the inability to make a timely filing is due to circumstances beyond the control of the applicant or registrant, if such is the case, and describe briefly the nature of such circumstances; (iii) be accompanied by the latest available formal computations of his adjusted working capital and of his minimum financial requirements pursuant to § 1.18 (b); (iv) be accompanied by the latest available computation of required segregation pursuant to regulation 1.32 and by a computation of the amount of money, securities, and property segregated on behalf of customers as of the date of the latest available computation under regulation 1.32; (v) contain an agreement to file the report on or before the date specified by the applicant or registrant in the application; (vi) be received by the principal office of the Commission in Washington, D.C., and by all contract markets of which the applicant or registrant is a member, if any, prior to the date on which the report is due; and (vii) be accompanied by a letter from the independent public accountant answering the following questions:

(A) What specifically are the reasons for the extension request?

(B) On the basis of that part of your audit to date, do you have any indication that may cause you to consider commenting on any material inadequacies in the accounting system, internal accounting controls or procedures for safeguarding customer or firm assets?

(C) Do you have any indication from the part of your audit completed to date that would lead you to believe that the firm was or is not meeting the minimum capital requirements specified in § 1.17 or the segregation requirements of section 4d(2) of the Act and the regulations thereunder, or has any significant financial or recordkeeping problems?

(2) An application for extension of time will be deemed denied unless the Commission, within ten days of the receipt of the application, notifies the applicant or registrant (i) of the grant of an extension, or (ii) that additional time is required to conduct an adequate review of the application, in which case the time needed shall be specified.

(3) On the written request of any contract market or an applicant or registrant, or on its own motion, the Commission may grant an extension of time or an exemption from any of the certified financial reporting requirements of this chapter either unconditionally or on specified terms and conditions.

(g) *Replacement of Accountant.* (1) In the event (i) the independent public accountant who was previously engaged as the principal accountant to audit an applicant's or registrant's financial statements resigns (or indicates he declines to stand for re-election after the completion of the current audit) or is dismissed as the applicant's or registrant's principal accountant, (ii) another independent accountant is engaged as principal accountant, or (iii) an independent accountant on whom the principal accountant expresses reliance in his report regarding a material subsidiary resigns (or formally indicates he declines to stand for re-election after completion

V41201 OCT 15 76 UMI

of the current audit) or is dismissed or another independent public accountant is engaged to audit that subsidiary, the applicant or registrant shall file written notice of such occurrence with the Commission at its principal office in Washington, D.C., and with all contract markets of which the applicant or registrant is a member, if any, not more than 15 days after such occurrence.

(2) Such notice must state (i) the date of such resignation (or declination to stand for re-election, dismissal or engagement) and (ii) whether, in connection with the audits of the two most recent fiscal years and any subsequent interim period preceding such resignation, dismissal or engagement, there were any disagreements with the former accountant on any matter of accounting principles or practices, financial statements disclosure, auditing scope or procedures, or compliance with the applicable rules of the Commission, which, if not resolved to the satisfaction of the former accountant, would have caused him to make reference in connection with his report to the subject matter of the disagreements (if so, describe such disagreements). The disagreements required to be reported in this paragraph (g) (2) include both those resolved to the former accountant's satisfaction and those not resolved to the former accountant's satisfaction. Disagreements contemplated by this paragraph (g) (2) are those which occur at the decision making level, i.e., between personnel of the registrant responsible for presentation of its financial statement and personnel of the accounting firm responsible for rendering its report. The notice must also state whether the accountant's report on the financial statements for any of the past two years contained an adverse opinion or a disclaimer of opinion or was qualified as to uncertainties, audit scope, or accounting principles (if so, describe the nature of each such adverse opinion, disclaimer of opinion, or qualification). The applicant or registrant must also request the former accountant to furnish the applicant or registrant with a letter addressed to the Commission stating whether he agrees with the statements contained in the notice of the applicant or registrant and, if not, stating the respects in which he does not agree. Each copy of the notice and accountant's letter must be manually signed by the sole proprietor or a general partner or a duly authorized corporate officer of the applicant or registrant, as appropriate, and by the accountant.

(3) If (i) within the 24 months prior to the date of the most recent audited financial statement, a notice has been filed pursuant to paragraph (g) (1) of this section reporting a change of accountants, (ii) included in such filing there is a reported disagreement on any matters of accounting principles or practices, financial statements disclosure, auditing scope, or noncompliance with the applicable rules of the Commission, (iii) during the fiscal year in which the change in accountants took place or during the subsequent fiscal year, there have been any transactions or events similar to those which involved a reported disagreement, and (iv) such transactions or events are material and were accounted for or disclosed in a manner different from that which the former accountant apparently would have concluded was required, the existence and nature of the disagreements and also the effect on the financial statements must be stated in a written notice to the Commission at its principal office in Washington, D.C., and all contract markets of which the applicant or registrant is a member, if any, if the method which the former accountant apparently would have concluded was required had been followed. These disclosures need not be made if the method asserted by the former accountant ceases to be generally accepted because of authoritative standards or interpretations subsequently issued. The notice required by this paragraph (g) (3) must be filed by the applicant or registrant concurrently with the financial statements to which it pertains.

§ 1.17 [Amended]

4. By revising § 1.17(b) to read as follows:

* * * * *

(b) The requirements of paragraph (a) of this section shall not be applicable if the applicant for registration or the registrant is a member of a contract market and conforms to minimum financial standards and related reporting requirements set by such contract market in its bylaws, rules, regulations or resolutions approved by the Commission pursuant to section 4f(2) of the Act after the effective date of this regulation.

* * * * *

§ 1.18 [Amended]

5. By revising § 1.18(b) to read as follows:

* * * * *

(b) Each applicant or registrant must make and keep as a record in accordance with § 1.31, formal computations of his adjusted working capital and of its minimum financial requirements pursuant to § 1.17 as of the close of business each month. Such computations must be completed and made available for inspection by any representative of the Commission or any contract market of which the applicant or registrant is a member, if any, by the close of the tenth business day after the date for which the computations are made, commencing the first month end after the date his application for registration is filed or the first month end after (the effective date of this section).

DESIGNATION OF MEDICALLY UNDERSERVED AREAS

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

MEDICALLY UNDERSERVED AREAS AND POPULATION GROUPS

Designation

The purpose of this notice is to publish the current list of medically under served areas as designated by the Secretary of Health, Education, and Welfare. The notice describes how the index of medical underservice is used to produce the list of medically underserved areas, and sets forth the procedure for ongoing revision of the list.

The Secretary's first designation of medically underserved areas, under the provisions of the Health Maintenance Organization Act of 1973 (Pub. L. 93-222), appeared as a notice in the FEDERAL REGISTER on September 2, 1975 (40 FR 40315-451). The notice contained a full description of the methodology for determining medical underservice. Single copies can be obtained from the appropriate DHEW Regional Office.

Sections 1302(7) and 330(b)(3) of the Public Health Service Act state that the term "medically underserved population" means the population of an urban or rural area designated by the Secretary as an area with a shortage of personal health services or a population group designated by the Secretary as having a shortage of such services.

Under the provisions of the Health Maintenance Organization Act, projects that will draw not less than 30 percent of their membership from medically underserved populations may receive priority funding.

Section 330 of the Public Health Service Act, established by Pub. L. 94-63, provides that grants may be made to public and nonprofit private entities for projects to plan, develop, or operate community health centers which serve medically underserved populations.

Section 1611(d)(2) under Title XVI of the PHS Act, established by Pub. L. 93-641, requires that in any fiscal year not less than 25 percent of the amount of a State's allotment under Part B of title XVI available for obligation in that fiscal year shall be obligated for projects for outpatient facilities which will serve medically underserved populations. The legislative history of title XVI makes clear that the Secretary is expected to utilize the same operational definition of a medically underserved population for title XVI purposes as is used elsewhere in the PHS Act. (See S. Rept. No. 93-1285 at 59.)

Health maintenance organization, community health center, and health facility applicants who wish to apply for funding under the above sections should consult this list to determine which areas in their localities are medically underserved. To learn if there have been changes subsequent to the publication of this list, applicants should contact their local planning agencies.

APPLICATION OF THE INDEX OF MEDICAL UNDERSERVICE

The basis for identifying medically underserved areas and populations is the index of medical underservice (IMU). The IMU is obtained by applying weights to data on the following indicators:

(1) Ratio of primary care physicians to population;

(2) Infant mortality rate;

(3) Percentage of the population which is age 65 or over; and

(4) Percentage of the population with family income below the poverty level.

County-level data are used for two of the indicators: the physician-to-population ratio and the infant mortality rate. For the two census indicators (percentage of the population below the poverty level and percentage of the population age 65 or over), county, minor civil division (MCD), or census county division (CCD) data are used in non-metropolitan areas, and census tract data are used in metropolitan areas. A weighted value is determined for each indicator and the sum of these values forms the IMU score.

In the development of the current MUA list, the 1975 median IMU score of all U.S. counties, 62.0, was used as the cut-off point between underserved and adequately served areas. Index values were computed for each non-metropolitan county, and those counties with scores of 62.0 or below are listed as medically underserved. Index values were then computed for all MCD/CCDs in non-metropolitan counties with scores greater than 62.0, and those MCD/CCDs with scores of 62.0 or below are on the list. In metropolitan areas, defined here as census tracts which lie within standard metropolitan statistical areas (SMSA), the IMU was computed for each census tract and all census tracts with scores of 62.0 or below are on the list. Areas with a population of fewer than 500 (whether counties, MCD/CCDs, or census tracts) were excluded from consideration as underserved to eliminate listing such places as parks and airports.

The list of areas resulting from application of the IMU was then revised based on approved deletions and additions recommended by the comprehensive health planning (CHP)[1] agencies.

ONGOING REVISION OF THE MUA LIST

The MUA list will be revised and published periodically, based on the most recent data available nationally. The updates will be based on changes in the actual values of the indicators or adjustments in the cut-off level. Health systems agencies (HSA)[2] or CHP agencies may at any time recommend changes in the list to reflect local knowledge of medical underservice. As current local data are not available nationally and some areas may be included or excluded inappropriately, HSAs are urged to review the list and to recommend deletions and additions.

All health systems agency recommendations will be reviewed to determine acceptability. If the recommended deletion of an area is accepted, that deletion will be considered permanent until the HSA requests reinstatement of the area. If the recommended addition of an area is accepted, the addition will be subject to periodic review to determine the validity of its retention based on the latest available data, i.e., data for years more recent than those urged to support the recommendation for addition.

PROCEDURE FOR SUBMISSION OF RECOMMENDATIONS

A recommendation for deletion or addition of an area must be accompanied by the agency's reason for the recommendation. All computations, as well as data sources and dates, must be submitted with a recommendation for addition of an area except when the area has a population of fewer than 500 and an IMU of 62.0 or less. If there has been public involvement in the recommendations, the material submitted should include a description of such involvement, e.g., documentation of relevant public meetings, copies of the agency's published notice of intent to review its area to identify pockets of medical underservice, or satisfactory demonstration that the agency governing or advisory board as representative of the community has had adequate review opportunity and has approved the recommendations of the HSA.

Health systems agencies and official CHP agencies are to send their recommendations to:

Division of Monitoring and Analysis, Bureau of Community Health Services, DHEW, 5600 Fishers Lane, Rockville, Maryland 20852.

Also, a copy of the recommendations is to be sent to the appropriate DHEW Regional Office (for address, see 45 CFR 5.31(b)).

Deletions. Recommendation for deletion of an area must be accompanied by identification of the area as it appears on the MUA list and the reasons for the recommendation.

Additions. Recommendation for addition of an area to the MUA list must be based on computation of an IMU score of 62.0 or less, using locally available data or data more recent than that used for this list. (See data sources under the heading, "The List of Medically Underserved Areas.") Before computing an IMU for an area with fewer than 500 population, the HSA should check with the Bureau of Community Health Services (address above) to determine whether or not the IMU for that area is 62.0 or less.

The following information must accompany a recommendation for addition of an area:

(a) Geographic identification of the area (names, census codes, or a map outlining the area proposed).

An area proposed for designation as medically underserved must be or approximate either:

(1) A county (in non-metropolitan areas),

(2) A minor civil division (MCD) or census county division (CCD) (in non-metropolitan areas),

(3) A census tract (in metropolitan areas), or

(4) A group of census tracts, MCDs, or CCDs which constitute a "natural neighborhood" for MUA designation. These groups can be listed as underserved if the IMU for the combined area is 62.0 or below. Because of the homogeneity of a neighborhood, such groupings may constitute more natural areas for designation as medically underserved than units such as individual census tracts, MCDs, and CCDs.

(b) Data on the four indicators and computations of the index of medical underservice.

(1) Percentage of population with incomes below the poverty level. (The definition of poverty used is the 1964 Social Security Administration version adopted by the Federal Interagency Committee in 1969.)

This percentage must be computed from 1970 Census of Population data or more recent update thereof, if any, as follows: The number of persons in families with incomes below the poverty level in the identified area is added to the number of unrelated individuals with incomes below the poverty level; this total is divided by the resident population minus members of the Armed Forces living in barracks, students in dormitories, and inmates of institutions; and the result multiplied by 100.

The figures used to compute this percentage (the resident population, inmates of institutions, Armed Forces living in barracks, students in dormitories, and the number of persons with incomes below the poverty level) must be stated. The data can be obtained from the 1970 U.S. Census Bureau publications or tapes. If the data are obtained from more recent sources, both data and sources must be identified.

Compute the percentage of population with incomes below the poverty level for the appropriate area: census tracts or combinations of census tracts in metropolitan counties; MCD/CCD or combinations of MCD/CCDs in non-metropolitan counties; or the whole non-metropolitan county. Convert the computed percentage to the weighted value V_1 using Table V_1.

(3) Percentage of population age 65 or over.

This percentage must be computed from 1970 U.S. Census of Population data or more recent update thereof, if any, as follows: the number of persons age 65 or over in the identified area is divided by the resident population of that area, and the result multiplied by 100.

The figures used to compute this percentage (number of persons age 65 or over, and the resident population) must be stated. These data can be obtained from U.S. Census Bureau publications or tapes. If data are obtained from other more recent sources, data and sources must be identified.

Compute the percentage of population age 65 or over for the appropriate area: census tract or combination of census tracts in metropolitan counties; MCD/CCD or combination of MCD/CCDs in nonmetropolitan counties; or the whole non-metropolitan county. Convert the computed percentage to the weighted value, V_2 using Table V_2.

[1] Prior to the implementation of Pub. L. 93-641, recommendations were made by the areawide CHP agencies under the authority of Section 314(b) of the PHS Act, and by State CHP agencies under Section 314(a) of the Act (Pub. L. 89-749). In April 1976, with the designation of the first health systems agencies under Section 1515 of the PHS Act (Pub. L. 93-641), phase-out of the 314(b) CHP agencies began. The CHP phase-out process is expected to be completed by early 1977 when all of the over-200 health systems are operational and the transfer of areawide health planning functions has been realized. For the 314(a) CHP agencies, a corresponding substitution of State health planning and development agencies (under the authority of Section 1521 of the PHS Act) began on July 1, 1976. Until the phase-out is completed, federally funded CHP agencies will continue to make recommendations for the MUA list.

[2] In Hawaii, Rhode Island, the District of Columbia, the Virgin Islands, Guam, the Trust Territories in the Pacific Islands, and American Samoa, the State health planning and development agencies (SHPDA) carry out the functions of health systems agencies (see Section 1536 of the PHS Act).

(3) Infant mortality rate.

This rate must be computed as an aggregate rate for the 5-year period 1969 through 1973, or more recent period of 5 consecutive years, as follows: the total number of deaths of infant residents (deaths between birth and age 1 year) during the 5-year period in the county containing the identified area is divided by the total number of live births to residents of the county during the same period and the result multiplied by 1,000. For counties with fewer than 100 live births over the 5-year period, the IMU may be computed using the State infant mortality rate instead of the county rate. The infant mortality rate for a subcounty area which includes the identified area and has had at least 4,000 births over the 5-year period will be accepted in lieu of the county rate. The number of infant deaths and live births for the subcounty area and the sources of data used must be stated, together with the infant mortality rate computed from them. Data on infant deaths and live births may be obtained from official State agencies or the annual editions of the U.S. Public Health Service publication entitled "Vital Statistics of the United States."

Compute the infant mortality rate for the county and convert it to the weighted value V_3 using Table V_3.

(4) Ratio of primary care physicians to population.

This ratio should be computed by dividing the number of primary care physicians in the county which contains the identified area by the civilian non-institutional population, and multiplying the result by 1,000. Figures used for the number of primary care physicians and the civilian non-institutional population (resident population minus the resident members of the Armed Forces and inmates of institutions) and their sources must be stated. For the purpose of these computations, primary care physicians are defined to include the total number of active doctors of medicine (M.D.) and doctors of osteopathy (D.O.) who spend at least 50 percent of their time engaged in direct patient care in the fields of general or family practice, internal medicine, pediatrics, or obstetrics and gynecology. The computations must include all non-Federal physicians meeting the above definition.

Compute the physician ratio for the county and convert to weighted value V_4 using Table V_4.

TABLE V_4

PRIMARY CARE PHYSICIANS
PER 1,000 POPULATION

In the left column find the range which includes the ratio of primary care physicians per 1,000 population for the county being examined, or the county in which the area being examined lies. The corresponding weighted value, found opposite in the right column, should be used in the formula for determining the IMU.

(5) Computation of the index of medical underservice. The IMU is computed by using the formula: $IMU = V_1 + V_2 + V_3 + V_4$.

If the IMU score for an area is 62.0 or below, the area may be recommended for additiodn to the MUA list. If the IMU score is greater than 62.0, the area may be recommended for deletion.

POSSIBLE EXCEPTIONS

The Secretary recognizes that there may be certain areas which do not qualify for the MUA list solely on the basis of the computed IMU. An area can have unusual conditions which reduce the availability or accessibility of primary medical care but which are not reflected in the area's overall IMU score. If there are mitigating circumstances which would bear on the value of a particular indicator, there can be in-depth review of the additional information affecting the factors involved in computing the IMU.

Conditions that reduce the availability of medical services by increasing demand could be, for example, an area that has a large influx of migrant farmworkers which substantially alters the physician-to-population ratio during the growing season; or an area that has had a significant increase since the 1970 census in the number of persons age 65 or over, or in the number of persons living in poverty. Also, accessibility factors, such as physical barriers, lack of all-weather roads, severe weather a major portion of the year, distance to or time spent to reach sources of primary care, or relevant socio-economic factors may help to qualify an area for consideration. To the extent possible, the information describing unusual conditions should be quantified and verified by the recommending HSA. Areas designated as Critical Health Manpower Shortage Areas (as authorized by Section 329(b) of the PHS Act) are designatable as medically underserved.

Recommendations for designation as a medically underserved area based on unusual conditions should (a) be prepared by the health systems agency, (b) state the primary cause of the medical underservice, (c) describe all factors causing the underservice, (d) be supported by all relevant data, sources, and dates, and (e) be submitted through the Regional Office to:

Director, Bureau of Community Health Services, DHEW, 5600 Fishers Lane, Rockville, Maryland 20852.

Alternatively, the Regional Office, with the concurrence of the health systems agency, can directly supply such information to the Bureau of Community Health Services.

THE LIST OF MEDICALLY UNDERSERVED AREAS

The index of medical underservice on which the list is based was computed using data from the following sources:

Center for Health Services Research and Development, 1973 Physician County Summary File. Chicago. American Medical Association, 1974.

Master File of Osteopathic Physicians, December 31, 1974. Chicago. American Osteopathic Association, 1975.

U.S. Bureau of the Census, 1970 Census of Population, 2d and 4th Count Files.

Maternal and Child Health Studies Project, 1969–1973 Infant Mortality County Summary File, Washington. Information Sciences Research Institute, 1976.

The list is structured with the States in alphabetical order. There are four headings which identify total counties, minor civil divisions/census county divisions within counties, census tracts within counties, and groups of census tracts. The MCD/CCDs are identified by name; the census tracts are identified by number. Areas in each of the sections are listed alphabetically by county.

Groups of census tracts are listed only when the HSA or CHP agency has certified that particular groupings form natural areas for designation. Census tracts which individually qualify for designation but have been combined with other tracts in groups have been marked with double asterisks in the group listings.

The following areas are designated by the Secretary as medically underserved.

Dated: October 4, 1976.

THEODORE COPPER, M.D.,
Assistant Secretary for Health.

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

V41 N201 OCT 15 76 UM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secertary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931. as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders, 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

RESOLUTION CHART

MICROCOPY RESOLUTION TEST CHART
NATIONAL BUREAU OF STANDARDS-1963-A

100 MILLIMETERS

INSTRUCTIONS Resolution is expressed in terms of the lines per millimeter recorded by a particular film under specified conditions. Numerals in chart indicate the number of lines per millimeter in adjacent "T-shaped" groupings.

In microfilming, it is necessary to determine the reduction ratio and multiply the number of lines in the chart by this value to find the number of lines recorded by the film. As an aid in determining the reduction ratio, the line above is 100 millimeters in length. Measuring this line in the film image and dividing the length into 100 gives the reduction ratio. Example: the line is 20 mm. long in the film image, and 100/20 = 5.

Examine "T-shaped" line groupings in the film with microscope, and note the number adjacent to finest lines recorded sharply and distinctly. Multiply this number by the reduction factor to obtain resolving power in lines per millimeter. Example: 7.9 group of lines is clearly recorded while lines in the 10.0 group are not distinctly separated. Reduction ratio is 5, and 7.9 x 5 = 39.5 lines per millimeter recorded satisfactorily. 10.0 x 5 = 50 lines per millimeter which are not recorded satisfactorily. Under the particular conditions, maximum resolution is between 39.5 and 50 lines per millimeter.

Resolution, as measured on the film, is a test of the entire photographic system, including lens, exposure, processing, and other factors. These rarely utilize maximum resolution of the film. Vibrations during exposure, lack of critical focus, and exposures yielding very dense negatives are to be avoided.
